

2015-2016

UNIVERSITY OF PHOENIX

ONLINE

ACADEMIC CATALOG

Volume 49

July 1, 2015 through June 30, 2016 catalog

With Updates Added:

April 1, 2016

(see addenda pages for a summary of updates added by month)

“As we move to meet the educational needs of working adults in a mobile society, our conception of the university must extend beyond place and embrace process. An adult university cannot be campus bound, rather its borders must be defined by the lives of its students.”

Dr. John G. Sperling
Founder

Information contained in this catalog is subject to change at the discretion of the University of Phoenix without prior notification. Unless specifically stated otherwise in a particular Catalog policy, in the event of any inconsistency or conflict between the information contained in this catalog and any other material, the information contained in the catalog shall take precedence. The University of Phoenix is not responsible for information or claims made by individuals not affiliated with the University that is contrary to University of Phoenix published material.

Annual Security Report Notice

The University of Phoenix annual security report includes statistics for the previous three years concerning reported crimes that occurred on campus, in certain off-campus buildings or property owned or controlled by the University, and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes the sex offender registry, institutional policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other related matters. You can obtain a copy of this report by contacting your local Campus Security Authority or by accessing the following Web site: http://www.phoenix.edu/about_us/campus-safety.html.

University of Phoenix is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes University of Phoenix to offer and/or advertise and recruit for specific degree programs. The Council may be contacted for a list of currently authorized programs. Authorization by the Council does not carry with it an endorsement by the Council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the Council at P.O Box 43420, Olympia, WA 98504-3430.

University of Phoenix is authorized by the Tennessee Higher Education Commission. This authorization must be renewed each year and is based on an evaluation by minimum standards concerning quality of education, ethical business practices, health and safety, and fiscal responsibility.

University of Phoenix is registered with the Minnesota Office of Higher Education pursuant to Minnesota Statutes sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions. Minnesota residents may enroll in the following programs: Associate of Arts/Concentration in General Studies, Associate of Arts/Concentration in Communications, Associate of Arts/Concentration in Accounting, Associate of Arts/Concentration in Hospitality, Travel and Tourism, Associate of Arts/Concentration in Foundations of Business, Associate of Arts/Concentration in Accounting, Associate of Arts/Concentration in Hospitality, Travel and Tourism, Associate of Arts/Concentration in Human Services Management, Associate of Arts in Psychology, Associate of Arts/Concentration in Health Care Administration, Associate of Arts/Concentration in Health Care Administration/Medical Records, Associate of Arts/Concentration in Criminal Justice, Associate of Arts/Concentration in Information Technology, Associate of Arts/Concentration in Information Technology/Networking, Associate of Arts/Concentration in Information Technology/Programming, Associate of Arts/Concentration in Information Technology/Web Design, Associate of Arts/Concentration in Information Technology/Information Technology Support, Bachelor of Science in Communication, Bachelor of Arts in English, Bachelor of Science in Environmental Science, Bachelor of Science in Psychology, Bachelor of Science in Health Administration, Bachelor of Science in Criminal Justice Administration, Bachelor of Science in Organizational Security and Management, The Bachelor of Science in Business, Bachelor of Science in Management, Bachelor of Science in Management Concentration in Manufacturing Sector, Bachelor of Science in Accounting, Bachelor of Science in Information Technology, Bachelor of Science in Nursing, Master of Science in Psychology, Master of Health Administration, Master of Health Administration Bridge, Master of Health Administration/Education, Master of Health Administration/Education Bridge, Master of Health Administration/Gerontology, Master of Health Administration/Gerontology Bridge, Master of Health Administration/Informatics, Master of Health Administration/Informatics Bridge, Master of Science/Administration of Justice and Security, Master of Science/Administration of Justice and Security Bridge, Master of Business Administration, Master of Public Administration, Master of Management, Master of Science in Accountancy, Master of Science in Nursing, Master of Science in Nursing/Specialization in Nursing/Health Care Education, Master of Science in Nursing/Specialization in Informatics, Master of Science in Nursing and Master of Health Administration, Doctor of Management in Organizational Leadership, Doctor of Management in Organizational Leadership with a specialization in Information Systems and Technology, Doctor of Health Administration, Visual Communication Certificate, Information Systems Security Certificate, APLUS Fundamentals Certificate, Information Systems Security Minor, Multimedia and Visual Communication Minor, Graduate Health Care Informatics Certificate, Gerontology Health Care Certificate, Graduate Certificate in Human Resources Management, Graduate Accounting Certificate, Graduate Marketing Certificate

ADDENDUM - SUMMARY OF POLICY UPDATES ADDED TO THE CATALOG ON APRIL 1, 2016

UNIVERSITY OF PHOENIX

Beginnings -- A Brief History

In 1976, the leading edge of the Baby Boom generation was just turning 30. That same year saw the introduction of the first personal computer, the Apple I -- an event that signaled the birth of a new economic system in which intellectual capital would eventually supplant industrial might as the dominant economic force. These milestones marked the beginning of a sea of change in higher education, though many (perhaps even most) within that system did not recognize it at the time.

Considered together, these phenomena suggested that the jobs that would make up the workforce of the future were only just beginning to be created or imagined. In order to fill those jobs, the bulk of the new workforce would require higher-level knowledge and skills than those needed in a manufacturing economy. At the same time, the largest-ever age cohort of the population, adult learners, would be going through the stages of life during which they would be most affected by the coming economic dislocation and would need advanced education to adapt to these changes.

It was in this historical context in 1976 that Dr. John Sperling, a Cambridge-educated economist and professor-turned-entrepreneur, founded University of Phoenix. Sperling anticipated the confluence of technological, economic, and demographic forces that would in a very short time herald the return of ever larger numbers of adult learners to formal higher education.

In the early 1970s, at San Jose State University in San Jose, California, Sperling and several associates conducted field-based research in adult education. The focus of the research was to explore teaching/learning systems for the delivery of educational programs and services to adult learners who wished to complete or further their education in ways that complemented both their experience and current professional responsibilities. At that time colleges and universities were organized primarily around serving the needs of the 18-22 year-old undergraduate student. That is not all that surprising, given that the large majority of those enrolled were residential students of traditional college age, just out of high school. According to Sperling adult learners were invisible on the traditional campus and were treated as second-class citizens.

Other than holding classes at night (and many universities did not even do this), no efforts were made to accommodate their needs. No university offices or bookstores were open at night. Students had to leave work during the day to enroll, register for classes, buy books or consult with their instructors and advisors. Classes were held two or three nights per week and parking was at the periphery of a large campus. The consequence, according to Dr. Sperling was that most adult learners were unable to finish a four-year program in less than eight years, or a two-year program in less than four years (Tucker, 1996, p. 5).

Sperling's research convinced him not only that these underserved learners were interested in furthering their educational goals, but also that this group differed from their more traditional counterparts in significant ways. He saw a growing need for institutions that were sensitive to and designed around the learning characteristics and life situations of a different kind of learner population. He suggested ways for institutions to pioneer new approaches to curricular and program design, teaching methods, and student services. These beliefs eventually resulted in the creation of University of Phoenix, and they continue to this day to inspire the University's mission, purpose, and strategies. As an institution, University of

Phoenix is unique in its single-minded commitment to the educational needs of non-traditional students, who in fact today make up the majority (73 percent) of all college enrollees. This focus informs the University's teaching and learning model approach to designing and providing student services, and academic and administrative structure. It also guides the institution as it plans and prepares to meet the needs of the next generation of learners. Over the last three and a half decades, the University of Phoenix has been cause-driven working to build an institution with the agility to address directly the shifting economic and academic challenges that many students face. Dr. Sperling's predictions concerning the innovations higher education would be required to make have come to pass. Today roughly 45 percent of all college students work at least part-time and approximately one quarter of all students have dependent children. The educational tenets set forth by Dr. Sperling in 1976 now apply to the majority of college students in the United States.

The University's growth has been fueled by constant innovation, and ongoing efforts to improve the learning experience through advanced technology. The University has grown from a degree-completion institution serving an audience of mostly middle managers wishing to complete their education and excel in the workplace, to a comprehensive university serving students of all ages from the associate through the doctoral degree levels.

Official School Colors

University of Phoenix Official School Colors are University of Phoenix Red and University of Phoenix Platinum.

These are custom colors and proprietary to the University.

Ownership Information

University of Phoenix, Inc. is a wholly-owned subsidiary of Apollo Education Group, Inc. (the "Parent"). The Parent's voting stock (Class B Common Stock) is 100 percent held by management. The Parent has one class of non-voting stock (Class A Common Stock) which is publicly traded on the NASDAQ Stock Exchange under the symbol "APOL". The Parent files quarterly and annual financial statements with the Securities and Exchange Commission and these are available to the general public. The University's central administration offices are located in Phoenix, Arizona.

Our Mission Statement

University of Phoenix provides access to higher education opportunities that enable students to develop knowledge and skills necessary to achieve their professional goals, improve the performance of their organizations, and provide leadership and service to their communities.

Our Purpose

- To facilitate cognitive and affective student learning-knowledge, skills, and values- and to promote use of that knowledge in the student's workplace.
- To develop competence in communication, critical thinking, collaboration, and information utilization, together with a commitment to lifelong learning for enhancement of students' opportunities for career success.

- To provide instruction that bridges the gap between theory and practice through faculty members who bring to their classroom not only advanced academic preparation, but also the skills that come from the current practice of their professions.
- To provide General Education and foundational instruction and services that prepare students to engage in a variety of university curricula.
- To use technology to create effective modes and means of instruction that expand access to learning resources and that enhance collaboration and communication for improved student learning.
- To assess student learning and use assessment data to improve the teaching/learning system, curriculum, instruction, learning resources, counseling, and student services.
- To be organized as a private institution in order to foster a spirit of innovation that focuses on providing academic quality, service, excellence, and convenience to the working student.

Accreditation and Affiliations

Regional Accreditation

University of Phoenix is accredited by The Higher Learning Commission (<http://hlcommission.org>).

The Higher Learning Commission
230 South LaSalle Street, Suite 7-500,
Chicago, Illinois 60604-1413

College of Education and Education Programs

The College of Education has approval for education programs through the following state agencies:

- Arizona Department of Education
- California Commission on Teacher Credentialing
- Colorado Department of Education
- Florida Department of Education
- Hawaii Teacher Standards Board
- Indiana Department of Education
- Missouri Department of Elementary and Secondary Education
- New Mexico Public Education Department
- Nevada Department of Education
- Texas Education Agency
- Utah State Office of Education

Programs vary by state. Not all programs are approved in all states.

The University also maintains voluntary memberships with numerous educational organizations, including the American Council on Education, the Association of American Colleges, the American Association for Adult and Continuing Education, the American Association for Higher Education, National Association of Schools of Public Affairs and Administration, the Council for Adult and Experiential Learning, the College and University Personnel Association, the Pacific Association of Collegiate Registrars and Admissions Officers, the American Association of Collegiate Registrars and Admissions Officers, the Independent Colleges and Universities of Arizona, the American Association of Colleges of Nursing, National League for Nursing, the National Board for Certified Counselors, the National Association for Foreign Student Admissions, Association of International Educators, the National Association of Veterans Program Administrators, the Service Members Opportunity College, and Defense Activity for Non-Traditional Support. Additionally, the University maintains memberships in various professional, program specific organizations.

Academic Programs

Undergraduate and graduate programs at University of Phoenix are offered in business and management, nursing and health sciences, education, criminal justice, social sciences, natural sciences, humanities, and information technology. Undergraduate students are required to complete general education requirements that are distributed across traditional liberal arts categories and interdisciplinary components. General Education requirements are described in greater detail in the Undergraduate Programs section of the catalog. Not all programs are offered at all campuses. Specific programs offered are listed later in this catalog.

Enrollment and Student Profile

As of the second quarter ending February 28, 2014, University of Phoenix had an enrollment of 250,300 students and had expanded to in excess of 190 campuses and learning centers in 40 U.S. States as well as locations in the District of Columbia and Puerto Rico. Additionally, University of Phoenix offers degree programs globally through its online delivery system.

According to students responding to a registration survey during fiscal year 2013, the average student is in his or her mid-thirties. Gender of entering students is approximately 66 percent female and 34 percent male. Approximately 48 percent of entering students reporting belonged to an ethnic minority.

University Library

The University of Phoenix Approach to Library Services

As busy working professionals, our students and faculty members know how difficult it can be to travel to a distant library and match their schedules to library building hours. To accommodate student and faculty needs, University of Phoenix offers library services online. This online distribution of information is well suited to the needs of today's "knowledge workers" and offers a functional version of the types of information systems University of Phoenix students and faculty will be expected to use throughout their careers. The core of our library web site is a collection of digital resources available to all students and faculty at any time and from virtually any location where an Internet connection is available. In addition to our University Library, the library maintains selected links to other worthwhile sites on the web and provides user education and research assistance.

The online distribution of information is not only optimally matched to the needs of working professionals, but also allows for equitable sharing of library resources among students and faculty members at all University of Phoenix learning centers and in our distance education programs. Instead of encountering disparities in library resources between large and small learning centers and between on-campus and online students, all library users enjoy access to the same broad spectrum of resources regardless of where and how they attend class.

For more information, please see your Library Handbook or contact the University Library at library@phoenix.edu.

What is in the University Library?

Access to hundreds of thousands of eBooks, reference materials, scholarly journals, and periodicals all selected for their relevance to each University of Phoenix degree program are contained in the University Library's resources. Financial reports on over 10,000 public companies and a variety of directories and other reference publications are also available. In addition, the University Library has a collection of multimedia available, including videos, images, and audio files, on a variety of topics. Many of the resources found in the University Library are academic products made available through license agreements with content providers and are not accessible to the general public like web pages found through an Internet search engine.

Getting Started with the University Library

To get started using the University Library, students and faculty members should follow these steps:

- Visit the student and faculty website <https://ecampus.phoenix.edu/>
 - This is the same website used to obtain course modules, grades, and other University of Phoenix resources and services.
- After logging into the student and faculty website, select the Library tab and then the University Library link to enter the University Library.
- Select an appropriate resource and begin research.

Electronic Reserve Readings

In addition to the University Library resources for research by topic, University Library staff members also maintain Electronic Reserve Readings for individual courses. These pages provide links to materials relevant to the course curriculum. Links to Electronic Reserve Readings, when available, are listed on course pages within eCampus.

Additional Resources for Help

- Reference services allow users to receive direct and in-depth reference assistance from accredited librarians.
- Interlibrary loan and documents retrieval services allow users to request a document or book not available in the University Library. Specific timelines and rules apply to this service.
- Video based research tutorials provide users with timely information which build research skills.
- Resource recommendations by subject can be found by utilizing our Choose Resources by Subject and Subject Guides on the library homepage.
- The FAQs on the homepage of the University Library contain answers to "Frequently Asked Questions" received by the library.
- The Library Handbook includes detailed information on the library collection as well as helpful tips on conducting research.

How to Contact the University Library

Student Technical Support 1-877-832-4867

Email library@phoenix.edu

International students and faculty can reach Tech Support at 1-602-387-2222. Callers should identify themselves as international students or faculty and give a call back number. Tech Support will call back to minimize phone charges.

Current Resources of the University Library

For a current list of resources in the University Library, please refer to the Library Handbook. Students, staff, and faculty can also view the full listing of the University Library's resources by clicking the View All Resources Alphabetically link on the University Library homepage.

THIS PAGE WAS LEFT BLANK INTENTIONALLY

THE UNIVERSITY'S TEACHING AND LEARNING MODEL

The mission of University of Phoenix is to provide access to higher education opportunities that enable students to develop the knowledge and skills necessary to achieve their professional goals. As a result, the University's teaching and learning model is grounded in the theoretical and empirical literature of learning and cognitive psychology. The University employs best practice from recent education literature, as well as best service practices that enhance the academic experience for students who are new to higher education. This combination increases student retention and successful degree completion.

Active Learning

The model is based first on the assumption that the learner's active involvement in the learning process is essential to good practice. Thus, in all modalities University of Phoenix classrooms are intended to be dynamic learning spaces. Instructors are expected to serve as facilitators of learning who manage the learning process by engaging learners in a variety of activities (lectures being but one) that lead students to an understanding of course content and the development of academic and professional competence. By involving students in a variety of learning activities, respect is demonstrated for diverse ways of learning and knowing. Interaction and participation in classes and Learning Teams is expected of those students in the bachelor and master degree programs. Students pursuing an associate degree at the Online Campus (excluding AACR & AAPF) are involved in collaborative learning activities, and a small number of courses may require participation in formal Learning Teams.

Collaboration

The effectiveness of cooperation and collaboration in enhancing learning is well and widely documented. Structures that encourage and facilitate collaboration are central to the University's teaching and learning model. Working students frequently come to formal learning activities with greater life and work experience. This means that learners themselves can be invaluable resources in enhancing their own and others' learning. Traditional pedagogy emphasizes a top-down, vertical transfer of information. Students with rich and varied experience find benefit in instructional practices that encourage collaboration. This adds a robust horizontal dimension to the learning exchange as students teach and learn from one another. Good practice in education capitalizes on this dimension to the students' advantage.

Emphasis on Application and Relevance

There is wide agreement in the literature that students learn best when bridges are built between new knowledge and the learners' experience. Practices that encourage reflection and application are based on the recognition that a learner's experience provides a context through which he or she is more able to construct meaning from new information. It also makes learning relevant to the learners. In University of Phoenix courses, students' experiences and current circumstances are interwoven with subject matter in class discussions as well as in individual, team and other collaborative assignments. Real-world relevance is critical to basic comprehension as well as to maintaining student interest. Students very often say they are able to apply at work the next day what they learned in class the night before.

University-Wide Learning Goals

The University's faculty leadership has established five broad learning goals that guide curriculum development, instruction, learning assessment, and program evaluation and improvement. The University Learning Goals are:

1. Professional Competence and Values
2. Critical Thinking and Problem Solving
3. Communication
4. Information Utilization
5. Collaboration

The intent is to help all University graduates attain levels of theoretical and practical disciplinary knowledge appropriate to the levels of degrees or credentials they are earning, while developing competence in essential intellectual and social processes that will enable graduates to practice their professions successfully.

Curriculum

The University's curriculum is faculty-developed and centrally managed by a team of college staff and instructional designers with objectives and outcomes that are carefully defined. Individual instructors have the responsibility to expand and enhance the basic curriculum by augmenting it with current resources and practices. The curriculum is under continual content and quality review.

Awarding Credit Hours

Credit hours are awarded in accordance with common practice among institutions of higher education. Course content and outcomes are determined by faculty and are delivered in a format informed by adult learning principles and aligned to Carnegie unit guidelines. Achievement of outcomes related to the awarding of credit hours is measured using standard national benchmarks.

The curriculum at University of Phoenix is faculty-developed and centrally managed. Instructional strategies include the use of synchronous and asynchronous activities inside and outside the online and/or physical classroom and are designed to be outcome focused and engaging. To ensure the appropriate level of curriculum coverage and rigor, students are required to participate in weekly classroom-based learning activities including direct faculty instruction and collaborative activities, and/or additional hours of faculty-directed student engagement using a variety of instructional strategies and online learning activities, which are designed to support the course topics and objectives.

The table below summarizes the minimum required number of hours of faculty-directed (instruction) and student directed (homework) learning activity engagement for each credit award value at all credential levels. Additionally, the table includes the minimum course duration (in weeks) for each credit value necessary for faculty to effectively cover course content, and for students to reasonably assimilate the information, based upon federal guidelines and commonly accepted practices in higher education. All courses which award college credit shall conform to these minimum required hours.

University of Phoenix College Credit Bearing Course Recommendations

Credits	**Minimum required faculty-directed classroom-based hours	**Minimum faculty recommended hours for student-directed homework (includes reading, research, study time, and assignment development)	**Minimum hours	Minimum required duration of course in total weeks
1	15	30	45	2 (*22.5/week)
2	30	60	90	4 (*22.5/week)
3	45	90	135	5 (*27/week) 6 (*22.5/week)
4	60	120	180	7 (*26/week)
5	75	150	225	9 (*25/week)

*Average hours per week, assumes student is generally taking one class at a time

Doctoral residencies, laboratory work, internships, practica, studio work, student teaching, clinical hour, and other course formats as established by the University may deviate from the minimum required duration of a course in total weeks. However, alternatives of these course types leading to the award of credit hours must still reflect at least an equivalent amount of work (i.e., time on task) as outlined in policy.

Program length is determined by faculty in accordance with common practice among institutions of higher education. The following list reflects the minimum number of credits generally required at each credential level.

Degree Level & Minimum Total Semester Credits:

- Associate Degree: 60 credits
- Bachelor Degree: 120 credits
- Master's Degrees: minimum 30 credits beyond the Bachelor Degree
- Ph.D. or Applied Doctorate: minimum 30 credits beyond the Master's Degree

Access and Convenience of Time and Place

The University's goal is to make access to programs and services available to all those who wish to avail themselves of them and to work to completion of a degree program.

University of Phoenix campus-based programs are offered at times and in places that are convenient to adult learners. Classes are held primarily in the evening and on weekends when learners are most likely to need access. Wherever possible, campuses and learning centers are located at strategic locations near major freeways and thoroughfares that permit convenient access.

Access in the 21st Century means many different things. To the student in rural America or the working parent with children at home, access may be possible only through an Internet connection. Those students usually work toward their degrees through courses offered Online or via FlexNet®, a combination of classroom and online learning.

Program Format

University of Phoenix is a non-term institution and does not operate according to a traditional academic calendar. New student cohorts can begin at any time. Typically, graduate courses at University of Phoenix meet for six consecutive weeks and undergraduate courses meet for five weeks. Classes delivered via the online modality meet asynchronously throughout each course week. Campus-based classes meet once per week for four (4) hours. When a course ends, the next course usually begins the following week. This intensive calendar allows students to achieve their educational goals in a more time-efficient manner. The University's low student/faculty ratio and class size that averages 13-15 students facilitate active learning and collaboration and encourage time-on-task. As a rule, bachelor and graduate degree seeking students take only one course at a time. This allows them to focus attention and resources on one subject, a structure that enhances learning and helps students balance ongoing professional and personal responsibilities.

Class Size

Minimum and maximum class size may vary by college, course, and location. Some Schools and Colleges may determine a specific minimum and maximum class size given the curriculum and learning model.

Learning Teams

In addition to regular course instructional sessions, bachelor's and master's level students work in Learning Teams. Learning Teams are small groups of three to six students drawn from within the larger cohort. Learning Teams are an essential design element in the University's teaching and learning model through which students develop the ability to collaborate -- an ability expected of employees in information-age organizations and one of the University's primary learning goals. Due to the unique teaching and learning model and objectives, students enrolled in an associate degree program at the Online Campus (excluding AACR & AAPF) usually do not participate in Learning Teams, but are encouraged to collaborate and participate in classroom assignments.

All students enrolled in degree programs and/or designated certificate programs using the learning team model must meet learning team attendance policies. Teams may meet in person or via teleconference, real-time electronic conferencing, or asynchronous meeting in the classroom team forums. Students must indicate their participation in the learning team meetings and/or assignment deliverables. Students are expected to actively participate in the team's activities. Students attending a local campus must acknowledge participation in their learning team each week in the Assignments section of eCampus. At the end of each course, students are given the opportunity to evaluate the contributions of each team member to the accomplishment of team goals.

Faculty

University of Phoenix faculty members are accomplished managers, technology leaders, professional educators, corporate executives, financial officers, healthcare and human services professionals and leaders in other professional arenas. A listing of faculty may be obtained at each local campus and/or in the appendix pages at the end of this catalog. Faculty Lists are also published for each college and school on www.phoenix.edu.

Staff Screening

All external candidates must have a new background check submitted each time they are being considered for a position with the University. The background check must be completed prior to the start date.

Student Technology Recommendations and Competencies

In an effort to assist students with adequate preparation for their course work at the University of Phoenix, technology recommendations and competencies have been established. These recommendations and competencies are in effect for the School of Advanced Studies, School of Business, College of Education, College of Information Systems and Technology, College of Health Professions, College of Security and Criminal Justice, College of Humanities and Sciences, College of Social Sciences, and the School of Continuing Education. To that end, students will need to access and use the hardware and software as described below. Additional recommendations and competencies may be required for particular courses/programs. Students using software and hardware other than that recommended must still meet the technology competencies. Please note that due to the rapid rate of change in information technology, hardware and software competencies will be updated on a regular basis. Some courses in the College of Information Systems and Technology may require additional software.

Technology Recommendations

Hardware and Peripherals

You need access to a computer with the following.

- A processor of 2 GHz or faster
- 4 GB RAM or greater
- A high speed internet connection with a connection speed of 1.5 MB/s or better.
 - The use of satellite and cellular connections may result in slowness or errors (timeouts, access problems) when accessing the classroom and course materials

- The use of public access computers and internet (for example, at restaurants and public institutions such as libraries) may result in slowness or errors (timeouts or access problems) when accessing the classroom and course materials. Public access computers may not permit any access to certain course materials or systems due to security limitations.
- Monitor and video card with 1024x768 or greater resolution
- Speakers/Headphones and Microphone
 - Public access computers may not permit usage of speakers, headphones or microphones.
- A web camera capable of video web conferencing
 - Public access computers may not permit usage of web cameras.

A DVD/CD-ROM drive may be needed to install software in select courses

Software and Applications

You need access to and familiarity with the following items.

Operating System

	Minimum	Recommended
Microsoft® Windows®	Windows 7	Windows 8 or higher
Apple® MacOSx	MacOSx 10.9	MacOSx 10.10 or higher

Some courses may utilize software that requires a Windows computer or a Mac with a Windows partition.

Web Browser

Windows		
Browser	Minimum	Recommended
Internet Explorer	10 or higher	11 or higher
Google Chrome	35 or higher	39 or higher
Mozilla Firefox	31 or higher	34 or higher or 31 ESR

Mac OSx

Browser	Minimum	Recommended
Apple Safari	7 or higher	8 or higher
Google Chrome	35 or higher	39 or higher
Mozilla Firefox	31 or higher	34 or higher or 31 ESR

Please note that newer browser versions incorporate security fixes and newer technologies, which may often lead to a better user experience.

Current browser versions are recommended when the option is available.

Additional Software

- Microsoft® Office 2010 or later for a personal computer (PC), Microsoft® Office 2011 for a Mac.
- An up to date installation of Adobe® Reader
- An up to date installation of the Adobe® Flash plug-in
- An up to date installation of Java® may be required for some courses
- A system enabled to allow installation of browser plug-ins as required
- Local administrative privileges to operating system may be required
- A current antivirus application (updated regularly)

Some courses may require the purchase of additional software including

- Microsoft® Visio
- Microsoft® Project

Mobile Devices

Students are required to have access to a PC or Mac but may use a mobile device such as a phone or tablet as a secondary means of access with the University of Phoenix mobile app.

Access to website functionality and required course materials may be limited on mobile devices.

College Specific Requirements

The College of Information Systems and Technology

The College of Information Systems and Technology may require access to additional software. Software currently provided by the University on the student website is subject to change and may require students to purchase or obtain access to the software. Please look for updated software requirements in your course. Students must have access to a Mac computer to complete iOS mobile coursework or the latest Windows operating system to complete Windows mobile coursework. These courses are options in the BSIT/Mobile Development concentration and the Advanced Mobile Development Certificate and as individual courses as electives.

School of Advanced Studies

The School of Advanced Studies requires doctoral learners to bring a laptop computer to residencies.

College of Education

The College of Education may require access to additional software and hardware for the purpose of meeting individual state mandates. You may be required to submit video clips during your program to meet assignment, assessment, and licensure requirements. You may be required to purchase or obtain access to relevant software and hardware. Please look for updated software/hardware state specific requirements in your courses, including student teacher practicum.

eCampus: Student and Faculty Portal

eCampus is a secure multifunctional electronic gateway to student services, the University Library, class schedules, course materials, the electronic class environment, assignment feedback and grade reports, as well as transcripts. eCampus is accessible 24/7 and requires no special software. Students can login to eCampus from any computer and Internet Service Provider. Student resources on eCampus include the University Library, eBooks, Media Library,

Center for Writing Excellence, Center for Mathematics Excellence, student workshops, Life Resource Center, and Phoenix Career Services.

When students are admitted to a program, they are provided with all the information needed to connect to eCampus. Each student's eCampus login credentials are unique; students must not share their login credentials with anyone.

University of Phoenix students attend class on-campus, online, or in a hybrid modality known as FlexNet®. Regardless of modality, all students use the same materials for a specific course, have access to all student resources available on eCampus, and turn in assignments by accessing assignment links on eCampus.

Discussions and participation during online class weeks are asynchronous, so there is no need to be online at a specific time during each online class week. Class discussions are private, limited to members of the class.

University of Phoenix authorizes Directors of Academic Affairs, Campus College Chairs, and certain university administrators as well as certain faculty to review submissions to the electronic class environment and to assignment links to assist in the resolution of grade disputes, grievances, and charges of academic dishonesty, as well as to confirm and/or investigate other academic-related issues as necessary.

Classroom Recording Policy

Students may only make audio and/or video recordings of University of Phoenix class presentations, activities, and discussions if they meet one or more of the following criteria:

- the recording occurs with the prior written consent of the faculty teaching the class and of all students in the class at the time of the recording
- there is a documented University of Phoenix Disabilities Service Office authorized accommodation requiring recording of specific parts of a class session.

Faculty wishing to make audio or video recordings of class presentations, activities, and/or discussions must obtain prior written permission of the campus Director of Academic Affairs and of all students in the class at the time of the recording.

If a class recording is made with appropriate authorization, unless there is clear and unambiguous prior written approval to the contrary, the recording must not be copied or shared with others, posted on a website to which others have access, or disseminated in any other manner, but shall be used for personal class-related study purposes only by the individual who made the recording.

UNIVERSITY POLICIES

Calendar

The educational mission of the University of Phoenix is to provide access to higher education opportunities that enable students to develop the knowledge and skills necessary to achieve their professional goals, improve the productivity of their organizations, and provide leadership and service to their communities. A student could begin a degree program in virtually any month of the year. This calendar allows the adult student to balance the demands of career, family, and education.

Students qualifying for financial aid may receive a new award each academic year. An academic year is defined as the period of time in which a student completes at least 24 credit hours and 30 weeks of instructional time. Therefore, students may have their eligibility assessed for grants and/or loans several times during their program of study. The average processing time for financial aid is 90 days. Students should reapply for financial aid prior to the start of each new academic year.

Course Equivalencies

Equivalent courses are University approved courses that act as an acceptable alternative to a required course, as determined by the College and may apply to a program in place of a required course. Courses must have substantially similar content, course objectives, and/or learning outcomes. The equivalencies are subject to change based on program update or College need.

Equivalent courses must be an equal level or higher, and have the same number of credit hours or higher.

Combination equivalencies are used when the content of two or more courses taken together are deemed to have substantially similar content, course objectives, and/or learning outcomes to the content of one course. Unless stated, when a combination of multiple courses is used to satisfy an equivalency with a course, the excess credits from the combination may apply towards the Additional Liberal Arts, Interdisciplinary, and/or Elective requirements for the program.

If all courses needed to satisfy a combination equivalency are not completed, the equivalency will not be satisfied. Students should complete the required course as outlined in the program policy.

When two equivalent courses are completed, only the most recent course completed will be counted for credit and grade point average calculations.

The College may also provide course options which are not direct equivalencies to the required course, but which the College has determined to be acceptable alternatives to a required course for a specific program.

Course Cancellation

The University of Phoenix may be required to cancel courses or programs when necessary. In addition, courses or programs may not begin on their scheduled start dates in the event of certain circumstances, such as faculty unavailability or insufficient enrollment. In such situations, the University will work with students in an effort to provide them with the opportunity to reschedule or to transfer to a comparable University course or program if available. Any payments made for cancelled courses will be refunded or applied to another University course or program. All attempts will be made to address such cancellations with registered students as early as possible.

Directed Study

With approval of the Campus Director of Academic Affairs or designated appointee, students may complete Dean approved courses, as available, via Directed Study delivery as outlined below:

- Degree program enrollment: a maximum of twelve (12) completed credits in the program

- Credit bearing certificate program enrollment consisting of four or more courses: a maximum of three (3) completed credits in the program.
- Deployed active duty military students: a maximum of (15) completed credits per academic year upon providing official documentation of the deployment timeframe to their local campus.

Concurrent Enrollment

Concurrent enrollment is defined as simultaneous enrollment. This refers to enrollment in any two University courses. Students enrolled in courses outside the University are excluded from the definition. Courses will be considered concurrent when start and/or end dates overlap.

- Students enrolled in an undergraduate or graduate degree program may not enroll in more than two credit bearing courses concurrently.
- Students enrolled in an Online Associate degree program may not enroll in more than three credit bearing courses concurrently.
- Concurrent enrollment in the first four courses is prohibited for all new students.

Dual Enrollment

Any student planning to complete both an associate of arts degree and a baccalaureate degree must complete all required credits of the associates degree and meet admission requirements for their chosen degree before enrolling in any University baccalaureate degree program.

There is no dual enrollment between Degree Seeking Students from University of Phoenix and Online Associate programs with the exception of AAPF.

Multiple University Degrees

Students may earn multiple credentials from the University of Phoenix. The following policies apply:

- Only one degree in a specific discipline may be earned at each program level (i.e. associate, undergraduate, graduate); however, students can earn multiple degrees in different disciplines.
- Students may earn only one certificate in a specific discipline at each course level (lower division, upper division, graduate).
- Programmatic residency must be met for each credential through the completion of a prescribed minimum number of unique University of Phoenix credits.
 - Graduate degree-seeking students must complete a minimum of 18 credits toward an additional degree. Exceptions are outlined within programmatic policies.
 - Bachelor degree-seeking students must complete a minimum of 30 unique credits of the additional degree's required course of study in order to meet residency.
 - Residency requirements that do not fall within the above guidelines are outlined in specific program policies.

Students may only earn one associate degree.

Students may not complete more than one program from the School of Advanced Studies with the exception of Educational Specialist (EdS) graduates who may return and receive the Doctor of Education in Educational Leadership (EDD) or Doctor of Education in Educational Leadership/Curriculum and Instruction (EDD/CI).

Unless otherwise stated within a program policy, students may

receive a certificate in the same area of focus as the specialization, concentration, or emphasis in their degree program.

Maximum Credit Limits

The University has identified the maximum number of credits a student may complete during a 12-month period. This limit is determined based on from the student's actual start date in their program at the University. The number of credits completed within a 12 month period is limited by the program level of study the student is actively pursuing.

- All undergraduate students may complete a maximum of 45 UOPX credits in a 12 month period.
- Graduate students may complete a maximum of 39 UOPX graduate credits in a 12 month period.

Students who are enrolled in both graduate and undergraduate programs are limited by the undergraduate credit maximum.

Course Credits

All credits issued for successfully completed University of Phoenix course work are in semester credits. Courses numbered 100-299 carry undergraduate, lower division credit. Courses numbered 300-499 carry undergraduate, upper division credit. Courses numbered 500-599 carry graduate credit. Professional courses numbered 600-699 may be applied to either undergraduate or graduate credit requirements. Courses numbered 700-799 carry doctoral credit.

Most courses are three semester credits. In a typical three-credit course, and consistent with federal and accreditation requirements regarding the award of college credit, students can expect to engage in a minimum of 45 hours of faculty directed learning activities including classroom-based instruction/discussion, learning team projects, and/or additional learning activities (e.g., simulations, tutorials, videos, etc.). Additionally, students can expect to engage in a minimum of 90 hours of faculty recommended homework (i.e., reading, research, assignment development, and class preparation). These faculty-directed and student-directed expectations are intended to ensure a minimum level of content coverage and overall curriculum rigor is achieved in addressing the course objectives.

Student Identification Numbers

All students are assigned a unique student identifier called an Individual Record Number (IRN). This is the primary number students use to obtain campus, web and voice response services. A letter and ID card will be mailed upon request.

Name and Social Security Number Changes

The University requires documentation of legal name and social security number changes. The following primary forms of identification will be accepted for a legal name change:

List A or	List B and List C	
Court Ordered Name Change	State ID	Marriage License
Social Security card	Driver's License	Divorce Decree
Passport/Passport Card	Voter's Registration Card	U.S. Citizen ID Card

List A or **List B and List C**

Permanent Resident Card

Certificate of Naturalization

These forms must illustrate the name exactly how it is requested on the Name Change form. A signed social security card issued by the Social Security Administration is required for changes in social security numbers.

Letter Request

All student letter request must be processed by the Registrar's Office. Students may contact the Admissions and Records Service Center (ARSC) to request letters and will be required to verify their identity per FERPA guidelines.

A FERPA release form may be required if the letter is to be faxed, mailed, or emailed to a third party.

The Registrar's Office is unable to provide letters of recommendation or assist with scholarship letters or scholarship nominations. Students who are requesting letters of recommendation or nominations regarding scholarships should contact scholarships@phoenix.edu for assistance.

In lieu of providing a letter of recommendation, the Registrar's Office can provide a University of Phoenix approved letter or a customized letter based on information in the student's record that can be validated by a member of the Registrar's Office.

Students may call the National Student Clearinghouse at (703)742-4200 to verify information related to their enrollment. If the National Student Clearinghouse has sent information to lenders within the last 30 days, an enrollment verification letter is not required by the lender.

Forms

The Registrar's Office is the University's designated department to review and route forms requiring a school official's signature. If the Registrar's Office cannot complete a form, the form will be re-routed to the appropriate department for completion.

University of Phoenix cannot comply with or complete certain forms.

Record Maintenance

University of Phoenix requires students to complete and sign all student-related documents in connection with their education record. Nobody other than the student may sign forms (wet signature or e-signature) on behalf of a student.

Duplication of Credit

Duplication occurs when students take the same course more than once or take a course that duplicates the content of a satisfactorily completed course. The grade and credit earned for the most recently completed course will apply toward academic standing and the total number of credits required for degree completion.

The previously completed course will remain on the permanent transcript, but will not be applied toward academic standing or the total number of credits required for degree completion.

Course Audit Policy

With approval of the Campus Director of Academic Affairs or des-

ignated appointee, students may register for and audit University courses.

Auditing students are passive participants in the class and are not held accountable for Study Group Task/Team work nor for assignment submission unless otherwise negotiated with the faculty member.

Auditing students are governed by all University policies and procedures that apply to non-auditing students.

Auditing students who have met the minimum attendance requirements for the course will receive a grade of "AU" on their permanent record which will not carry any academic credit.

Students who have selected to audit a course may not change their auditing status after the start of the course.

Military Deployment and Readmission

The Higher Education Opportunity Act (HEOA) provides that an institution may not deny admission or readmission to a service-member of the uniformed services for reasons relating to that service. An affected servicemember is any individual who is a member of, applies to be a member of, or performs, has performed, applies to perform, or has the obligation to perform, service in the uniformed services. This applies to service in the uniformed services, whether voluntary or involuntary, on active duty in the Armed Forces, on active duty for training, and full-time National Guard duty under Federal authority for a period of more than 30 consecutive days under a call or order to active duty of more than 30 consecutive days. A call/order to active duty includes state-side deployment of active duty military personnel and deployment outside of the country. This does not include National Guard service under authority of State law.

The policies outlined below support and assist University of Phoenix with the deployment and readmission of students who are servicemembers.

- Upon receipt of deployment orders, students should be advised to notify the University's Military Division either orally or in writing. It is recommended that a copy of the military deployment paperwork or a signed official letter from the commanding officer be submitted to the student's campus. Although this formal documentation is not required at the time of deployment, students should be advised that it will be necessary in order to be readmitted. If documentation is provided, the campus must fax the documents to eXp for inclusion in the student's file for future reference.
- Prior to deployment, students should be advised of FERPA policies as the University is unable to coordinate decisions regarding the student's record or take action on the student's record through a third party without appropriate authorization granted through a Power of Attorney. The Power of Attorney form must be housed in the student's eXp file.
- Students enrolled in a course at the time of deployment are eligible to receive excused absences in accordance with the excused absences policy. Campuses should use discretion and take such action only if the excused absences would benefit the student by allowing the student the opportunity to complete the course instead of being automatically dropped from the course for not meeting the University course attendance requirement.
- If the student will be unable to complete the course due to military deployment, the student may drop from the course and receive a full refund of tuition and mandatory fees for the course and a withdrawal "W" grade may be issued.

- If the student would like an opportunity to complete the course while deployed, an incomplete "I" grade can be issued instead of a "W" grade. The "I" grade may be issued with an initial extension of six (6) weeks beyond the traditional five (5) week extension. The campus practice of requiring final grades to be lowered by one full letter grade as a result of the incomplete "I" grade shall be waived for deployed students.
- Students scheduled to be deployed for active military duty should be advised to contact their campus Financial Representative regarding the status of their account and/or financial aid.
- Program completion deadline and re-entry policies will be suspended to cover deployment time provided the student's cumulative absence from the University does not exceed five years.

Any student whose absence from the University is necessitated by reason of service in the uniformed services is entitled to readmission if the following criteria are met:

- The student (or an appropriate officer of the Armed Forces or official of the Department of Defense) gives verbal or written notice to the University's Military Division verifying that the student's absence from the University was necessitated by service in the uniformed services.
- The cumulative length of the absence and of all previous absences from the University by reason of service in the uniformed services does not exceed five years.
- The student submits verbal or written notification of intent to reenroll.
- A separation of such person from the Armed Forces (including the National Guard and Reserves) with a dishonorable or bad conduct discharge, OR
- A dismissal of such person permitted under section 1161(a) of Title 10, USC, OR
- A dropping of such person from the roles pursuant to section 1161(b) of Title 10, USC.
- With the same number of credit hours completed previously by the student, unless the student is readmitted to a different program or program version to which the completed credit hours are not transferable.
- With the same academic standing (SAP) the student previously had.
- If the student is readmitted to the same program, the student will be assessed the same tuition and fee charges for the first academic year of return that he/she would have been assessed during the academic year when the student left the university. For subsequent academic years, a student admitted to the same program will be charged no more than the institutional charges that other students in the program are assessed for that academic year.
- If the student is admitted to a different program he/she will be charged no more than the institutional charges that other students in the program are assessed for that academic year.
- If the student is not prepared to resume the program at the point where he/she left off, or will not be able to complete the program, the University will make reasonable efforts to help the student become prepared to enable the student to complete the program including, but not limited to, providing refresher courses at no extra cost and allowing the student to retake a pretest at no extra cost.

- **Re-entry policy for Servicemembers Opportunity Colleges (SOC):** Students out for a period of more than three years, with current, active or prior military experience in the Army, Coast Guard, Marine Corps, and Navy are covered under the Servicemembers Opportunity Colleges (SOC) guidelines, and therefore will be permitted to continue in their original program/version of study. These students are required to complete all degree requirements within the graduation deadline period. Students are granted five (5) years to complete an associate degree and eight (8) years to complete an undergraduate degree from the first date of positive attendance with the University. If the student is unable to complete their degree requirements within the deadline, the University is not obligated to uphold the agreement of the SOC Degree Network.

Transient Student Policy

A transient student is an individual who is enrolled in a degree program at an outside institution but is approved to complete non-degree coursework at University of Phoenix (UOPX) to fulfill program requirements at their home institution.

Prior to being scheduled for coursework at UOPX, Transient students must have an approved transient student request form on file.

Students attending the University as transient students:

- Will be held accountable for, and be governed by, all University classroom, conduct, and other associated policies regarding student behavior and academic progression as set forth in the University's Academic Catalog.
- Will not be reviewed for the specific University admission requirements as a degree-seeking student.
- Are held to their home institution's academic preparedness requirements and will not be individually reviewed for satisfying University pre-requisite requirements for the courses they are entering.

Acceptable Transfer Activity

The following completed transfer activity types will be reviewed for transfer into the university:

1. Coursework which was completed at an institution that offers associate degrees or higher, which was accredited, or a candidate for accreditation at the time the student attended, by a regional or approved national accrediting body, or a foreign institution recognized/authorized by the country's Ministry of Education, will be reviewed for transfer into the University. The current listing of regional and national accrediting bodies is maintained by the Council for Higher Education Accreditation. In addition, graduate level coursework from institutions that hold accreditation through the ABA (American Bar Association) or that have been provisionally approved for accreditation may also be reviewed for transfer into the University. Coursework from ABA accredited institutions that is not from a Graduate level program will not be accepted. JD, LLB, LLM are considered graduate level programs.
2. American Council on Education credit recommendations
3. National testing program credit earned from:
 - a. College Level Examination Program (CLEP®)
 - b. Excelsior
 - c. Berlitz
 - d. National League of Nursing Exams (NLN)
 - e. Advanced Placement Examinations (AP)
 - f. Defense Language Proficiency Tests (DLPT)
 - g. College Level General Education Development (GED)
 - h. DSST Exams (previously DANTES and USAFLI)
4. Prior learning that has been assessed for credit-worthiness by either the Prior Learning Assessment department or by one of the University's Colleges, Schools, or Provost's Office.

To evaluate previously completed transfer activity, the University must receive transcripts, mark sheets, and documents that are originals from the issuing institution. Documents from Canada or the United States and its territories must be submitted in a sealed envelope or via an approved alternative means such as fax, Escrip, or EDI directly to the University of Phoenix.

Applicants with academic records from colleges or universities in other countries: The University will accept copies of academic records issued from international institutions with no time of issue limitations. If official academic records are received directly from the institution in a sealed envelope, no verification will be required. Students with International credentials will be placed on an Admissions status of RI (Registered International Credentials) until either the verification or official document is received from the issuing institution.

CLEP® is a registered trademark of the College Entrance Examination Board, registered in the U.S. and/or other countries

Evaluation of Transfer Activity

Only transfer activity evaluations performed by the University's Office of Admissions & Evaluation or Prior Learning Assessment division are official. Any preliminary reviews by campus personnel are unofficial, not binding, and subject to change. The following criteria are applied to the evaluation of all transfer credit:

1. Credit-bearing coursework in which students earn a minimum grade of "C-" or grades of credit, pass or satisfactory may be accepted towards student's degree requirements.
2. Acceptable transfer activities will be transferred as semester hour credit.

3. The University will accept courses that are numbered as non-remedial, college level, transferable, or degree applicable, as determined by the issuing institutions transcript key.

4. Lower and upper division credit is transferred as awarded by the issuing institution.

5. Physical Education activity credits are limited to four credits.

6. Application of transferable credit and limitations are determined by program requirements and by state or jurisdiction of the student's residence.

Specific regulatory requirements regarding credit limit applications are listed in the grid below and apply to residents regardless of modality of study. Use this grid for the given states only.

State	Total Credit Awards	Area Restricted
Washington	30 for Bachelors programs	<ul style="list-style-type: none"> National Testing Programs Military Professional Training Experiential Essays
	15 for Associate programs	
Oregon Residents	30 for Bachelors programs	<ul style="list-style-type: none"> National Testing Programs
	15 for Associate programs	<ul style="list-style-type: none"> Military Professional Training Experiential Essays <p><i>*Effective 9/1/2005, the following areas added:</i></p>
Arkansas Residents	30 for Bachelor Programs	<ul style="list-style-type: none"> Professional Training Experiential Essays
	30 for Associate programs	
Georgia Residents	No more than 25% of the degree can be earned using any one specific award type. Students cannot exceed 50% of their degree being earned using a combination of these award types.	<ul style="list-style-type: none"> Credit by Exam Professional Training Experiential Essays Military National Testing Programs

Coursework earned in the following manners will not be accepted in direct transfer towards University degree requirements:

1. Credit is not awarded for transfer activity that duplicates or is regressive to previously completed transfer activities, either at the same or a different transferring institution. If a transcript is received by the University following initial evaluation that shows that a transfer activity duplicates an activity that has already been accepted in transfer, only the credit awarded to the initial transfer

activity will be accepted and reviewed for applicability to the student's program.

2. Professional development level or vocational courses as determined by the issuing institution's transcript key or program description.

Associate degree transfer policy: Students transferring to University of Phoenix into an undergraduate bachelor degree program (excluding BSN, LPN/BSN, LVN/BSN, P/VN/BSN, BSLS, BSED, BS/BIO, BA/ENG, BS/EVS, BS/HIS, BS/HST, and BSIT {all concentrations}) with a previously completed regionally accredited Associate of Arts degree from a Community College will be considered as satisfying their lower division elective and general education requirements making the student Required Course of Study ready at University of Phoenix. Students utilizing this policy will still need to meet all pre-requisite or state specific content requirements as outlined in the Academic Progression and General Education Requirements policy sections for their chosen program.

California block transfer policy: Students transferring to University of Phoenix into an undergraduate baccalaureate degree program (excluding BSN, LPN/BSN, LVN/BSN, P/VN/BSN, BSLS, BSED, BS/BIO, BA/ENG, BS/EVS, BS/HIS, BS/HST, and BSIT {all concentrations} or students residing in Arkansas, Nevada, Oregon, Puerto Rico) with a previously completed CSU (California State University) or IGETC (Intersegmental General Education Transfer Curriculum) certification from a regionally accredited California College or University will be considered as satisfying their General Education liberal arts component for their degree program. Students utilizing this policy will still need to meet all pre-requisite or state specific content requirements as outlined in the Academic Progression and General Education Requirements policy sections for their chosen program

NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION

The transferability of credits you earn at University of Phoenix is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree, diploma, or certificate you earn is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree, diploma, or certificate that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending University of Phoenix to determine if your credits or degree, diploma or certificate will transfer.

Servicemembers Opportunity College

University of Phoenix is a current member of the Servicemembers Opportunity Colleges Degree Network System (DNS). The DNS is a group of institutions selected to provide servicemembers and their eligible family members the opportunity to complete college degrees without losing credit because of frequent changes in duty station. For example, many courses offered by member institutions have two-way guaranteed transferability to provide more flexibility and options in order to satisfy degree requirements. The SOC DNS Student Agreement issued to all eligible students at member institutions provides a complete evaluation of the servicemember's prior learning, including courses from other colleges and universities, military training courses, military occupational experience, nationally-recognized exams, and other non-traditional credit, as well as clearly identifying requirements for completing the degree.

Current SOC Degree Network System membership and participating degree information is available at <http://www.soc.aascu.org>. Although University of Phoenix is currently a member of the SOC Degree Network System, membership or participating degrees may change at any time.

Nondiscrimination Policy

University of Phoenix is guided by the principle of equal opportunity and respect for others. The University is firmly committed to providing equal opportunity in its educational programs and activities, including admission, and employment practices and will not tolerate any discrimination or harassment of any kind with regard to race, color, religion, sex (including pregnancy or childbirth), sexual orientation, gender identity, gender expression, nonconformity with sex stereotypes, age, national origin, disability, veteran status, or any other category protected by federal, state, or local law. More specifically, the University complies with Title IX of the Education Amendments of 1972, Titles VI and VII of the Civil Rights Act of 1964 and regulations, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Age Discrimination in Employment Act of 1974, and any other applicable federal, state, or local law.

Conduct deemed to be in violation of this policy is prohibited and will not be tolerated by the University of Phoenix. Retaliation, in any form, against the person raising such a concern will also not be tolerated by the University of Phoenix.

Discrimination Grievance Procedures:

1. Students, faculty, or staff alleging discrimination should present their grievance as soon as possible after the incident(s) that gave rise to the allegation(s). In most cases a student must present the grievance within six weeks after the alleged incident(s). (E1, E2)
2. Allegations of sex discrimination (including discrimination based on sex, sexual orientation, gender identity, gender expression, and nonconformity with sex stereotypes) must be presented to Camie Pratt, Vice President and Title IX Coordinator, 4025 S. Riverpoint Parkway, Mailstop CF-S907, Phoenix, AZ 85040, 602.557.3391, TitleIX@phoenix.edu. Title IX concerns will be processed according to the Title IX/VAWA Policy (<http://cdn.assets-phoenix.net/content/dam/altcloud/doc/UOPX-Title-IX-and-VAWA-Policy-accessible-final.pdf>).
3. All other discrimination claims must be presented to the Campus Director of Academic Affairs, Campus Director of Operations, Campus Director of Student Services, or their respective designee.
 - a. Campus Director of Academic Affairs, Director of Operations, or Director of Student Services, or their respective designee will conduct a prompt, thorough and impartial investigation and make a determination on whether the student presented a factual connection between the allegation of discrimination and the alleged actions.
 - b. If the appropriate director or designee finds that there is a factual connection between the allegation of discrimination and the alleged actions then one of the following procedures will be followed:
 - i. If the accusation is against a faculty then the Faculty Code of Conduct procedures apply.
 - ii. If the accusation is against a student then the Student Code of Conduct procedures apply.
 - iii. If the accusation is against an employee then the Title IX Coordinator or their designee will contact Human Resources and human resources policies for processing claims of discrimination will be followed.

iv. In the event that the University finds that the discrimination was not caused by an individual's actions, but rather by a discriminatory policy or practice, the University will take steps to remedy the discrimination and prevent its reoccurrence. These steps may include revising a policy or practice that has resulted in discrimination, eliminating the policy or practice, and/or addressing any effects of the discrimination on the individual filing the grievance.

Harassment Policy

The environment at each of the University's locations must be free of all forms of improper or unlawful harassment, including sexual harassment or sexually offensive conduct. This policy applies in the online environment, as well as all learning centers and central administration locations. Harassing behavior can range from inappropriate to illegal. Conduct on the part of faculty, staff, or students which would violate this policy includes, but is not limited to:

- Unwelcome or unwanted advances, sexual or otherwise,
- Requests for favors, sexual or otherwise,
- Any suggestion, whether overt or subtle, that a grade or other academic achievement is dependent upon the granting of favors or submission to requests, sexual or otherwise,
- Unwelcome physical contact, including patting, pinching, hugging, kissing, fondling, etc.,
- Offensive verbal conduct, including sexually or otherwise explicit jokes, comments, innuendo, or other tasteless action that would offend a reasonably sensitive person,
- The display of sexually or otherwise offensive pictures, posters, illustrations, or objects,
- Slurs, jokes, or ridicule based on race, ethnic or national origin, religion, gender, or disability.

Conduct deemed to be in violation of this policy is prohibited and will not be tolerated by the University of Phoenix. The University encourages those who experience or witness harassment to report the behavior for investigation. Retaliation, in any form, against the person raising such a concern will also not be tolerated by the University of Phoenix.

Harassment Grievance Procedures

Students, faculty, or staff alleging harassment should present their grievance as soon as possible after the incident(s) that gave rise to the allegation(s). In most cases, a grievance must be presented within six weeks after the alleged incident(s).

The following is an exception to the six-week limitations period:

- If the alleged harassment occurs in the context of a student's involvement in a particular course, the student may file a grievance within six weeks after the student's grade in that particular course has been issued, even if the last act of alleged harassment within that course occurred more than six weeks prior to the presenting of the grievance.
- Additionally, an exception to the six week limitation period will be granted upon a showing of good cause, including the existence of extenuating circumstances that prevented the student from filing the grievance (e.g., incapacitation).

Allegations of sexual harassment must be presented to Camie Pratt, Vice President and Title IX Coordinator, or designee, 4025 S. Riverpoint Parkway, Mailstop CF-S907, Phoenix, AZ 85040, 602.557.3391, TitleIX@phoenix.edu.

- The Title IX Coordinator or their designee will manage efforts to conduct a prompt, thorough and impartial investigation and make a determination on whether the party presented a factual connection between the allegation of sexual harassment and the alleged actions.
- If the Title IX Coordinator finds that there is a factual connection between the allegation of sexual harassment and the alleged actions then one of the following procedures will be followed:
 - If the accusation is against a faculty then the Faculty Code of Conduct procedures apply.
 - If the accusation is against a student then the Student Code of Conduct procedures apply.
 - If the accusation is against an employee then the Title IX Coordinator or their designee will contact Human Resources and the policies of the Human Resources Department for processing claims of harassment will be followed.
- In instances where it is determined that a formal process is not appropriate the student, faculty or employee may be warned or counseled regarding the allegation.
- Timeframe for Conducting Title IX complaints:
 - Investigation - a prompt, thorough, and impartial investigation will be conducted within 60 days barring any unusual complexity.
 - Opposing parties will receive notice of the outcome of the complaint within 30 days of the close of the investigation barring any unusual complexity.
 - Opposing parties shall be afforded the opportunity to appeal within 10 days of receiving notice of the outcome.

All other harassment claims must be presented to the Campus Director of Academic Affairs, Campus Director of Operations, Campus Director of Student Services, or their respective designee.

- Campus Director of Academic Affairs, Director of Operations, or Director of Student Services, or their respective designee will conduct a prompt, thorough and impartial investigation and make a determination on whether the student presented a factual connection between the allegation of harassment and the alleged actions.
- If the appropriate director or designee finds that there is a factual connection between the allegation of harassment and the alleged actions then one of the following procedures will be followed:
 - If the accusation is against a faculty then the Faculty Code of Conduct procedures apply.
 - If the accusation is against a student then the Student Code of Conduct procedures apply.
 - If the accusation is against an employee then the appropriate campus director or their designee will contact Human Resources and the policies of the Human Resources Department for processing claims of harassment will be followed.
- In the event that the University finds that the harassment was not caused by an individual's actions, but rather by a discriminatory policy or practice, the University will take steps to remedy the harassment and prevent its reoccurrence. These steps may include revising a policy or practice that has resulted in harassment, eliminating the policy or practice, and/or addressing any effects of the harassment on the individual filing the grievance.

- In instances where it is determined that a formal process is not appropriate the student, faculty or employee may be warned or counseled regarding the allegation.
- In instances where it is determined that harassment did not occur, involved parties are issued a closure letter which reflects that the investigation did not find substantial evidence of harassment.

Disability Services

The University recognizes and accepts its obligations under the Americans with Disabilities Act of 1990 (ADA), Section 504 of the Rehabilitation Act of 1973, and the ADA Amendments Act of 2008, prohibiting discrimination on the basis of a disability and requiring the University to provide reasonable accommodations to otherwise qualified disabled students in all University programs and activities.

Determination of reasonable accommodations and compliance with the ADA and the Rehabilitation Act for students are managed by the Disability Services Office with oversight by the University Office of Compliance. No student shall be retaliated against for seeking accommodation under this policy or for participating in any complaint procedures brought against the University for its noncompliance with the policy.

Disability Services Office Contact Information

The Disability Services Office provides students with the opportunity to contact a Disability Services Advisor, via e-mail, 24 hours a day. For more information, please visit: <http://www.phoenix.edu/students/disability-services.html>. The department's mailing address and phone number is:

4025 S. Riverpoint Parkway
Phoenix, AZ 85040
Mail Stop CF-S907

Phone: 800.366.9699
Fax: 602.735.4671

Students needing assistance with accessibility questions or concerns can get more information at <http://www.phoenix.edu/accessibility.html>, or can contact Robert.Becker@Phoenix.edu or Mallory.Laginess@Phoenix.edu.

The University's Director of Disability Services and Section 504 Coordinator, is Julie Scuff, Julie.Scuff@phoenix.edu.

Student Organizations

It is the policy of University of Phoenix (UOPX) to provide our students with opportunities to form student organizations that are recognized under the University's Conditions of Recognition for Student Organizations (RSO).

Conditions of Recognition for Student Organizations

The University has established the following minimum criteria that each student organization must meet to be recognized by, and to function within, the University of Phoenix community:

- Recognized Student Organizations are independently installed, organized, and managed by students enrolled and actively attending at the University.
- All student members of a University Recognized Student Organization must be enrolled in and must have posted positive attendance within the last 90 days.

- Recognized Student Organizations must operate under the appropriate bylaws and/or policies to ensure that their student members remain in good academic and financial standing with the University and are free from code of conduct violations and related disciplinary action.
- Recognized Student Organizations are recognized by, but not official units of University of Phoenix or Apollo Education Group, Inc.
- Recognized Student Organizations must have a published purpose/mission, operate under a formal leadership/governance structure, and maintain membership rosters, financial statements, meeting minutes, etc. Said items shall be submitted upon initial application and upon annual review or more frequently, as required or requested.
- Recognized Student Organizations must have a University-approved Campus Liaison. The role of the Campus Liaison is voluntary and intended to serve as a liaison between the campus-based student organization and the University and to provide general guidance related to installing, organizing, leading, managing, and sustaining a healthy and productive student organization. If it becomes necessary for a student organization to be dissolved, the Campus Liaison will provide guidance/support to ensure a seamless exit strategy for the participating students, student organization, and the University. (Information pertaining to the minimum University of Phoenix Campus Liaison criteria is provided on pages 11-12).
- Recognized Student Organizations may not possess any financial ties or result in any financial impact to University of Phoenix or any other subsidiaries of Apollo Education Group, Inc. All expenses related to installing, organizing, leading, managing, and/or sustaining a student organization are the sole responsibility of the student organization.
- The tax status of the University does not extend to student organizations. Student organizations must follow all local, state, and federal guidelines. Student organizations have sole responsibility for securing, maintaining, or demonstrating that they operate under the appropriate nonprofit tax exemptions (i.e., 501(c)(7) or tax employer identification numbers, as appropriate). Under no circumstances are student organizations allowed to utilize the federal tax numbers or designations of University of Phoenix or any other subsidiaries of Apollo Education Group, Inc.
- Consistent with the University of Phoenix Mission, Recognized Student Organizations must strive to enhance the student experience, the University culture, and their communities as demonstrated with the organization's purpose/mission and charter.
- Recognized Student Organizations must meet all Conditions of Recognition and agree to abide by all University of Phoenix regulations, policies, and procedures. This includes, but is not limited to, all academic catalog policies, campus safety policies, consumer information policies, public relations policies, marketing/advertising guidelines, privacy policies, and the student, faculty, and staff codes of conduct.
- Recognized Student Organizations must be open to all students who meet the membership requirements. Recognized Student Organizations may not limit membership based on race, color, gender, age, religion, disability or perceived disability, veteran status, sexual orientation, gender identity, national origin, or any other category protected by federal, state, or local law.

- Student organizations must submit a Student Organization Recognition application to the University of Phoenix Office of Academic Administration and be approved by the University to receive formal recognition status and recognition-related benefits. Formal recognition and access to the recognition-related benefits will not be granted until an application is reviewed and approved.
- Recognized Student Organizations must submit for affiliation renewal 30 days prior to the anniversary of their initial recognition approval date. Upon approval, recognition status and benefits will be renewed for one year. This ensures proper maintenance of each student organization recognition and continued compliance with regulatory, policy, and procedural changes.
- Student Organizations that are academically oriented or request to install an institutional-level chapter/charter must receive approval from the appropriate Institutional Sponsor (i.e., College/School Dean or Director-level representative in University of Phoenix Central Administration), as appropriate.
- The bylaws and/or policies for any student organization must meet the minimum standards outlined in the Recognized Student Organizations Handbook.
- Recognized Student Organizations must meet one of the University's approved Student Organization Types and Recognition Statuses as defined below.

Approved Recognized Student Organization "Types"

- Academic excluding Honor Societies - Academic organizations are generally intended for students with common academic interests, pursuing a particular field of study, and/or students who are interested in academic engagement and support beyond the classroom.
- Honor Societies - Honor Societies are generally geared toward students who demonstrate a high level of academic achievement. Membership in honor societies (e.g., Delta Mu Delta) is typically by invitation and criteria-based.
- Professional -Established professional associations are generally intended for students with a specific program, interest area, and possibly occupational aspirations in a professional field (e.g., Project Management Institute [PMI], Society for Human Resource Management [SHRM]).
- Service - Service organizations are generally intended for students seeking opportunities to participate in community service and/or philanthropic activities.

Approved Recognized Student Organization Recognition "Statuses"

- University-Level Recognition - Student organizations, which have been approved by the University and the participating student organization's corporate office to install an institutional-level charter/chapter under which all local campus sites would operate. For example, University of Phoenix installed the Delta Mu Delta Lambda Sigma institutional charter in 2009, under which all campus sites are eligible to apply to install a local area co-chapter.
- Local Campus-Level Recognition - Additional local campus sites that have been approved by the University to operate under the governance/oversight of the University-Level recognized charter/chapter. For example, the Boise Campus has been approved to install a "co-chapter" which operates under the University's Delta Mu Delta Lambda Delta institutional-level charter.

- Single Site Recognition - Student organizations which have been approved by the University and the participating student organization's corporate office to install a charter/chapter to operate separately and independently at one of the University's local campus sites.
- Non-Standard Recognition - Student organizations, which do not fit any of the other recognized affiliation statuses, may apply for affiliation under this status. These requests are considered on a case-by-case basis.

Acceptable Use of University Computing and Communication Resources

University computing and communication resources are for approved business and educational purposes consistent with University policies and procedures.

- Computing and communication resources comprise all components of the University's computer information systems, including, but not limited to, facilities, hardware, software, network infrastructure, and related devices, including those used for voice and video communication.
- The University's computing and communication resources are the property of the University. Use of University computing and communication resources is a privilege and is provided as a service to the University's users. Among other purposes, these resources are provided for the delivery of curriculum and related materials; for conducting online classes; for conducting educational research; for communication between and among students, faculty, and staff; and for accessing and obtaining the University's services.
 - Students and faculty using these resources without authorization, or in excess of their authorization, will be subject to appropriate review processes and sanctions. In addition, all activity and information, including personal activity and information, on University systems may be monitored and recorded. Any individual accessing University computing and communication resources expressly consents to such monitoring and is advised that if such monitoring reveals unauthorized or criminal activity, members of the Apollo Group Information Security and Compliance Office (ISCO) (or other personnel designated by ISCO) will provide the evidence from monitoring to the appropriate University officials for investigation and possible release to law enforcement authorities.

General Requirements of Users

Users of University computing and communication resources must:

- Comply with this policy and all applicable local, state, and federal laws and regulations.
- Not intentionally compromise the confidentiality, integrity or availability of University computing and communication resources.
- Not attempt to circumvent the University's physical, technical, or administrative security measures.
- Abide by the provisions of the Student Code of Conduct (for students) or the provisions of the Faculty Standards (for faculty members).
- Be truthful and accurate in personal identification.
- Respect the rights and privacy of others.
- Maintain the security of their user resource accounts.

- Comply with the terms of use of any University of third-party service provider website(s).

Intellectual Property

Users must adhere to applicable intellectual property law, and the terms and conditions of any and all software licensing agreements and/or copyright laws as specified by the vendor or licensor. Explicitly:

- Unauthorized use of University trademarks or logos and other protected trademarks and logos is prohibited.
- Infringing upon the copyright, trademark, patent, or other intellectual property rights of others in computer programs or electronic information (including plagiarism and unauthorized use or reproduction) is prohibited.
- The unauthorized storing, copying or use of audio files, images, graphics, computer software, data sets, bibliographic records and other protected property is prohibited except as permitted by law.

Privacy & Security

The University strives to maintain the confidentiality, integrity, and availability of its systems, networks, and data. The University implements policies to ensure that access to sensitive data is restricted to those individuals who have a need-to-know. The following sections describe how ISCO personnel may monitor computing and communication resources for violations of this acceptable use policy.

Monitoring

System and network activities of users are routinely logged and monitored. These activities include:

- Use of accessed accounts
- Time and duration of network activity
- Web pages accessed and duration of access
- Network software accessed
- Volume of data storage and transfers

In the case of a suspected violation of this policy, University officials may authorize ISCO personnel to conduct a more detailed investigation to gather evidence on the suspected violation.

Restriction of Access to Computing and Communication Resources

Access to University computing and communication resources is a privilege that may be wholly or partially restricted without prior notice and without consent of users:

- If required by applicable law or policy.
- If a reasonable suspicion exists that there has been or may be a violation of law, regulation, or policy.
- If required to protect the confidentiality, integrity, or availability of computing and communication resources.

Conditions for Permitting Inspection, Monitoring, or Disclosure

The University may permit the inspection, monitoring, or disclosure of e-mail, computer files, and network transmissions when:

- Required or permitted by law, including public records law, or by subpoena or court order
- The University or its designated agent reasonably believes that a violation of law or policy has occurred
- Necessary to protect the confidentiality, integrity, or availability of computing and communication resources.

Confidentiality

Confidentiality of e-mail and other network transmissions cannot

be completely assured. Therefore, all users should exercise caution when sending personal, financial, confidential, or sensitive information by e-mail or across the Internet.

Responsibility to Inform User of Unauthorized Access or Disclosure

If the University believes unauthorized access to or disclosure of private user information has occurred, the University will make reasonable efforts to inform the affected user, except when notification is impractical or when notification would be detrimental to an investigation of a violation of law or policy.

Violations and Enforcement

Reporting Violations

Any actual or suspected violation of this policy should immediately be brought to the attention of the system administrator of the equipment or facility most directly involved. Alternatively, a report may be made directly to the University Office of Dispute Management or Apollo ISCO.

Office of Dispute Management

4025 S. Riverpoint Parkway, Mail Stop: CF-S907
Phoenix, AZ 85040
602-557-5566
Email: uofphoenix@phoenix.edu

Apollo Group Information Security & Compliance

4025 South Riverpoint Parkway, Mail Stop: CF-L601
Phoenix, AZ 85040
FAX: (602) 557-6606
e-mail: infosec@apollogrp.edu

Response to a Reported Violation

Upon receiving notice of a violation, the University may temporarily suspend a user's privileges or move or delete the allegedly offending material pending further investigation.

A person accused of a violation will be notified of the charge and have an opportunity to respond before the University imposes a permanent sanction. Appropriate cases will be referred to the University disciplinary process appropriate to the violator's status (i.e., faculty member or student) or to appropriate law enforcement authorities.

In addition to sanctions available under applicable law and University policies, the University may impose a temporary or permanent reduction or elimination of access privileges to computing and communication resources.

The University may temporarily suspend any account, whether or not the account user is suspected of any violation, if it is believed to be necessary to preserve the integrity of University computing and communication resources. The University will provide appropriate notice to the account user. Servers and computers that threaten the security of University systems will be removed from the network and allowed to reconnect only with the approval of ISCO Personnel.

In the event of any inconsistency or conflict between this policy and any other terms or conditions students may be subject to, the University reserves the right to resolve such conflicts in its sole discretion.

Violation Examples

- This list below contains examples of actions considered to be a violation of this policy. It is not intended to be all-inclusive, nor does it represent all possible violations in a particular circumstance or the applicability of any other law or policy to those facts.
- Unlawful communications, including threats of violence, obscenity, pornography, and harassing communications.
- Unauthorized, anonymous communication is prohibited. (All users are required to cooperate with appropriate University personnel or other authorized personnel when investigating the source of anonymous messages.)
- Misrepresenting or forging the identity of the sender or the source of electronic communication.
- Altering the content of a message originating from another person or computer with intent to deceive.
- Use of University computing and communication resources for private business or commercial activities.
- Fund-raising or advertising on behalf of non-University organizations.
- The unauthorized reselling of University computing and communication resources.
- Unauthorized acquisition attempts to acquire and use the user id or passwords of others.
- Interference with or disruption of the computer or network accounts, services, or equipment of others.
- The intentional propagation of computer "worms" and "viruses," the sending of electronic chain mail, denial of service attacks, and inappropriate "broadcasting" of messages to large numbers of individuals or hosts.
- Failure to comply with requests from appropriate University officials to discontinue activities that threaten the operation or integrity of computers, systems or networks, or otherwise violate this policy.
- Revealing passwords or otherwise permitting the use by others (by intent or negligence) of personal accounts for computer and network access without authorization is prohibited.
- Altering or attempting to alter files or systems without authorization.
- Unauthorized scanning of networks for security vulnerabilities.
- Attempting to alter any University computing or networking components (including, but not limited to, bridges, routers, and hubs) without approval or beyond one's level of authorization.
- Negligent or intentional conduct leading to disruption or damage of University data, systems or networks.

Do Not Call Policies

- The University recognizes and complies with the Federal Trade Commission's (FTC) Telemarketing Sales Rule (TSR) which gives consumers a choice about whether they want to receive most telemarketing calls. Additionally, the University follows the guidelines of the Telephone Consumer Protection Act (TCPA) of 1991 as maintained by the Federal Communications Commission (FCC) and honors the National Do Not Call Registry.
- Consumers who are listed on the National Do Not Call Registry may not be called for sales or solicitation purposes unless:

- Consumer Inquires about a service UOPX offers - UOPX may call a consumer for up to three months (90 days) after the consumer makes an inquiry or submits an application to the University even if the consumer's number is on the National Do Not Call Registry.
- Consumer has established a business relationship with UOPX - UOPX may call a consumer with whom it has an established business relationship for up to 18 months after the consumer's last purchase, delivery, or payment, even if the consumer's number is on the National Do Not Call Registry.
- Written Permission - If a consumer has given UOPX written permission, the University may call even if the consumer's number is on the National Do Not Call Registry.
- If a consumer asks the University not to call or to be placed on the University's internal do not call list, the University may not call and must honor the request, even if there is an established business relationship. This applies regardless of whether the consumer's number is on the National Do Not Call Registry.
- The policies and procedures to ensure compliance with the TSR and TCPA are managed by the University of Phoenix Office of Compliance.

Institutional Review Board

- The University of Phoenix Institutional Review Board (IRB) will review all studies, pilot studies, policies and legal/regulatory requirements that involve human subjects research before any study or sponsored or non-sponsored research begins. Research that has been conducted or is to be conducted using human subjects will be reviewed on a regular basis depending on the IRB decision rendered to ensure compliance with all federal and state laws. No researcher can begin collecting data before receiving IRB approval for the study.
- The IRB is expected to review a research study design presented by the researcher to determine risk (including physical, psychological/emotional, social, social desirability, and economic risk) as there may be ethical issues that affect the rights and welfare of research participants that are beyond methodological or design questions.
- The University of Phoenix (UOPX), holds a Federal Wide Assurance filed with the U.S. Department of Health and Human Services (FWA: 00004202) and maintains an Institutional Review Board (IRB) to assure that all University human subjects research complies with federal regulations.
- The UOPX IRB follows the ethical principles set forth in The Belmont Report: Ethical Principles and Guidelines for the Protection of Human Subjects of Research and guidance from the federal Office of Human Research Protections (OHRP).
- UOPX has charged the Institutional Research Board (IRB) with ensuring that all legal/regulatory and ethical codes are upheld at all institutional and non-institutional sites of this institution both domestic and foreign.

- All students, staff, faculty, and external researchers who engage with UOPX and are conducting human subject research under the auspices of the University are required to complete an IRB review before they begin any research activities involving human subjects. Researchers must complete human subjects' ethics training through the Collaborative Institutional Training Initiative (CITI) Program and receive CITI certification prior to submitting an IRB application for review and beginning research activities. Researchers' CITI certification must be in place throughout all aspects of the research study.

Required Procedures: IRB Review, Research and Reports

- IRB Review: The UOPX IRB conducts an initial review of the research protocol using the IRBNet application and all protocol forms based on the federal categories for human subject protections. The protocol forms address both federal and institutional requirements for the study. The initial review of research determines which research studies require full-committee review and which may be reviewed via expedited, exempt, or non-human subject research processes.
- IRB Research: The UOPX IRB provides annual oversight of studies that are determined Expedited or Non-Exempt. Researchers are to file a Continuing Review of Research if the study has not been completed within 364 days of the approval date on the IRB letter received through IRBNet. Exempt studies are to be completed within three (3) years of the approval date on the IRB letter received through IRBNet. The Continuing Review of research form is found in the UOPX IRBNet system.
- IRB Reports: The UOPX IRB may reach out to researchers if the following situations occur: Serious or continuing noncompliance with 45 CFR 46 or institutional policies, and if study participants contact the University or the IRB Office with a complaint about a study. Researchers are to contact the UOPX IRB Office if unanticipated problems or adverse effects occur during a study being conducted. Unanticipated problems are unexpected incidents (in terms of the nature, severity, or frequency) where an IRB-approved research protocol and informed consent documents are not followed; such incidents relate or possibly relate to participation in the research (possibly relate means there is a reasonable possibility that the incident or experience or outcome may have been caused by the procedures involved in the research) and the research places participants or others at a greater risk of harm (physical, psychological, economic, or social harm) than was previously known or recognized. Based on an IRB review of the unanticipated problem based on the criteria listed, consideration of substantive changes in the research protocol or informed consent process or other corrective actions may need to occur up to and including suspension or termination of IRB approval. Researchers are to contact the UOPX IRB Office as soon as possible if an unanticipated problem or adverse effect occurs during the study.
- Research for purposes of this policy is defined as scholarly and scientific inquiry projects focused upon the collection and analysis of empirical data and facts.
- All individuals associated with or conducting research at the University level must gain approval prior to conducting all research, scholarship, and/or surveys, in or on University of Phoenix.
 - Researchers are student, faculty, staff, or external constituents of University of Phoenix who plan to systematically collect and analyze data for public dissemination.
 - This policy applies to students, faculty, and staff associated with the University, all external requests that include University records, data, or materials, and all associated University systems, websites, and/or tools.
- Failure to Comply: Those found doing research related activities and not following these policies, including failure to provide the resulting data, analysis and research instrumentation to the OSS may be subject to appropriate disciplinary action, including, but not limited to, those documented in the Student Code of Conduct and/or Employee Handbook.
- All UOPX focused research requires Committee on Research (COR) approval prior to Institutional Review Board (IRB) approval. IRB will not approve any UOPX focused studies without COR approval. COR is a university-wide committee run by the Office of Scholarship Support.
 - If the subject of any proposed research is UOPX, the COR shall be responsible for the review and approval of any and all research and scholarship, for public dissemination conducted on University of Phoenix students, faculty, staff, or data regardless of the researchers affiliation with University of Phoenix.
 - All research conducted by any student, faculty, or staff of UOPX is subject to IRB approval. The IRB is a federally required review of all research requests to determine:
 - if the work is research,
 - if the research is on human subjects, AND
 - if human subjects are involved, the overall risks and if they are protected and treated fairly.
 - IRB and COR are two separate and distinct groups operating within the structure of Academic Affairs. While the IRB is a federally mandated committee, with the mandate of protecting human subjects from unethical research practices, the development and use of COR is entirely internal to the University of Phoenix. If a person or group has received permission from COR to pursue research activities at the University and their activities will impact protected populations, as defined under federal law, they must still submit their proposed research to UOPX's IRB or they must show that they have received approval from another university's IRB. Approval by COR shall not be misconstrued as approval by an Institutional Review Board. Further approval from another, non-UOPX IRB prior to COR submission shall not be misconstrued as approval by COR.

Research, Scholarship, and Surveys

General Research Policies

- University of Phoenix (UOPX) encourages student, faculty, and staff research and scholarship efforts. To support faculty and staff research efforts, the Office of Scholarship Support (OSS) oversees a series of Research Centers launched by University of Phoenix to support all research.

Required Procedures: Conducting Research on University of Phoenix Students, Faculty, Staff or Data

- All researchers using University of Phoenix as a subject (i.e.: using UOPX students, faculty, staff, or data) for their research, must submit a formal request to the Committee on Research (COR) for approval prior to conducting research.

- The COR can be found at <https://research.phoenix.edu/content/committee-research>.
- Examples situations for submittal include:
 - When the person or group wanting to perform the research has no active affiliation with the University of Phoenix (e.g. a professional researcher connected to a higher education organization other than UOPX), and/or
 - When the research being pursued falls outside the UOPX person's normal scope of responsibility or authority, and/or
 - When the results of the research being pursued will be provided to a person, organization, or audience external to the University and/or when the provision of this information would fall outside standard institutional processes and/or the normal responsibilities for the person or group doing the research.

CONSUMER INFORMATION

All institutions participating in federal financial aid programs are required to provide enrolled and potential students and current and prospective employees available consumer information. This guide provides you with important information and institutional policies. Where applicable, each section lists specific locations where additional information is available. To request and receive this information in writing, contact the campus director or designee at each University of Phoenix location during regular business hours. A list of campus locations is available at http://www.phoenix.edu/campus_locations.html

Accreditation, Licensures, Reviews and Approvals

University of Phoenix is accredited, reviewed and/or approved by federal, state and international agencies, as well as private accreditation bodies.

Federal

U.S. Department of Education, Certificate of Eligibility

The University of Phoenix has been approved by the Department of Education to participate in each of the following listed Title IV HEA programs:

- Federal Pell Grant Program
- Federal Direct Student Loan Program
- Federal Supplemental Educational Opportunity Grant Program
- Federal TEACH Grant Program

Regional Accreditation

University of Phoenix is accredited by the Higher Learning Commission (<http://hlcommission.org>). Since 1978, University of Phoenix has been continually accredited by the Higher Learning Commission and its predecessor. University of Phoenix obtained its most recent 10-year Reaffirmation of Accreditation in 2012–13. A comprehensive evaluation is scheduled for 2016–17, and the next Reaffirmation of Accreditation is scheduled for 2022–23.

For more information about University of Phoenix accreditations and licensures, please visit http://www.phoenix.edu/about_us/accreditation.html.

State and International Licensures

University of Phoenix is approved to operate in most U.S. states, territories and possessions, either through licensure, registration, general or specific approvals, or annual extension of exemption.

- Alabama Commission on Higher Education
- Arizona State Board for Private Postsecondary Education
- Arkansas Department of Higher Education
- California Bureau for Private Postsecondary Education
- Colorado Department of Higher Education, Commission on Higher Education
- Connecticut Office of Higher Education
- Delaware Department of Education

- Government of the District of Columbia, Education Licensure Commission
- Florida Commission for Independent Education
- Georgia Nonpublic Postsecondary Education Commission
- State of Hawaii Post-Secondary Education Authorization Program (HPEAP), Department of Commerce & Consumer Affairs
- Idaho State Board of Education
- Illinois Board of Higher Education
- Indiana Board for Proprietary Education
- Iowa College Student Aid Commission
- Kansas Board of Regents
- Kentucky Council on Postsecondary Education
- State of Louisiana Board of Regents
- Maryland Higher Education Commission
- Commonwealth of Massachusetts Board of Higher Education
- State of Michigan Department of Education, Postsecondary Services
- Minnesota Office of Higher Education
- Mississippi Commission on College Accreditation
- State of Missouri Coordinating Board of Higher Education
- Nebraska Coordinating Commission for Postsecondary Education
- Nevada State Commission on Postsecondary Education
- New Jersey Secretary of Higher Education
- New Mexico Higher Education Department
- Board of Governors for the University of North Carolina
- Ohio Board of Regents
- Oklahoma State Regents for Higher Education
- Oregon Office of Degree Authorization
- Pennsylvania Department of Education
- Consejo de Educación Superior de Puerto Rico/Puerto Rico Council on Higher Education
- South Carolina Commission on Higher Education
- Tennessee Higher Education Commission
- Texas Higher Education Coordinating Board
- Utah System of Higher Education State Board of Regents
- The State Council of Higher Education for Virginia
- State of Washington Higher Education Coordinating Board
- West Virginia Higher Education Policy Commission
- State of Wisconsin Educational Approval Board
- Wyoming Department of Education

<http://www.acbsp.org>

College of Health Professions: School of Nursing

The Bachelor of Science in Nursing and Master of Science in Nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE).

CCNE
One Dupont Cir. NW, Ste. 530
Washington, DC 20036-1120
Phone: 202.887.6791

<http://www.aacn.nche.edu/ccne-accreditation>

College of Education/Education Programs

University of Phoenix initial degree programs lead to teaching certification (Early Childhood, Elementary, Middle Level, Secondary and Special Education) in certain states. The College of Education offers state-approved initial programs in Arizona, California, Colorado, Florida, Hawaii, Nevada, New Mexico, Texas and Utah. The College of Education offers state-approved advanced programs in Arizona, California, Colorado, Florida, Nevada, New Mexico, Texas and Utah. Individual programs vary by state, and not all programs are available at all locations or in both online and on-campus modalities.

Candidates may request an institutional recommendation upon successful completion of their program (academic and program requirements). Candidates should check with their state agency for any state-specific requirements, including the acceptability of the University's initial programs in any state in which they intend to seek licensure or certification. Program requirements are subject to change based on state certification requirements. Please speak to a campus representative for a listing of programs available at each campus location.

College of Social Sciences/Counseling Programs

The Master of Science in Counseling program with a specialization in Clinical Mental Health Counseling (Phoenix and Southern Arizona Campuses) and the Master of Science in Counseling program in Mental Health Counseling (Utah Campuses) are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

CACREP
1001 North Fairfax St., Ste. 510
Alexandria, VA 22314
Phone: 703.535.5990
<http://www.cacrep.org>

Additional Information

A student can view additional information at http://www.phoenix.edu/about_us/accreditation.html. To obtain a copy of University accreditation and licensure documents, or information on how to contact any of the agencies that regulate the University, contact the Apollo Legal Department at 602.557.1554.

Academic Programs, Facilities and Instructional Personnel Information

Academic program offerings and instructional facilities vary according to geographic area and delivery mode at the local campus or online campus. Not all programs are available at all loca-

tions.

Academic Programs

University of Phoenix offers undergraduate and graduate programs in business and management, information systems and technology, security and criminal justice, nursing and health services administration, social sciences, humanities and sciences, and education. Detailed information regarding academic programs offered at specific instructional facilities is located at <http://www.phoenix.edu/programs/degree-programs.html> and the appropriate Academic Catalog at <http://www.phoenix.edu/programs/degree-programs/academic-catalog.html>. Admissions and program requirements vary by state. Please refer to the Academic Catalog for state and/or program-specific information.

Academic Program Improvement

University of Phoenix pursues a strategy of continuous improvement in relation to its academic programs. This strategy is implemented through assessment processes designed to measure student learning at various levels within the University. Multiple direct and indirect outcomes-based assessment and evaluation measures are utilized to create as comprehensive a picture as possible of the strengths and potential challenges to student learning. Resulting data is used to evaluate and improve academic programs and enhance the overall academic experience.

For University of Phoenix, the purpose of outcomes-based assessment of student learning is to generate information to the faculty, program, college and school, and University about the efficacy of its curricula and educational practices in enabling students to achieve exit-level expectations at the course, program and institutional levels. Assessment answers the question: How well are University of Phoenix students meeting the general education, programmatic and institutional learning outcomes underscored by the University's mission? Its findings inform opportunities for curricular and pedagogical improvement, decision-making processes for policy consideration and resource allocation, and accountability. The process for outcomes-based assessment of student learning uses the following conceptual framework:

- Assessment Planning
- Collecting Evidence and Analyzing Data
- Implementing Improvement
- Monitoring Effectiveness of Improvements

By utilizing this assessment process, the colleges and schools establish clear, measurable outcomes and ensure that students have sufficient opportunities to achieve outcomes; systematically gather, analyze and interpret evidence to determine how well student learning matches stated expectations; use assessment findings to improve student learning; and monitor improvements by measuring changes in student learning over time.

Articulation Agreements

A list of institutions that University of Phoenix has established articulation agreements with can be viewed at http://www.phoenix.edu/admissions/transfer_information/transfer-guides.html

Corporate Partnerships- Credit Recommendation Guide

The University will endeavor to create Corporate Partnerships with other corporations as appropriate in order to enhance transfer credit options for students coming to University of Phoenix. Transfer credit recommendations will be created in the format of a Credit Recommendation Guide (CRG).

CRGs will define transferability, applicability, and individual credit recommendations of partner corporations' professional training/

seminars, deemed by assessment as comparable to college level learning, to University undergraduate degree program credit requirements. Credits indicated on a CRG are only a recommendation and not a guarantee of credits to be awarded as professional training programs and content may change over time.

Evaluation and determination of credit award for activities listed on the CRG will follow the Credit Assessment Guidelines as indicated in Prior Learning Assessment Credit Assessment. A list of corporations with which University of Phoenix has established corporate partnerships can be viewed at http://www.phoenix.edu/admissions/transfer_information/transfer_credit/corporate_articulation.html

Credit Transfer

Information regarding criteria used to evaluate the transfer of credits earned at another institution is located at http://www.phoenix.edu/admissions/transfer_information/previous_college_education.html

The University Credit Transfer Policy can be viewed at http://www.phoenix.edu/tuition_and_financial_options/policies/credit_transfer_policy.html

Reverse Transfer Agreements

University of Phoenix has established reverse transfer agreements with partnering institutions. With a reverse transfer agreement in place, University of Phoenix will notify the partner transfer institution and provide them with education record information for students meeting certain criteria whom authorize its release by completing the Reverse Transfer Transcript Release form. Only students whom meet certain credit requirements that indicate they may be eligible to earn an associate degree from the transfer institution will be submitted to the partner transfer institution. The transfer institution may pursue communication with the student to discuss requirements and may award the associate degree to the student per its discretion.

Disability Services

University of Phoenix recognizes and accepts its obligations under Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) of 1990 and the ADA Amendments Act of 2008, prohibiting discrimination on the basis of a disability and requiring the University to provide reasonable accommodations to otherwise qualified disabled students in all University programs and activities.

The University of Phoenix Disability Services Office provides services to students with appropriate documentation for temporary health issues or a permanent disability.

Students with a temporary or permanent disability seeking disability services from the University must: (1) disclose their disability to the Disability Services Office and (2) request accommodation through the Disability Services Office. Confirmation through documentation from a health care provider may be required prior to accommodations being determined and fulfilled.

Obtain Information

The disability services advisor is responsible for managing the accommodation process, including any negotiations regarding services, and finalizing appropriate student accommodations.

Additional information and a list of disability services advisors are located at <http://www.phoenix.edu/students/disability-services.html>

Faculty

University faculty members are accomplished managers, technology leaders, professional educators, corporate executives, financial officers, human services professionals and leaders in other professional areas who also possess advanced degrees. A list of faculty may be obtained from each local campus. To find a local campus, go to <http://www.phoenix.edu/campus-locations.html>

Faculty profiles can be found at http://www.phoenix.edu/faculty/our_faculty.html

Graduation Rates

In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must publish information regarding graduation rates as defined by the National Center for Education Statistics (NCES). This graduation measure includes the cohort of full-time, first-time (FTFT) degree/certificate-seeking undergraduate students and tracks their completion status at 150% of the normal time to complete all requirements of their program of study. A first-time student is defined as a student who has no prior postsecondary experience attending any institution for the first time at the undergraduate level.

Data are collected on the number of students entering the institution as FTFT degree- and/or certificate-seeking undergraduate students in a particular cohort year. Graduation rates are disaggregated by race and ethnicity, gender and federal financial aid grant or loan funds. The graduation rates shown below represent students from the 2008–2009 cohort and the percentages of those students who graduated within 150% by Aug. 31, 2014.

The table below shows FTFT undergraduate students and is derived from the IPEDS graduation rate survey, although shown in aggregate rather than by degree/award type. The University is a

nontraditional institution that caters to a wide variety of students, including many who have previously attended another institution of higher education, and would not be classified as first-time students. Data includes recipients of Pell Grants or subsidized loans, or neither type of aid during the 2008–2009 cohort years (September 1 – August 31).

	Enrolled FTFT Undergraduates *	Enrolled FTFT Undergraduates Graduated Within 150% Timeframe Allowed	Graduation Percent Enrolled FTFT Undergraduates
Totals	121,517	20,838	17%
Male	34,940	4,963	14%
Female	86,577	15,875	18%
Nonresident Alien	1,527	404	26%
Hispanic/ Latino	7,407	1,404	19%
American Indian or Alaskan Native	1,201	190	16%
Asian	674	155	23%
Black or African American	24,867	3,150	13%
Native Hawaiian or Other Pacific Islander	700	129	18%
White	41,864	10,308	25%
Race or Ethnicity Unknown	43,277	5,098	12%
Pell Grant Recipients	81,370	13,045	16%
Subsidized Stafford Loan Recipients who did not receive a Pell Grant	18,485	4,436	24%
Students who received neither Pell Grants nor Subsidized Stafford Loans	21,662	3,357	15%

* Excludes 497 students who became deceased after entering the cohort, but before they graduated.

Retention Rates

In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding retention rates of degree- and/or certificate-seeking first-time, full-time (FTFT) undergraduate students entering the institution. Retention rate is a measure of the rate at which students persist in their educational program at an institution, expressed as a percentage. The table shown below is the percentage of FTFT undergraduate degree-seeking students from the previous fall who were still enrolled in the next fall.

Retention Rates for FTFT Undergraduate Students

Count of FTFT undergraduate students enrolled Fall 2013 (8/1/2013 to 10/31/2013)*	12,300
Count of FTFT undergraduate students enrolled Fall 2013 (8/1/2013 to 10/31/2013) still enrolled in Fall 2014 (8/1/2014 to 10/31/2014)	4,363
Retention	35.5%

* Excludes students who became deceased after 10/31/13 and those who were enrolled in and completed a certificate program shorter than 1 year in length who would not be expected to be retained in the following year.

Student Diversity

In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding student diversity as defined by the IPEDS. Data reported are for enrolled full-time students. Table 1 represents all enrolled students from July 1, 2013, through June 30, 2014. Of the total enrolled students, those who received Pell Grant funds during the July 1, 2013, through June 30, 2014, timeframe are shown in Table 2.

Table 1: All Enrolled Students by Gender and Race/Ethnicity

	Total Enrolled*	Percentage
Total Enrollment	418,790	100%
Male	142,479	34%
Female	276,311	66%
Nonresident Alien	7,630	1.8%
Hispanic/Latino	40,946	9.8%
American Indian or Alaskan Native	2,197	.5%
Asian	5,912	1.4%
Black or African American	81,620	19.5%
Native Hawaiian or Other Pacific Islander	3,079	.7%
White	129,775	31%
Two or more races	14,503	3.5%
Unknown	133,128	31.8%

Table 2: Pell Grant Recipients by Gender and Race/Ethnicity

	Total Enrolled*	Percentage
Pell Grant Recipients	187,270	100%
Male	50,905	27.2%
Female	136,365	72.8%
Nonresident Alien	2,330	1.3%
Hispanic/Latino	19,688	10.5%
American Indian or Alaskan Native	937	.5%
Asian	1,731	.9%
Black or African American	42,394	22.6%
Native Hawaiian or Other Pacific Islander	1,248	.7%
White	59,395	31.7%
Two or more races	9,189	4.9%
Unknown	50,358	26.9%

Note: Information reported on student diversity for all enrolled students is from the IPEDS 12 Month Enrollment Survey (July 1, 2013, to June 30, 2014). Pell recipients were those students from the 12 Month Enrollment Survey who were disbursed Pell funds during the July 1, 2013, to June 30, 2014 timeframe.

Types of Education in Which Graduates Enroll

In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding the types of graduate and professional education in which graduates of the institution's four-year degree programs enrolled.

Approximately 14% of students who completed a bachelor's degree from University of Phoenix between July 1, 2013, to June 30, 2014, went on to enroll in a graduate or professional program at University of Phoenix. The most common programs students enrolled in are as follows:

- Master of Business Administration
- Master of Science in Psychology/Behavioral Health
- Master of Science in Psychology
- Master of Science in Administration/Human Resource Management
- Master of Health Administration

The data is derived from the IPEDS Completions Survey (July 1, 2013 to June 30, 2014 data) and the IPEDS Fall Enrollment Survey (Aug. 1, 2014 to Oct. 31, 2014 data).

Alumni Attending Graduate School

Fifty-five percent of University of Phoenix alumni indicated they are attending, or plan to attend, graduate school. Of this 55%, 19% are currently pursuing a graduate degree at University of Phoenix. Forty-three percent of University of Phoenix master program graduates indicated they planned to attend a doctoral-level program. Of this 43%, 4% are currently pursuing a doctoral degree at University of Phoenix.

Sixty-five percent of University of Phoenix bachelor program graduates indicated they planned to attend a master-level program. Of this 65%, 15% are currently pursuing a master's degree at University of Phoenix.

Working Alumni

Based on responses from the Alumni Association's 2012 survey, the following represents the types of industry in which our alumni work:

University of Phoenix Alumni Employment by Industry*

Health Services	17%
Education	13%
Manufacturing	6%
Retail Trade (Non-Restaurant)	5%
Technology	5%
State and Local Government	4%
Federal Government	4%
Business Services	2%
Social Services	2%
Insurance	3%
Transportation	3%
Finance/Financial Services	3%
Banking	3%
Military	2%

*Question #40: In what industry do you work? Bases: Respondents who are employed - 25,214

Alumni Occupations

The following represents occupations of University of Phoenix alumni, based on a survey completed in 2012 between January 25 and March 2 by 31,506 respondents:

University of Phoenix Alumni Occupation*

Engineer/Architect (including technology)	13%
Finance/Accountant	10%
Teacher/Educator/Education Administrator	9%
Sales/Marketing Representative	6%
Registered Nurse/Other Nursing Professional	5%
Executive/Manager/Administrator	5%
Operations/Production	5%
Technician/Technologist	4%
Other Health Professional	4%
Protective Services (Police, Fire, Security)	3%
Admin Support, Records/Data Processor	2%
Consultant	2%
Human Resources	2%
Psychologist, Counselor, Social Worker	2%
Business Owner	2%
Other	5%

*Question #41: What is your occupation? Bases: Respondents who are employed - 25,214.

Title II of Higher Education Act-Academic Year 2012-2013

In compliance with Title II of the Higher Education Act (HEA), University of Phoenix has submitted institutional questionnaires that detail the University's program offerings, student demographics and student performance in those states where the University has teacher education programs that have produced program completers, also known as graduates. University of Phoenix provides professional preparation for teachers in multiple states. This is an overview of the information contained in the Institutional Report for University of Phoenix.

Title II HEA Pass-Rate Information

Program completers achieved the following scores for academic year 2013-2014:

Arizona

Professional knowledge — Elementary: 95%

Professional knowledge — Secondary: 100%

Professional knowledge — Early Childhood: Less than 10 candidates, score not provided

Aggregate professional knowledge: 95%

Aggregate content areas: 96%

Special populations: 96%

California

California basic educational skills test (CBEST): 100%
Reading instruction competence assessment (RICA) — Elementary only: 75%
Aggregate content areas: 96%

Other academic content areas: 100%

Colorado

Aggregate academic content areas: 100%

Other academic content areas: 100%

Special populations: Less than 10 candidates, score not provided

Hawaii

Aggregate basic skills: 100%

Aggregate professional knowledge: 100%

Aggregate academic content areas: 100%

Indiana

Aggregate basic skills: Less than 10 candidates, score not provided

Aggregate academic content areas: Less than 10 candidates, score not provided

Missouri

Aggregate professional knowledge: Less than 10 candidates, score not provided

Nevada

Aggregate basic skills: 100%

Aggregate academic content areas: 100%

Aggregate professional knowledge: Less than 10 candidates, score not provided

Federal financial aid will be processed after submitting an application for admission and registering for courses in an eligible degree program. Admissions and program requirements vary by state. Please refer to the Academic Catalog for state- and/or program-specific information at <http://www.phoenix.edu/programs/>

degree-programs/academic-catalog.html

During the federal financial aid application process, the following forms may be completed for federal financial aid grants and loans:

- Free Application for Federal Student Aid (FAFSA)
- University of Phoenix Loan Request form
- Federal Direct Loan Master Promissory Note (MPN)
- Entrance counseling
- Financial Aid Authorization form if, and only if, a student chooses this option

The University highly recommends using the online financial aid application website. This website allows a student to complete and electronically sign financial aid documents, and directs them to complete the FAFSA and MPN.

Students interested in utilizing financial aid programs should complete all required application materials each academic year. A student should reapply for financial aid prior to the start of each new academic year.

The average processing time for financial aid awards is 90 days.

Statement of Educational Purpose

The parent or student signing a Free Application for Federal Student Aid (FAFSA) certifies the following:

(1) use federal and/or state student financial aid only to pay the cost of attending an institution of higher education,* (2) is not in default on a federal student loan or has made satisfactory arrangements to repay it, (3) does not owe money back on a federal student grant or has made satisfactory arrangements to repay it, (4) will notify college if defaulting on a federal student loan, and (5) will not receive a Federal Pell Grant from more than one college for the same period of time.

The parent or student signing the FAFSA agrees, if asked, to provide information that will verify the accuracy of the completed form. This information may include federal or state income tax forms filed or that are required to file. In addition, the parent or student certifies and understands that the Secretary of Education has the authority to verify information reported on this application with the IRS and other federal agencies. If the parent or student signs any document related to the federal student aid programs electronically using a personal identification number (PIN), username and password, and/or other credential, that person certifies that he or she is the person identified by the PIN, username and password, and/or other credential and has not disclosed that PIN, username and password, and/or other credential to anyone else. If the parent or student purposely gives false or misleading information, he or she may be fined up to \$20,000, sent to prison or both.

Referrals to the Office of Inspector General

University of Phoenix is required by law to make referrals to the Office of Inspector General any time there is credible information or evidence that an applicant (student) may have engaged in fraud or other criminal misconduct in connection with the application involving federal financial aid programs.

Federal, State and Institutional Financial Aid Programs

Degree-seeking students who are U.S. citizens or eligible noncitizens enrolled in an eligible academic program can apply for federal financial aid as a means of assisting with financing their education. Certificate programs may also be eligible for federal financial aid. Depending on the program, student eligibility may be need-based, non-need-based, credit-based or dependent on other specific conditions.

Students may also be eligible to receive funding through state grant or scholarship programs in their states where available. Students should contact a Finance Advisor at 866.766.0766 for additional information on the financial aid programs available at each campus. A list of campuses is available at <http://www.phoenix.edu/campus-locations.html>

General Eligibility Requirements

General eligibility requirements for federal financial aid are as follows:

- Be a U.S. citizen or an eligible noncitizen.
- Have a valid Social Security number (with the exception of students from the Republic of the Marshall Islands, Federated States of Micronesia, or the Republic of Palau).
- Be registered with Selective Service, if you're a male (you must register between the ages of 18 and 25).
- Be enrolled or accepted for enrollment as a regular student in an eligible degree or certificate program.*
- Be enrolled at least half-time to be eligible for Direct Loan Program funds.
- Maintain satisfactory academic progress in college or career school.
- Sign statements on the Free Application for Federal Student Aid (FAFSA) stating that:
 - You are not in default on a federal student loan and do not owe money on a federal student grant and
 - You will use federal student aid only for educational purposes.
- Show you are qualified to obtain a college or career school education by having a high school diploma or
 - Final high school transcript that shows the date a diploma was awarded
 - Recognized equivalent such as a General Educational Development (GED) certificate or other state-sanctioned test of diploma-equivalency certificate
 - California High School Proficiency Examination (CHSPE) Certificate; High School Equivalency Test (HiSET); Test Assessing Secondary Completion (TASC)
 - Completed homeschooling and was conferred a diploma by the state

For additional eligibility requirements, go to: <http://studentaid.ed.gov/eligibility/basic-criteria>.

Student/Parent Eligibility Policy

Federal regulations require students meet specific eligibility criteria before being awarded federal financial aid.

Policy

The University ensures all students meet all eligibility requirements prior to awarding federal financial aid.

Enrollment

Prior to awarding federal financial aid, the University confirms the student is enrolled, or accepted for enrollment, as a regular student at the University. Students must be admitted and matriculated to a program of study eligible for federal financial aid. Students who are not admitted and matriculated will not be certified or disbursed federal financial aid. Any student enrolled in an elementary or secondary institution is not eligible to receive federal financial aid.

Students who are provisionally admitted, as described below, must also be matriculated.

Students in any graduate (non-doctoral) degree program who meet all admission requirements, except the minimum GPA requirement for their program, may be admitted on a provisional status if they earned a GPA between 2.0 and 2.49 on the undergraduate degree posted transcript, unless otherwise noted in academic policy.

High School Diploma or Equivalent

Students must be qualified to study at the postsecondary level. For students attending the University, one of the following criteria must be met and appropriate documentation provided:

- High school diploma
 - A copy of the student's high school diploma
- Recognized equivalent of a high school diploma
 - General Education Development (GED) certificate
 - California High School Proficiency Examination (CHSPE)
 - HiSET Completion Certificate
- Documentation provided by the state or appropriate Department of Education in the student's state or jurisdiction indicating that the student has earned a secondary completion credential that has the same rights, privileges and rigor of a normal high school diploma
- An academic transcript indicating the student successfully completed at least a two-year program that is acceptable for full credit toward a bachelor's degree
- A homeschool diploma that is conferred by the state in which it was completed or by an entity that is accredited by an approved body

Loan Limits

A student is ineligible for federal financial aid if annual or aggregate loan limits made under any federal financial aid HEA loan program have been exceeded or has property subject to a judgment lien for a debt owed to the United States.

Drug Convictions

Students become ineligible for Title IV federal financial aid if convicted of possession or sale of drugs for any offense that occurred during any period of enrollment for which the student was receiving federal financial aid funds. Any conviction that was reversed, set aside or removed from the student's record does not count; nor does a conviction received when the student was a juvenile, unless the student was tried as an adult. If the student was convicted of both selling and possessing illegal drugs and the periods of ineligibility are different, the student will be ineligible for the longer period.

The University will make available to all students, through consumer information, details regarding the penalties for these types of drug violations.

Other departments will send notification to Student Financial Services — Operations (SFS-O) once aware a student has been convicted of any offense involving the possession or sale of illegal drugs, to cancel future federal financial aid disbursements. SFS-O will notify the student of lost eligibility due to a drug violation and provide information regarding the specific penalties, along with information on how to regain eligibility for federal financial aid.

Incarcerated Students

University of Phoenix must ensure that no more than 25% of its regular students are incarcerated. This percentage will be monitored for the latest completed award year.

An incarcerated student is someone serving a criminal sentence in a federal, state or local penitentiary, prison, jail, reformatory, work farm or other similar correctional institution. A student in a less formal arrangement, such as a halfway house, home detention or

sentenced to serve only weekends, is not considered to be incarcerated.

Title IV Eligibility for Incarcerated Students

All incarcerated students are:

- Not eligible for Title IV federal financial aid loans
- Eligible for FSEOG

Students incarcerated in federal or state penal institutions are not eligible for Pell Grants.

Students incarcerated by jurisdictions defined as a state in the law, such as the District of Columbia, are considered to be in a state penal institution and are not eligible for Pell Grants.

Students incarcerated in local penal institutions (local or county jails, penitentiaries, correctional facilities and juvenile justice facilities) are eligible for Pell Grants.

Students who are subject to an involuntary civil commitment following incarceration for a sexual offense are not eligible to receive Pell Grants.

Cost of Attendance for Incarcerated Students

Cost of attendance includes an allowance for tuition, course materials fees, books and supplies, if required in the program of study. No other expenses are included. Allowable costs are assessed at the rate designated in the University's Student Financial Aid budgets.

Regaining Title IV Eligibility for Incarcerated Students

The University may accept a written self-certification indicating the student is no longer incarcerated. The student becomes eligible for federal financial aid funds as of the date his or her incarceration has ended.

Citizenship

All students must be a U.S. citizen or national or U.S. permanent resident or other eligible noncitizen to receive federal financial aid. A citizen of the Federated States of Micronesia, Republic of the Marshall Islands, or the Republic of Palau is eligible to receive federal financial aid under the Federal Pell Grant but is not eligible for Direct Loans. Citizens of Palau are also eligible for FSEOG.

Secondary Confirmation

If a student indicates an eligible noncitizen on the FAFSA and provides an A-Number, identifying information will be automatically sent to the Department of Homeland Security (DHS) for primary and, if necessary, secondary confirmation. If the University receives an SAR/ISIR with a secondary confirmation match flag of P, the DHS will continue to check its records in a process called automated secondary confirmation. The University will wait at least five, but no more than 15, business days for the result of automated secondary confirmation. If the result is not received by that time, the University will begin the paper process of secondary confirmation.

The University has 10 business days after receipt of the documents for immigration status to undergo paper secondary confirmation. The University will notify the student of the final decision based on the secondary confirmation results.

Default

Any student applying for federal financial aid must not be in default on a loan made under any federal financial aid program or HEA loan program.

Overpayments

A student must not currently owe an overpayment of federal grant funds or Federal Perkins Loan to be eligible for federal financial aid.

Selective Service

The University requires men who are age 18 through 25 to register with the Selective Service System. Students who are exempt or waived from this requirement are asked to provide the University with supporting documentation for review. The review process is documented along with the supporting documentation provided. If, after the review, the student is not clearly exempt or waived from the requirement to register, the University will ask the student to provide a Status Information Letter from the Selective Service.

Unusual Enrollment History (UEH)

The University resolves an Institutional Student Information Record (ISIR) that reports a UEH flag prior to awarding a student Title IV funds. The UEH flags are:

- N — No resolution is required by the university; the student's enrollment pattern is not unusual.
- 2 — The University reviews the student's enrollment and financial aid records to determine if, during the three-award-year review period (award years 2011/2012, 2012/2013 and 2013/2014), the student received a Pell Grant at the University.
- 3 — The University reviews the student's academic records to determine if the student received academic credit at the University during the three-award-year period (award years 2011/2012, 2012/2013, 2013/2014). In addition, the University reviews the National Student Loan Data System (NSLDS) to identify all schools where the student received Pell Grant funding over the past three award years.

The University will determine, for each of the previously attended schools, whether academic credit was earned during the award year the student received Pell Grant funds. This determination is based upon academic transcripts already obtained by the University or by asking the student to provide academic transcripts or grade reports.

Students who do not show earned credit for the Pell Grant awards received in the past three years, and who may have special circumstances, may submit a request through the Professional Judgment (PJ) Team for approval.

Students who do not meet any of the above criteria are immediately not eligible for federal aid.

Approval of Continued Eligibility for UEH

If the student's continued eligibility for federal financial aid funds is approved, and in order for the student to remain eligible for federal financial aid funds, the student must successfully complete one payment period at the University.

Denial of Continued Eligibility for UEH

If the student did not earn academic credit at one or more of the relevant schools and does not provide acceptable documentation, the University will deny the student any additional federal financial aid funds.

Regaining Eligibility for UEH

The student is required to successfully complete one payment period at the University to regain federal financial aid eligibility. During this time, the student is required to use an alternate method of payment for tuition and fees. Upon regaining eligibility, loans may be awarded retroactively back to the beginning of the AY, but Pell Grants are only awarded going forward/starting with the next payment period.

Parental Nonsupport

Although students whose parents refuse support are not eligible for a dependency override, the University has the authority to offer

a dependent student a Direct Unsubsidized Loan without requiring the parent(s) to file a FAFSA provided supporting documentation is obtained. Supporting documentation consists of a completed parental nonsupport confirmation form or a signed and dated verification statement from the parent(s) specifying the following:

- The parent(s) do not provide any financial support and the date the financial support ended,
- The parent(s) will not provide any financial support in the future; and
- The parent(s) refuse to complete the parental section of the FAFSA.

The University may accept documentation from a third party (e.g., teacher, counselor, clergy, court, etc.) describing the student's relationship with the parent(s) if the parent(s) will not provide the required verification statement.

Students who are offered the Direct Unsubsidized Loan without parental data on the FAFSA are only eligible to receive the loan limit based on dependent undergraduate student annual maximums. For example, a first-year undergraduate student cannot receive more than \$5,500 (\$3,500 base plus \$2,000). The parent(s) cannot later apply for a PLUS Loan, unless the parents are separated or divorced, in which case the noncustodial parent can apply for a PLUS Loan. If the noncustodial parent is subsequently denied the PLUS Loan, the student's Direct Unsubsidized Loan eligibility is not increased. The student will not be eligible for any other Title IV financial aid programs.

Dependency Overrides

A student who does not meet the definition of independent may be designated as independent if the University makes a documented determination of independence due to special circumstances. The U.S. Department of Education interprets a special circumstance as one that makes it inappropriate to expect a parental contribution. Examples of special circumstances include inability to locate parents, an abusive family environment or abandonment by parents. Generally, the documentation of special circumstances will come from a third party who knows the student's situation (such as a teacher or member of the clergy), but in cases where this is not available, the University will accept a signed statement from the student detailing the special circumstance.

Professional judgment is not used to change the status of a student from independent to dependent. However, the University may use professional judgment to account for parental support where special circumstances warrant.

Dependency overrides do not carry over from one year to the next. If the student is not independent for some other reason noted on the FAFSA, the University will reaffirm each year that the special circumstance persists and an override is still justified.

PLUS Exceptional Factor

Dependent students whose parents are unable to borrow PLUS Loans due to adverse credit or other exceptional circumstances may receive additional Direct Unsubsidized Loans for the same amount as independent undergraduate students. The PLUS exceptional factor is not a dependency override, as parent information is provided on the FAFSA. Examples include:

- The parent is incarcerated.
- The parent's whereabouts are unknown.
- The parent has filed for bankruptcy and has provided a letter from the bankruptcy court stating that as a condition of the bankruptcy filing, the parent may not incur any additional debt.

- The parent's income is limited to public assistance or disability benefits, and it has been documented that the parent would not be able to repay the PLUS Loan.
- The parent of a dependent student is not a U.S. citizen or permanent resident, or is unable to provide evidence from the U.S. Citizenship and Immigration Service (USCIS) that he or she is in the United States for other than a temporary purpose with the intention of becoming a citizen or permanent resident.

Supporting documentation may include, but is not limited to, documentation that corroborates the exceptional circumstances. The University will re-examine and document that exceptional circumstances continue to apply before certifying/originating additional unsubsidized loan amounts for the dependent in a subsequent award year.

Eligibility for Direct and PLUS Loans

A student is eligible to receive a Direct Subsidized Loan, a Direct Unsubsidized Loan or a combination

of these loans if the student meets the following requirements:

- The student is enrolled, or accepted for enrollment, on at least a half-time basis in a school that participates in the Direct Loan Program.
- The student meets the requirements for an eligible student.
- In the case of an undergraduate student who seeks a Direct Subsidized Loan or a Direct Unsubsidized Loan at a school that participates in the Federal Pell Grant Program, the student has received a determination of Federal Pell Grant eligibility for the period of enrollment the loan is sought.

The annual loan limit for graduate and professional students is \$20,500. This amount is limited to Direct Unsubsidized Loans only. In the case of a borrower whose previous loan or TEACH Grant service obligation was cancelled due to total and permanent disability, or discharged after a final determination of total and permanent disability, the borrower:

- Must obtain certification from a physician that the borrower is able to engage in substantial gainful activity;
- Must sign a statement acknowledging the Direct Loan the borrower receives cannot be discharged in the future on the basis of any impairment present when the new loan is made, unless that impairment substantially deteriorates; and
- If the borrower receives a new Direct Loan, other than a Direct Consolidation Loan, within three years of the date that any previous Title IV loan or TEACH Grant service obligation was discharged due to a total and permanent disability, the student must resume payment on the old loan before receipt of the new loan or TEACH Grant.

In the case of a borrower whose prior loan under Title IV federal financial aid was conditionally discharged after an initial determination that the borrower was totally and permanently disabled based on a discharge request received prior to July 1, 2010:

- The suspension of collection activity on the prior loan has been lifted;
- The borrower complies with all requirements;
- The borrower signs a statement acknowledging the loan that has been conditionally discharged prior to a final determination of total and permanent disability cannot be discharged in the future on the basis of any impairment present when the borrower applied for a total and permanent disability discharge or when the new loan is made, unless that impairment substantially deteriorates; and

- The borrower signs a statement acknowledging that the suspension of collection activity on the prior loan will be lifted. A graduate/professional student or parent is eligible to receive a Direct PLUS Loan if the following requirements are met:
 - Student completes a current award year Free Application for Federal Student Aid (FAFSA).
 - The parent borrower is the student's biological or adoptive mother or father or the student's stepparent if his or her income and assets are taken into account when calculating the student's EFC.
 - The parent borrower is borrowing to pay for educational costs of a dependent undergraduate student who meets the requirements for an eligible student.
 - The parent borrower provides a Social Security number for his or herself and the student.
 - Student or parent borrower meets the requirements pertaining to citizenship and residency.
 - Student or parent borrower meets the requirements concerning defaults and overpayments.
 - Student or parent borrower is not incarcerated.
 - The federal government does not have a judgment lien on the parent's property.
 - Complies with the requirements for submission of a Statement of Educational Purpose for the student, except for the completion of a Statement of Selective Service Registration Status.
 - Student or parent borrower does not have an adverse credit history.
 - Student or parent borrower has an adverse credit history but has obtained an endorser who does not have an adverse credit history; or has an adverse credit history but documents to the satisfaction of the Secretary that extenuating circumstances exist. (Note: Effective March 29, 2015: PLUS Loan

counseling must be completed by the applicant [parent or graduate/professional student] with an adverse credit history who qualifies for a Direct PLUS Loan by obtaining an endorser who does not have an adverse credit history, or who documents to the satisfaction of the Department of Education that there are extenuating circumstances related to the adverse credit information.)

Grant Programs

Federal Grant Programs

University of Phoenix participates in the following federal grant programs:

Federal Pell Grant

A Federal Pell Grant, unlike a loan, does not have to be repaid. Pell Grants may be awarded to undergraduate students who have not earned a bachelor's or a professional degree. The amount of aid students can receive varies depending on their financial need, cost of attendance and other eligibility criteria.

Students can receive the Federal Pell Grant for no more than 12 semesters or the equivalent: <http://studentaid.ed.gov/types/grants-scholarships/pell/calculate-eligibility>

For more detailed information on eligibility and how to apply for the Federal Pell Grant, visit <http://studentaid.ed.gov/types/grants-scholarships/pell>

Federal Supplemental Educational Opportunity Grant (FSEOG)

The FSEOG program is for undergraduate students with exceptional financial need. Pell Grant recipients with the lowest expected family contributions (EFCs) will be considered first for an FSEOG.

The FSEOG does not have to be repaid.

For more detailed information on eligibility and how to apply for the FSEOG, visit <http://studentaid.ed.gov/types/grants-scholarships/FSEOG>

Iraq and Afghanistan Service Grant (IASG)

A student whose parent or guardian was a member of the U.S. Armed Forces and died as a result of service performed in Iraq or Afghanistan after Sept. 11, 2001, may be eligible to receive the Iraq and Afghanistan Service Grant.

For more detailed information on eligibility and how to apply for the IASG, visit <http://studentaid.ed.gov/types/grants-scholarships/iraq-afghanistan-service>

Teacher Education Assistance for College and Higher Education (TEACH) Grant Program

The Teacher Education Assistance for College and Higher Education (TEACH) Grant Program provides grants of up to \$4,000 per award year to students who are completing or plan to complete coursework required to start a career in teaching. Students receiving the grant must sign the agreement to serve and agree to teach:

- In a high-need field
- At an elementary school, secondary school or educational service agency that serves low income students
- At least four complete academic years within eight years after completing the course of study the grant was received for

All students in a TEACH-eligible program at the University will be sent a notification letter of their potential eligibility and instructions on how to apply for the TEACH Grant. Students must have a cumulative GPA of a least 3.25, sign an Agreement to Serve (ATS) at <https://teach-ats.ed.gov/ats/index.action>, and complete all required counseling each year they wish to be considered for a TEACH Grant.

For more detailed information on eligibility and how to apply for the TEACH Grant, visit <http://studentaid.ed.gov/types/grants-scholarships/teach>

TEACH Grant-Eligible Programs

The University has latitude to designate TEACH-eligible programs provided it meets criteria set forth by the U.S. Department of Education. TEACH-eligible programs are as follows:

MAED/SPE Master of Arts in Education/Special Education

MAED/TED-S Master of Arts in Education/Secondary Teacher Education

MAED/TEDHS (Oregon) Master of Arts in Education/Secondary Education — High School/Middle Level

MAED/TEDMM (Texas) Master of Arts in Education/Teacher Education Middle Level Mathematics

MAED/TEDMS (Texas) Master of Arts in Education/Teacher Education Middle Level Science

MAED/TEDMG (Texas) Master of Arts in Education/Teacher Education Middle Level Generalist

MAED/TEDSS (Texas) Master of Arts in Education/Teacher Education Secondary Level Science

MAED/TEDSM (Texas) Master of Arts in Education/Teacher Education Secondary Level Mathematics

State Grant Programs

Students may also be eligible to receive funding through state grant or scholarship programs where available. Depending on the program, student eligibility may be need-based, non-need-based, credit-based or dependent on other specific conditions. Contact a

Finance Advisor at 866.766.0766 for additional information on state grant and/or scholarship programs. A list of campuses is available at <http://www.phoenix.edu/campus-locations.html>

The actual amount of state grants awarded to any student is contingent on the availability of funds. The University cannot guarantee any funding from the state grant sources listed, as the list is subject to change without notice based upon changes in state budgetary constraints, state law or regulation, and/or University participation. Where work or other requirements are included in order to preclude the conversion of a scholarship or grant to a loan, the University makes no representation or warranty as to whether a graduate will be able to obtain such employment or fulfill such other requirements.

For information regarding the grants offered by states — how to apply, eligibility, deadlines, etc. — see the list of programs and their respective websites and phone numbers below. For additional specific eligibility information, the institution may contact you directly when determining grant eligibility. Please note that states sometimes change eligibility requirements for existing grant programs or even eliminate programs for a period of time. The list below is deemed complete, but please confirm with your state.

Institutional Grant Programs

University of Phoenix is committed to providing financial assis-

tance opportunities through institutional grant programs for potential and current students. Various institutional grants are offered throughout the year. For a complete list of current institutional grant offerings, please visit <http://www.phoenix.edu/institutionalgrants>

Scholarships

The Center for Scholarship Excellence (CSE) is a department of University of Phoenix. The CSE is committed to assisting with financial support through institutional and external scholarship programs. The CSE encourages students to borrow responsibly as they work toward their educational goals.

University of Phoenix has a comprehensive scholarship website at http://www.phoenix.edu/tuition_and_financial_options/scholarships.html to meet the needs of students. This website features scholarships offered by University of Phoenix, scholarship resources, tips, suggestions, articles, an external scholarship search engine and much more.

Institutional Scholarships

University of Phoenix offers a number of institutional scholarships, which are listed at http://www.phoenix.edu/tuition_and_financial_options/scholarships/institutional-scholarships.html. The University often partners with organizations to promote scholarship programs. These scholarships are available to potential students or alumni. The CSE website, http://www.phoenix.edu/tuition_and_financial_options/scholarships/institutional-scholarships.html, is updated regularly for institutional scholarships, qualifications, and selection criteria specific to University of Phoenix current and potential students as opportunities become available.

External Scholarships

Private outside entities develop and fund external scholarships, some of which are listed at http://www.phoenix.edu/tuition_and_financial_options/scholarships/external-scholarships.html. External scholarships are available to the general public, which may include University of Phoenix students.

Your eligibility for external scholarships depends on qualifying requirements that vary from scholarship to scholarship. The Center for Scholarship Excellence (CSE) evaluates external scholarship programs, determines applicability to the University student populations, and communicates these opportunities to students and campuses. The website is updated regularly as opportunities become available.

Loans

Federal Direct Loan (DL) Program

Direct Loans, from the William D. Ford Federal Direct Loan Program, are low-interest loans for eligible students to help cover the cost of higher education. Eligible students borrow directly from the U.S. Department of Education at participating schools.

Direct Subsidized Loans — Direct Subsidized Loans are for students with financial need. The University will review the results of the FAFSA and determine the amount a student can borrow. The student is not charged interest while enrolled in school at least half-time. Federal regulations limit a first-time borrower's eligibility for Direct Subsidized Loans to a period not to exceed 150% of the length of the borrower's educational program. Under certain conditions, the provision also causes first-time borrowers who have exceeded the 150% limit to lose the interest subsidy on their Direct Subsidized Loans. For more detailed information on Direct Subsidized Loan Time Limitation, visit <https://studentloans.gov/>

[myDirectLoan/directSubsidizedLoanTimeLimitation.action](#).

Note: Only first-time borrowers on or after July 1, 2013, are subject to the new provision. Generally, a first-time borrower is one who did not have an outstanding balance of principal or interest on a Direct Loan or on an FFEL Program Loan on July 1, 2013.

Direct Unsubsidized Loans — Direct Unsubsidized Loans are available to students with and without financial need. Like subsidized loans, the University will review the results of the FAFSA to determine the amount a student can borrow. Interest accrues (accumulates) on an unsubsidized loan from the date the loan is initially disbursed. The student can pay the interest while in school and during grace periods and deferment or forbearance periods, or can allow it to accrue and be capitalized (that is, added to the principal amount of the loan). If a student chooses not to pay the interest as it accrues, this will increase the total amount to be repaid because the student will be charged interest on a higher principal amount.

Terms and Conditions — Students who receive a Direct Loan are subject to the terms and conditions disclosed on the Federal Direct Loan Master Promissory Note (MPN), <http://www.direct.ed.gov/mpn.html>, and the Direct Loan Disclosure Statement, <http://www2.ed.gov/offices/OSFAP/DirectLoan/pubs/dlplain.pdf>

Borrower's Rights and Responsibilities — Students receiving federal financial aid have varying rights and responsibilities in accordance with the Borrower's Rights and Responsibilities Statement, <http://www2.ed.gov/offices/OSFAP/DirectLoan/pubs/dlrights.pdf>, attached to the Master Promissory Note (MPN).

For more detailed information on eligibility and how to apply for the Federal Direct Loan Program, visit <https://www.studentaid.ed.gov/types/loans/subsidized-unsubsidized>

Federal Direct PLUS Loan for Parent(s)

Parents of dependent students may apply for a Direct PLUS Loan to help pay their child's education expenses as long as certain eligibility requirements are met. Direct PLUS Loan eligibility is dependent upon the applicant's credit history. If it is determined that the applicant has adverse credit history, the applicant will have the option to appeal the credit decision or pursue an endorser. If a parent is unable to secure a Direct PLUS Loan, the dependent student may be eligible for additional unsubsidized loans.

Terms and Conditions — Students whose parent(s) receive a PLUS Loan are subject to the terms and conditions disclosed on the Federal Direct PLUS Loan Application and Master Promissory Note (MPN) at <http://www.direct.ed.gov/mpn.html>

Borrower's Rights and Responsibilities — Parents receiving federal financial aid have varying rights and responsibilities in accordance with the Borrower's Rights and Responsibilities Statement, <http://www2.ed.gov/offices/OSFAP/DirectLoan/pubs/plus-rights.pdf>, attached to the Master Promissory Note (MPN).

For more detailed information on eligibility and how to apply for Direct Parent PLUS Loans, visit <http://www.studentaid.ed.gov/types/loans/plus>

Federal Direct PLUS Loan for Graduate and Professional Degree Students

Graduate and professional degree students can borrow a Direct PLUS Loan to help cover education expenses at a fixed interest rate. Direct PLUS Loan eligibility is dependent upon the applicant's credit history. If it is determined that the applicant has adverse credit history, the applicant will have the option to appeal the credit decision or to obtain an endorser.

Award Amount — Students are eligible to receive a Graduate PLUS Loan award up to their academic year cost of attendance (COA) minus any other financial assistance received.

Terms and Conditions — Students who receive a PLUS Loan for Graduate and Professional programs are subject to the terms and conditions disclosed on the Federal Direct PLUS Loan Application and Master Promissory Note (MPN) at <http://www.direct.ed.gov/mpn.html>

Borrower's Rights and Responsibilities — Students receiving federal financial aid have varying rights and responsibilities in accordance with the Borrower's Rights and Responsibilities Statement, <http://www2.ed.gov/offices/OSFAP/DirectLoan/pubs/plus-rights.pdf>, attached to the Master Promissory Note (MPN) for Direct PLUS Loans.

For more detailed information on eligibility and how to apply for the Direct PLUS Loan for Graduate and Professional students, visit <http://studentaid.ed.gov/types/loans/plus>

For information regarding Federal Student Loan Interest Rates, including Direct PLUS Loans, please visit <http://studentaid.ed.gov/types/loans/interest-rates>

Federal Direct Subsidized and Unsubsidized Annual Loan Limits

Federal Direct Subsidized and Unsubsidized Annual and Aggregate Loan Limits are as follows:

Grade Level	Dependent Undergraduate Student	Independent Undergraduate Student	Graduate/Professional Student
1 Freshman	\$5,500 - No more than \$3,500 of this amount can be subsidized loan	\$9,500 - No more than \$3,500 of this amount can be subsidized loan	\$20,500 Unsubsidized Loan only.* The aggregate amounts for graduate students include loans for undergraduate study.
2 Sophomore	\$6,500 - No more than \$4,500 of this amount can be subsidized loan	\$10,500 - No more than \$4,500 of this amount can be subsidized loan	
3 & 4 Junior and Senior	\$7,500 - No more than \$5,500 of this amount can be subsidized loan	\$12,500 - No more than \$5,500 of this amount can be subsidized loan	
Maximum total loan debt (aggregate loan limits)	\$31,000 -No more than \$23,000 of this amount may be in subsidized loans.	\$57,500 -No more than \$23,000 of this amount may be in subsidized loans	\$138,500 -No more than \$65,500 of this amount may be in subsidized loans. The aggregate amounts for graduate students include loans for undergraduate study.

Undergraduate certificate programs — Loan limits are based on the length of the program. For certificates that are less than an academic year, the \$9,500 loan limits would be prorated by the lesser fraction of the weeks or credits in the program, divided by the University academic year definition of weeks or credits. Students in undergraduate certificate programs that are greater than an academic year cannot borrow more than the Grade Level 1 loan limits for each academic year. For final academic years less than 24 credits (graduating students in undergraduate degree or certificate programs that are greater than an academic year), loan limits will be prorated based on the number of credits in the final academic year divided by 24. Please note students may also receive less funding if they receive other financial aid used to cover a portion of cost of attendance.

** Graduate and professional students are not eligible to receive Direct Subsidized Loans for loan periods beginning on or after July 1, 2012.*

A student whose parent cannot obtain a PLUS Loan is allowed to borrow additional unsubsidized federal Direct amounts. Student dependency status will be determined based on answers to questions on the FAFSA.

Federal Education Loan Interest Rates and Origination Fees

For information regarding Federal Student Loan Interest Rates and Origination Fees, please visit <http://studentaid.ed.gov/types/loans/interest-rates>

Interest Rate Cap for Military Members

During military service, students who qualify under the Service-members Civil Relief Act may be eligible for 6% interest rate cap on the loans obtained before entering military service. Qualifying students must contact their loan servicer to request this benefit.

In addition, no interest is charged (for a period of no more than 60 months) on Direct Loans first disbursed on or after Oct. 1, 2008, while a borrower is serving on active duty or performing qualifying National Guard duty during a war, other military operation or national emergency, and serving in an area of hostilities qualifying for special pay. Qualifying students should contact their loan servicer for eligibility details and to request this benefit.

Prior Federal Loans and Financial Aid History

Federal financial aid borrowers can check the interest rate, servicer information and other financial aid history via the National Student Loan Data System (NSLDS) at <http://www.nslds.ed.gov/>. Private Student Loans Understand your rights and responsibilities when considering private loan options. Clear and accurate information can help you make informed choices, so you borrow only what you need and can reasonably repay.

The University encourages that private loans be considered only after all federal and state financial aid options are exhausted. Private loans are made through third-party lenders and other financial institutions and are subject to a credit review and individual lender terms and conditions. These loans are not subsidized or guaranteed by the federal government. For more information on the difference between federal and private loans, please visit <http://www.consumerfinance.gov/paying-for-college/choose-a-student-loan/>

Private student loans may be available to both students and parents who are not eligible for federal financial aid or who need assistance beyond their financial aid eligibility. The lender determines eligibility, and amounts are limited to the cost of attendance minus other aid, including discounts and any other resources received. Students may choose to use any eligible lender that offers private

loans. The University does not maintain a list of lenders that offer private loans, nor will it endorse a particular lender. Students who need a focused resource to assist in finding a private loan may choose to use the list of private loan options developed by FinAid at <http://www.finaid.org/loans/privatestudentloans.phtml>

Financial Aid Awarding

For students who have completed all required financial aid materials, the University will evaluate student eligibility for federal, state and institutional aid programs.

If a student is eligible, Student Financial Services — Operations calculates an estimated financial aid award and provides notification to the student. The notification includes eligibility information for each financial aid program awarded, as well as the amount and anticipated disbursement dates. This notification may be electronic. Generally, financial aid awards are divided into two payment periods. Payment periods are based on individual course schedules and follow academic year requirements.

Federal Pell Grant eligibility for an undergraduate student is estimated before originating a Direct Subsidized or Unsubsidized Loan. In addition, a Direct Unsubsidized Loan is not originated without first determining the eligibility for a Direct Subsidized Loan. However, if the amount of the Direct Subsidized Loan is \$200 or less and the amount can be included as part of a Direct Unsubsidized Loan, the University is not required to originate a separate Subsidized Loan.

For a dependent student, the University may originate and disburse Parent PLUS funds without determining Federal Pell Grant and Direct Subsidized Loan eligibility. For a graduate student, the University must determine graduate/professional maximum Direct Unsubsidized Loan eligibility before originating a Graduate/Professional PLUS Loan.

Federal Supplemental Educational Opportunity Grant (FSEOG) eligibility for undergraduate students is determined by the expected family contribution (EFC) for the current award year. Awards are made beginning with the lowest EFC until program funds are obligated.

State grant program eligibility is determined by each state authority. The University is notified of student eligibility by the state authority.

Institutional grant and scholarship eligibility determination will vary.

Schedule Requirements

The University defines its academic year as follows:

- Associate programs are a minimum of 24 credits and 36 weeks of instructional time.
- Bachelor's programs are a minimum of 24 credits and 40 weeks of instructional time.
- Master's programs are a minimum of 24 credits and 48 weeks of instructional time.
- Doctoral programs are a minimum of 24 credits and 48 weeks of instructional time.

Note: The academic year definition may vary based on program level, version and course length.

The academic year begins with the first eligible course of a degree program and ends when a student successfully completes both the credits and weeks of instructional time requirements. An academic year has no calendar time constraints and continues through periods of nonattendance that are less than 180 days until both the credit and weeks requirements are met. A week of instructional time is a week (a consecutive seven-day period) in which one day

of instruction occurs. Instructional time does not include periods of vacation, orientation or homework. An academic year that begins before a previous existing academic year has ended is considered an overlapping academic year.

Students who overlap courses or take courses concurrently may be required to complete additional credits to meet the number of weeks of instructional time required to complete the academic year.

The academic policy of the University prohibits a student from taking more than two courses concurrently without written approval from the Campus Director of Academic Affairs.

Federal regulations prohibit payment for auditing a course or payment for any course for which an assigned grade is not used in computing requirements for graduation. This includes repeats of grades D or better, unless a higher grade is required, withdrawals and courses that are not applicable to the declared degree objective. This does not apply to repeats of required courses that a student has failed.

Advancing Programs Policy

The purpose of this policy is to document the University's treatment and determination of federal financial aid eligibility for students who advance programs (aka finish one program and begin another program) at the University.

If the student begins a new program at the University before the expiration of the prior program's end of program (EOP) academic year, the University will award all federal financial aid to complete the remainder of the prior program's EOP academic year.

Advancing Programs

A student who graduates from one program at the University and begins another program at the University is a student who is advancing programs. Federal financial aid awards for students who advance programs will be based on whether or not the student has begun a new academic year or has an overlapping academic year with the prior program.

New Academic Year

A student who graduates from one program at the University and begins another program after the expiration of the prior program's EOP academic year is a student who is advancing programs with a new academic year.

For these scenarios, the University will award the student all federal financial aid based on a full academic year as defined by the new program of study. (Refer to the Federal Pell Grant — IASG Policy, Direct Loan Policy, and Campus-Based Policy for further information on awarding and the Academic Year Definition Policy for further information on defined academic years.)

Overlapping Academic Years

A student who graduates from one program at the University and begins another program prior to the expiration of the prior program's EOP academic year is a student who is advancing programs with overlapping academic years. If an overlapping academic year exists, the student is required to complete the academic year in terms of both instructional weeks and credits in the prior program. For these scenarios, federal financial aid awards are determined as follows:

FEDERAL PELL GRANT AWARD

A student cannot receive more than his or her scheduled Federal Pell Grant award for a federal award year. (Refer to the Federal Pell Grant — IASG Policy for further information.) When a student has already received a Federal Pell Grant during the same federal

award year, the University determines the percentage of the scheduled Federal Pell Grant award that the student has received in order to calculate the student's remaining eligibility (if any) for a Federal Pell Grant award.

To calculate the student's remaining eligibility, the University uses the following formula:

$$\frac{\text{Pell disbursed in prior program}}{\text{Scheduled award in prior program}} = \frac{\% \text{ of scheduled award used}}{}$$

The University then determines the maximum percentage of the scheduled Federal Pell Grant Award the student may receive in the new program by using the following formula:

$$\frac{(100\% \text{ of scheduled award}) - (\% \text{ of scheduled award used})}{}$$

Maximum % of scheduled Pell award student may receive

When calculating the student's Federal Pell Grant award, the University also ensures the student does not exceed the Pell Lifetime Eligibility Used (Pell LEU).

The remaining Federal Pell Grant award amount is not divided equally across the payment periods in the new program. Instead, the Federal Pell Grant funds may be disbursed in an amount up to the student's remaining eligibility for each payment period, except that no payment period disbursement can exceed 50% of the scheduled annual award.

Federal Pell Grant Example: A student graduates from the AAB program and advances to the BSBA program at the University. It is determined the student's academic year for the AAB program overlaps with the academic year for the BSBA program.

Pell Data from the Prior Program at the University

Scheduled Pell award	\$4,000
Pell award disbursed	\$1,500

The University must now determine the student's remaining Pell Grant eligibility for the federal award year to determine the amount it may actually award to the student.

Pell Calculations by the University

Scheduled Pell award	\$4,000
Percentage of Pell award already used in the prior program (Pell award disbursed / scheduled Pell award)	$\$1,500 / \$4,000 = 37.5\%$
Percentage of remaining Pell eligibility (100% - % used)	$100\% - 37.5\% = 62.5\%$
Student's remaining Federal Pell Award (Scheduled award at University X percentage remaining eligibility)	$\$4,000 \times 62.5\% = \$2,500$

The student's remaining Federal Pell Grant eligibility is \$2,500. Since this amount is more than half of the scheduled Federal Pell Grant award, the award must be disbursed in two payment periods. The student may receive half of the scheduled Federal Pell Grant award in the first payment period as long as the first payment period is half an academic year, and the remainder of the amount in the second payment period. If the first payment period is not at least half an academic year, the Pell is disbursed based on the remaining credits in the academic year.

Pell Disbursements in the New Program at the University

First payment period	\$2,000
Second payment period	\$500

FEDERAL DIRECT LOAN AWARD

The University will award a Direct Loan in the new program for the remainder of the prior program's EOP academic year as long as the student is enrolled at least half-time — i.e., at least six credit hours. (Refer to the Student/Parent Eligibility Policy for further information.) The loan period will cover the remaining credits and weeks of the overlapping academic year. The Direct Loan funds will not exceed the remaining balance of the student's annual loan limit at the loan level associated with the new program.

Direct Loan example: A student graduates from the AAB program and advances to the BSBA program at the University. It is determined the student's academic year for the AAB program overlaps with the academic year for the BSBA program. In the BSBA program, the student is a third-year, independent undergraduate student with a maximum annual Subsidized Loan eligibility of \$5,500 and Unsubsidized Loan eligibility of \$7,000.

Direct Loan Data from the Prior Program at the University

Subsidized Loan disbursed	\$1,688
Unsubsidized Loan disbursed	\$2,250

The University must now determine the student's remaining Subsidized and Unsubsidized Loan eligibility for the overlapping academic year in the BSBA program.

Direct Loan Calculations to Determine Remaining Eligibility for Overlapping AY

Remaining Subsidized Loan eligibility for overlapping AY (Annual Subsidized Loan limit – Subsidized Loan funds already disbursed)	\$1,688
Remaining Unsubsidized Loan Eligibility for Overlapping AY (Annual Unsubsidized Loan limit – Unsubsidized Loan funds already disbursed)	\$2,250

These remaining loan fund amounts will be disbursed based on the payment periods in the loan period at the University. (Refer to the Disbursements Policy for additional information.)

OTHER FEDERAL AID AWARDS

All other federal financial aid, including the Federal Supplemental Opportunity Grant (FSEOG) and Federal TEACH Grant, follow the same awarding process of finishing out the prior program's academic year.

External Transfer Policy

The purpose of this policy is to document the University's treatment and determination of federal financial aid eligibility for students who transfer to the University from another school.

External Transfers

Students who transfer to the University with or without accepted credits and who have overlapping academic years (AYs) with a prior school are referred to as external transfers. An overlapping AY exists if the student begins a program at the University prior to the expiration of the prior school's AY. If the prior school's AY length is less than 30 weeks, the University contacts the prior school to confirm the dates are correct or requests the school correct the dates in common origination and disbursement (COD).

The loan period (LP) — or payment period (PP), in the case of all other federal financial aid — to finish out the overlapping AY begins on the first day of courses at the University and ends on the inherited AY end date of the prior school. If this date falls in the middle of a course at the University, the LP/PP and AY end dates are extended to reflect the end date of the last course on the student's schedule that the student began prior to the inherited AY end date. If the inherited AY end date falls between courses scheduled, the inherited AY end date and the LP/PP end date to finish out the overlap reflects the inherited end date of the prior school. When awarding federal financial aid for the overlapping AY, the University determines the number of credits required to complete the overlapping AY. The student must be enrolled at least half-time — i.e., at least six credit hours in the LP that is finishing out the overlapping AY — in order to be eligible for Direct Loans. (Refer to the Student/Parent Eligibility Policy for additional information.)

The student must successfully complete the required number of credits in order to progress to the next AY and LP. The AY and LP are extended, as needed, until the student earns these credits. Therefore, if the student receives a W or F for courses in the overlap, the end dates of the overlapping AY and LP are extended, as needed, until the student earns these credits. Similarly, if the student receives an I grade or is granted an extension on time to complete coursework, the required number of credits are not successfully earned, and the overlapping AY and LP must be extended.

Federal Pell Grant Award

Students who transfer to the University after receiving a Federal Pell Grant at a previous school during the same award year may receive a Federal Pell Grant only if:

- The student submits a valid SAR to the University; or
- The University obtains a valid ISIR.

A student cannot receive more than his or her scheduled Pell award for a federal award year. (Refer to the Federal Pell Grant — IASG Policy for additional information.) When a student has already received a Federal Pell Grant during the same federal award year, the University determines the percentage of the scheduled Federal Pell Grant award that the student has already received in order to calculate the student's remaining eligibility (if any) for a Federal Pell Grant award.

To calculate the student's remaining eligibility, the University uses the following formula:

$$\frac{\text{Pell disbursed at prior school}}{\text{Scheduled award at prior school}} = \text{ % of scheduled award used}$$

The University then subtracts the percentage of scheduled award used from 100 to calculate the maximum percentage of the scheduled award the student may receive at the University. The University determines the Federal Pell Grant Award the student is eligible for by using the following formula:

$$(\text{Maximum of scheduled award remaining}) \\ \times (\text{Scheduled award at university})$$

$$\text{Maximum Pell award}$$

When calculating the student's Federal Pell Grant award, the University also ensures the student does not exceed the Pell Lifetime Eligibility Used (Pell LEU).

The remaining Federal Pell Grant award amount is not divided equally across the PPs in the new program. Instead, the Federal Pell Grant funds may be disbursed in an amount up to the student's remaining eligibility for each PP, except that no PP disbursement can exceed 50% of the scheduled annual award.

Pell Grant example: A student received a portion of a Federal Pell Grant at a community college, and then transferred to the University during the same federal award year. The community college performed a Return to Title IV (R2T4) calculation and returned a portion of the student's Federal Pell Grant award.

Pell Data from the Community College

Scheduled Pell award	\$3,000
Pell award disbursed	\$1,500
Amount of Pell funds returned due to R2T4 calculation	\$300
Net amount of Pell funds disbursed to student	\$1,200

The University's cost of attendance is higher than the community college, which increases the student's scheduled Federal Pell Grant to \$4,000 for the federal award year. The University must now determine the student's remaining Federal Pell Grant eligibility for the federal award year to determine the amount it may actually award to the student.

Pell Calculations to Determine Remaining Pell Eligibility

Scheduled Pell award at the University	\$4,000
Percentage of Pell award already used (Net Pell disbursed / Scheduled Pell award at prior school)	\$1,200 / \$3,000 = 40%
Percentage of remaining Pell eligibility (100% – Percentage used)	100% – 40% = 60%
Student's remaining Federal Pell Grant Award (Scheduled award at University X Percentage remaining eligibility)	\$4,000 X 60% = \$2,400

The student's remaining Federal Pell Grant eligibility is \$2,400. Since this amount is more than half of the scheduled Federal Pell Grant award, the award must be disbursed in two payment periods. As long as the student's first PP in the new program is at least half of an AY (in both credits and weeks), the student may receive half of the scheduled award in the first PP. If the second PP in the new program falls in the same federal award year, the student will receive the remainder of the Federal Pell Grant amount in the second PP.

Pell Disbursements at the University

First payment period	\$2,000
Second payment period	\$500

FEDERAL DIRECT LOAN AWARD

The loan at the University may not exceed the remaining balance of the student's annual loan limits after the disbursements at the previous school are considered. If the balance of the program is less than an AY, those Direct Loans originated for a single PP are disbursed in two disbursements. (Refer to the Disbursements Policy for additional information.)

Direct Loan example: A student received a portion of a Direct Loan at a community college, and then transferred to the University during the same AY, creating an overlapping AY at the University. When the student transferred, the community college

performed a Return to Title IV (R2T4) calculation and returned a portion of the student's Direct Loan funds. The student is enrolled at the University as a first-year independent undergraduate student with maximum annual Subsidized Loan eligibility of \$3,500 and Unsubsidized Loan eligibility of \$6,000.

Direct Loan Data from the Community College

Subsidized Loan originally disbursed	\$1,750
Subsidized Loan funds returned due to R2T4 calculation	\$0
Net Subsidized Loan funds disbursed	\$1,750
Unsubsidized Loan originally disbursed	\$3,000
Unsubsidized Loan funds returned due to R2T4 calculation	\$1000
Net Unsubsidized Loan funds disbursed	\$2,000

The University must now determine the student's remaining Subsidized and Unsubsidized Loan eligibility for the overlapping AY.

Direct Loan Calculations to Determine Remaining Eligibility for Overlapping AY

Remaining Subsidized Loan eligibility (Annual Subsidized Loan limit – Net Subsidized Loan funds disbursed)	$\$3,500 - \$1,750 = \$1,750$
Remaining Unsubsidized Loan Eligibility (Annual Unsubsidized Loan limit – Net Unsubsidized Loan funds disbursed)	$\$6,000 - \$2,000 = \$4,000$

These remaining loan fund amounts will be disbursed based on the PPs in the LP at the University. (Refer to the Disbursements Policy for additional information.)

OTHER FEDERAL AID AWARDS

All other federal financial aid, including the Federal Supplemental Opportunity Grant (FSEOG) and Federal TEACH Grant, will follow this same awarding process of finishing out the overlapping AY.

Program Changes Policy

The purpose of this policy is to document the University's treatment and determination of federal financial aid eligibility for students who change programs during an open payment period at the University.

Program Changes

Federal regulations require the University to evaluate the federal financial aid award for a student who has changed programs during an open payment period to determine whether or not the student may remain in the same payment period or if the student will be required to begin a new academic year (AY) and payment period. For a student to be considered in the same payment period, all five (5) of the following conditions must be met:

- The student is continuously enrolled at the University.

- The courses in the payment period the student is transferring out of are substantially similar to the courses the student will be taking in the new program, and credits associated with the courses transfer to the new program.
- The payment periods are substantially equal in weeks of instruction and credit hours.
- There are little or no changes in tuition and fee charges associated with the payment period.
- The credits successfully completed and earned in the payment period for the program the student is transferring out of are accepted for credit in the new program.

If All Five Conditions Are Met

If all five (5) conditions are met, the student will remain in the original payment period and AY. However, adjustments to disbursement dates, payment period start and end dates, and the AY end date may be made to address any changes to when the student will complete the required credit hours and weeks of instructional time of the AY.

If All Five Conditions Are Not Met

If all five (5) conditions are not met, the University will perform a Return of Title IV (R2T4) calculation to withdraw the student from the payment period for the program the student is transferring out of and update the program's AY/loan period (LP) accordingly. (Please refer to the Return to Title IV Policy for additional information.)

Once the Return to Title IV (R2T4) calculation has been completed and all required federal aid funds returned as required, the University will package the student for the new program based on a new AY/LP as follows:

FEDERAL PELL GRANT AWARD

If the student is eligible for the Federal Pell Grant, the University must identify the amounts of Federal Pell Grant already received for the federal award year in the program the student transferred out of and determine the percentage of the student's annual scheduled Federal Pell Grant award already used.

To calculate the student's remaining eligibility, the University uses the following formula:

$$\frac{\text{Pell disbursed in prior program}}{\text{Scheduled award in prior program}} = \frac{\% \text{ of scheduled award used}}$$

The University then determines the maximum percentage of the scheduled Federal Pell Grant award the student may receive in the new program by using the following formula:

$$\frac{(100\% \text{ of scheduled award}) - (\% \text{ scheduled award used})}{\text{Maximum % scheduled Pell award student may receive}}$$

When calculating the student's Federal Pell Grant award, the University will also ensure the student does not exceed the Pell Lifetime Eligibility Used (Pell LEU). The remaining Federal Pell Grant award amount is not divided equally across the payment periods in the new program. Instead, the Federal Pell Grant funds may be disbursed in an amount up to the student's remaining eligibility.

for each payment period, except that no payment period disbursement can exceed 50% of the scheduled annual award.

Federal Pell Grant example: A student transfers from the AAB program to the BSBA program at the University and all five conditions are NOT met.

Pell Data from the Prior Program at the University

Scheduled Pell award	\$4,000
Pell award kept as a result of the R2T4 calculation	\$1,500

The University must now determine the student's remaining Pell eligibility for the federal award year to determine the amount it may actually award to the student.

Pell Calculations by the University

Scheduled Pell award	\$4,000
Percentage of Pell award already used in the prior program (Pell award disbursed / Scheduled Pell award)	\$1,500 / \$4,000 = 37.5%
Percentage of remaining Pell eligibility (100% - Percentage used)	100% - 37.5% = 62.5%
Student's remaining Federal Pell award (Scheduled award at University X Percentage remaining eligibility)	\$4,000 X 62.5% = \$2,500

The student's remaining Federal Pell Grant eligibility is \$2,500. Since this amount is more than half of the scheduled Federal Pell Grant award, the award must be disbursed in two payment periods. The student may receive half of the scheduled Federal Pell Grant award in the first payment period, and the remainder of the amount in the second payment period as long as the second payment period falls in the same award year.

Pell Disbursements in the New Program at the University

First payment period	\$2,000
Second payment period	\$500

FEDERAL DIRECT LOAN AWARD

If the student is eligible for the Federal Subsidized and/or Unsubsidized Direct Loan program, the new AY/LP will be a full AY/LP and will be limited to the student's remaining annual loan eligibility if the new program is at least an academic year in length. If the new program is less than an academic year in length or the remaining coursework represents less than an academic year in length, the student's annual loan limit eligibility is the lesser of the remaining annual loan eligibility or the prorated loan eligibility based on credit hours to be completed in the new program.

Federal Direct Loan example: A student transfers from the AAB program to the BSBA program at the University, and all five conditions are NOT met. In the BSBA program, the student is a third-year, independent undergraduate student with a maximum annual Subsidized Loan eligibility of \$5,500 and Unsubsidized Loan eligi-

bility of \$7,000.

Direct Loan Data from the Prior Program at the University

Subsidized Loan disbursed	\$1,688
Unsubsidized Loan disbursed	\$2,250

The University must now determine the student's remaining Subsidized and Unsubsidized Loan eligibility for the overlapping academic year in the BSBA program.

Direct Loan Calculations to Determine Remaining Eligibility for New Loan Period in New Program

Remaining Subsidized Loan Eligibility for New Programs LP (Annual Subsidized Loan limit - Subsidized Loan funds already disbursed)	\$5,500 - \$1,688 = \$3,812
Remaining Unsubsidized Loan Eligibility for New Programs LP (Annual Unsubsidized Loan limit - Unsubsidized Loan funds already disbursed)	\$7,000 - \$2,250 = \$4,750

These remaining loan fund amounts will be disbursed based on the payment periods in the new program's loan period at the University. (Refer to the Disbursements Policy for additional information.)

Program Change After Payment Period Is Completed

If the student changes programs after successfully completing a payment period and prior to starting another payment period, regardless of the five (5) conditions, the University will not perform an R2T4 calculation because the student completed the payment period for which funds were disbursed. Students in these scenarios will remain in the same AY/LP and will be required to complete the remaining credits and weeks of the AY/LP.

Program Change Effective Date

The program change effective date will be the start date of the first course the student will attend in the new program. This is also known as the program begin date.

Program Version Changes

A student enrolled at the University who changes versions of a program is not a student who is changing programs for federal financial aid purposes. Therefore, the University will not reevaluate payment periods for students changing versions of the same program at the University.

Re-entry Policy

Federal regulations require certain procedures take place when a student withdraws from the University and re-enters the same program within 180 days, or withdraws from the University and re-enters after 180 days. The 180-day break is determined by counting the days between the student's official last date of attendance (OLDA) and the course start date when the student returns. This federal financial aid Re-entry policy is separate from the institution's Academic Program Re-entry policy.

Re-entry Within 180 days

When a student withdraws from the University and re-enters within 180 days to the same program at the University, the student remains in the same payment period the student was in when orig-

inally withdrawn.

The cost of attendance (COA) for a student who re-enters within 180 days will reflect the original educational costs associated with the payment period from which the student withdrew.

The student is immediately eligible to receive all federal financial aid funds returned when the student withdrew. The University will take the following actions, if applicable, for a student who re-enters the same program within 180 days:

- Re-disburse federal financial aid that was disbursed and returned under the Return of Title IV (R2T4) provisions.
- Disburse federal financial aid the student was otherwise eligible for that had not yet been disbursed at the time the student withdrew.
- Cancel any overpayments assessed to the student as a result of the prior withdrawal that were disbursed on re-entry.

The student becomes eligible for subsequent federal financial aid payments when the payment period for which he or she was paid is completed.

If the date of a student's return is outside the period for which the loan was originated, the University will extend the original loan period (LP) and originate a new loan. Additionally, if the scheduled date for a second disbursement is outside the period the loan was originated, the University will extend the LP and the date(s) for the second and any subsequent disbursement.

If a student returns to the University within 180 days and before federal financial aid funds are returned due to an R2T4 calculation, the University will not return the funds.

If a student withdrew, had a previous overpayment referred to Debt Resolution Services, and reenters within 180 days, the University will send Debt Resolution Services a fax identifying the student overpayment. The fax will state the overpayment should be made void as the student has returned to the University.

Re-entry Within 180 Days and in a New Federal Award Year

If a student re-enters the University within 180 days and was originally enrolled in a payment period that began and was scheduled to end in one federal award year, but returns after the end of that federal award year, the University will disburse any remaining funds using the original federal award year. The University will follow this process as long as the original federal award year is still open. If the original federal award year is closed and the student is due additional Pell funds from the closed federal award year, the University will request the Pell Grant funds through the COD website.

If the student was originally awarded campus-based funds and the funds are no longer available from the original federal award year, the University may award funds from the current federal award year if funds are available. However, this does not increase the annual maximum campus-based funds award a student may receive.

If the student was awarded Direct Loan (DL) funds and the original federal award year is still open, the University will recover the DL funds from that federal award year. If the original federal award year is closed, the University will award the student remaining DL funds using current federal award year paperwork. However, the original LP dates along with original cost of attendance and expected family contribution will be used to award the remaining DL funds.

Re-entry After 180 days or Re-entry into a Different Program

When a student withdraws from the University and re-enters after 180 days have elapsed or reenters into a different program of study

at any time, the University will award the student based on new payment periods. The length of the program will be the number of credit hours and weeks of instructional time remaining in the program the student re-enters. If the remaining credit hours and weeks of instruction constitute one-half of an academic year (AY) or less, the remaining hours will constitute one payment period.

If the start of the new AY overlaps with a previous AY, meaning the start of the new program begins before the calendar end date of the previous program's AY, prior funds disbursed will be taken into consideration when packaging the student for the new program.

Consortium Agreements

Purpose

Written arrangements consist of consortium and contractual agreements. The purpose of this policy is to document the University's position on participating in consortium agreements with other institutions for the purpose of receiving or processing federal financial aid funds.

Policy

The University chooses to not participate in consortium agreements, defined as written agreements between two or more federal financial aid (Title IV) eligible institutions. Therefore, the University will not provide signature or approval on any consortium agreement submitted, whether as a host or home institution.

Verification

A federal financial aid student may be chosen to participate in the verification process by the U.S. Department of Education Central Processing System. The Central Processing System prints an asterisk next to the expected family contribution (EFC) on the Student Aid Report (SAR) or SAR Acknowledgement to identify the student has been selected for verification.

The purpose of verification is to maintain the integrity of federal financial aid programs by verifying the information provided by students and parents on financial aid applications.

If a student is selected for verification, the University will request the student provide all applicable documentation, which may include, but is not limited to, the following:

- IRS-issued federal tax return transcript(s)
- IRS W-2 form for each source of employment income
- Verification worksheet
- Verification of household member(s) receiving Supplemental Nutrition Assistance
- Program (SNAP) benefits
- Verification of child support paid
- Verification of untaxed income
- Documentation of high school completion
- Government-issued photo identification
 - To comply with 18 USC § 701, the University is unable to make or accept photo copies of military identification cards. Copies of military identification cards will not be accepted.

- Statement of Educational Purpose

Additional documents may be required by the University to complete the verification process. A student will receive written notification from the University of verification requirements, required documentation and the timelines for completion of the process.

The student must return any requested verification documents within 30 days of receiving written notification from the University. If verification documents are not received within this time-frame, the University will cease processing his or her financial aid request.

Applicants selected for verification must complete the process by the federally published deadline, Sept. 26, 2016, or 120 days after

the last day of the student's enrollment, whichever is earlier.

Cost of Attendance Policy

A student's cost of attendance (COA) is established solely for use in calculating federal financial aid eligibility and awarding financial aid, for a specific period of enrollment. The University reviews and, if necessary, updates each component annually, referencing the College Board website at <http://professionals.collegeboard.com/higher-ed> and actual institutional data. The University uses estimated monthly living expenses, and an average cost of tuition, electronic course materials and books. Amounts used in this year's federal cost of attendance (COA) are as follows:

Ground Campuses				
Cost of Attendance Components	Undergraduate Certificate**	Undergraduate Degree	Graduate Certificate**	Graduate Degree
Tuition	\$8,190	\$11,184	\$12,312	\$14,832
rSource & Loan Fees	\$900	\$1,224	\$1,440	\$1,464
Living Expense*	\$10,368	\$12,960	\$15,552	\$15,552
Annual COA	\$19,458	\$25,368	\$21,304	\$31,848

Note: Military is assumed as all active for average weighting of tuition.

**Housing expense for Military Basic Allowance for Housing (BAH) is reduced by 72%. Living expenses include allowances for room and board, transportation and miscellaneous educational expenses.*

***The figures provided for certificate programs are illustrative and based on 18 credits for undergraduate certificates and 24 credits for graduate certificates.*

Online Campus

Cost of Attendance Components	Associate Degree	Undergraduate Certificate**	Undergraduate Degree	Graduate Certificate**	Graduate Degree**	Doctoral Degree
Tuition	\$9,720	\$9,108	\$11,904	\$10,350	\$16,560	\$19,296
rSource & Loan Fees	\$1,176	\$900	\$1,224	\$900	\$1,464	\$1,536
Living Expense*	\$11,664	\$10,368	\$12,960	\$10,368	\$15,552	\$15,552
Annual COA	\$22,560	\$20,376	\$26,088	\$21,618	\$33,576	\$36,384

Note: Military is assumed as all active for average weighting of tuition.

**Housing expense for Military Basic Allowance for Housing (BAH) is reduced by 72%. Living expenses include allowances for room and board, transportation and miscellaneous educational expenses.*

***The figures provided for certificate programs are illustrative and based on 18 credits for undergraduate certificates and 15 credits for graduate certificates.*

For detailed information regarding actual tuition fees for programs and locations, contact a Finance Advisor or visit the tuition and fees calculator web page at http://www.phoenix.edu/tuition_and_financial_options/tuition_and_fees.html

Policy

The University uses an average monthly cost of living expense, based on the following:

- Seven months for certificate-seeking students
- Nine months for associate degree-seeking students
- Ten months for bachelor's degree-seeking students
- Twelve months for graduate students

The University COA consists of the following components:

- Tuition
- Electronic Course Materials and Books (resource fees)
- Living Expense
- Housing
- Transportation
- Miscellaneous (school supplies and personal expenses)
- Loan Fees

If a student is attending less than half-time, the COA is made up of the following components:

- Tuition
- Electronic Course Materials and Books (rSource Fees)

Tuition

Average tuition rates are obtained annually for online programs, and programs for each certificate and degree level. The tuition expense for the COA is an average based on modality and certificate and degree level. The University documents how averages are calculated and makes this information available upon request. Exceptions include professional judgment decisions and elimination of an overaward using actual tuition costs. If a student's period of enrollment is less than a full academic year, costs are adjusted to match the period of enrollment.

Electronic Course Materials and Books

This mandatory fee encompasses course electronic textbooks and electronic materials, the University library, eBook collection, math labs, programming software, the Centers for Math and Writing Excellence, and Phoenix Career Guidance System™.

Living Expense

The monthly living expense component is based on the low budget for a 12-month academic year, as published by the College Board at <http://professionals.collegeboard.com/higher-ed/financial-aid/living-expense>. This is used to calculate a monthly living expense amount used for students of all regions and states. The monthly

living expense is multiplied by the months in the loan period, based on the degree level. Students receiving military housing assistance will have a reduction in living expenses in the amount of the housing allowance.

End of Program Periods

The end of program (EOP) COA is based on the credits required to complete the program and the weeks of instructional time, converted to months, needed to complete those credits. The months are rounded up and multiplied by the monthly living expense amount to determine the EOP COA.

The COA will not increase if a remaining period needs to be extended due to the student failing or withdrawing from a course(s) in the prorated period.

Loan Fees

The University calculates an average loan fee by performing a separate calculation for undergraduate and graduate students.

Incarcerated Students

The COA for incarcerated students is limited to tuition, course material fees, and books and supplies, if required in the program of study. (Refer to the Student/Parent Eligibility Policy for further information.)

Tribal Budget

The University prepares a separate tribal budget for students who receive tribal funding. The tribal budget consists of actual tuition rates for the tuition component and may include a child/dependent care average component obtained from the National Association of Childcare Resource and Referral Agency (NACCRRA). The University averages each childcare type for weekly and hourly cost for each state. Documentation is available for review, upon request.

Minnesota Child Care Budget

For students who are receiving the Minnesota Postsecondary Child Care Grant, the University will add actual childcare costs to the cost of attendance before computing financial need. This amount will be captured in the application process.

Grade-Level Determination

Determination of grade level is an important part of calculating eligibility for federal and state financial aid. The University determines the student's grade level by calculating the total number of credits that have been completed at the beginning of an academic year. For example, a student with 12 transfer credits at the start of his or her program at the University will be considered a grade level 1 student.

After the completion of one academic year of 24 credits, the student will have a total of 36 credits completed, making the student eligible for grade level 2 loans in his or her second academic year.

The following chart illustrates the number of credits required to complete each grade level.

Grade Level	Credits Applied in Primary Program (includes Transfer Credit)
GL 1 (freshman)	0-24
GL 2 (sophomore)	24-48
GL 3 (junior)	49-72

Grade Level	Credits Applied in Primary Program (includes Transfer Credit)
GL 2 (senior)	73+

Note: A student in a two-year program cannot receive more than a grade level 2 (GL 2) annual loan limit in any given year, no matter how long it takes to complete the program. A student in an undergraduate certificate program cannot receive more than a grade level 1 (GL 1) annual loan limit in any given year, no matter how long it takes to complete the undergraduate certificate. For information on academic year definitions, please see the Financial Aid Awarding section.

Conflicting Information

If the University has conflicting information concerning a student's eligibility or has any reason to believe a student's application information is incorrect, the University will resolve such discrepancies before disbursing student financial aid funds. If discrepancies are discovered after disbursing student financial aid funds, the University will reconcile the conflicting information and require the student to repay any funds for which he or she was ineligible. Examples of conflicting information may include, but are not limited to, the following:

- Social Security numbers
- Date of birth
- Legal name
- Discrepant tax data (including whether or not the student/parent was required to file a tax return)
- Household size or marital status
- Citizenship status

Other Resources

Students are required to disclose financial assistance that will be paid by a third party on their behalf. When a portion of a student's cost of attendance is waived or paid by another source, other than federal financial aid, this is considered other resources. Examples of other resources include, but are not limited to, the following:

- External grants and scholarships
- University grants and scholarships
- Tuition assistance
- Military tuition benefits
- University tuition discounts and waivers
- University administration tuition and/or student account adjustments
- Income from insurance programs that pay for the student's education
- Private loans
- Private and state grants
- Tribal aid
- Other financial assistance paid directly to the University

Note: Adjustments to tuition due to an approved leave of absence, early payment discounts and cash payments made by the student will not count as other resources.

A student must have financial need to receive all federal financial aid funds except for Direct Unsubsidized and PLUS Loans under the Direct Loans program. As such, a student's expected family contribution and

other resources will be subtracted from the cost of attendance when determining eligibility for federal financial aid (Title IV). All awards, including need and non-need-based aid, cannot exceed a student's annual cost of attendance.

If the University receives additional other resources that cause the student to exceed the cost of attendance, it will adjust the awards appropriately to eliminate the overaward. This may include reducing future disbursements for a second or subsequent payment period or returning awards to the funding source. Funds will be returned in the order most beneficial to the student.

Satisfactory Academic Progress

Information regarding University academic progress standards for individual programs and information regarding the University's Program and Cumulative Grade Point Average policy may be found under the Academic Policies section of the appropriate University Academic Catalog at <http://www.phoenix.edu/programs/degree-programs/academic-catalog.html>

Satisfactory Academic Progress (SAP) for DVA Education Benefits

To receive Department of Veterans Affairs (DVA) education benefits, a student must maintain satisfactory academic progress (SAP) and conduct. Accordingly, benefits will be terminated for individuals who are disqualified, suspended or expelled from the University.

Academic Probation

Academic probation (AP) shall occur when a grade point average (GPA) falls below acceptable levels for the program. Probation lasts for a period of four consecutive program-applicable courses. Concurrent enrollment is prohibited during the four-course AP sequence.

Associate degree students enrolled at the online campus should continue traditional block scheduling format with concurrent enrollment in two courses (excluding AACR and AAPF). In graduate programs, the four-course sequence excludes any undergraduate prerequisite courses.

Financial aid students will continue to receive funds during the probationary period.

Veteran students will continue to receive DVA education benefits during the probation period. The veteran will be informed of the probation, and a notation to the student DVA file will be recorded when the probationary period commenced.

Academic Disqualification

Academic disqualification (AD) will result if a student fails to clear an academic probation status within four courses from the onset of probation. Veteran students will not be eligible for DVA educational benefits after disqualification. The DVA and student will be notified of the disqualification. To reapply, a formal application for admission must be submitted in accordance with University admission procedures. In addition, applicants should explain the reasons for the scholastic deficiencies; the manner in which the intervening time has been spent; and why they should be given favorable consideration for readmission.

The readmission file will be reviewed by the Student Appeals Center and a decision reached regarding readmission. If approved, the student would be required to complete all program requirements in effect at the time of readmission. An application for DVA education benefits will also be necessary to re-establish benefits with University of Phoenix. If readmission to the University is

approved, please contact your Academic Advisor to determine if your chosen program remains eligible for DVA education benefits.

Federal Financial Aid Satisfactory Academic Progress

Purpose

Federal regulations require institutions to establish a reasonable satisfactory academic progress (SAP) policy for determining whether an otherwise eligible student is meeting SAP in an educational program and may receive financial aid under the Title IV HEA programs. The policy must be as strict as the policy the institution applies to a student who is not receiving federal financial aid under the Title IV HEA programs.

Policy

Students must maintain SAP throughout the duration of their academic program to remain eligible for federal financial aid. SAP is assessed by qualitative and quantitative measures and is evaluated at the end of each completed payment period in the student's academic program.

Qualitative Measure

GRADE POINT AVERAGE

Undergraduate students must have a cumulative program grade point average (GPA) of 2.0 at the end of each completed payment period, unless otherwise defined by academic policy. Graduate students must have a program GPA of 3.0 at the end of each completed payment period.

A student's cumulative program GPA is calculated using only those grades earned at the University for the current program of the student. The program GPA is computed by adding the program applicable cumulative grade quality points earned (calculated by multiplying the credit hours and the weight of the grade earned in the course) and dividing it by the program applicable cumulative total number of credit hours completed.

Courses from which the student withdraws are not included in the program GPA calculation for the qualitative measurement.

Qualitative Exclusions

The following are *excluded* from the qualitative computation:

- Waivers
- National Testing Programs
- Courses with the following grades:
 - In Progress Extension (IX)1 (provided there is no formal grade)
 - Audit (AU)
 - Incomplete (I)
 - In Progress (IP)
 - No Grade Awarded (QC)2
 - Passing (P)
 - Withdrawal (W)
 - Withdrawal/Failing (WF)
 - Waived with Credit (WC)
 - No Credit (NC)
- Orientations with the following completion statuses:
 - Orientation Complete (OC)
 - Orientation Not Complete (ON)
 - Orientation Extension (OX)
- Assessed Credits

Quantitative Measure

Each academic program has a published standard credit load for completion. Pace of completion is automatically evaluated for all periods of attendance at the University, including periods the stu-

dent did not receive federal financial aid.

MAXIMUM TIMEFRAME

The maximum timeframe to complete the program cannot exceed 150% of the published length of the program measured in credit hours attempted for undergraduate and graduate students. Progress is evaluated cumulatively at the completion of each payment period for a student's primary program of study to ensure completion of the program within the 150% maximum timeframe.

If a student cannot complete the program of study within the maximum timeframe (as determined at the end of the payment period), the student will be placed on financial aid disqualification (FD) status without the ability to appeal.

PACE OF COMPLETION

The quantitative measure for the pace of completion is calculated using the following formula:

$$\frac{\text{Cumulative number of credit hours the student successfully completed}}{\text{Cumulative number of credit hours the student attempted}}$$

At the end of each payment period, the student's pace of completion is evaluated. Students must earn at least 67% of the credit hours attempted toward completion of the primary program of study. Credit hours taken at other institutions and accepted toward a student's primary program of study at the University are included in both attempted and completed credit hours when measuring pace of completion.

Courses from which the student withdraws are counted as attempted credit hours when calculating the quantitative measurement of program pace.

INCLUDED IN PACE OF COMPLETION

The following are included as attempted in the pace of completion calculation:

- Courses that are waived with credit (WC)
- Assessed credits
- Withdrawal (W)
- Withdrawal/Failing (WF)
- Courses completed with the following grades: A, B, C, D and F (+/-)
- In progress (IP)
- Incompletes (I, IX and IF)
- No grade awarded (QC)

EVALUATION

The University evaluates SAP for the student's primary program of study, based on a completed payment period (generally, at least 12 credit hours). As a result of the evaluation, a student is assigned a Federal SAP status.

FINANCIAL AID WARNING

Undergraduate students with less than a cumulative 2.0 GPA, or the minimum as stated in policy, and graduate students with less than a 3.0 OR who do not earn 67% of their attempted credits (cumulatively) at the end of a completed payment period, are automatically placed on financial aid warning (FW) status. The University can disburse federal financial aid funds to students on FW status for one payment period.

FINANCIAL AID DISQUALIFICATION

If a student on FW status does not meet SAP at the end of the subsequent completed payment period, the student is not eligible for

additional federal financial aid and will be placed on an FD status. Students who are placed on an FD status are ineligible for federal financial aid.

FINANCIAL AID PROBATION

Students who are granted an appeal will be placed on financial aid probation (FP) status and will have their financial aid eligibility reinstated based on the appeal. The University can disburse federal financial aid funds to students on FP status for one probationary payment period, provided all other eligibility requirements are met. The student must meet the University's SAP standards to maintain federal financial aid eligibility.

STUDENT NOTIFICATION

The University will notify students at any point during their enrollment if they are placed on or taken off the FW, FP, FD or Regular Student (RG) statuses, as these affect student eligibility to receive federal financial aid.

STUDENT FINANCIAL AID APPEALS

Students placed on FD status due to a violation of the qualitative and/or quantitative standards during the financial aid warning period may appeal the disqualification to regain eligibility for federal financial aid. Students may do so by submitting an appeal to the Student Financial Services — Operations Professional Judgment (SFS-OPJ) Team. The SAP-OPJ form is located on the University's financial aid website. If there are unusual circumstances that should be considered during the appeal process, federal financial aid reinstatement may be possible during a financial aid probation period.

Approval and/or reinstatement of federal financial aid eligibility are not guaranteed. The SAP PJ Team reviews all appeals on a case-by-case basis. Approval is only granted when there are significant extenuating circumstances. All decisions made by the SAP PJ Team are final.

The University allows a student to have a maximum of two approved appeals during his or her time at the University. These appeals cannot be consecutive and are only considered if unusual circumstances exist. Examples of unusual circumstances may include, but are not limited to, the following:

- Death of a relative
- An injury or illness of the student
- Other special circumstances

Students must explain in the appeals process why the nature and timing of their unusual circumstance(s) directly prohibited them from maintaining SAP, and what has changed in their situation that would allow them to demonstrate SAP at the next evaluation. If students have more than 12 credits remaining in their program of study, they must demonstrate the ability to graduate within the maximum timeframe allowed and meet the GPA requirements. If students have 12 or less credits remaining, they must demonstrate the ability to complete the remaining credits successfully.

REGAINING ELIGIBILITY AFTER PAYMENT PERIOD OF INELIGIBILITY

A student who is not making SAP regains eligibility only when the student is in compliance with the University's SAP requirements. Therefore, if a student loses eligibility for federal financial aid as a result of not meeting SAP requirements, the student must pay for the ineligible payment period using non-federal financial aid funds. If the student meets all SAP criteria after the ineligible payment period, the student's borrow-based academic year (BBAY) will start at the beginning of the eligible payment period following

the period of ineligibility. The BBAY is packaged for a full 24 credits and 30 weeks of instructional time.

If the ineligible payment period is the second payment period of an academic year/loan period already established, any federal financial aid awarded for the second payment period will be canceled and, if necessary, returned to the funding source.

MAXIMUM TIMEFRAME

If at any time during the evaluation period it is determined a student is not going to complete the program of study within the maximum timeframe of 150% of the length of the educational program, the student becomes ineligible for federal financial aid. This determination cannot be appealed.

TRANSFER CREDITS-QUALITATIVE

A student's program GPA is calculated using only grades earned at the University in courses that are applicable to the program. Therefore, transfer credits do not apply when calculating the student's GPA at the University. Transfer credits include credits for all courses not completed at the University that are applied toward the completion of the student's degree program.

TRANSFER CREDITS-QUANTITATIVE

Credits taken at other institutions and applied toward the student's program/version at the University are included in both attempted and completed hours when measuring the student's pace toward completion. Students who change program VERSIONS at the University will be re-evaluated to determine which credits apply to the new program/version.

PROGRAM CHANGES

Students who change programs at the University are re-evaluated to determine which credits apply to the new program. The student's SAP status will be reset with an effective date of the program change and will be evaluated at the end of each completed payment period in the new program. If the student changes back to a program he or she was previously in, the student's SAP status will reflect the status of the original program.

REPEAT COURSES

Grades for prior attempts are excluded when calculating the qualitative component. However, credits from all attempts are included when assessing if the student meets the quantitative component. Although a student may successfully complete a course more than once, only the first passing grade is counted as a completion when calculating the quantitative component.

CONCURRENT ENROLLMENT

The University evaluates SAP for the primary program based on completed weeks and credits of a payment period, regardless of whether or not the student is enrolled concurrently. All credits completed at the University applicable to the primary program will apply toward the primary program's GPA.

Professional Judgment

The University may exercise discretion to accommodate special circumstances, with respect to some aspects of eligibility, using professional judgment. Professional judgment allows the University to treat a student individually when the student has special circumstances not sufficiently addressed by standard procedures. The University uses professional judgment on a case-by-case basis. Special circumstances will include conditions that differentiate an individual student from a whole class of students. The University will not accept professional judgments made for a student by another school, but will independently review the circumstances and, if appropriate, document the professional judgment decision.

The decision of the University regarding professional judgment is final and cannot be appealed to the U.S. Department of Education. A student should contact a Finance Advisor if interested in submitting a professional judgment request.

Note: The University will complete verification before exercising professional judgment for students who have been selected for verification.

Determining Enrollment at the University

Active enrollment is determined by a student's continuous attendance at the University. A student is considered to be in continuous attendance as long as no more than 14 days exists between academically related activities (ARAs). For exceptions to this 14-day requirement, please refer to Withdrawing from the University. For additional information, please see Academically Related Activities below. Students may have one of the following active enrollment statuses based upon the academic workload for his or her program:

Active Full-Time: The student's required academic workload for his or her program is at least 6 credits for an academic year, the student is actively attending class and the student's official last date of attendance based on ARAs does not exceed 14 days. Institutionally Scheduled Breaks and In Progress Extensions are excluded from the 14 day out of attendance calculation.

Active Less Than Half Time: The student's required academic workload for his or her program amounts to less than the 6 credits for an academic year, as determined by the institution. In addition, the student is actively attending class and student's official last date of attendance based on ARAs does not exceed 14 days. Institutionally Scheduled Breaks and In Progress Extensions are excluded from the 14 day out of attendance calculation.

Academically Related Activities

ARAs are used to determine a student's official last date of attendance and corresponding enrollment status at the University. ARAs are also used to determine the effective date of active and withdrawn enrollment statuses.

The following activities that occur on or after the course start date and on or before the course end date will be considered academically related activities by the University:

- Postings/Messages in a course (online, directed study and online weeks of FlexNet® courses)
- Assignment submissions posted via the online classroom
- Quiz/Exam submissions recorded by the system via the online classroom
- Learning Team acknowledgements via the online classroom
- Physical attendance verified by a signed attendance roster (local campus courses only)

Exception: ARAs will not generate for activities in Audited (AU) courses.

Institutionally Scheduled Break

The University's institutionally scheduled break for the 2015/2016 award year is Dec. 23, 2015 – Jan. 1, 2016.

Course Attendance Policy

Attendance at all scheduled class meetings is required. Students are responsible for scheduling and planning ahead for any absences that may occur during a course to the extent possible. For more information, please see Unexcused Absence Policy.

Online Class Attendance

In order to be in attendance during a week, a student must post at least one (1) message, assignment submission or quiz/exam that is recorded by the system in the online classroom on two (2) separate

days during the online week. Deadlines for attendance are based on Mountain Standard Time. Attendance is tracked automatically in all online courses.

Local Campus Class Attendance

Students must physically attend the local campus workshop meeting during the scheduled class and sign the attendance roster in order to be in attendance. Most local campus courses meet four hours per week.

Directed Study Class Attendance

Attendance in directed study courses is tracked in the same manner for both the local campus and online modalities. A directed study student receives automatic attendance for a class week if she or he posts one (1) message, assignment submission or quiz/exam submission that is recorded by the system in the online classroom during the scheduled class week. Deadlines for attendance are based on Mountain Standard Time. Attendance is tracked automatically in all directed study courses.

FlexNet® Class Attendance

FlexNet® students are in attendance at a local campus workshop if they physically attend the local campus workshop meeting during the scheduled class hours and sign the attendance roster. A FlexNet® student receives automatic attendance for an online class week if she or he posts one (1) message, assignment submission or quiz/exam submission that is recorded by the system in the online classroom on two (2) separate days during the online week. Deadlines for attendance are based on Mountain Standard Time. Attendance is tracked automatically in all online weeks of FlexNet courses.

School of Advanced Studies Class Attendance

In order to be in attendance during a week, a student must post at least one (1) message, assignment submission or quiz/exam submission that is recorded by the system in the online classroom on two (2) separate days during the online week. Deadlines for attendance are based on Mountain Standard Time. Dissertation courses (i.e., DOC 722, DOC 733, etc.) only require one (1) message, assignment submission or quiz/exam submission that is recorded in the online classroom during each workshop week to remain in attendance. Residency courses require daily sign-in on the attendance roster to verify attendance.

Counseling Residency Courses

Online week: Students must post at least one message, assignment submission, or quiz/exam submission that is recorded by the system in the online classroom on two separate days during the online week.

Three day residency: Students must physically attend the face to face workshop meetings during the scheduled class and sign the attendance roster each day.

Unexcused Absence Policy

Attendance is mandatory in all University courses; however, circumstances do occasionally arise which prevent a student from attending class. The University's unexcused absence policy allows unexcused absence(s) to be granted based on the number of workshops within a course (refer to the chart below). An unexcused absence may affect the final course grade due to the missed opportunity to earn participation points. Unexcused absences will result in a Withdrawal (W) or Withdrawal/Failing (WF) grade if students

miss more than the maximum allowed absences.

Number of workshops	Allowed Unexcused Absences	Unexcused Absences resulting in withdrawal (W) grade
1-4	0	1
5-9	1	2
9 (Online Associate)	2	3
10-59	2	3
60+	9	10

Students may submit a request for an excused absence for one of the following reasons with supporting documentation:

- Military deployment
 - Documentation can consist of military orders.
- Extreme serious illness or hospitalization of student or family member
 - Family members for hospitalization or serious illness include: mother, father, spouse, and child.
 - Documentation can include a note from the Doctor or release from the hospital. The documentation does not need to contain specifics of the medical condition and/or injury, etc
- Title IX - Pregnancy and Childbirth
 - A student must be excused for medically necessary absences due to pregnancy, pregnancy-related conditions or childbirth for as long as the doctor deems the absence(s) medically necessary.
 - Documentation can include a note from the doctor, release from the hospital, and any other documentation that would typically be required for other medically necessary absences.
- Death of immediate family member
 - Immediate family members include: father, mother, spouse, domestic partner, child, grandparent, brother, sister, aunt, uncle, father-in-law, mother-in-law, brother-in-law, and sister-in-law.
 - Documentation can consist of a copy of the deceased's obituary.
- Jury Duty
 - Documents can consist of a copy of the jury summons.
- Other extenuating circumstances
 - Students may request an "E" excused absence based on extenuating circumstances, as approved by the University.
 - Natural disaster, inclement weather, or emergency situations which requires campus(es) to cancel classes.

Leave of Absence

Purpose

The University must have a written formal leave of absence (LOA) policy. The University and students must comply with the stated policy as well as governing regulations when requesting, approv-

ing and processing LOAs.

Policy

This policy is applicable to all students enrolled in degree programs at University of Phoenix.

If a student is not actively enrolled in a program, the student is not eligible to apply for a leave of absence.

Students may be approved by the University for multiple LOAs in a 12-month period. The total of all approved LOAs may not exceed 180 calendar days in the 12-month period. During an approved LOA, the student is not considered withdrawn and no Return to Title IV (R2T4) calculation is required for financial aid recipients.

Required Documentation

An LOA may be approved if the University determines there is a reasonable expectation the student will return. Students must follow the University's LOA Policy when requesting an LOA, by providing (on or before the start date of the LOA) a written, signed and dated request, including the reason for the LOA, to the Finance Advisor. All requests will be forwarded to Student Financial Services – Operations (SFS-O).

If unforeseen circumstances prevent a student from providing a request to the campus on or before the start of the LOA, the University may grant the LOA if the campus has documented the reason and decision. The campus must collect the signed LOA request form from the student at a later date and provide it to SFS-O within a reasonable amount of time from the student's last date of attendance. Unforeseen circumstances may include, but are not limited to, medical and family emergencies, military, jury duty, business travel, University course cancellation and/or facility closure, and natural disasters.

If a student is out of attendance due to an unforeseen circumstance and considered an unofficial withdrawal and the campus can document the reason and decision for the LOA prior to the Return of Title IV (R2T4) Calculation being performed, the student will be placed on an approved LOA and no calculation will be required. However, if the student is an unofficial withdrawal and the campus does not document the reason prior to the calculation being performed, the student will be considered an unofficial withdrawal.

An LOA will NOT be approved if a student requests the LOA after 14 consecutive days of nonattendance, is in an unofficial withdrawal (UW) status and the request is not due to unforeseen circumstances that occurred prior to the UW status.

If a student requests an LOA start date in the future and is officially withdrawn, unofficially withdrawn, or administratively withdrawn from the University prior to the start date of the LOA, the LOA is not valid and will be negated.

HEROES Act

The Higher Education Relief Opportunities for Students (HEROES) Act of 2003 was created to ensure students who are receiving federal financial aid are not adversely affected because of their military status, a natural disaster or a national emergency, and to minimize the administrative burden placed on such individuals. If an affected student has difficulty providing a written LOA request because of affected status, a verbal LOA request may be approved. Affected students include those who:

- Are serving on active duty during a war or other military operation, or national emergency
- Are performing qualifying National Guard duty during a war or other military operation, or national emergency

- Reside or are employed in an area that is declared a disaster area by any federal, state or local official in connection with a national emergency

The University will document the decision for granting an approved LOA to an affected student if that student has difficulty providing a written LOA request because of affected status. The documentation will include both the reason for the LOA and the reason for waiving the requirement that the LOA be requested in writing. For additional information, students should contact their Finance Advisor.

Length

In determining the length of the LOA, the LOA start date is the first day of the LOA, and the LOA end date is the day before the start date of the course the student is returning to at the University. The first day of the student's initial LOA is used when determining the start date for the 12-month period. If a student is granted an LOA due to unforeseen circumstances, the beginning date of the approved LOA, as recorded by the student on the LOA form, is the date the student was unable to attend class because of the unforeseen circumstance.

The course start date will cease the LOA day count; however, the University's academic system of record will use an active enrollment status effective date as determined by the date the student posts an academic related activity (ARA) in the course the student returns to at the University. NSLDS Enrollment Reporting will use the standard effective date for an active enrollment (i.e., course start date). A new LOA request form will be required for any additional LOAs.

Note: At the time of the LOA approval, the University will review the LOA dates requested by the student and may adjust those dates based on ARAs, classes scheduled, etc.

Extending an LOA

A student may request an LOA extension as long as the request is made before the scheduled end date. Students must follow the University LOA Policy when requesting the LOA extension, by providing on or before the scheduled end date, a written, signed, and dated request, including the reason for the LOA extension to the Finance Advisor. All requests must be forwarded to Student Financial Services – Operations (SFS-O).

Institutionally Scheduled Breaks

If a student submits an LOA request with a start date being the same day as the start of an institutionally scheduled break or a start date that falls within an institutionally scheduled break, the University will update the LOA start date to the first day after the institutionally scheduled break ends.

If a student's LOA is scheduled to end on or within an institutionally scheduled break, the University will update the LOA return date to the start date of the course that is scheduled to begin after the institutionally scheduled break, as long as the student is registered for a course set to begin when the institutionally scheduled break ends.

If a student's LOA request completely overlaps an institutionally scheduled break, all days of the institutionally scheduled break and the LOA days will count toward the length of the LOA and apply toward the maximum of 180 days in a 12-month period. The University will not allow a student to take two consecutive LOAs separated by an institutionally scheduled break.

Disbursements During an LOA

The University may disburse Pell, IASG and FSEOG funds to a student on an LOA during certain times of the year. Federal financial

aid funds that are part of a credit balance created before a student began an LOA may be paid to a student, since those funds were disbursed before the student went on the LOA.

Completion of Coursework upon Return

If a student takes an approved LOA in the middle of a course, the University must ensure no additional charges are incurred when the student returns. To ensure no additional charges are incurred, the University will issue the student an LOA Credit (LOAC). This LOAC will be applied to the course scheduled after the LOA end date.

Failure to Return

The University will advise the student, prior to granting the LOA, the effect that failure to return from an LOA may have on loan repayment terms, including the expiration of the student's grace period. If a student does not return from an approved LOA, the withdrawal date and beginning of the grace period will be the student's last date of attendance.

If the student reenters, after withdrawing from the University, the previously approved LOA days will count toward the student's LOA maximum of 180 days in a 12-month period.

Financial Aid Disbursements

Federal Funds

A student is eligible to receive the first disbursement of federal financial aid when the University confirms the student is enrolled in courses for the payment period and is eligible to receive the funds. The student becomes eligible to receive a disbursement of federal financial aid for the second payment period when the student successfully completes one-half the weeks of instructional time and earns one-half the credit hours in the defined academic year (AY). Typically, the University disburses funds once the student successfully completes half the credits and weeks of instruction in the current AY, which may consist of more credit hours and weeks of instruction than the defined AY.

First-time, first-year undergraduate borrowers will not have the first installment of the Direct Loan disbursed until 30 calendar days after the program of study academic year begins.

Federal Loans	First Disbursement Eligibility	Second Disbursement Eligibility
Direct First-Time, First-Year Borrower	30 days after academic year or program start date	Successfully completes $\frac{1}{2}$ weeks and credits in academic year or program and has posted attendance for the second payment period
Direct Subsequent Borrower, Parent PLUS, and Graduate/Professional PLUS	10 days after the academic year start date or 10 days after date of certification if the academic year start date is in the past	Successfully completes $\frac{1}{2}$ weeks and credits in academic year or program and has posted attendance for the second payment period

Federal Loans	First Disbursement Eligibility	Second Disbursement Eligibility
Federal Grants		
Pell Grant Iraq Afghanistan Servicemembers Grant (IASG)	10 days from the academic year start date or 10 days from date of certification if the academic year start date is in the past	Successfully completes $\frac{1}{2}$ weeks and credits in academic year or program and has posted attendance for the second payment period
Federal Student Education Opportunity Grant (FSEOG)	10 days from the academic year start date or 10 days from date of certification if the academic year start date is in the past	
Teacher Education Assistance for College and Higher Education (TEACH) Grant Program	10 days after the academic year start date or 10 days after date of certification if the academic year start date is in the past	
State and Institutional Grants	Varies: Dependent on individual state requirements	Varies: Dependent on individual state requirements
Private Loans	Varies: Dependent on individual state requirements	Varies: Dependent on individual state requirements

Application of Funds

Federal financial aid and/or state assistance funds are retained at the time of disbursement to pay allowable academic year or payment period charges owed to the University. Allowable charges are defined as tuition (including independent study and state sales tax) and electronic course material.

Federal financial aid funds may only be used to pay for costs the student incurs for the period for which the federal financial aid funds are provided. However, the University may use current-year federal financial aid funds to satisfy prior award year allowable charges for a total of not more than \$200.

Financial Aid Authorization to Hold Funds

The University may obtain a student (or parent in the case of a PLUS Loan) written, voluntary authorization through the University's financial aid application process to hold a federal financial aid credit balance.

The University does not require or coerce the authorization and notifies the student (or parent in the case of a PLUS Loan) that the authorization may be canceled at any time. If the student (or parent in the case of a PLUS Loan) chooses to cancel the authorization, the cancellation is not retroactive. Funds held for incurred allowable charges and prior year charges prior to the University receiving the

authorization cancellation will remain on account.

At any time, the University will accept a signed statement from a student (or parent in the case of a PLUS Loan), canceling or modifying the authorization initially provided. The Financial Aid Authorization form is available to students on the University's financial aid web (FAW) site.

The University will accept an authorization provided by the student (or parent in the case of a PLUS Loan) orally, rather than in writing if the student (or parent in the case of a PLUS Loan) has been affected by a federally declared natural disaster and is prevented from providing a written authorization based on status.

If a student (or parent in the case of a PLUS Loan) cancels an authorization to apply a federal financial aid credit balance, the funds will be paid directly to the student (or parent in the case of a PLUS Loan, or student if authorized by the parent) as soon as possible, but no later than 14 days after the University receives the notice.

The University automatically holds funds for invoiced allowable charges for the current payment period as well as Direct Loan funds for any prior loan period charges for tuition, electronic course material fees and directed study for a total not to exceed \$200. If both the first and second disbursements are received simultaneously, allowable charges may be withheld for both payment periods provided those charges have been charged to the student account.

Application of Funds

The University applies funds received from a federal financial aid disbursement in the following order:

1. Invoiced and unpaid allowable charges for the current payment period or prior payment period of the loan period;
2. If authorization has been obtained from the student (or parent in the case of a PLUS Loan), future allowable charges in the payment period of the applicable loan period; and
3. Direct Loan funds to any unpaid allowable charges for a prior loan period, not to exceed \$200.

Note: There may be instances where a disbursement of Direct Loan funds is received and there are no current invoiced or future allowable charges on the student's account. In these instances, the University first applies the Direct Loan funds to any unpaid allowable charges for a prior loan period, not to exceed \$200.

Any remaining credit balance funds are disbursed to the student (or parent in the case of a PLUS Loan, or student if authorized by the parent) no later than 14 days after the date the balance occurred on the student's account.

Notwithstanding any authorization, the University pays any remaining balance on loan funds to the student (or parent in the case of a PLUS Loan, or student if authorized by the parent) by the end of the loan period (Refer to the Federal Financial Aid Credit Balance Policy for additional information).

Disbursement for Books and Supplies

Pell-eligible students may use Pell funds to purchase books if those funds could have been disbursed 10 days prior to the beginning of the payment period and disbursed funds would create a federal financial aid credit balance. These students are notified of the University's book voucher request process. If a student requests a book voucher, the student will be provided with the lesser of the amount of the credit balance or the amount needed for the books and supplies, as determined by the University. These funds will be issued to the student no later than the seventh day of the payment period. Students may opt out of this offer by not requesting the book voucher.

Cancellation of Federal Financial Aid

The student (or parent in the case of a Parent PLUS Loan) must inform the University if all or a portion of federal financial aid funds are to be canceled. Once the loan is disbursed, the University sends the student/parent a Right to Cancel letter, which includes the time given to respond should the student and/or parent borrower wish to cancel their loan request(s). This notification is mailed after the loan disbursement has been credited to the student's account. Borrowers who wish to cancel all or a portion of their loan must inform the University within 30 days from the date the University sends the disbursement notification. Any requests received after the 30 days but prior to 110 days will be honored as a partial cancellation based on Title IV funds that are currently unapplied. The University notifies the student/parent in writing of the outcome of his or her request regardless of when the cancellation request is received.

State Funds

A payment period is defined according to individual state requirements. The payment period determines when funds are disbursed and the exact amount to be disbursed.

Federal Financial Aid Counseling

The University ensures loan entrance counseling is conducted using an online counseling module for students borrowing Federal Subsidized/Unsubsidized Loans or PLUS Loans for the first time. A link to the iGrad entrance counseling module is displayed within the online financial aid application process for student borrowers. Entrance counseling generally includes the following:

- An explanation of the use of a Master Promissory Note (MPN)
- Importance of repayment obligation
- Description of consequences of default
- Sample repayment schedules
- Information in reference to a borrower's rights and responsibilities
- Information on the National Student Loan Data System (NSLDS), http://www.nslds.ed.gov/nslds_SA/
- Information on possible loss of eligibility for additional Direct Subsidized Loans
- Information on how a borrower's maximum eligibility period, remaining eligibility period and subsidized usage period are determined
- The potential for a borrower becoming responsible for all accruing interest on Direct Subsidized Loans during in-school periods, grace periods and periods of authorized deferment
- Impact of borrower responsibility for accruing interest on the borrower's total debt
- Other terms and conditions

The goal of entrance counseling is to help the borrower understand what it means to borrow federal student loans.

Federal Direct Loan Exit Counseling

The University notifies students to complete loan exit counseling online at the U.S. Department of Education website (<https://studentloans.gov/myDirectLoan/index.action>) within 30 days of completion of a program, withdrawal from the University or when a student ceases to be enrolled at least half-time. Exit counseling generally includes the following:

- An explanation of the use of a Master Promissory Note (MPN)
- Importance of repayment obligation
- Description of consequences of default

- Sample repayment schedules
- Information in reference to a borrower's rights and responsibilities
- Information on the National Student Loan Data System (NSLDS), http://www.nslds.ed.gov/nslds_SA/
- Information on possible loss of eligibility for additional Direct Subsidized Loans
- Information on how a borrower's maximum eligibility period, remaining eligibility period, and subsidized usage period are determined
- The potential for a borrower becoming responsible for all accruing interest on Direct Subsidized Loans during in-school periods, grace periods and periods of authorized deferment
- Impact of borrower responsibility for accruing interest on the borrower's total debt
- Other terms and conditions

A letter is sent to students advising them of the exit counseling requirement. This letter includes an attachment with all required exit information. The attachment can be found at <http://www.direct.ed.gov/pubs/exitcounselguide.pdf>

Federal Perkins Loan Counseling

Perkins Loans exit counseling is conducted online at the Mapping Your Future Online Counseling website at <http://mappingyourfuture.org/oslc/>. Perkins Loan counseling generally includes the following:

- Importance of repayment obligation
- Explanation of repayment terms
- Consequences of delinquency and default
- Sample repayment schedules
- Information in reference to a borrower's rights and responsibilities
- Other terms and conditions

Federal Teacher Education Assistance for College and Higher Education Grant Counseling

The University ensures initial and subsequent Teacher Education Assistance for College and Higher Education (TEACH) Grant counseling is conducted online at http://www.nslds.ed.gov/nslds_SA/

Within 30 days of learning a TEACH Grant recipient is no longer in attendance, a letter is sent to the recipient advising him or her of the exit counseling requirement. This letter includes an attachment that can be found at <https://teach-ats.ed.gov/ats/images/gen/teachExitCounselingGuide.pdf>

Federal Loan Repayment

Prior Federal Student Loan Deferments (Postponing Payments)

A student who is registered and attending classes at the University can postpone making payments on federal student loans from previous colleges by requesting a deferment from the loan holder or servicer. Return all deferment forms to a Finance Advisor, who forwards the forms to the Registrar's Office for processing. The loan holder or servicer makes the final determination to grant a deferment request.

Students receiving federal student loans may also obtain deferments for several reasons including serving in the Peace Corps, under the Domestic Volunteer Service Act and as a volunteer for a tax-exempt organization of demonstrated effectiveness in the field of community service.

Receiving a deferment is not automatic; therefore, the student or parent(s) must apply for it. Borrowers must formally request a deferment through the procedures established by the holder of their loan(s). Detailed information regarding deferments may be viewed at <http://www2.ed.gov/offices/OSFAP/DirectLoan/postpone.html>

Loan Payment Calculator

Loan payment calculators may be used by students or potential students to calculate monthly payments under the different student loan repayment plans available. The Repayment Estimator at <https://studentloans.gov/myDirectLoan/mobile/repayment/repaymentEstimator.action> allows students to estimate their payment under all available repayment plans.

Sample Standard Repayment Calculator Detail

Loan Amount	\$12,000
Interest Rate	6.80%
Repayment Summary	
Months in Repayment	120
Monthly Payment	\$138
Total Interest Payment	\$4,572
Total Loan Payment	\$16,572

With the standard plan, a fixed payment amount is due each month until loans are paid in full. Monthly repayments will be at least \$50, and have up to 10 years to repay.

Graduated Repayment Detail — 120 months starting at a payment of \$80 and a final monthly payment amount of \$239. Total interest paid would be \$5,832, for a total of \$17,832.

Extended Repayment — Only available for loan amounts greater than \$30,000

Payment amounts under the Pay As You Earn, Income-Based and Income-Contingent repayment plans will be available in the Repayment Estimator after you enter tax filing status, adjusted gross income, family size and state of residence.

Federal Student Loan Consolidation

A Direct Loan consolidation allows a borrower to combine multiple federal student loans into one, which results in one bill, and one lender. It can also lower monthly payments by giving borrowers up to 30 years to repay their loans; however, by increasing the length of the repayment period, you will also make more payments, and pay more in interest. Most federal student loans, including the following, are eligible for consolidation:

- Direct Subsidized Loans
- Direct Unsubsidized Loans
- Subsidized Federal Stafford Loans
- Unsubsidized Federal Stafford Loans
- Direct PLUS Loans
- PLUS Loans from the Federal Family Education Loan (FFEL) Program
- Supplemental Loans for Students (SLS)
- Federal Perkins Loans

- Federal Nursing Loans
- Health Education Assistance Loans
- Some existing consolidation loans

When considering consolidation, it is important to consider the pros and cons. Consolidation could give borrowers access to alternative repayment plans, which they did not have before, and enable them to switch from a variable interest rate loan to a fixed interest rate. Consolidation may also cause borrowers to lose benefits offered with the original loans such as interest rate discounts, principal rebates, or some loan cancellation benefits, which can significantly reduce the cost of repaying loans.

More information regarding loan consolidation is located at <http://studentaid.ed.gov/repay-loans/consolidation>

Federal Student Loan Forgiveness, Cancellation and Discharge

In certain situations, borrowers can have their federal student loans forgiven, canceled or discharged. Below is a list of the type of forgiveness, cancellation and discharges available.

- Total and Permanent Disability Discharge
- Death Discharge
- Discharge in Bankruptcy (in rare cases)
- Closed School Discharge
- False Certification of Student Eligibility or Unauthorized Payment Discharge
- Unpaid Refund Discharge
- Teacher Loan Forgiveness
- Public Service Loan Forgiveness
- Perkins Loan Cancellation and Discharge (includes Teacher Cancellation)

Detailed information on these options is available at <http://studentaid.ed.gov/repay-loans/forgiveness-cancellation>

Veterans Educational Benefits

Students who are entitled to U.S. Department of Veterans Affairs (DVA) education benefits must make initial contact with a campus veterans affairs certifying official. A formal application for admission to the University should be completed before applying for DVA education benefits. Applications for veteran education benefits should be sent to a local campus-certifying official for submission to the DVA.

Each University of Phoenix program segregated by instructional modality (classroom-based or distance education) requires separate State Approving Agency (SAA) approval for the training of veterans or eligible persons. A student should contact a local campus for information on current approvals.

DVA education benefit eligibility and payment rates vary depending on each individual's military history and the educational program being pursued. Only the DVA can determine eligibility of DVA education applications. For information, a student should contact a DVA representative at 888.GI.BILL.1 (888.442.4551) or review <http://www.gibill.va.gov>

Students may need to withdraw from the University and should provide official notification of their intent to withdraw. Withdrawal may impact DVA education benefits for the current course as well as the availability of DVA educational benefits in future courses. Please contact your Academic Advisor to verify program eligibility.

Directed study courses have Defense Activity for Non-Traditional Education Support (DSST-DANTES) approval for tuition reimbursement. For more information on this program, a student

should contact the Educational Service Officer on the military base. University of Phoenix does not participate in the DVA education advanced payment program.

More information about veterans' benefits can be reviewed at http://www.phoenix.edu/colleges_divisions/military.html Visit the Department of Veterans Affairs website, <http://www.gibill.va.gov>, for additional information on educational entitlements.

On April 27, 2012, the President of the United States signed Executive Order 13607, Establishing Principles of Excellence for Educational Institutions Serving Service Members, Veterans/Spouses, and Other Family Members. This executive order addresses key areas relating to federal military and veterans educational benefits programs. Military or affiliated students may qualify for federal assistance or student loans under federal financial aid programs (Title IV). Additional information for military tuition benefits can be viewed at: http://www.phoenix.edu/colleges_divisions/military/military-financial-options.html

Credit for Prior Education and Training

Credit for prior education or training must be evaluated and reported to the U.S. Department of Veterans Affairs (DVA) prior to the start of week 25 of enrollment. The DVA may not always pay DVA education benefits after week 24 if the DVA records indicate the student has a large amount of transfer credits.

Please ensure all prior education transcripts and Joint Services Transcripts (JST) (Army, Navy, Marine), Coast Guard Institute transcripts, or DD-295 and DD-214 forms are submitted for evaluation in a timely manner. The student is responsible for ensuring all transcripts are submitted to the University. Academic credits earned for courses appearing on an official transcript from a regionally accredited or candidate-for-accreditation college or university will be evaluated according to University policies, and accepted subject to the approval of the University Office of Admissions and Evaluation.

Transfer credits based on a different unit of credit than the one prescribed by University of Phoenix are subject to conversion before being transferred. Only the official transcript and course evaluations performed by the University Office of Admissions and Evaluation or Prior Learning Assessment Center are final. Any preliminary reviews by campus personnel are unofficial, not binding and subject to change.

Military Tuition Assistance

To obtain federal military tuition assistance, visit your education or Navy College Office to receive college counseling and develop an education plan. From that point, a student can submit a military tuition assistance request; for more information, visit http://www.phoenix.edu/colleges_divisions/military/military-financial-options/tuition-assistance.html

A student can currently receive 100% of federal tuition assistance from military service, with a \$250 cap per semester hour, and a \$4,500 annual limit. If a student wants to apply for military tuition assistance, that student will need to submit a completed authorization form to a Military Advisor at least two weeks before a course start date.

DVA Tuition Assistance Top-Up Benefit

Active-duty students who request to use the Tuition Assistance Top-Up (TATU) benefit program should direct all questions or concerns to the DVA at 1.888.GI.BILL.1 (1.888.442.4551) or online at <http://www.gibill.va.gov/>

For more information about VA Tuition Assistance and financial

options, go to http://www.phoenix.edu/colleges_divisions/military/military-financial-options/tuition-assistance.html

Readmission of Servicemembers

Any student whose absence from the University is necessitated by reason of service in the uniformed services is entitled to readmission if the following criteria are met:

- The student (or an appropriate officer of the Armed Forces or official of the Department of Defense) gives verbal or written notice to the University's Military Division verifying that the student's absence from the University was necessitated by service in the uniformed services.
- The cumulative length of the absence and of all previous absences from the University by reason of service in the uniformed services does not exceed five years.

Note: A student who submits an application for readmission to the University must provide documentation to establish that the student has not exceeded the specified service limitations and that the student's eligibility for readmission has not been terminated. Examples of documentation to verify that the student is still within the acceptable service limitations include the student's deployment paperwork or a letter from the commanding officer that includes the student's dates of service.

Exception: The University may not delay or attempt to avoid readmission of a student under this section by demanding documentation that does not exist, or is not readily available, at the time of readmission.

- The student submits verbal or written notification of intent to re-enroll.

Note: If the student's last date of attendance with the University is more than 365 days in the past, the student must complete an updated admissions application and Enrollment Agreement in accordance with the University re-entry policy. The Military Division should then submit these completed documents along with the servicemember's readmission form. The student may remain in the original program/version without appeal, provided the cumulative length of absence does not exceed five years and that the program has not been expired.

A student's eligibility for readmission under this section by reason of such student's service in the armed services terminates upon the occurrence of any of the following events:

- A separation of such person from the Armed Forces (including the National Guard and Reserves) with a dishonorable or bad conduct discharge, or
- A dismissal of such person permitted under section 1161(a) of Title 10, USC, or
- A dropping of such person from the roles pursuant to section 1161(b) of Title 10, USC

Note: If the student does not submit a notification of intent to re-enroll within the time limits, the student is subject to the University-established leave of absence policy and general practices.

In addition to the above definition of affected servicemember, the Military Deployment Policies and Procedures will also apply to residents of the state of Iowa who meet the following criteria:

- A student who is an Iowa resident and is a member of the Iowa National Guard or reserve force of the United States who has been ordered to National Guard duty under state authority without such unit being federalized or ordered to Federal active duty, and

- to a student who is an Iowa resident and is the spouse of a member of an Iowa National Guard or reserve force of the United States who has been ordered to National Guard duty under state authority without such unit being federalized or ordered to Federal active duty, provided the member of the Iowa National Guard or reserve force of the United States has a dependent child.

Re-entry Policy for Servicemembers Opportunity Colleges (SOC)

Students out for a period of more than one year, with current, active or prior military experience in the Army, Coast Guard, Marine Corps and Navy are covered under the Servicemembers Opportunity Colleges (SOC) guidelines, and therefore will be permitted to continue in their original program/version of study. These students are required to complete all degree requirements within the graduation deadline period. Students are granted five (5) years to complete an associate degree and seven (7) years to complete an undergraduate degree from the first date of positive attendance with the University. If the student is unable to complete his or her degree requirements within the deadline, the University is not obligated to uphold the agreement of the SOC Degree Network.

Note: A student with a SOC agreement who changes program, major or concentration is required to update to the most current program/version offered in his or her state or jurisdiction. A new SOC agreement will be created for the student when the student is admitted to the new program/version, and the student will be given a new five (5) year (associate) or seven (7) year (undergraduate) timeframe in which to complete the degree.

Student Financial Responsibilities, Policies and Options

Student Financial Responsibilities

The student is responsible to ensure all tuition and electronic course materials fees are paid whether in attendance or not. The student is responsible for knowing the account balance. Student account information is available on the student website. When the student is considered administratively, officially or unofficially withdrawn from his or her program, the University may cancel any federal financial aid in process. The student may receive a refund for or may owe payment to the University depending upon the student's account balance.

Changing Finance Plans

The student can change a finance plan if in compliance with the current finance plan. To change a finance plan, the student must contact a Finance Advisor and complete all necessary documents. All changes must be approved by University of Phoenix to become effective.

Meeting Financial Plan Obligations

Students who primarily attend a physical University of Phoenix campus are subject to finance approval by their primary campus prior to enrolling in a course. Tuition and all applicable fees for each course must be paid according to the terms and conditions outlined in the primary financial option selected on the Student Financial Agreement form. Students who do not comply with the primary financial option term will not be allowed to attend classes. Students are required to be in compliance with University financial policies before grades and transcripts will be issued or the degree awarded.

A student may be administratively withdrawn for failure to make payment in a timely manner, preventing the student from attend-

ing future class sessions, until the amount owed is paid in full or satisfactory payment arrangements are made. All costs of collection, court costs and reasonable attorneys' fees will be added to delinquent accounts collected through third parties. University of Phoenix may obtain a current credit report as needed to support decisions to defer tuition payment or to assist in the collection of amounts owed.

Electronic Course Materials and Books Fees

Electronic course materials and books for each course must be paid at the time they are ordered or in accordance with a student's stated payment option. Electronic course materials fees are nonrefundable, unless prohibited by law. The student who drops a course will be granted access to the electronic course materials for that course without additional charge if the course is retaken within 180 days of the course's original start date.

State Tax

Various states require universities to collect a tax on tuition, fees, digital goods or access to digital information. The University will collect the appropriate tax on tuition, fees and electronic course materials fees charged to the student in these states. Contact a Finance Advisor for the current list of states requiring tax be collected.

Financial Policies

Multiple-Tuition Discount Policy

For instances in which a student may qualify for multiple tuition discounts, the discount that provides the greatest benefit to the student will be applied to the tuition amount.

General Refund Policy

A tuition refund may be granted to those who qualify, based on the state refund policy. A complete list of state refund policies is located in the Academic Catalog and the Consumer Information Guide. All other fees are nonrefundable, unless prohibited by law.

Payment Policies

Payments are accepted on the student website (<https://ecampus.phoenix.edu/portal/portal/public/login.aspx>) by check, credit card or debit card. Finance Advisors can also process credit card or debit card payments. The student can mail a check, certified check or money order payment to the following address:

Apollo Education Group/Corporate Processing
P.O. Box 29887
Phoenix, AZ 85038-9887

If a credit card or a debit card is provided with a completed Authorization to Charge form, tuition and electronic course materials fees will be charged to that card. Automatic payments are set prior to each course upon request.

The University is not responsible for fees or penalties incurred as a result of payment with a debit card or other restrictive payment cards. The student should contact his or her financial institution for account balances, daily transaction limits and other restrictions.

Returned Check Fees

Returned checks will result in an additional processing fee of \$25, unless prohibited by law.

Late Payment Fees

Payments must be made in accordance to the selected finance plan. If tuition payment is not received within the terms and conditions of the selected finance plan, fees up to \$25 will be assessed to the student account, unless otherwise restricted by law. Late fees are due immediately upon invoice.

Notice

The University may report information about student accounts to credit bureaus. Late payments, missed payments or other defaults on student accounts may be reflected in a credit report.

If payment for tuition and electronic course materials fees is not received in accordance with the Student Finance Agreement, the student may be withdrawn from the program and official transcripts withheld.

Financial Options

Understanding and choosing the right finance plan is critical to the successful completion of the student's selected program. University of Phoenix offers a number of finance plan options to assist the student in managing financial obligations. The student can utilize one or more of the plans listed below, depending on personal circumstances. For more detailed information regarding actual tuition fees for programs and locations, visit the tuition and fees calculator web page at http://www.phoenix.edu/tuition_and_financial_options/tuition_and_fees.html or contact a Finance Advisor with any questions regarding financial options and scholarships.

Cash Plan

The Cash Plan requires all tuition and electronic course materials fees to be paid in full prior to the start of each course. For more information, please visit http://www.phoenix.edu/tuition_and_financial_options/financial_options/cash-plan.html

Federal Financial Aid Plan

The Federal Financial Aid Plan is available to students receiving federal grants, federal loans or both to pay for tuition in an eligible degree or a certificate program. To learn more, please visit http://www.phoenix.edu/tuition_and_financial_options/financial_options/federal_financial_aid.html

Military or Government Billing Plan

Under the Military or Government Billing Plan, University of Phoenix directly bills the military or other government agency for a student's tuition. For more information, please visit http://www.phoenix.edu/colleges_divisions/military/military-financial-options.html

Third-Party Billing Plan

Under the Third-Party Billing Plan, University of Phoenix directly bills an approved employer for a student's tuition. To learn more, please visit http://www.phoenix.edu/tuition_and_financial_options/financial_options/third_party_billing.html

Tuition Deferral Plan

The Tuition Deferral Plan is available for students whose employers offer to repay some or all of their employees' tuition. The plan is also available to students receiving benefits from the U.S. Department of Veterans Affairs or U.S. Department of Defense. For more information, please visit http://www.phoenix.edu/tuition_and_financial_options/financial_options/tuition-deferral-plan.html

Tribal Funding

Several American Indian tribal nations provide funding for the tuition of a student who is a recognized member. For more information, please contact tribalrelations2@phoenix.edu

Withdrawing from the University

Circumstances may necessitate withdrawal from the University. A student who received, or is eligible to receive federal financial aid funds provided certain criteria are met, and subsequently officially

or unofficially withdraws is subject to a Return of Title IV (R2T4) Calculation as required by federal regulations.

Official Withdrawals

There are two ways a student can provide official notification of the intent to withdraw from the University to be considered an official withdrawal:

1. Complete the self-service Official Withdrawal automated process via the University student website at <https://ecampus.phoenix.edu/portal/portal/public/login.aspx>, through the Program tab.
2. Notify the designated campus offices of Enrollment Services, Academic Services and Financial Services.

Withdrawal Date

The withdrawal date for an official withdrawal is the last date of academic attendance or attendance of an academically related activity (ARA) determined from University attendance records. This date is always earlier than or equal to the date the student notifies the University of his or her withdrawal.

Date of Determination

The date of determination (DOD) for students who officially withdraw from the University is the latter of the student's withdrawal date or the date of notification. The University will return the amount of federal financial aid for which it is responsible no later than 45 days after the date the University determines the student has withdrawn. (See Return of Federal Financial Aid for additional information.)

Rescission of Official Withdrawal

Students who rescind their intent to withdraw must provide an electronic or written statement to the University stating their intent to participate in ARAs and complete the payment period.

Students may rescind the intent to withdraw by completing the Official Withdrawal Rescind request via the University eCampus website. Rescissions may be requested up until the time a Return of Title IV (R2T4) calculation has been completed. The student may also submit an electronic or written statement to the University stating his or her intent to return to the University, remain in academic attendance and continue to participate in ARAs through the end of the payment period.

If the student subsequently withdraws after rescinding the intent to withdraw, the withdrawal date is the last date of academic attendance or academically related activity determined from University attendance records.

The DOD for students who rescind their intent to withdraw and subsequently withdraw from the University, without official notification, is no greater than 15 days after the student's official last date of academic attendance or attendance at an academically related activity.

Unofficial Withdrawals

Students who do not provide official notification to the University of their intent to withdraw are considered unofficial withdrawals (UWs) after 14 days of consecutive nonattendance in an ARA.

Exceptions

The University allows the following exceptions when counting the 14 days of consecutive nonattendance in an ARA:

I Grades — If a student is granted an extension of the course he or she is currently attending and the intent is to complete the course, the days in the extension period will not count toward the 14 days of consecutive nonattendance in an ARA. During this time, a student in an extension period will remain in active status. An extension of the course is indicated by the issuance of an I (Incomplete),

IP (In Process) or IX (In Progress Extension) grade.

Institutionally Scheduled Breaks — Students on institutionally scheduled breaks will not have the days of the break count toward the 14 days of consecutive nonattendance at an academically related activity. The following are different types of institutionally scheduled breaks at the University:

- Holidays
- Inclement Weather
- Administrative

Withdrawal Date

The withdrawal date for students who cease attendance at the University, including a student who does not return from an approved leave of absence, is the last date of academic attendance or attendance in an ARA determined from University attendance records. In the case of a student who has received an approved leave of absence, the University will review the student record on or after the original approved return date. The University review determines if the student reentered as scheduled, or did not reenter as scheduled and must be withdrawn for the purposes of the Return of Title IV (R2T4) calculation and deferment processing.

Date of Determination

The DOD for students who unofficially withdraw from the University is no greater than 15 days after the official last date of attendance; or when a student fails to return from an approved leave of absence. Students granted an extension (I, IX, IP grades) have the period of the extension excluded when counting the 14 days of consecutive nonattendance. For example, if the student was out of attendance (OOA) for 5 days prior to the extension, once the extension is completed the days continue to count from day 6 until the next ARA posts. If the student does not post an ARA, then at 14 days (excluding the extension period) the DOD will populate. The University will return the amount of federal financial aid funds for which it is responsible no later than 45 days after the date the University determines the student has withdrawn.

Administrative Withdrawals

Students who are withdrawn from the University for failure to meet admission, academic, candidacy, financial or code of conduct policies are considered administrative withdrawals (AWs).

Withdrawal Date

The withdrawal date for students who are AW is the last date of academic attendance or attendance in an ARA that occurred prior to the decision to administratively withdraw the student.

Date of Determination

The DOD for students who are AW from the University is the date the University determines the withdrawal. The University will return the amount of federal financial aid for which it is responsible no later than 45 days after the date of the AW.

Academic Related Activities That Occur During an Institutionally Scheduled Break

The University does not recognize any ARA that occurs during an institutionally scheduled break as attendance for federal financial aid purposes only.

Withdrawal Date

If a student posts an ARA during an institutionally scheduled break, the University will look for the most recent ARA that occurred prior to the start of the institutionally scheduled break. This date will be used as the withdrawal date for Title IV purposes.

Date of Determination

The DOD for students who post ARAs during an institutionally

scheduled break will be no greater than 15 days after the end date of the institutionally scheduled break.

For example: A student attends class on December 19th. An institutionally scheduled break occurs December 20 – January 4. The student posts an ARA on December 29th, which is during the scheduled break. The DOD is January 19th (the 15th day after the end date of the institutionally scheduled break).

Return of Federal Financial Aid

A federal financial aid (Title IV) recipient who withdraws from the University is subject to a Return of Title IV (R2T4) calculation. For the purpose of R2T4 calculation requirements, a recipient is a student who has actually received federal financial aid funds or has met the conditions that entitled the student to a late disbursement of federal financial aid funds. The University is required to review the amount of federal loan and grant aid a student received for the payment period, to determine what percentage of federal financial aid the student earned prior to withdrawal. The percentage of federal financial aid determined to be unearned for the payment period must be returned to the appropriate federal financial aid program(s).

Policy

When a federal financial aid recipient withdraws from the University prior to the end of a payment period, an R2T4 calculation must be performed to determine the amount of federal financial aid funds earned as of the date of withdrawal. If the total amount of federal financial aid funds earned is less than the amount of federal financial aid funds disbursed to the student or on behalf of the student in the case of a parent PLUS Loan, the difference between these amounts is returned to the applicable federal financial aid programs. If federal financial aid funds earned is greater than federal financial aid funds disbursed, the difference between these amounts is treated as a post withdrawal disbursement. An R2T4 calculation is not performed if the federal financial aid recipient withdraws after successfully completing the payment period and all funds awarded for that period have been disbursed.

Return Calculation

The amount of federal financial aid earned is calculated by determining the percentage of aid earned and applying this percentage to the total amount of aid disbursed and that could have been disbursed for the payment period. The payment period is defined as the period of time it takes the student to complete at least one-half of the weeks and credits in the student's academic year. For purposes of determining earned federal financial aid, a student's aid is considered disbursed if it is disbursed as of the student's last date of attendance. As long as conditions for a late disbursement (described below) are met prior to the date the student became ineligible (the student's last date of attendance), any undisbursed federal financial aid will be counted as aid that could have been disbursed.

Conditions for a Late Disbursement (Including Post Withdrawal Disbursements)

- The Department of Education (ED) processed a Student Aid Report (SAR) or Institutional Student
- Information Record (ISIR) with an official Expected Family Contribution (EFC) for the student (except in the case of a parent PLUS Loan)
- The University originated a Direct Loan (DL)
- The University made the award to the student for a Federal Perkins Loan or Federal Supplemental Educational Opportunity Grant (FSEOG)

- The University originated the award to the student for the TEACH Grant program.
The University does not include as a post-withdrawal disbursement any funds the University was prohibited from disbursing on or before the date the student withdrew, which would apply to the following:
 - Second or subsequent disbursements of DL funds unless the student has graduated or successfully completed the loan period.
 - Second disbursements of DL for the period that the University is prohibited from making until the student successfully completes one-half of the weeks of instructional time and one-half the credit hours in the academic year.
 - Disbursements of DL or Perkins Loan funds for which the borrower has not signed a promissory note.
 - Disbursements of Federal Pell Grant, Iraq Afghanistan Service Grant and TEACH Grant funds to a student for whom the University did not receive a valid SAR or a valid ISIR by the deadline date established by the Secretary in the Federal Register.
 - Federal Pell Grant, Iraq Afghanistan Service Grant and TEACH Grant funds for a subsequent payment period when the student has not successfully completed the earlier payment period for which the student has already been paid.
 - Disbursements of DL funds to a first-year, first-time borrower who withdraws before the 30th day of the student's program of study.

Inadvertent Overpayments

An inadvertent overpayment occurs when the University disburses funds to a student no longer in attendance but prior to the date the University determines the student withdrew from the program. This would include any federal financial aid fund disbursements made after the student's last date of attendance but prior to the University's determination that the student was withdrawn. These inadvertent overpayments are included in the R2T4 calculation as aid that could have been disbursed.

Only students who meet late disbursement criteria are entitled to keep federal financial aid funds disbursed as an inadvertent overpayment. If an inadvertent overpayment cannot be made as a late disbursement, the University returns the entire amount of the federal financial aid funds disbursed. If the inadvertent overpayment can be made as a late disbursement, the University returns only the unearned portion of the inadvertent overpayment within 45 days of the University's date of determination that the student withdrew. Unearned inadvertent overpayments are returned according to the requirements for the return of unearned funds.

Verification and the Return Calculation

If a student provides required verification documents after withdrawing from the University, but within 30 days of the date of the notification informing the student of the requirements, and in time for the University to meet the 30-day Return deadline, the University performs the R2T4 calculation based on all federal financial aid the student had established eligibility for prior to the withdrawal. For the Federal Pell Grant Program, if the student provides the verification documents after the 30-day deadline but before the earlier of 120 days after the student's last date of attendance or the deadline established by ED each award year, the University reviews and addresses eligibility as required.

If a student does not provide all verification documents in time for the University to complete verification and meet the R2T4 deadlines, the University includes in the R2T4 calculation only the fed-

eral financial aid that was not subject to verification (unsubsidized and PLUS Loan funds) and for which the conditions of a late disbursement were met prior to the withdrawal.

Institutionally Scheduled Breaks

Institutionally scheduled breaks of five or more consecutive days are excluded from the R2T4 calculation. This includes all holiday, inclement weather and administrative breaks of five or more consecutive days.

When Funds Are Disbursed Using Different Payment Periods

When the University disburses different types of aid using different payment periods, e.g., one payment period for disbursing grant funds and another payment period for disbursing DL, only one payment period is used in determining earned funds. The payment period ending later is used for the R2T4 calculation.

Percentage of Federal Financial Aid Earned

The calculation of Percentage of Federal Financial Aid Earned includes all financial aid disbursed or that could have been disbursed to a student. This percentage is equal to the percentage of the payment period completed by the student as of the student's last date of attendance in the payment period. This percentage is determined using the University's rate of progression calculation.

If the student withdraws after successfully completing the payment period, 100% of the federal financial aid funds are earned and no calculation is required. If the withdraw date occurs after the student completes more than 60% of the payment period, the student earns 100% of the federal financial aid funds.

Rate of Progression Calculation

The percentage of the period completed is calculated as follows:

Number of calendar days completed in the payment period

Total number of calendar days in the payment period

Total Calendar Days Completed in the Payment Period

The total number of calendar days completed in the payment period (numerator) is the count of calendar days from the payment period start date to the student's last date of attendance.

Required Adjustments to Calendar Days Completed in the Payment Period

Calendar days are removed from calendar days completed in the payment period if any of the following occurred between the payment period start date and the student's last date of attendance:

- Institutionally scheduled breaks of five (5) consecutive calendar days or more
 - Holidays
 - Inclement weather
 - Administrative
- Student scheduled or selected breaks of five (5) consecutive calendar days or more between courses
- All approved Leave of Absence calendar days
- Unapproved breaks of less than 180 days

Total Calendar Days in the Payment Period

The total number of calendar days in a payment period (denominator) is determined based upon the number and type (credential level and modality) of credits awarded in the payment period.

Required Adjustments to Calendar Days in the Payment Period

Additional calendar days will be added to the payment period for unsuccessful course(s) completions with grades of I, IX, IP, QC, F or W that occurred in a course prior to the course the student's last date of attendance occurs within.

If the payment period needs to be extended, it is extended by a defined number of days based upon the following credential levels and modalities:

- Associate Program (9-week courses) — 63 days if one or two courses are needed, 126 days if three or four courses are needed
- Associate Program (5-week courses online) — 35 days if one course is needed, 70 days if two courses are needed, 105 days if three courses are needed, etc.
- Associate Program (5-week courses ground) — 29 days if one course is needed, 58 days if two courses are needed, 87 days if three courses are needed, etc.
- Bachelor's Program Online — 35 days if one course is needed, 70 days if two courses are needed, 105 days if three courses are needed, etc.
- Bachelor's Program Ground — 29 days if one course is needed, 58 days if two courses are needed, 87 days if three courses are needed, etc.
- Master's/Doctoral Program Online — 42 days if one course is needed, 84 days if two courses are needed, 126 days if three courses are needed, etc.
- Master's/Doctoral Program Ground — 36 days if one course is needed, 72 days if two courses are needed, etc.

Note: Additional calendar days are NOT added for the course(s) in which the student's official last date of attendance falls within. This includes any course(s) the student was enrolled in, but did not complete at the time of withdrawal.

Calendar days are removed from the calendar days in the payment period if any of the following occurred or is scheduled to occur from the payment period start date to the payment period end date:

- Institutionally scheduled holiday breaks of five (5) consecutive calendar days or more
- Student scheduled or selected breaks of five (5) consecutive calendar days or more between courses
- All approved Leave of Absence calendar days
- Periods of non-enrollment of five (5) consecutive calendar days or more due to administrative and inclement weather closures
- Unapproved breaks of less than 180 days

Rate of Progression Examples

The following examples illustrate the rate of progression calculation outlined above. The figures provided are examples only; actual amounts may vary for each student.

Bachelor's Program Online

Last date of attendance is 07/15/20XX. Payment Period is 06/07/20XX to 10/24/20XX.

Course Schedule

Course ID	Credits	Start Date	End Date	Instructor	Grade
Course #1	3.0	06/07/20XX	07/11/20XX	SMITH	W
Course #2	3.0	07/12/XX	08/15/20XX	JONES	
Course #3	3.0	08/16/20XX	09/19/20XX	JOHN-SON	
Course #4	3.0	09/20/20XX	10/24/20XX	BROWN	

Rate of Progression Calculation

39 (Number of calendar days completed in the payment period)

175 (Total number of calendar days in the payment period)

The percentage of the payment period completed = 22.28%

Days Completed	Total Days	Percentage of Payment Period Completed	Federal Financial Aid Disbursed for the Payment Period	Disbursed Financial Aid Earned*
39	175	22.28%	\$12,500	\$2,785

* Estimate for illustrative purposes only

Title IV Credit Balance and the Return Calculation

A Title IV credit balance created during the period is not released to the student nor returned to federal financial aid programs prior to performing the R2T4 calculation. The University holds these funds even if, under the 14-day credit balance payment requirements, funds are otherwise required to be released.

In the R2T4 calculation, the University includes any federal financial aid credit balance as disbursed aid. Although not included in the R2T4 calculation, any federal financial aid credit balance from a prior payment period in the academic year that remains on a student's account when the student withdraws is included as federal financial aid funds for purposes of determining the amount of any final federal financial aid credit balance when a student withdraws. Upon application of any applicable refund policies, a federal financial aid credit balance is allocated first to repay grant overpayments owed by the student as result of the current withdrawal.

Within 14 days of the date that the University performs the R2T4 calculation, the University pays any remaining federal financial aid credit balance in one or more of the following ways:

- Pay authorized charges at the University
- To the student (or parent for a PLUS loan)

The University applies its own refund policy before allocating a federal financial aid credit balance. However, the University does

not actually complete the refund process before completing the steps for allocating the federal financial aid credit balance.

If the University is unable to locate the student (or parent) when attempting to pay a credit balance, it returns the funds to federal financial aid programs.

Return of Unearned Aid

In the R2T4 calculation, the total Amount Disbursed plus Amount that Could Have Been Disbursed to the student or on the student's behalf, minus the Amount of Federal Financial Aid Earned by the Student determines the amount of federal financial aid funds unearned and required to be returned to the funding source.

When a return of federal financial aid is required, the University and the student may both need to return funds. The University returns the lesser of the following amount to the appropriate federal financial aid program(s):

- The total amount of unearned aid; or
- The amount equal to the total University charges incurred by the student for the payment period multiplied by the percentage of unearned aid.

University (institutional) charges incurred by the student include tuition, fees, books and directed study (including state sales tax) initially assessed the student for the entire payment period. Initial charges are only adjusted for changes the University makes prior to the student's withdrawal. The amounts of institutional charges included in the R2T4 calculation are those charged or anticipated to be charged to the student's account. Although institutional charges may not have actually been charged due to the student's withdrawal, the University uses the actual charges to date, to include full tuition, fees, books and directed study (including sales tax) for each course in the payment period, and estimate remaining charges based on the students' primary campus. Institutional charges include all invoiced and scheduled charges, as well as any adjustments made to correct these charges, that occur prior to the beginning of the course from which the student withdrew.

Tuition waivers for military students and Campus Footprint initiative are not counted as Estimated Financial Aid (EFA) and will be subtracted from institutional charges in the R2T4 calculation.

If after the student withdraws, the University changes the amount of institutional charges it assessed, or decides to eliminate all institutional charges, those changes do not impact the charges or aid earned in the calculation.

The University returns federal financial aid funds to programs in the following order up to the net amount disbursed from each:

- Unsubsidized FFEL/Direct Unsubsidized Loan
- Subsidized FFEL/Direct Subsidized Loan
- Federal Perkins Loans
- Federal Direct PLUS (Graduate Student)
- Federal Direct PLUS (Parent of Dependent Student)
- Federal Pell Grants
- FSEOG
- TEACH Grants
- Iraq & Afghanistan Service Grant (IASG)

After the University allocates its portion of unearned funds, the student must return federal financial aid owed in the same order specified above for the University. The amount of federal financial aid the student is responsible for returning is calculated by subtracting the amount returned by the University from the total amount of unearned federal financial aid funds to be returned.

The student (or parent in the case of funds due to a parent PLUS Loan) must return or repay, as appropriate, the calculated amount

to any federal financial aid loan program in accordance with the terms of the loan; and any federal financial aid grant program as an overpayment of the grant. The amount of a grant overpayment due from a student is limited to the amount by which the original grant overpayment exceeds one-half of the total federal financial aid grant funds received by the student.

The University may round final repayment amounts, for which the University and student are responsible, to the nearest dollar.

Timelines for Return of Funds

The University completes a student's R2T4 calculation within 30 days of the University's date of determination. The University returns the amount of federal financial aid funds for which it is responsible as soon as possible but no later than 45 days after the date the University determines the student has withdrawn.

Deceased Student

If the University receives reliable information indicating an individual borrower or student for whom a parent received a PLUS Loan dies, the University suspends further awarding and disbursements. An original or certified copy of the death certificate or accurate and complete photocopy of the original or certified copy of the death certificate is requested and forwarded to the Secretary of Education (Secretary). Under exceptional circumstances and on a case-by-case basis, the Secretary may approve a discharge based upon other reliable documentation supporting the discharge request.

DETERMINATION OF WITHDRAWAL OF A DECEASED STUDENT

The withdrawal date for a deceased student is the last date of academic attendance or attendance at an ARA determined from University attendance records. The date of determination is the date the University becomes aware of the student's death. (Refer to Withdrawing from the University for further information.)

RETURN OF TITLE IV FUNDS FOR A DECEASED STUDENT

The amount of federal financial aid funds earned by the student is calculated according to the Return of Title IV Funds (R2T4) calculation. If the calculation indicates the amount of funds earned is less than the amount disbursed to the student, or on behalf of the student in the case of a PLUS Loan, the difference between these amounts is returned to the appropriate federal financial aid programs. The University does not report grant overpayments for

deceased students to NSLDS or refer a grant overpayment to Debt Resolution Services, as the student's estate is not required to return any federal financial aid funds.

The following represents procedures the University follows if a credit balance of federal financial aid funds, created from funds disbursed before the death of the student, exists after the completion of the R2T4 and the University's refund calculations:

- Pay authorized charges owed to the University.
- Return any federal financial aid grant overpayments owed by the student for previous withdrawals from the University.
- Return any remaining credit balance to the federal financial aid programs.

If the University previously referred a grant overpayment to Debt Resolution Services, documentation will be forwarded by the University indicating the student is deceased. Based on this information and documentation, Debt Resolution Services will remove the overpayment from the student's records.

Although the student may be eligible to receive a post withdrawal or late disbursement, the University is prohibited by federal financial aid Title IV regulations from further disbursements and will therefore not request additional funds from federal financial aid programs nor send out a post withdrawal letter.

Tuition Refund Policy

Institutional

The following provisions pertain to all refund policies applied by the University unless specifically stated otherwise. When a student begins a program under Registered (R) status, pending the completion of the student admission file, and is subsequently denied admission, the student is eligible for a full tuition refund. The University does not refund tuition for any completed course. A tuition refund can be requested in writing from a local campus.

Students who withdraw from a course prior to the start date will receive a 100% refund for that course. Students who have completed 60% or less of the course are eligible for a pro-rata refund. The pro-rata refund percentage will be calculated by dividing the number of weeks remaining by the total number of weeks in the course.*

Here are a few examples of common course lengths:

Weeks Attended	Refund for 5-Week Course	Refund for 6-Week Course	Refund for 7-Week Course	Refund for 9-Week Course
1 Week	80% Refund	83% Refund	86% Refund	89% Refund
2 Weeks	60% Refund	67% Refund	71% Refund	78% Refund
3 Weeks	40% Refund	50% Refund	57% Refund	67% Refund
4 Weeks	No Refund	No Refund	43% Refund	56% Refund
5 Weeks			No Refund	44% Refund
6 Weeks				No Refund

* Attendance for doctoral residency is submitted after the student has attended and completed all days in the residency.

State

If a student attends a class in one of these states, the specific state refund policy will be applied in addition to the University Institutional Refund Policy. In the event that there is a conflict in the policies, the state policy will supersede the general University policy, unless the University policy is better for the student's situation. These policies are outlined below.

Arizona

Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement. Otherwise, students in Arizona will have tuition refunded using the University Institutional Refund Policy.

California

Students in the state of California will have tuition refunded using the University Institutional Refund Policy with the following exception:

- Students have the right to cancel the Enrollment Agreement and obtain a refund of charges paid through attendance at the first class session or the seventh day after enrollment, whichever is later.
- To cancel enrollment, the student must submit a written request postmarked on or before the applicable time period to the campus director of finance at the appropriate address listed below:
 - Refund Administrative address for students attending any of the five California Campuses (Southern California, San Diego, Bay Area, Central Valley and Sacramento Valley)

University of Phoenix
3090 Bristol Street
Costa Mesa, CA 92626

- Refund Administrative address for California residents attending Online

University of Phoenix
4035 S. Riverpoint Pkwy
Phoenix, AZ 85040

Florida

Students in the state of Florida will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement.
- The University will retain \$45 of the application fee for students who withdraw from the University prior to the start of their program and after the three-day cancellation period.
- Refunds will be paid within 30 days of a student's official withdrawal.

Georgia

Students in Georgia will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement.

- Students providing written notification of withdrawal prior to the first class session or who have been out of attendance for more than 14 days will receive a full refund of tuition paid for the unattended course.
- Refunds are paid within 30 days of a student's official withdrawal.
- A student who is out of attendance for more than 14 days is considered withdrawn from the course.

Indiana

Indiana has established refund policies that differ from the University Institutional Refund Policy. If a student attends a class in Indiana, the state's refund policy will be applied. The University must make the proper refund no later than 31 days after the request for cancellation or withdrawal.

A student is entitled to a full refund if one or more of the following criteria are met:

- The student cancels the Enrollment Agreement within six business days after signing.
- The student does not meet the University minimum admission requirements.
- The student's enrollment was procured as a result of a misrepresentation in the written materials utilized by the University.

If the student has not visited the University prior to enrollment and, upon touring the University or attending the regularly scheduled orientation or classes, the student withdrew from the program within three days, he or she will not have a financial obligation.

A student withdrawing from an instructional program after starting the instructional program at the University and attending one week or less is entitled to a refund of 90% of the cost of the financial obligation, less an application or enrollment fee of 10% of the total tuition, not to exceed \$100.

A student withdrawing from an instructional program, after attending more than 25% but equal to or less than 50% of the duration of the instructional program, is entitled to a refund of 50% of the cost of the financial obligation, less an application or enrollment fee of 10% of the total tuition, not to exceed \$100.

A student withdrawing from an instructional program, after attending more than 50% but equal to or less than 60% of the duration of the instructional program, is entitled to a refund of 40% of the cost of the financial obligation, less an application or enrollment fee of 10% of the total tuition, not to exceed \$100.

A student withdrawing from an instructional program, after attending more than 60% of the duration of the instructional program, is not entitled to a refund.

Indiana Refund Policy Chart

Weeks Attended	Refund for 5-Week Course	Refund for 6-Week Course	Refund for 9-Week Course
1 Week	80% Refund	83% Refund	89% Refund
2 Weeks	60% Refund	67% Refund	78% Refund
3 Weeks	40% Refund	50% Refund	67% Refund
4 Weeks	No Refund	No Refund	56% Refund
5 Weeks			44% Refund
6 Weeks			No Refund

Iowa

Students in the state of Iowa who withdraw from a course prior to the start date will receive a 100% refund of tuition for that course. Students who withdraw from a course after the start date will receive a pro-rata refund of tuition for the course until they have attended 100% of the course. Refunds will be paid within 30 days of a student's official withdrawal.

Kansas or Missouri

Students in Kansas or Missouri will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- Students have the right to a full refund of all monies paid if they withdraw within three business days after signing the Enrollment Agreement.
- To cancel enrollment, a student must notify the local campus in writing on or before the three-day period. After the three-day period, all fees, including applications fees, assessment fees and book fees, are nonrefundable.
- A tuition refund must be requested in writing to the student's local campus.

Kentucky

Students in the state of Kentucky will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- A student who cancels enrollment any time before the start of the first class session will receive a full refund of all monies paid.
- The University may retain 10% of the tuition agreed upon in the Enrollment Agreement or \$100, whichever is less, for students who fail to attend in the enrollment period for which advanced payment was made.
- Refunds will be paid within 30 days of a student's official withdrawal.
- A student who is out of attendance for more than 30 days is considered withdrawn.

Louisiana

Students in the state of Louisiana will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- Students who cancel enrollment any time before the start of the first class session will receive a full refund of all monies paid, except the application fee, which is nonrefundable.
- Refunds will be paid within 30 days of a student's official withdrawal.
- The University may retain an administrative fee, not to exceed 15% of total tuition and fees paid.

Minnesota

Students in the state of Minnesota will have tuition refunded using the University Institutional Refund Policy with the following exception:

- Refunds for state aid programs and non-state aid programs are calculated on a proportional basis using the state mandated or institutional refund policy.
- To calculate the minimum refund due to the State Grant Program, the SELF Loan Program and other aid programs (with the exception of the state Work Study Program), the Higher Education Services Office Refund Calculation Worksheet of the Minnesota State Grant manual is used.

Nevada

Students in the state of Nevada will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- Students who cancel enrollment any time before the start of the first class session will receive a full refund of all monies paid.
- The University may retain 10% of the tuition agreed upon in the Enrollment Agreement or \$150, whichever is less, for students who fail to attend in the enrollment period for which advanced payment was made.
- Refunds will be paid to the person or entity that paid the tuition within 15 calendar days after one of the following, whichever is applicable:
 - The date of cancellation by a student of his or her enrollment
 - Termination by the University of the enrollment of the student
 - The last day of an authorized leave of absence, if a student fails to return after the period of authorized absence
 - The last day of attendance of a student
- For purposes of this refund calculation, the period of attendance must be measured from the first day of instruction, as set forth in the Enrollment Agreement, through the last day of actual attendance, regardless of absences. In addition, tuition must be calculated using the tuition and fees set forth in the Enrollment Agreement and does not include books, educational supplies or equipment listed separately from tuition and fees. Books, educational supplies or equipment for individual use are not included in the policy for refund, and a separate refund will be paid by the University to the student if those items were not used by the student.
- If the University cancels or discontinues a course or educational program stated in the Enrollment Agreement, the University will refund all monies paid for that course or program.

New Mexico

Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing an Enrollment Agreement. To withdraw, a student must provide written notice to the University or appear personally at the University.

- If a student withdraws following the expiration of the three-day cancellation period, but prior to the first class, the University may retain up to \$200.
- Following the beginning of the first class, refunds will be provided according to the University Institutional Refund Policy.
- Refunds must be made within 30 calendar days of the University's receipt of written notice of withdrawal or the University's termination of the student's enrollment, whichever is earlier.

Ohio

Students in the state of Ohio will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- Students have the right to a full refund of all monies paid if they withdraw within five calendar days of signing the Enrollment Agreement.
- A student who withdraws before the first class and after the five-day cancellation period is obligated for the registration fee.

Oregon

Students in the state of Oregon will have tuition refunded using the University Institutional Refund Policy except all fees, including application fees, assessment fees, student service fees and book fees, are nonrefundable.

South Carolina

Students in the state of South Carolina will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- Students have a right to a full refund of all monies paid, including application and materials fees, if they withdraw within 72 hours, excluding weekends and legal holidays, after signing the Enrollment Agreement.
- A full refund of all monies will be made to any applicant not accepted by the University.
- After the 72-hour cancellation period, the University may retain up to \$100 if the student does not attend a course.
- The University may retain an administrative fee up to \$100.
- Refunds will be paid within 40 days of a student's official withdrawal.

Wisconsin

Students in the state of Wisconsin will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- Students have the right to cancel enrollment until midnight of the third business day after receipt of notice of acceptance and are entitled to a full refund of any tuition paid.
- Refunds will be paid within 30 days of a student's official withdrawal.
- If the University cancels or discontinues a course or educational program stated in the Enrollment Agreement, the University will refund all monies paid for that course or program.

Online

The refund policy of the state where online campus students reside will be used to calculate their refund amount. The refund policy of the state where local campus students attend class will be used to calculate their refund amount.

Consumer Policies and Codes of Conduct

University of Phoenix Family Educational Rights and Privacy Act

University student records are confidential for all schools receiving funding under programs administered by the U.S. Department of Education in accordance with the Family Educational Rights and Privacy Act (FERPA) of 1974. Generally, information pertaining to a student record is not to be released to a third party without written or authorized electronic consent via a FERPA release form, judicial order or lawfully issued subpoena.

The University is required to provide students a copy of its FERPA policy annually and upon written request from students. Current students can obtain a copy of the FERPA policy in the appropriate online Academic Catalog at <https://www.phoenix.edu/programs/degree-programs/academic-catalog.html>

Under FERPA, a student is defined as an individual who is or has attended an educational institution. Students with at least one academically related activity (or one positive attendance "Y" posted, whichever happens sooner) in a university course are considered students at University of Phoenix.

Access to Education Records

University student records are confidential for all schools receiving funding under programs administered by the U.S. Department of Education in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA). Generally, information pertaining to students' records shall not be released to a third party without written or authorized electronic consent, via a FERPA Release form, judicial order or a lawfully issued subpoena.

Education records are defined as all records, files, documents and materials that contain information directly related to a student, and maintained by an educational institution.

The following are not interpreted as education records:

- Personal records maintained by an individual; must be kept in the sole possession of the individual and are not accessible to others
- Records of the law enforcement unit of an educational institution
- Personnel records; records related to a person as an employee not used for any other purpose
- Medical records
- Records created after the student is no longer a student; alumni records

Exception: The Student Health Insurance Plan Enrollment/Acknowledgment form completed by local campus students in New Jersey and Massachusetts is defined as an education record.

Releasable Information - Directory

In compliance with FERPA, a University-designated representative without prior written or authorized electronic consent of the student can release the following educational record information, provided the student does not have a FERPA Hold Request form on record.

- Student name
- Home address
- Email address
- Home telephone number
- Year of birth
- Dates of attendance at the University
- Dates of admission to the University

- University programs of study
- University degree completion dates and type of degrees earned
- Current enrollment status
- Most recent previous institutions attended and degree(s) earned
- Grade level (freshman, sophomore, junior or senior)
- Photographs
- Honors and awards received
- Participation in officially recognized activities

Information Not Released - Non-Directory

In compliance with FERPA, the following student information shall not be released by the University without prior written or authorized electronic consent of the student, a judicial order or a lawfully issued subpoena. The student's signature on the written requests shall be verified before acting upon the request.

Information that must not be released:

- Place of birth*
- Month and day of birth*
- Social Security number (SSN), individual record number (IRN) or personal identification number (PIN)**
- Grades or grade point averages
- Course schedules
- Employment information including: employer, position held, work address or work telephone number
- Academic performance information, such as academic suspension, probation disqualification or academic dishonesty charges
- Admission information, including test scores or entry grade point averages
- Financial and accounting information
- Gender*
- Race*
- Ethnicity*
- Citizenship*
- Country of origin*

Non-directory information can only be released to third parties via telephone or in person if the student has provided written or authorized electronic consent including a security word. If the student does not complete the release information, including security word, information is not released via telephone or in person.

Note: All third parties, including parents, with inquiries require a FERPA Release form on file unless the third party meets one of the definitions under FERPA allowing access without prior written or authorized electronic consent from the student.

Exceptions: The University may release personally identifiable information (PII), directory and nondirectory information without the student's consent under the following conditions:

- School officials with legitimate educational interests, which include any University employee acting within the scope of her or his University employment, and any duly appointed agent or representative of the University acting within the scope of his or her appointment

- Person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials such as Apollo Education Group, Inc., Nelnet Scholarship Management, Aptimus, Protiviti, ACS, ECMC Solutions, National Student Clearinghouse, iParadigms, LLC, Taylor Corporation, Education Sales Management, Double Positive, Hills Consulting Group, SCRIP-SAFE, Student Outreach Solutions, i3, Inside Track, Salesforce, Iron Mountain, Outsell Y-Connecting, Cenveo, IntraEdge, ITC InfoTech, TK20, Microsoft, Western International University, iGrad, HCL Technologies, Echosign, Regent Education, Google, College Board, and other services.
- Collection agencies (Firstsource Advantage, Reliant Capital Solutions, FMS, CBEGroup, States Recovery Systems, Northland Group, Primary Financial Services, Gatestone, Malcolm S. Gerald, I.C. System, Asset Recovery Solutions, Capital Management Services, Account Control Technology, ATG Credit, Tate and Kirlin Associates, Optio Solutions, Financial Recovery Services, Federal Bond and Collection Service) and other services.
- Other schools to which a student seeks or intends to enroll
- Specified officials for audit and evaluation purposes
- Appropriate parties in connection with financial aid to a student (The disclosure is in connection with financial aid for which the student has applied or received, if the information is necessary for such purposes as to determine the following: eligibility for aid, amount of aid, conditions for aid and/or enforcement of terms and conditions of the aid.)
- Organizations conducting studies for, or on behalf of, the school
- Accrediting organizations
- Authorized representatives of the Comptroller General of the United States, Secretary of Education, or state and local educational authorities
- To comply with a judicial order or lawfully issued subpoena
- Appropriate officials in cases of health and safety emergencies
- State and local authorities, pursuant to state law
- To appropriate officials to comply with federal law (e.g., the USA Patriot Act, Solomon Amendment, SEVIS program)
- Under the Campus Sex Crime Prevention Act, institutions are permitted to disclose information concerning registered sex offenders who are required to register under the Violent Crime Control & Law Enforcement Act.
- The institution may disclose the results of a disciplinary proceeding if the student is an alleged perpetrator of a crime of violence or nonforcible sex offense and he or she has been found to have violated the institution's policies and procedures with respect to the allegation. Disclosures may only be made if the institution determines the student did violate its policies and such disclosures must only include the name of the student, violation committed and any sanction imposed by the institution against the student.
- The institution must, upon written request, disclose to the alleged victim of a crime of violence, or a nonforcible sex offense, the results of any disciplinary hearing conducted by the institution against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the institution must provide the results of the disciplinary hearing to the victim's next of kin, if so requested.
- The disclosure is to organizations conducting studies for, or on behalf of, educational agencies or institutions.

- If a student initiates legal action against an educational institution, the institution may disclose to the court, without a court order or subpoena, the student's education records that are relevant for the institution to defend itself.
- The disclosure is to parents of a dependent student as defined in Section 152 of the Internal Revenue Code or to parents of students under the age of 21 when laws or university policies regarding alcohol or drugs are violated.

A school official is defined as:

- A person employed by the University in an administrative, supervisory, academic, research or support staff position.
- A person employed by or under contract to the University to perform a task.
- A person serving on an institutional governing body or committee.
- A school official has a legitimate educational interest if:
- Performing a task specified in his or her job description or contract.
- Performing a task related to a student's education.
- Providing a service or benefit related to a student or a student's family.
- Representing a school in which a student seeks to enroll.
- Disclosing information to federal and state authorities auditing compliance of federal or state support programs.
- Disclosing information in connection with financial aid, to determine financial aid eligibility, amount of aid, conditions for the aid, or to enforce the terms of conditions of the aid.
- Disclosing information to state and local officials to whom this information is specifically allowed to be disclosed pursuant to state laws if the allowed disclosure concerns the juvenile justice system and the system's ability to effectively serve the student whose records are released.
- Performing studies on behalf of educational institutions.
- Disclosing information to accrediting organizations carrying out their function.
- Complying with a judicial order or lawfully issued subpoena provided notification to the student is made before complying with the subpoena.
- The University can disclose personally identifiable information (PII), directory and non-directory, without student consent if the disclosure meets one of the following conditions:
- This disclosure is to other school officials, whom the University determines have legitimate educational interests.
- The disclosure is to officials of other schools where the student seeks or intends to enroll.
- The disclosure is, subject to requirements of 34 CFR 99.35, to authorized representatives of the Comptroller General of the United States, Secretary, or state and local educational authorities.
- The disclosure is in connection with financial aid for which the student has applied or received, if the information is necessary for such purposes as to determine the following:
 - Eligibility for aid
 - Amount of aid
 - Conditions for aid
 - Enforce terms and conditions of the aid

Financial aid means a payment of funds (or a payment in kind of tangible or intangible property to the individual) that is conditioned on the individual's attendance at an educational agency or

institution [authority: 20 U.S.C.1232g (6)(1)(O)].

Students requesting demographic or PII on other University of Phoenix students for survey or research purposes must contact the appropriate director of operations and Academic Affairs after it has been approved through the University's Human Subjects Committee and/or Committee on Research as appropriate.

The University shall retain a record of disclosure of student information disclosed to a third party. This information will be stored on the University computer system and will contain dates, names and reasons for release. Students shall have reasonable access to their educational records, may request to review their educational records and may challenge the contents of their educational records if they feel the contents to be inaccurate, misleading or otherwise in violation of their privacy or other rights.

FERPA Challenges Process

Students alleging that their University records are inaccurate or misleading, or who allege violations of FERPA, may present their challenges to the University Registrar.

Students have the right to correct record-keeping errors, but not to seek to overturn administration decisions and assessments. The Registrar shall review students' challenges and, when appropriate, amend students' records accordingly. Students will be notified within 14 days of the Registrar's actions and, based on the action, may request a formal hearing.

A student must submit a request for amendment in writing to the Registrar identifying the specific portion of his or her record he or she wants changed and why he or she believes it's inaccurate or in violation of his or her privacy. The Registrar will respond to the request within 14 days.

If the University denies the request to change the record, the Registrar will notify the student within 14 days of the decision and advise the student of his or her right to challenge the information.

A student's request for a formal hearing must be made in writing and submitted to the Office of Admissions & Records. The Registrar will arrange for a hearing, and notify the student within 14 days from the receipt of the request of the date, place and time of the hearing. Students may present relevant evidence and may be assisted or represented at the hearings by one or more persons of their choice, including an attorney, at the student's expense.

The University shall be represented by a hearing panel appointed by the Registrar. The panel will be comprised of individuals that do not have a direct interest in the outcome of the hearing. The panel shall consider all relevant evidence supporting students' allegations of inaccurate or misleading information in students' records. Decisions of the panel will be final.

The University will provide a written decision within 14 days of the hearing based on evidence presented at the hearing, and will include a summary of evidence presented and the rationale for the decision.

If the University decides that the challenged information is not misleading, inaccurate or in violation of the student's privacy rights, it will notify the student within 14 days of his or her right to place in the record a statement commenting on the challenged information or a statement of reasons for disagreeing with the decision.

The statement will be maintained as a part of the student's record as long as the contested portion is maintained. If the University discloses the contested portion of the record, it must also disclose the statement.

If the University decides the information is inaccurate or in violation of the student's right of privacy, it will amend the record and

notify the student within 14 days, in writing, that the record has been amended.

Students may not inspect and review the following absent a judicial order or legally issued subpoena:

- Confidential letters and recommendations for which they have waived their rights of inspection
- Educational records containing information about more than one student
(Access is permitted only to that part of the record concerning the inquiring student.)
- Records of instructional, supervisory, administrative and certain educational personnel, which are in the possession of the originator
- Records connected with an application to attend the University if the application was denied
(For example, a student is enrolled in an undergraduate program and applies for admission to a graduate program but is denied.)

University of Phoenix cannot deny students access to their records. Copies do not need to be provided, unless by not providing copies, the students' rights are denied.

Exception: The University may release foreign transcripts to students.

The University reserves the right to deny transcripts or copies of records not required to be made available by FERPA in any of the following situations absent a judicial order or legally issued subpoena:

- The student is not in compliance with his or her UOPX financial plan.
 - There is an unresolved disciplinary action against the student.
- Transcripts will be issued as an exception to the above if one of the two following exception criteria is met:
- A student has filed for bankruptcy and has provided UOPX with a copy of the bankruptcy petition filed with the courts.
 - A student has graduated from a previous UOPX program on record as that student had previously satisfied his or her financial obligation for that program.

If a student believes he or she qualifies for one of the aforementioned policies or exceptions but is unable to order a transcript on the University student website, the student should contact the Admissions and Records Service Center at 800.866.3919 for assistance.

Students have the right to file a complaint with the FERPA. Inquiries should be directed to:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Ave., SW
Washington, DC 20202-5920

For a period of 25 years following the death of a student, education records of deceased students may only be released to the executor of the estate (written authorization required) or immediate family members (notarized affidavit required) defined as: spouse or legally recognized domestic partner, parents, children (over the age of 18) and siblings. Beyond this time, requests for these records may be released to anyone after review and approval from the Registrar's Office.

The University is required to provide students a copy of its FERPA policy annually and upon written request from the student.

Student Right to Access

Students wishing to review their educational records shall submit a written request to the Registrar specifying the records to be

reviewed. Only records covered by FERPA will be made available. If necessary, the Registrar's Office will work with a campus designee so that the student can review the record.

FERPA regulations require the University to comply with the students' right to inspect and review their academic records by responding within 45 days from the time the University receives a written request to access their records. However, the Office of Admissions & Records will respond to students' requests to review their records within 14 days from receipt of the request. Students should submit their request to the University Registrar and specify the record or records they wish to have a copy of or to inspect. Students who wish to review their records at a campus location must present photo identification before access to educational records is allowed. For copies of records from a student's file, the student must fill out and submit the Student Request for Information from Files form. Distance education students must submit a written request specifically outlining which record they would like to review.

A designated University official must be present when a student wishes to review his or her records at a campus location. This includes documents on file or student history notes that do not reference other student information. Printed files requested by the student and mailed from the Registrar's Office will not include history notes from any record systems.

Solomon Act

University of Phoenix complies with the Solomon Act, which provides certain information to military recruiters. Information that may be released includes the following:

- Student name
- Home address
- Telephone listing
- Age (date of birth)
- Level of education
- Academic major

If available, the following information will also be provided:

- Email address
- Degrees received
- Most recent educational institution attended

Gainful Employment Disclosures

Disclosures regarding University programs related to gainful employment are provided on the program home page for each eligible program. Each program home page is linked to gainful employment information specific to that program. For more information about gainful employment disclosures, visit <http://www.phoenix.edu/programs/gainful-employment.html>

Student Loan Code of Conduct

The University protects students with established loan policies. University of Phoenix follows federal regulations that govern student loan requirements. The Student Loan Code of Conduct at http://www.phoenix.edu/tuition_and_financial_options/student_loan_code_of_conduct.html creates and maintains uniform student loan practices that focus on the best interest of student borrowers. It also manages relationships between school employees, learning institutions, lender advisory board members and student loan organizations.

University of Phoenix encourages students to review the Student Loan Code of Conduct at http://www.phoenix.edu/tuition_and_financial_options/

student_loan_code_of_conduct.html to learn about loan regulations.

Consumer Privacy Policy

Summarized below are key elements of the University Privacy Policy. The full version of the policy is available at http://www.phoenix.edu/copyright-legal/privacy_policy.html

Scope of Privacy Policy

This policy applies to website visitors, current and potential students, alumni and any other user of services offered through our Sites including any websites or mobile applications operated by or on their behalf. This policy applies to both online and offline collection, storage, processing and transfer of personal information. However, certain Sites or services may be subject to additional privacy policies or privacy disclosures relating to the services provided on the Site(s) (collectively "Additional Policies").

Information Collected

We collect various types of information through our Sites and other websites where you can express interest in our services, through our mobile applications, over the phone and in person where print materials and digital technology may be used to collect information from you. Some information is collected automatically through various web and Internet technologies, including Social Networking tools used by your University to foster communication and collaboration among members of our community. Other information is collected when you provide it in response to an advertisement, a survey or a request for information; apply for admission or financial aid; register for classes; order educational or other products and services; set up a social network or other site profile; or use one of our career resources, learning assessments, or other interactive tools. We may also obtain information from other sources and combine that with information we collect about you.

Information Uses

We will not sell, rent or lease your personal information to others except as provided in this policy. We may collect, use and disclose personal information for the following purposes:

- To determine your admissibility and to register you for your selected educational programs
- To contact you regarding your status with the University
- To provide requested products and services
- To respond to your inquiries and provide customer support
- To administer promotions in which you have indicated an interest
- For our internal marketing purposes, which includes, but is not limited to, sending you material about products, services, updates, etc. that we think may be of interest to you
- For fostering communication and collaboration among members of your University community through social networks
- For sharing with our Educational Partners who may contact you with respect to their educational or other services
- For sharing with our Educational Partners or Business Associates who are performing services on our behalf
- To analyze how Sites and services are being accessed and used
- For investigation of information security and information asset protection-related incidents
- To test, correct and improve our content, applications and services
- To develop new applications, products and services
- For Online Behavioral Advertising purposes
- To improve Site and service performance and delivery

- To prevent potentially illegal activities (including illegal downloading of copyrighted materials in accordance with our Copyright Infringement Policy)
- To investigate suspicious information that denotes illegal activity such as financial aid fraud
- To analyze academic and learning outcomes and preferences
- For external academic research and scholarship
- To analyze risk and business results
- To obtain payment for services that we provide to you
- To provide you with information concerning arrangements and other options for the repayment of funds loaned to you for your education
- To maintain business records for reasonable periods
- To enforce our Terms of Use
- To provide to Educational Partners, Business Associates or Unrelated Entities in connection with the contemplated or actual reorganization, merger, acquisition, financing, securitization, insuring, sale or other disposal of all or part of our business or assets, including for the purposes of determining whether to proceed with such transaction or fulfilling any records or other reporting requirements to such parties. In the event of any actual reorganization, merger or acquisition, such information may be transferred as part of the transaction to the acquirer.
- And/or as may be required or permitted by legal, regulatory, industry self-regulatory, insurance, audit or security requirements applicable to Apollo Education Group, Inc., our Educational Partners or our Business Associates.

Your Rights and Choices

Marketing Communications

where indicated on the applicable email or other communication, or cut and paste this link into a browser: http://www.phoenix.edu/about_us/contact_us/unsubscribe.html

If you do not wish to receive marketing telephone calls or mailings, you may express your choice to opt out by emailing Office.ComplianceUOPX@phoenix.edu

If you do not wish to receive text messages, reply STOP to cancel future text messages. By sending STOP, you agree to one additional confirmation message stating that you've opted out and will no longer receive text messages from University of Phoenix. To get help, text HELP. You may also get additional support or help by sending an email to TextMsgSupport@phoenix.edu or by calling 866.766.0766.

Under California's Shine the Light law, Cal. Civ. Code § 1798.83, we provide California residents the ability to opt out of disclosures to Educational Partners for direct marketing purposes. To opt out of these disclosures at no cost, email Office.ComplianceUOPX@phoenix.edu

Do Not Track and Online Behavioral Advertising

University of Phoenix does not itself respond to web browser-based DNT signals.

We or our Business Associates may use data collected on this site for Online Behavioral Advertising purposes, e.g., to customize ads to you on other websites as you browse the web. If you do not want your browsing behavior on the sites to be collected for Online Behavioral Advertising purposes, visit http://info.evidon.com/pub_info/184

Other Collection, Use and Disclosure

You may be able to opt out of our collection, use and disclosure of your personal information in other situations subject to applicable

contractual, academic, legal or technical restrictions and reasonable notice. Note that if you opt out of certain uses of your personal information, we may no longer be able to provide certain products or services. For more information on your ability to opt out, email Office.ComplianceUOPX@phoenix.edu

Other Important Information

We will take commercially reasonable measures to secure and store your information to protect against the loss, misuse and alteration of the information under our control. We utilize industry standard security measures when accepting your credit card information during your registration or other transaction you have initiated with us, as well as whenever we ask you to log in to any of our sites.

If you become a student, your educational records are subject to the U.S. federal Family Education Rights and Privacy Act (FERPA), state laws and your University policies. To obtain a copy of the "Students' Rights to Privacy and Access to Educational Records" policy, visit http://www.phoenix.edu/about_us/regulatory/consumer-information.html

Phoenix, AZ 85040

State Authorization and Contact Information for Filing Complaints

University of Phoenix is regulated by a large number of state regulatory bodies across the country for filing complaints in the state that a student resides. If a student chooses to file a complaint, he or she can submit an internal complaint to the University's Office of Dispute Management or file an external complaint with the designated state regulatory agency. For Online students who reside in Arizona, Georgia, Washington or Wisconsin, students can file a complaint with their own state regulatory agency.

State Authorization Reciprocity Agreement (SARA)

University of Phoenix is approved by the National Council for State Authorization Reciprocity Agreements (NC-SARA) as a SARA member institution. (<http://nc-sara.org>). The University

has reciprocity with other SARA states for its distance education programs. Please visit the NC-SARA website for the most current list of states that participate in SARA.

Online students residing in a SARA state may appeal a complaint to the Arizona SARA Council (AZ SARA) for review after exhausting the institution's internal complaint process. SARA complaints must first be submitted internally for resolution through the University's Office of Dispute Management. The Arizona SARA Council will not review complaints regarding student grades or student code of conduct violations. For more information visit the AZ SARA Council website (<http://azsara.arizona.edu>).

All other Online students should file external complaints with the Arizona State Board for Private Postsecondary Education. The following is a list of the contact information for those regulatory bodies.

Alabama: The student may contact the Alabama Department of Postsecondary Education, PO Box 302130, Montgomery, AL 36130-2130; telephone 334.242.2959.

Arizona: The student may contact the Arizona State Board for Private Postsecondary Education, 1400 W. Washington, Room 260, Phoenix, AZ 85007; telephone 602.542.2399.

Arkansas: The student may contact the Arkansas Department of Higher Education, 114 East Capitol, Little Rock, AR 72201-3818; telephone 501.371.2065.

California: The student may contact the California Bureau for Private Postsecondary Education, C/O Department of Consumer Affairs, PO Box 980818, W. Sacramento, CA 95798-0818; telephone 916.431.6959, 888.370.7589.

Colorado: The student may contact the Department of Higher Education, Commission on Higher Education, 1300 Broadway Road, Second Floor, Denver, CO 80203; telephone 303.866.2723, 303.866.4209.

Connecticut: The student may contact the Office of Higher Education, Connecticut State Board of Education, 61 Woodland Street, Hartford, CT 06105-2326; telephone 860.947.1800, 860.947.1821.

Delaware: The student may contact the Delaware Department of Education, The Townsend Building, 401 Federal St., Suite 2, Dover, DE 19901-3639; telephone 302.735.4000.

Florida: The student may contact the Commission for Independent Education, 325 West Gaines Street, Suite 1414, Tallahassee, FL 32399-0400; telephone 850.245.3200.

Georgia: The student may contact the Nonpublic Postsecondary Education Commission, 2082 East Exchange Place, Suite 220, Tucker, GA 30084; telephone 770.414.3306.

Hawaii: The student may contact the Hawaii Post-Secondary Education Authorization Program, P.O. Box 541, Honolulu, HI 96809; telephone 808.586.7327.

Idaho: The student may contact the Idaho State Board of Education, P.O. Box 83720, Boise, ID 83720-0037; telephone 208.332.1587.

Illinois: The student may contact the Illinois Board of Higher Education, 431 East Adams Street, Second Floor, Springfield, IL 62701-1418; telephone 217.557.7359, website: www.ibhe.org.

Indiana: The student may contact the Indiana Commission for Higher Education, Board for Proprietary Education, 101 West Ohio Street, Suite 670, Indianapolis, IN 46204; telephone 317.464.4400.

Iowa: The student may contact the Iowa College Student Aid Commission, 430 E. Grand Avenue, FL 3, Des Moines, IA 50309-1920; telephone 515.725.3400.

Kansas: The student may contact the Kansas Board of Regents, 1000 SW Jackson, Suite 520, Topeka, KS 66612-1368; telephone

785.296.4936, 785.296.4917.

Kentucky: The student may contact the Kentucky Council on Postsecondary Education, 1024 Capital Center Drive, Suite 320, Frankfort, KY 40601-8204; telephone 502.573.1555.

Louisiana: The student may contact the State of Louisiana Board of Regents, P.O. Box 3677, Baton Rouge, LA 70821; telephone 225.342.4253.

Maryland: The student may contact the Maryland Higher Education Commission, 6 North Liberty Street, Baltimore, MD 21201; telephone 800.974.0203.

Massachusetts: The student may contact the Massachusetts Board of Higher Education, One Ashburton Place, Room 1401, Boston, MA 02108-1696; telephone 617.994.6950.

Michigan: The student may contact the Michigan Department of Education, P.O. Box 30008 (or) 608 W. Allegan, Lansing, MI 48909; telephone 517.373.9235.

Minnesota: The student may contact the Minnesota Office of Higher Education, 1450 Energy Park Drive, Suite 350, St. Paul, MN 55108; telephone 651.642.0567, 800.657.3866.

Mississippi: The student may contact the Mississippi Commission on College Accreditation, 3825 Ridgewood Road, Jackson, MS 39211; telephone 601.432.6372.

Missouri: The student may contact the State of Missouri Coordinating Board for Higher Education, 205 Jefferson Street, Jefferson City, MO 65101; telephone 573.751.2361.

Nebraska: The student may contact the Nebraska Coordinating Commission for Postsecondary Education, P.O. Box 95005, Lincoln, NE 68509-5005; telephone 402.471.0020, 402.471.2847.

Nevada: The student may contact the Nevada Commission on Postsecondary Education, 8778 S. Maryland Parkway, Suite 115, Las Vegas, NV 89123; telephone 702.486.7330.

New Jersey: The student may contact the New Jersey Secretary of Higher Education, 20 W. State Street, PO Box 542, Trenton, NJ 08625-0542; telephone 609.292.4310, 609.984.2709.

New Mexico: The student may contact the New Mexico Higher Education Department, 2048 Galisteo Street, Santa Fe, NM 87505-2100; telephone 505.476.8400.

North Carolina: The student may contact the Board of Governors of the University of North Carolina, General Administration, 910 Raleigh Road, Chapel Hill, NC 27515-2688; telephone 919.962.4558.

Ohio: The student may contact the Ohio Board of Regents, 25 South Front Street, Columbus, OH 43215; telephone 614.466.6000.

Oklahoma: The student may contact the Oklahoma State Regents of Higher Education, 655 Research Parkway, Suite 200, Oklahoma City, OK 73104-3603; telephone 405.225.100, 405.225.9142.

Oregon: The student may contact the Oregon Office of Degree Authorization, 1500 Valley River Dr., Suite 100, Eugene, OR 97401; telephone 541.687.7478.

Pennsylvania: The student may contact the Pennsylvania Department of Education, 333 Market Street, Harrisburg, PA 17126-0333; telephone 717.783.6785.

Puerto Rico: The student may contact the Consejo de Educacion Superior de Puerto Rico/Puerto Rico Council on Higher Education, PO Box 19900, San Juan, Puerto Rico 00910-1900; telephone 787.724.7100 ext. 2022 or ext. 2016.

South Carolina: The student may contact the Nonpublic Postsecondary Institution Licensing, 1333 Main Street, Suite 200, Columbia, SC 29201; telephone 803.737.2281.

Tennessee: The student may contact the Tennessee Higher Education Commission, Parkway Towers, Suite 1700, 404 James Robert-

son Pkwy, Nashville, TN 37243-0830; telephone 615.741.3605.

Texas: The student may contact the Texas Higher Education Coordinating Board, P.O. Box 12788, Capitol Station, Austin, TX 78711; telephone 512.427.6520.

Utah: The student may contact the Utah Division of Consumer Protection, 160 East 300 East, 2nd Floor, Salt Lake City, UT 84111; telephone 801.530.6601, or toll-free in Utah 800.721.SAFE.

Virginia: The student may contact the Commonwealth of Virginia Council of Higher Education, James Monroe Building, 101 North Fourteenth Street, Richmond, VA 23219; telephone 804.225.2600.

Washington: The student may contact the Washington Student Achievement Council, PO Box 43430, Olympia, WA 98504-3430; telephone 360.753.7869, 360.753.7866.

Washington DC: The student may contact the Government of the District of Columbia Education Licensure Commission, 810 1st Street, NE, 2nd Fl., Washington, DC 20002; telephone 202.727.2824.

Wisconsin: The student may contact the Wisconsin Educational Approval Board, 201 West Washington Avenue, 3rd Floor, Madison, WI 53703; telephone 608.266.1996, 608.266.1996.

Wyoming: The student may contact the Wyoming Department of Education, Hathaway Bldg., 2 Floor, 2300 Capitol Avenue, Cheyenne, WY 82002-0050; telephone 307.777.5712.

Copyright Infringement and Peer-to-Peer File Sharing Policy

Copyright Law and Infringement

Copyright is a form of legal protection provided by U.S. law, Title 17 United States Code 512(c) (2), which protects an owner's right to control the reproduction, distribution, performance, display and transmission of a copyrighted work. The public, in turn, is provided with specific rights for fair use of copyrighted works. Copyrighted works protect original works of authorship and include:

- Books, articles and other writings
- Songs and other musical works
- Movies and television productions
- Pictures, graphics and drawings
- Computer software
- Pantomimes and choreographic works
- Sculptural and architectural works

The copyright law provides the owner of a copyright the exclusive right to do the following:

- Reproduce the work in copies.
- Prepare derivative works based upon the work.
- Distribute copies of the work to the public by sale or other transfer of ownership, or by rental, lease or lending.
- Perform the work publicly.
- Display the copyrighted work publicly.
- Perform the work publicly by means of a digital audio transmission in the case of sound recordings.

The copyright law states, "Anyone who violates any of the exclusive rights of the copyright owner is an infringer of the copyright or right of the author." Generally, under the law, one who engages in any of these activities without obtaining the copyright owner's permission may be liable for infringement.

Specific information on copyright law and fair use may be found at the following sites:

The U.S. Copyright Office: <http://www.copyright.gov>

The Electronic Frontier Foundation fair use frequently asked ques-

tions: http://w2.eff.org/IP/eff_fair_use_faq.php

Peer-to-Peer File Sharing

Peer-to-Peer (P2P) file sharing is a general term that describes software programs that allow computer users, utilizing the same P2P software, to connect with each other and directly access digital files from one another's hard drives. Many copyrighted works may be stored in digital form, such as software, movies, videos, photographs, etc. Through P2P file sharing it has become increasingly easy to store and transfer these copyrighted works to others, thus increasing the risk that users of P2P software and file-sharing technology will infringe the copyright protections of content owners. If P2P file-sharing applications are installed on your computer, you may be sharing someone else's copyrighted materials without realizing you are doing so. As a user of the University network, recognizing the legal requirements of the files that you may be sharing with others is important. You should be careful not to download and share copyrighted works with others.

The transfer and distribution of these works without authorization of the copyright holder is illegal and prohibited.

Violations and Penalties Under Federal Law

In addition to University sanctions under its policies as more fully described below, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For willful infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense.

University Methods to Effectively Combat Unauthorized Distribution of Copyrighted Material and Student Sanctions

A student's conduct in the University classrooms and websites is subject to and must fully conform to the University Student Code of Conduct policy, its Acceptable Computer Use for Faculty and Students policy and any other applicable University policies.

The University may monitor traffic or bandwidth on the networks utilizing information technology programs designed to detect and identify indicators of illegal P2P file-sharing activity. In addition to, or as an alternative, the University may employ other technical means to reduce or block illegal file sharing and other impermissible activities.

The University will also provide for vigorous enforcement and remediation activities for those students identified through the University Digital Millennium Copyright Act policy as potential violators or infringers of copyright.

Disciplinary sanctions will be based on the seriousness of the situation and may include remediation based on a comprehensive system of graduated responses designed to curb illegal file sharing and copyright offenses through limiting and denial of network access or other appropriate means. These sanctions may be in conjunction with additional sanctions through the University Student Code of Conduct, its Acceptable Computer Use for Faculty and Students Policy and any other University policy applicable to the particular situation. Students who are subject to professional codes of conduct that apply to their enrollment at the University shall be sanctioned according to the requirements of the respective code.

Education and Awareness

The University uses a variety of means to inform students, faculty

and other network users about copyright laws and the response to copyright infringement claims by the University.

The University informs its campus community through the Consumer Information Guide and other periodic communications that unauthorized distribution of copyrighted material, including unauthorized P2P file sharing, may subject students and faculty to civil and criminal liabilities and their possible extent.

The Consumer Information Guide is available on the University website, is provided to potential students and employees, and is sent by email on a yearly basis to current students, faculty and employees.

Link to Consumer Information Guide: http://www.phoenix.edu/about_us/regulatory/consumerinformation.html

Legal Sources for Online Music and Videos

The legal sources for online music and videos are reviewed annually by the University's Sr. Director of Governance, Risk and Compliance. The following links are online sources that provide information on legal access to copyrighted music and videos:

EDUCAUSE is an association of colleges and universities, which maintains a list of legal media sources:

<http://www.educause.edu/legalcontent>

The Recording Industry Association of America (RIAA) provides a list of legal music sources:

http://www.riaa.com/toolsforparents.php?content_selector=legal-music-services

Digital Millennium Copyright Act Policy (DMCA)

The University computer networks, including its online library and classroom environment, are critical assets. Accordingly, University of Phoenix respects the rights of the copyright owners and expects its faculty, staff, students and other network users to comply with U.S. copyright laws. Federal law prohibits the reproduction, distribution, public display or performance of copyrighted materials over the Internet without permission of the copyright owner, except in compliance with fair use or other copyright applicable statutory exceptions. Please refer to the University's Copyright Infringement and Peer-to-Peer File Sharing policies for more information.

University of Phoenix may terminate the network accounts or access to users who have repeatedly infringed on the copyrights of others. In addition to sanctions that may be applicable under the University Student Code of Conduct, the Acceptable Computer Use for Faculty and Student, or other policies. The University of Phoenix, in compliance with the federal Digital Millennium Copyright Act (DMCA), has established a mandated process for receiving and tracking alleged incidents of copyright infringement.

The University has designated an agent who will investigate notices of alleged copyright infringement and take appropriate actions. Such actions may include terminating repeat infringers' accounts under the DMCA.

Copyright infringement notices must be given in writing, preferably by email, or by U.S. mail to the agent listed below:

University of Phoenix
Attn: Copyright Agent
Subject: Copyright Compliance
4025 S. Riverpoint Pkwy.
Mail Stop: CF-K612
Phoenix, AZ 85040
Email: CopyrightAgent@apollo.edu

If a valid DMCA notification is received, the University will respond under the 'Process for Filing Notice of Alleged Infringement' by taking down the infringing content found on our networks. When taking down content under the DMCA, the University will take reasonable steps to contact the owner of the removed content so that a counter notification may be filed. Upon receiving a valid counter notification, the University will generally restore the content in question, unless the University receives notice from the notification provider that a legal action has been filed seeking a court order to restrain the alleged infringer from engaging in the infringing activity.

The DMCA provides that a person who falsely claims that someone is infringing on his or her copyright may be liable for damages including costs and attorneys' fees. Alternatively, an individual can also be liable for damages including attorneys' fees if materially misrepresenting that an activity is infringing on the copyright of another. Therefore, the University recommends contacting an attorney to confirm whether a work is protected by copyright laws.

Pursuant to the DMCA, unless the University receives notification that legal action to seek a court order restraining the alleged infringer from further engaging in the infringing activity has been filed, upon receiving a valid counter notification, the University will:

- Provide the person who filed the original notification with a copy of the counter notice
- Inform him or her that the material will be reinstated or access to it restored between 10 and 14 business days following receipt of the counter notice.

Process for Filing Notice of Alleged Infringement

Below is the process for filing a notification under the DMCA when an individual believes their work has been infringed upon. Notice must be given in writing to the designated agent as specified above and contain the following information:

- Identify in sufficient detail the copyrighted work that you believe has been infringed upon; for example, describe the work that you own.
- Identify the material that you claim is infringing on your copyright as set forth in number one and provide detailed information that is reasonably sufficient to locate the infringing item; for example, provide the link to the infringing material.
- Provide sufficient contact information: phone number, address and email address.
- If possible, provide information that allows the University to notify the alleged infringing party of notice of the alleged infringement.
- The following statement must be included in your notice: "I have a good faith belief that the use of the copyrighted materials described above and contained on the service is not authorized by the copyright owner, its agent, or by protection of law."
- The following statement must be included in your notice: "I swear, under penalty of perjury, that the information in the notification is accurate and that I am the copyright owner or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed."
- The notice must be signed.

Process for Filing Counter Notification of Alleged Infringement

The person or provider of the alleged infringing material may present a counter notification pursuant to the DMCA. Upon proper counter notification, the University may reinstate the removed content. Notice must be given in writing to the designated copyright

agent as specified above and contain the following information:

1. Identify the material that has been removed. This may include providing the location or the URL when possible.
2. Provide your name, address, telephone number, and email address if available.
3. Provide a statement that you consent to the jurisdiction of Federal District Court for the judicial district in which you reside, or for any address outside the United States or any judicial district, in which the service provider may be found, and that you will accept service of process from the person who provided notification to the University of the alleged infringement or an agent of such person.
4. Provide the following statement: "I swear, under penalty of perjury, that I have a good faith belief that the material identified above was removed or disabled as a result of a mistake or misidentification of the material to be removed or disabled."
5. The notice must be signed.

Vaccinations and Immunizations

Information regarding program admissions requirements, including immunization requirements for designated states, is located at http://www.phoenix.edu/admissions/admission_requirements.html

Register to Vote

The National Mail Voter Registration Form can be used to register U.S. citizens to vote, to update registration information due to a change of name, make a change of address or to register with a political party. You must follow the state-specific instructions listed for your state. After completing the form, you must sign your name where indicated and send it to your state or local election office for processing.

The national form also contains voter registration rules and regulations for each state and territory. For more information about registering to vote, contact your state election office at http://www.eac.gov/voter_resources/contact_your_state.aspx

Register to vote by following your state-specific instructions and using the National Mail Voter Registration form at http://www.eac.gov/voter_resources/register_to_vote.aspx

Campus Safety and Security

Campus Safety Policies

The University Campus Safety policies at http://cdn.assets-phoenix.net/content/dam/altcloud/doc/about_uopx/Campus-Safety-Policies.pdf have been prepared to increase University of Phoenix community's awareness of current programs that exist to protect its members' safety and well-being and to satisfy the requirements of the Safe and Drug Free Schools and Communities Act and Clery Act. The information included relates to the following:

- Alcohol and other drug abuse prevention, health risks and counseling services
- Annual crime statistics
- Available counseling and assistance resources
- Crime prevention measures
- Reporting criminal activities
- Emergency mass notification
- Information related to campus safety programs
- Penalties and sanctions regarding the unlawful use, sale, possession or distribution of illegal drugs and alcohol
- Legal effects of alcohol and other drug use
- Prohibited use or distribution of alcohol and other drugs

- Safety and awareness
- Sex offender registry
- Sexual violence policy and prevention

The information is intended to provide a useful description of University of Phoenix campus safety policies; however, it is not intended to serve as a contractual agreement between the University and the recipient. Additionally, the University will disseminate and publicize, for each of its campus locations, crime statistics from the most recent calendar year and two preceding calendar years. Visit http://www.phoenix.edu/about_us/campus-safety/campus-safety-policies.html to access a PDF file of University of Phoenix Campus Safety Policies.

Campus Crime Statistics

This report is compiled in conjunction with University of Phoenix's Campus Safety Policies. The following statistics are in accordance with definitions used in the Uniform Crime Reporting System of the Department of Justice and FBI, as modified by the Hate Crime Statistics Act. The data includes all crimes reported to the police or a University of Phoenix campus security authority over the previous three years that occurred on campus, in certain off-campus buildings or property owned or controlled by the University, and on public property within or immediately adjacent to and accessible from the campus. If a crime has occurred but has not been reported, it cannot be reflected in the following statistics. For this reason, University of Phoenix encourages everyone to report all crimes to their designated campus security authority and local law enforcement agency.

Specific campus location statistics are available electronically at http://www.phoenix.edu/about_us/campus-safety/campus-crime-statistics.html or by requesting a printed copy from your local campus security authority. (Contact information can be viewed at http://www.phoenix.edu/about_us/campus_safety/campus_safety_contact_list.html)

University of Phoenix expressly reserves the right to modify or to adopt additional campus policies and procedures relating to campus safety, at any time without notice.

Note: Please use the latest version of your Internet browser when reviewing the campus crime statistics. Google Chrome is recommended.

Statement of Policy on Sex Offender Registration

The federal Campus Sex Crimes Prevention Act requires colleges and universities to issue a statement advising the campus community where state law enforcement agency information concerning registered sex offenders may be obtained. The Act also mandates that sex offenders who are already required to register in a state provide notice of each institution of higher education in that state at which the offender is employed or is a student. This notice should be directed to the campus security authority at their campus.

To learn the identity of registered sex offenders on or near a campus, or anywhere in the United States, visit the Sex Offender databases at <http://www.sexoffender.com> or <http://nsopw.gov/>. You can search by city, county or ZIP code. This information is collected by other agencies, and this institution cannot guarantee this information is correct or complete. The information provided here is intended to be in compliance with the Clery Act and for campus safety purposes only. It should not be used to intimidate, threaten or harass. Misuse of this information may result in prosecution.

Emergency Mass Notification Policy

Apollo Education Group (Apollo) and University of Phoenix

(UOPX) have established an emergency mass notification process that includes emergency escalation processes, mass notifications and supporting systems. These processes enable Apollo and UOPX to contact or send notices, alerts or warnings without delay to employees, faculty and students in the event of an emergency, dangerous or otherwise high-risk situation at a UOPX site.

Apollo and UOPX maintain emergency management policies, procedures and systems to protect lives and property, and to continue necessary critical functions and essential services. An emergency is defined as a situation that poses an immediate threat to the health or safety of someone in the University community at a UOPX site or that significantly disrupts programs and activities.

The Emergency Mass Notification Policy applies to all employees, faculty and students of UOPX in the event of an emergency, dangerous or otherwise high-risk situation at a UOPX site.

The policy can be viewed in its entirety in the Campus Safety Policies at http://cdn.assets-phoenix.net/content/dam/altcloud/doc/about_uopx/Campus-Safety-Policies.pdf or by requesting a printed copy from your local campus.

Campus Security Authority Contact List

University of Phoenix campus security authorities assist in the safety of the University community by serving as contacts for University security issues. A current list of security contacts can be viewed at http://www.phoenix.edu/about_us/campus_safety/campus_safety_contact_list.html

Alcohol and Other Drug Abuse Prevention

Drug abuse affects all aspects of life. It threatens the workplace as well as our homes, our schools and our community. The U.S. Department of Education requires institutions of higher education to implement a drug prevention and awareness program for their students and employees. University of Phoenix abides by federal Drug-Free Workplace and Drug-Free Schools and Communities Act regulations regardless of individual state legalization.

Students are expected to conduct themselves ethically, honestly and with integrity as responsible members of the University's academic community. Any member of the University community found consuming or selling alcohol and other drugs on University property, including attending class or meeting with campus personnel, is subject to disciplinary action up to and including dismissal from the University, depending on the seriousness of the situation. All alcohol and other drug abuse policies, prevention and referrals can be viewed in the Campus Safety Policies document at http://www.phoenix.edu/about_us/campus-safety/campus-safety-policies.html

Prohibition of Illicit Drug Use

The University community must adhere to a code of conduct that recognizes the unlawful manufacture, sale, delivery, unauthorized possession or use of any illicit drug is prohibited on property owned or otherwise controlled by University of Phoenix. If an individual is apprehended for violating any alcohol- or other drug-related law while at a University location or activity, the University will fully support and cooperate with federal and state law enforcement agencies. The University enforces a "zero tolerance" policy regarding underage drinking.

Underage possession or consumption of alcoholic beverages is not permitted on property owned or controlled by the University, and the state laws will be enforced.

Also, intentionally or knowingly selling, or intentionally or knowingly furnishing alcoholic beverages to persons under the age of 21, or to persons obviously inebriated, is not permitted on property

owned or controlled by the University.

Federal Financial Aid Penalties for Drug Violations

According to the Higher Education Act (HEA), students convicted for a drug offense that occurred during a period of enrollment while they were receiving federal financial aid may lose eligibility for federal aid. Federal aid includes Federal Pell and FSEOG Grants, Federal Work Study, Federal Perkins Loans, Federal Stafford Loans, Federal PLUS Loans, Graduate PLUS Loans and other financial assistance.

The Free Application for Federal Student Aid (FAFSA) asks students if they have been convicted of a drug-related offense. If the student answers "yes" to the question, then he or she will be sent a worksheet by the federal processing center in order to determine whether the conviction affects eligibility for aid. Should the financial aid office be notified that a student has been convicted of sale or possession of illegal drugs, financial assistance will be suspended immediately. If a conviction was reversed, set aside or otherwise rendered invalid, it does not count. Convictions occurring during periods of non-enrollment also do not count. In addition, any conviction received as a juvenile does not count, unless the student was tried as an adult.

Failure to answer the question automatically disqualifies students from receiving federal financial aid. Answering this question falsely could result in fines, imprisonment or both. More information about federal penalties and sanctions is located at <http://www.justice.gov/dea/druginfo/ftp3.shtml>

Penalties for Drug Convictions

If a student is convicted of a drug-related felony or misdemeanor that took place while her or she was receiving federal student aid, the student will become ineligible to receive further during a period of enrollment for which he or she was receiving federal student aid. If the student was convicted of both possessing and selling illegal drugs during a period for which the student was receiving federal student aid, and the periods of ineligibility are different, then the student will be ineligible for the longer period.

POSSESSION OF ILLEGAL DRUGS

- First offense: Loss of eligibility for federal financial aid for one year from the date of conviction.
- Second offense: Loss of eligibility for federal financial aid for two years from the date of conviction.
- Third offense and subsequent offenses: Indefinite ineligibility for federal financial aid from the date of conviction.

SALE OF ILLEGAL DRUGS

- First offense: Loss of eligibility for federal financial aid for two years from the date of conviction.
- Second offense and subsequent offenses: Indefinite ineligibility from the date of conviction.

How to Reduce the Period of Eligibility or Regain Eligibility

The student may shorten the period of ineligibility by:

- Successfully completing an approved drug rehabilitation program that includes passing two unannounced drug tests;
- Passing two unannounced drug tests administered by an approved drug rehabilitation program; or
- Having the conviction reversed, set aside or otherwise rendered invalid.

The student may regain eligibility the day after the period of ineligibility ends.

Students denied eligibility for an indefinite period can regain it after successfully completing a qualified rehabilitation program, passing two unannounced drug tests from such a program, or if a conviction is reversed, set aside or removed from the student's record so that fewer than two convictions for sale or three convictions for possession remain on the record (in such cases, the nature and dates of the remaining convictions will determine when the student regains eligibility).

Students who regain eligibility during the award year should notify the financial aid office immediately so that they might receive any eligible financial aid which they are entitled to receive. It is the student's responsibility to certify that a rehabilitation program was successfully completed, as with the conviction question on the FAFSA, the University is not required to confirm the reported information unless conflicting information is determined.

Qualified Drug Rehabilitation Program

A qualified drug rehabilitation program must include at least two unannounced drug tests and must satisfy at least one of the following requirements:

- Be qualified to receive funds directly or indirectly from a federal, state or local government program.
- Be qualified to receive payment directly or indirectly from a federally or state-licensed insurance company.
- Be administered or recognized by a federal, state or local government agency or court.
- Be administered or recognized by a federal or state-licensed hospital, health clinic or medical doctor.

Convictions for Offense That Occurred During Enrollment

Federal regulations require an enrolled student convicted of a drug offense after receiving federal financial aid to notify Student Financial Services immediately. The student may be ineligible for further aid in that academic year and required to pay back all federal aid received after the date of the conviction. Student Financial Services will work with the student regarding all of the available options.

Institutional Sanctions for Alcohol and Drug Violations

Any member of the University community found possessing or selling illegal drugs on University property shall be subject to discipline on a case-by-case basis.

- Discipline will be based on the seriousness of the situation.
- A case may result in dismissal from the University.
- In all cases, the University will abide by local, state and federal sanctions regarding unlawful possession of drugs and the consumption of alcohol.
- Additional state penalties and sanctions may also apply.
- The University has adopted a zero-tolerance policy regarding alcohol and drug violations.

THIS PAGE WAS LEFT BLANK INTENTIONALLY

STUDENTS' RIGHTS AND RESPONSIBILITIES

Policy on Nursing Ethics and Professional Competence

The University of Phoenix Policy on Nursing Ethics and Professional Competence is defined as compliance with the following nursing guidelines:

University of Phoenix Professional Nursing Responsibilities.

American Nurses Association Code for Nurses.

The policy sets forth expectations and regulations for professional and ethical conduct by students enrolled in the Bachelor of Science in Nursing and Master of Science in Nursing degree programs. The policy states that all forms of unethical behavior or professional incompetence are to be reported and reviewed. Reported violations will be addressed through a formal process to the Campus Ethics Committee.

Expectations for conduct and the standards are discussed in the beginning classes for either the baccalaureate or graduate degree programs. Content supporting this information is provided to students in their program handbooks.

Students' Right to Privacy

The University of Phoenix maintains compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended. FERPA defines requirements which are designed to protect the privacy of student records maintained by the University. The law requires that:

1. Students should be provided access to official records directly related to them. Students who wish to see their records must make an appointment or submit a written request through the University Registrar's Office or local campus office.
2. Students may not remove any materials, but are entitled, at their expense, to one copy of any materials contained in their file, unless a disclaimer appears on the document indicating that the student is not to be given a copy, or if the student waived the rights to the document.
3. Students be given the opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the faculty member.
4. Students' written or authorized electronic consent must be received prior to releasing personally identifiable student data from their records to other than a specified list of exceptions.

The University is authorized to release public directory information concerning students. Directory information includes the student's name, address, phone number, year of birth, program of study, dates of attendance, dates of admission, degree completion dates and types of degrees earned, enrollment status, grade level, photographs, honors, and awards received, participation in officially recognized activities and the most recent previous educational agency or institution attended by the student. Directory information is subject to release by the University at any time unless the Registrar has received a prior written request from the student specifying that the information not be released.

The University is authorized to provide access to student records to University officials and employees who have legitimate educational interests for such access; these are persons who have responsibilities in the University's academic, administrative, service, or

research functions.

A copy of the University's FERPA policy is available to students through the Registrar's Office or the student ecampus website at: <http://ecampus.phoenix.edu>.

Education records also will be released pursuant to a judicial order or a lawfully issued subpoena, but only after the student is given reasonable and necessary notification of the University's intent to comply with the subpoena before release of the records.

Students have the right to restrict disclosure of directory information by submitting a FERPA Hold Request Form to the Registrar's Office. Requests are valid throughout student's enrollment unless otherwise notified. Please send or fax your request to: Registrar, University of Phoenix, 4025 South Riverpoint Parkway, Mail Stop CF-A206, Phoenix, AZ 85040, Fax (480) 643-1600.

STUDENT CODE OF CONDUCT

The University of Phoenix has established a Student Code of Conduct. Students are expected to conduct themselves ethically, honestly, and with integrity as responsible members of the University's academic community. This requires the demonstration of mutual respect and civility in all University-related academic and professional discourse.

As part of the Student Code of Conduct, in addition to the information listed here, the University maintains conduct-related policies and procedures for violations that are specific to the following:

1. Code of Academic Integrity
2. Student Records Violations
3. Title IX and Violence Against Women Act Policy

Students are accountable for their actions and are required to work independently and collaboratively with teams in achieving learning goals and objectives. As a member of the University's academic community, students acknowledge and accept an obligation to abide by the Student Code of Conduct. Conduct on or off campus which is determined to impair, interfere with, or obstruct the opportunities of others to learn, or which disrupts the mission, processes, or orderly functions of the University, will be deemed misconduct. A violation of the Student Code of Conduct will be subject to appropriate disciplinary action.

Misconduct for which students are subject to disciplinary action includes, but is not limited to, the following:

1. Actions, oral statements, and written statements which threaten or violate the personal safety of any member of the faculty, staff, or other students.
2. Harassment that has the effect of creating a hostile or offensive educational environment for any student, faculty, or staff member.
3. Sex discrimination/sexual harassment that has the effect of creating a hostile or offensive educational environment for any student, faculty, or staff member. This includes, but is not limited to, sex discrimination, sexual harassment, unwelcome conduct of a sexual nature, unwelcome sexual advances, requests for sexual favors, and other verbal and nonverbal, or physical conduct of a sexual nature including sexual violence.
4. Stalking or persistently pursuing another person that has the effect of imposing unwelcomed contact and/or communication.
5. Disruptive behavior that hinders or interferes with the educational process.
6. Failure to promptly comply with any reasonable directive from faculty or University officials.
7. Failure to cooperate in a University investigation.
8. Carrying of weapons on campus, at campus-sanctioned events, or when meeting with campus personnel. (This policy is not applicable to students who are law enforcement officers required by law to carry firearms at all times).
9. Using, dealing in, or being under the influence of alcohol, other substances, or illegal drugs or use of tobacco or electronic cigarettes while in class, at campus-sanctioned events, or when meeting with campus personnel.
10. Failure to maintain confidentiality and respect for the privacy of personal or professional information communicated about cli-

ents, one's employer, other students, or their employers.

11. Falsification, alteration, or invention of information, including, but not limited to, any third party document used to apply for financial aid or lying during a University investigation.

12. Violation of the policy on Acceptable Computer Use for Faculty and Student.

13. Hazing (any action which recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any University-sanctioned organization).

14. Violation of federal, state, or local laws or regulations that impacts the University's educational environment.

Alleged Student Code of Conduct violations are subject to a fair and impartial process and may result in a warning or charge.

Procedure for Processing Alleged Violations of the Student Code of Conduct:

1. Investigation - alleged violations will be investigated in a prompt, thorough, and impartial manner. The investigation will gather relevant evidence, including, but not limited to, pertinent documents and statements from witnesses.
 - a. During an investigation a student may be removed from class, campus-sanctioned events, and other University functions after review and consultation with the Office of Dispute Management.
2. Notification - Following the investigation, if there is sufficient evidence to indicate that a violation has occurred, the student will be notified of the specific charge(s) in writing.
 - a. In those instances where it is determined the conduct does not warrant a Charging Letter, a Warning Letter and/or counseling to the student will be provided. Note: A Warning Letter is not appealable.
 - b. If this is a drug and/or alcohol related offense the campus must also notify the Office of Dispute Management.
 - c. If this is an allegation of sexual assault, domestic violence, dating violence, or stalking, then timely notice should be provided to both the Accuser and the Accused and they should be given equal access to any information that will be used during informal and formal disciplinary meetings and hearings.
3. Student Response - A student will be given ten (10) calendar days to submit a written response to the designated University official.
 - a. Failure of a student to respond to the Charging Letter will result in suspension from the University following completion of the current course (if the student is actively attending classes) and is not subject to immediate suspension.
4. Processing Student Response -
 - a. A student response admitting guilt will be sent to the Director of Grievances and Appeals or their designee who will determine the appropriate sanction(s).
 - b. A student response denying the charge(s) will follow the Ethics Committee process outlined below.
 - i. An Ethics Committee will be convened to review the file and provide findings of fact and recommendations to the Director

Grievances and Appeals (or designee).

ii. The Ethics Committee will be facilitated by an impartial University administrator and composed of three impartial individuals who have no prior involvement with the student or the investigation. The Committee members include: a faculty member and two staff members: one from Student Services and one from Academic Affairs.

iii. The preponderance of the evidence standard of proof (more likely than not) will be used to weigh the evidence and make a recommendation to the Director Grievances and Appeals or designee whether a violation occurred and what sanction, if any, is warranted.

iv. Students will be afforded the opportunity to address the Committee via teleconference to make a statement in their defense.

v. Students are not entitled to representation by an attorney or any other third party at any point in the process. If the violation involved allegations of sexual assault, domestic violence, dating violence or stalking, then the Accused and the Accuser are entitled to the same opportunity to have others present during a disciplinary proceeding, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice.

vi. Tape, digital, or other electronic recording of the committee meeting is not permitted.

vii. The Committee members are given a Case Packet with all relevant information for the committee meeting, including any written response received from the student.

viii. The Committee members sign a Confidentiality Statement for Committee Members and, after the Committee's deliberations, the Case Packets are required to be destroyed in order to maintain confidentiality.

5. Decision - the administrator delivers a summary report, generally containing findings of fact and recommendations, to the Director Grievances and Appeals or designee, who has the ultimate authority to accept, reject, or modify the recommendations of the Ethics Committee and render the decision. All tasks related to the Student Code of Conduct procedure must be completed in the appropriate system by the Campus Director or designee within 45 days.

a. The decision will be communicated in writing to the student by the decision maker.

b. In accordance with the requirements under the Higher Education Opportunity Act (HEOA), upon written request, the University of Phoenix will disclose to an alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the institution against the student(s) who is/are the alleged perpetrator(s) of the crime or offense. If the alleged victim is deceased as a result of the alleged crime or offense, the University of Phoenix will provide the results of the disciplinary hearing to the victim's next of kin, if so requested. For matters of alleged sexual assault, domestic violence, dating violence, or stalking, both the Accuser and the Accused shall be simultaneously informed in writing of the outcome of any institutional disciplinary proceeding. The result must include the rationale and the sanctions. Compliance of this disclosure does not constitute a violation of FERPA.

c. Any decision which affects a student's admissions, enrollment, or academic status will be communicated to the Registrar's Office for records update.

6. Sanctions - If a violation is found, disciplinary sanctions will be based on the seriousness of the situation and may include, but are not limited to, documented counseling by a University staff member, loss of academic credit, a failing grade on assignments or for the course, suspension, and/or expulsion.

a. A recommendation of expulsion by the decision maker will be automatically reviewed by the Student Discipline Review Committee (SDRC) in the Office of Dispute Management (ODM) and must be endorsed before the campus communicates that sanction to the student.

7. Appeals - In the event the Ethics Committee finds a student to be in violation of the Student Code of Conduct, the student may request an appeal of the decision to the SDRC.

a. Appeals must be requested in writing to ODM within ten (10) days of receiving the campus decision. Appeals will only be accepted if the student can demonstrate one or more of the following:

1) new information which was unavailable at the time of the hearing, or

2) procedures were not followed.

b. The SDRC is comprised of an administrator from the University, a Director of Academic Affairs, and an Associate or Assistant Dean from the accused student's college or their respective designee. The decision of the SDRC is final and shall be communicated in writing directly to the student, except in the case of a decision by the SDRC supporting a campus recommendation of expulsion.

c. If the student is sanctioned with expulsion, the review of the appeal will be conducted by the Senior Management Review Committee (SMRC) in the Office of Dispute Management. The SMRC is comprised of the Provost, a Vice President of the Office of Admissions & Records, and the Dean of the accused student's college (or their respective designees). The decision of the SMRC is final and will be communicated in writing directly to the student and the campus.

d. For matters of allegations of sexual assault, domestic violence, dating violence or stalking, the University will notify the Accused and the Victim of the procedures to appeal the results of the decision; and of any change to the results that occurs prior to the time that such results become final; and when such results become final. Appeals must be requested in writing to the Office of Dispute Management (ODM) within ten (10) days of receiving the decision.

Code of Academic Integrity

The University of Phoenix requires that students adhere to the ethical standards necessary to maintain individual and institutional academic integrity. As members of the University's academic community, students acknowledge and accept a responsibility to abide by this Student Code of Academic Integrity, which is a part of the Student Code of Conduct.

A violation of the Student Code of Conduct - Code of Academic Integrity will be subject to appropriate disciplinary action. Academic integrity violations include all forms of academic dishonesty, including but not limited to:

1. Plagiarism - Intentional or unintentional representation of another's words or ideas as one's own in an academic exercise.

Examples of plagiarism include but are not limited to:

a. The exact copy of information from a source without

- proper citation and without use of quotation marks or block quotation formatting. When a student copies information from a source, he or she must acknowledge the source with quotation marks or block quotes irrespective of whether or not the source has been formally published.
- b. Paraphrasing statements, paragraphs, or other bodies of work without proper citation using someone else's ideas, data, language, and/or arguments without acknowledgement.
- c. Presenting work as the student's own that has been prepared in whole or part by someone other than that particular student. This includes the purchase and/or sharing of work.
- d. Failure to properly cite and reference statistics, data, or other sources of information that are used in one's work.
2. Self-plagiarism, double dipping, or dovetailing - Submission of work that has been previously prepared and submitted for credit without fair citation of the original work. The use of one's previous work in an assignment requires prior approval from the current faculty member and citation of the previous work.
3. Fabrication - Falsification or invention of any information, citation, data, or document. This includes the invention or alteration of data or results or relying on another source's results in any assignment without proper acknowledgement of that source. Fabrication includes citing sources that the student has not actually used or consulted.
4. Unauthorized assistance - Use of materials or information not authorized by the faculty member to complete an academic exercise or the completion of an academic exercise by someone other than the student. This includes, but is not limited to, providing or receiving answers to an exam, use of faculty materials or answer keys, or a student having someone take his or her exam.
5. Misrepresentation - Falsely representing the student's situation to faculty; for example when justifying an absence or the need for an incomplete grade or requesting a makeup exam, a special due date, or extension of a syllabus or class deadline for submitting a course requirement.
6. Collusion - Helping or allowing another student to commit any act of academic dishonesty.
7. Copyright infringement - Acquisition or use of copyrighted works without appropriate legal license or permission. Any unauthorized distribution of copyrighted material, including peer-to-peer file sharing and/or illegal downloading or unauthorized distribution of copyrighted materials using the University information technology system may subject a student to civil and criminal liabilities.
- a. For more information, refer to: <http://www.copyright.gov/title17/92chap5.pdf> for information on federal copyright infringement and remedies. Students may also access the University's Copyright Infringement and Peer-to-Peer File Sharing policies.

Alleged Code of Academic Integrity violations are subject to a fair and impartial process and may result in a warning or charge.

Procedure for Processing Alleged Violations of the Student Code of Conduct - Code of Academic Integrity:

1. Investigation - alleged violations will be investigated in a prompt, thorough, and impartial manner. The investigation will gather relevant evidence, including, but not limited to, pertinent

documents and statements from witnesses.

- a. During an investigation a student may be removed from class, campus-sanctioned events, and other University functions after review and consultation with the Office of Dispute Management.
2. Notification - Following the investigation, if there is sufficient evidence to indicate that a violation has occurred, the student will be notified of the specific charge(s) in writing.
- a. In those instances where it is determined the conduct does not warrant a Charging Letter, a Warning Letter and/or counseling to the student will be provided. Note: A Warning Letter is not appealable.
3. Student Response - A student will be given ten (10) calendar days to submit a written response to the designated University official.
- a. Failure of a student to respond to the Charging Letter will result in suspension from the University following completion of the current course (if the student is actively attending classes) and is not subject to immediate suspension.
4. Processing Student Response -
- a. A student response admitting guilt will be sent to a representative of the student's college or their designee who will determine the appropriate sanction(s).
- b. A student response denying the charge(s) will follow the Ethics Committee process outlined below.
- i. An Ethics Committee will be convened to review the file and provide findings of fact and recommendations to a representative of the student's college (or designee).
- ii. The Ethics Committee will be facilitated by an impartial University administrator and composed of three impartial individuals who have no prior involvement with the student or the investigation. The Committee members include: a faculty member and two staff members: one from Student Services and one from Academic Affairs.
- iii. The preponderance of the evidence standard of proof (more likely than not) will be used to weigh the evidence and make a recommendation to the a representative of the student's college or designee whether a violation occurred and what sanction, if any, is warranted.
- iv. Students will be afforded the opportunity to address the Committee via teleconference to make a statement in their defense.
- v. Students are not entitled to representation by an attorney or any other third party at any point in the process.
- vi. Tape, digital, or other electronic recording of the committee meeting is not permitted.
- vii. The Committee members are given a Case Packet with all relevant information for the committee meeting, including any written response received from the student.
- viii. The Committee members sign a Confidentiality Statement for Committee Members and, after the Committee's deliberations, the Case Packets are required to be destroyed in order to maintain confidentiality.
5. Decision - the administrator delivers a summary report, generally containing findings of fact and recommendations, to a representative of the student's college or designee, who has the

ultimate authority to accept, reject, or modify the recommendations of the Ethics Committee and render the decision. All tasks related to the Student Code of Conduct procedure must be completed in the appropriate system by the Campus Director or designee within 45 days.

- a. The decision will be communicated in writing to the student by the decision maker.
- b. Any decision which affects a student's admissions, enrollment, or academic status will be communicated to the Registrar's Office for records update.
6. Sanctions - If a violation is found, disciplinary sanctions will be based on the seriousness of the situation and may include, but are not limited to, documented counseling by a University staff member, loss of academic credit, a failing grade on assignments or for the course, suspension, and/or expulsion.
 - a. A recommendation of expulsion by the decision maker will be automatically reviewed by the Student Discipline Review Committee (SDRC) in the Office of Dispute Management (ODM) and must be endorsed before the campus communicates that sanction to the student.
7. Appeals - In the event the Ethics Committee finds a student to be in violation of the Code of Academic Integrity, the student may request an appeal of the decision to the SDRC.
 - a. Appeals must be requested in writing to ODM within ten (10) days of receiving the campus decision. Appeals will only be accepted if the student can demonstrate one or more of the following:
 - 1) new information which was unavailable at the time of the hearing, or
 - 2) procedures were not followed.
 - b. The SDRC is comprised of an administrator from the University, a Director of Academic Affairs, and an Associate or Assistant Dean from the accused student's college or their respective designee. The decision of the SDRC is final and shall be communicated in writing directly to the student, except in the case of a decision by the SDRC supporting a campus recommendation of expulsion.
 - c. If the student is sanctioned with expulsion, the review of the appeal will be conducted by the Senior Management Review Committee (SMRC) in the Office of Dispute Management. The SMRC is comprised of the Provost, a Vice President of the Office of Admissions & Records, and the Dean of the accused student's college (or their respective designees). The decision of the SMRC is final and will be communicated in writing directly to the student and the campus.

Student Records Violations

The University of Phoenix Student Code of Conduct requires that students submit complete and accurate information regarding their student records. Full and accurate disclosure by the student allows appropriate advisement to occur.

An alleged violation of the Student Code of Conduct that relates to student records will be forwarded in writing to the Registrar. Alleged Student Code of Conduct - Student Records violations are subject to a fair and impartial process and may result in a warning or charge.

Procedure for Processing Alleged Violations of the Student Code of Conduct - Student Records Violations:

1. Investigation - alleged violations will be investigated in a prompt, thorough, and impartial manner. The investigation will gather relevant evidence, including, but not limited to, pertinent documents and statements from witnesses.
 - a. During an investigation a student may be removed from class, campus-sanctioned events, and other University functions after review and consultation with the Office of Dispute Management.
2. Notification - Following the investigation, if there is sufficient evidence to indicate that a violation has occurred, the student will be notified of the specific charge(s) in writing.
 - a. In those instances where it is determined the conduct does not warrant a Charging Letter, a Warning Letter and/or counseling to the student will be provided. Note: A Warning Letter is not appealable.
3. Student Response - A student will be given ten (10) calendar days to submit a written response to the designated University official.
 - a. Failure of a student to respond to the Charging Letter will result in suspension from the University following completion of the current course if the student is actively attending classes and is not subject to immediate suspension.
4. Processing Student Response -
 - a. A student response admitting guilt will be sent to the Registrar, or their designee, who will determine the appropriate sanction(s).
 - b. A student response denying the charge(s) will follow the Registrar's committee process outlined below.
 - i. After the Apollo Ethics and Compliance Department's investigation is completed and the student has responded to the Charging Letter and denied the charge, a Registrar's Committee will be convened to review the file and provide findings of fact and recommendations to the Registrar (or designee).
 - ii. The Registrar's Committee will be facilitated by a Manager or Senior Investigator from Apollo Ethics and Compliance. The facilitator must be impartial and have had no prior involvement with the investigation or student.
 - iii. The Registrar's Committee composition will be three impartial individuals who have no prior involvement with the student or the investigation: an Associate Registrar (or designee); a Director or Operations Manager from the Registrar's Office (or designee), and a Director from the Office of Admissions & Records or a Director of Finance.
 - iv. The Registrar's Committee will use the preponderance of the evidence standard of proof (more likely than not) to weigh the evidence and make a recommendation to the Registrar (or designee) about whether a violation occurred and what sanction, if any, is warranted.
 - v. Students will be afforded the opportunity to address the Registrar's Committee via teleconference to make a statement in their defense.
 - vi. Students are not entitled to representation by an attorney or any other third party at any point in the process.
 - vii. Tape, digital, or other electronic recording of the committee meeting is not permitted.

- viii. The Registrar's Committee members are given a Case Packet with all relevant information for the committee meeting, including any written response received from the student.
 - ix. The Registrar's Committee members sign a Confidentiality Statement for Committee Members and, after the Committee's deliberations, the Case Packets are required to be destroyed in order to maintain confidentiality.
5. Decision - the administrator delivers a summary report, generally containing findings of fact and recommendations, to the Registrar (or designee), who has the ultimate authority to accept, reject, or modify the recommendations of the Registrar's Committee and render the decision.

- a. The decision will be communicated to the student in writing by the decision maker.
- b. In accordance with the requirements under the HEOA, upon written request, the University of Phoenix will disclose to an alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the institution against the student(s) who is/are the alleged perpetrator(s) of the crime or offense. If the alleged victim is deceased as a result of the alleged crime or offense, the University of Phoenix will provide the results of the disciplinary hearing to the victim's next of kin, if so requested. For cases of alleged domestic violence, dating violence, sexual assault, or stalking, both the accuser and the accused shall be simultaneously informed in writing of the outcome of any institutional disciplinary proceeding. Compliance of this disclosure does not constitute a violation of FERPA.

6. Sanctions -

- a. If a violation is found, disciplinary sanctions will be based on the seriousness of the situation and may include, but are not limited to, documented counseling by a University staff member, loss of academic credit, a failing grade on assignments or for the course, suspension and/or expulsion.
- b. A recommendation of expulsion by the decision maker will be automatically reviewed by the Student Discipline Review Committee (SDRC) in the Office of Dispute Management (ODM) and must be endorsed before the Registrar communicates that sanction to the student.

7. Appeals - In the event the Registrar Committee finds a student to be in violation of the Student Code of Conduct the student may appeal the decision to the SDRC.

- a. Appeals must be requested in writing to ODM within ten (10) days of receiving the Registrar's decision. Appeals will only be accepted if the student can demonstrate one or more of the following:

- 1) new information which was unavailable at the time of the hearing, or
- 2) procedures were not followed.

- b. The SDRC is comprised of an administrator from the University, a Director of Academic Affairs, and an Associate or Assistant Dean from the accused student's college (or their respective designee). The decision of the SDRC is final and will be communicated directly to the student and the Registrar, except in the case of a decision by the SDRC supporting a Registrar recommendation of expulsion.

- c. If the student is sanctioned with expulsion, the review of the

appeal will be conducted by the Senior Management Review Committee (SMRC) in the Office of Dispute Management. The SMRC is comprised of the Provost, a Vice President of the Office of Admissions & Records, and the Dean of the accused student's college (or their respective designees). The decision of the SMRC is final and will be communicated directly to the student and the campus.

- d. In cases of alleged domestic violence, dating violence, sexual assault, or stalking, the institution must simultaneously inform the accused and the victim in writing of the following: the procedures to appeal the results of the institutional disciplinary proceeding, of any change to the results that occurs prior to the time that such results become final, and when such results become final.

Title IX and Violence Against Women Act (VAWA) Policy

The University recognizes its responsibility to adhere to Title IX of the Education Amendments of 1972.

An alleged violation of the Student Code of Conduct - Title IX and VAWA which relates to sex discrimination, sexual harassment, sexual violence, dating violence, domestic violence, sexual assault, or stalking is subject to a prompt, thorough, impartial review process which may result in a warning or charge.

Procedure for Processing Alleged Violations of the Student Code of Conduct - Title IX and VAWA Policy:

- 1. Investigation - An alleged violation of Title IX or an allegation of domestic violence, dating violence, sexual assault, or stalking will be forwarded to the University's Title IX Coordinator, Camie Pratt, Associate Vice President, Office of Dispute Management, 4025 S. Riverpoint Parkway, Mailstop CF-S907, Phoenix, AZ 85040, 602.557.3391, TitleIX@phoenix.edu.

- a. An investigation will gather relevant evidence, including, but not limited to, pertinent documents and statements from witnesses.

- b. The investigation, any hearing and appeals and any sanctions or action as a result of the process may take up to sixty (60) days. Extensions of the timeframes may be allowed for good cause with written notice to the Accuser and the Accused of the delay and the reason for the delay. It will also be a fair and impartial investigation conducted by officials who receive annual training on the issues related to domestic violence, dating violence, sexual assault, and stalking and how to conduct an investigation that protects the safety of victims and promotes accountability.

- c. During an investigation, after review and consultation with the Office of Dispute Management, a student may be removed from class, campus-sanctioned events, and other University functions.

- 2. Notification - Following an investigation, if there is sufficient evidence to indicate that a violation has occurred, the student will be notified of the specific charge(s) in writing

- a. In those instances where it is determined the conduct does not warrant a Charging Letter, a Warning Letter and/or counseling to the student will be provided. Note: A Warning Letter is not appealable.

- b. The complainant(s) shall be notified of when and if a Charge Letter or warning is sent to the respondent(s).

- 3. Student Response - A student will be given ten (10) calendar days to submit a written response to the designated University official.

- a. Failure of a student to respond to the Charging Letter will result in suspension from the

University following completion of the current course if the student is then actively attending classes and is not subject to immediate suspension.

4. Processing Student Response -

- a. A student response admitting guilt will be sent to the Title IX Coordinator (or designee), who will determine the appropriate sanction(s).

- b. A student response denying the charge(s) will follow the Title IX Committee process outlined below.

i. After the investigation is completed and the student has responded to the Charging Letter and denied the charge, both the Complainant/Accuser and the Respondent/Accused will be given notice of the Title IX Committee meeting and afforded the opportunity to appear at the meeting telephonically and /or present written witness statements for inclusion in the Title IX Case Packet.

ii. The Title IX Committee will be convened to review the file and make findings and recommendations to the Title IX Coordinator, Assistant Title IX Coordinator, or Deputy Coordinator (a designee may be appointed if the Coordinator has recused himself/herself).

iii. The Title IX Committee will be facilitated by a fair and impartial administrator from the Office of Dispute Management.

iv. The Title IX Committee composition will be three fair and impartial individuals who have no prior involvement with the parties or the investigation: a faculty member, and two staff members: one from student services and one from academic affairs. The Committee will have received annual training on the issues related to domestic violence, dating violence, sexual assault, and stalking and how to conduct a hearing process that protects the safety of victims and promotes accountability.

v. The Title IX Committee will use the preponderance of the evidence standard of proof (more likely than not) to weigh the evidence and make a recommendation to the Title IX Coordinator, Assistant Title IX Coordinator, Deputy Coordinator, or designee about whether a violation occurred and what sanction, if any, is warranted.

vi. Respondents/Accused and Complainants/Accuser will be afforded the opportunity to separately address the Title IX Committee. This may be done via teleconference.

vii. Students are entitled to have third parties present during the committee process. The Complainant/Accuser and the Respondent/Accused are entitled to the same opportunity to have others present during a disciplinary proceeding, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice. The University permits each party to have at least one support person present. This support person may be an attorney; however, this person may not speak on behalf of the student.

viii. Tape, digital, or other electronic recording of the committee meeting is not permitted.

ix. The Title IX Committee members are given a Case Packet with all relevant information for the committee

meeting, including any written response received from the Complainant/Accuser or Respondent/Accused, all evidence discovered during the investigation, and any written witness statements the parties have submitted.

x. The Title IX Committee members sign a Confidentiality Statement for Committee Members and, after the Title IX Committee's deliberations, the Case Packets are required to be destroyed in order to maintain confidentiality.

5. Decision - the administrator delivers a summary report, containing findings of fact and recommendations, to the Title IX Coordinator, Assistant Title IX Coordinator, or Deputy Coordinator (or designee), who has the ultimate authority to accept, reject, or modify the recommendations of the Title IX Committee and render the decision. Any publicly available records will not include identifying information about the victim to the extent permissible by law.

a. The decision will be communicated in writing simultaneously to both the Complainant/Accuser and the Respondent/Accused by the Title IX Coordinator or designee. The result must also include the rationale for the result and the sanction. Compliance of this disclosure does not constitute a violation of FERPA.

b. In accordance with the requirements under the Higher Education Opportunity Act (HEOA), upon written request, the University of Phoenix will disclose to an alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the institution against the student(s) who is/are the alleged perpetrator(s) of the crime or offense. If the alleged victim is deceased as a result of the alleged crime or offense, the University of Phoenix will provide the results of the disciplinary hearing to the victim's next of kin, if so requested.

c. Any decision which affects a student's enrollment or academic status shall be communicated to the Registrar's Office for records update.

6. Sanctions: - If a violation is found, disciplinary sanctions will be based on the seriousness and/or frequency of the situation and may include, but are not limited to, documented coaching by a University staff member, counseling by a contracted third-party provider, suspension and/or expulsion.

a. A recommendation of expulsion by the decision maker will be automatically reviewed by the Student Discipline Review Committee in the Office of Dispute Management and must be endorsed before the Title IX Coordinator communicates that sanction to the student.

7. Appeals - The University will notify the Respondent/Accused and the Victim of the procedures to appeal the results of the decision to the Student Discipline Review Committee (SDRC) and of any change to the results that occurs prior to the time that such results become final; and when such results become final.

a. Appeals must be requested in writing to the Office of Dispute Management (ODM) within ten (10) days of receiving the Title IX Coordinator's decision. Appeals will only be accepted if one or more of the following can be demonstrated:

1) new information which was unavailable at the time of the hearing, or

2) procedures were not followed.

b. The SDRC is comprised of a senior manager from the University, a Regional Director of Academic Affairs, and an Associate or Assistant Dean from the accused student's college (or their respec-

tive designee). The decision of the SDRC is final and will be communicated directly to the student, complainant, and the Registrar, except in the case of a decision by the SDRC supporting a Registrar recommendation of expulsion.

c. If the student is sanctioned with expulsion, the review of the appeal will be conducted by the Senior Management Review Committee (SMRC) in the Office of Dispute Management. The SMRC is comprised of the Provost, the Senior Vice President of Student Administrative Services, and the Dean of the accused student's college (or their respective designees). The decision of the SMRC is final and will be communicated directly to the student and the campus.

University of Phoenix Professional Standards for Candidates in the School of Nursing

Candidates in the School of Nursing are subject to greater scrutiny because of their anticipated interactions with students, families, patients and clients in the community. These degree candidates participate in one or more clinical rotations, practicum, and/or preceptorships as part of their academic program. University of Phoenix faculty members have a legal, ethical, and academic responsibility to ensure degree candidates refrain from unsafe or unprofessional nursing practices. Candidates in the School of Nursing are expected to represent the University as professionals and adhere to the ethics and standards of their profession, irrespective of where the conduct may occur.

The following Professional Standards apply to Candidates in the School of Nursing Programs before, during, and after clinical rotations, practicum, and/or preceptorships. The Professional Standards address a candidate's affective attributes and disposition to be nurses, nurse practitioners and/or healthcare providers. Monitored behaviors may extend outside the classroom to off-site activities and locations when the candidate's behavior infringes upon the reputation of University of Phoenix, School of Nursing.

The School of Nursing adheres to the broader nursing community's ethical standards as well as additional professional standards put forth by the School of Nursing administration.

1. University of Phoenix Student Code of Conduct

Guidelines for acceptable student behavior, including academic integrity, at University of Phoenix can be identified in the Student Code of Conduct, available in the academic catalog.

2. American Nurses Association (ANA) Code of Ethics for Nurses

The School of Nursing adheres to the ANA Code of Ethics for Nurses. Students are expected to read, understand, and perform in compliance with this Code. Candidates can locate the ANA code of Ethics here: <http://www.nursingworld.org/codeofethics>

3. Nurse Practice Act (by state)

Because nursing care poses a risk of harm to the public if practiced by professionals who are unprepared or incompetent, the state, through its police powers, is required to protect its citizens from harm. That protection is in the form of reasonable laws to regulate nursing. Students are required to read, understand, and perform in compliance with their state's nurse practice act. Candidates can locate this information here: <https://www.ncsbn.org/nurse-practice-act.htm>

4. ANA Principles for Social Networking and the Nurse

ANA's Principles for Social Networking and the Nurse: Guidance for the Registered Nurse provides guidance to

registered nurses on using social networking media in a way that protects patients' privacy and confidentiality and maintains the standards of professional nursing practice. A copy of the ANA Principles for Social Networking and the Nurse can be found here: <http://www.nursingworld.org/principles>

5. The candidate is sensitive to community and cultural norms that pertain to the University classroom, clinical rotations, practicum, and/or preceptorships.
6. The candidate appreciates and values human diversity and shows respect for others' varied talents and perspectives.
7. The candidate refrains from engaging in nursing practice for which the student has not been authorized or for which the student has not been educated/validated at the time of the incident.
8. The candidate refrains from disrupting the programs of the School of Nursing or its affiliates.
9. The candidate will participate in or complete clinical work consistent with professional nursing practice, including satisfactory performance of all critical behaviors specified.
10. The candidate will adhere to College, School, Clinical, and Agency site policies and procedures.
11. Candidates will refrain from aiding, abetting or inducing another to commit a violation of the Student Code of Conduct or Professional Standards.
12. Candidates in the School of Nursing will assume responsibility for their own health as well as their own behavior.
 - a. Transportation: Candidates in the School of Nursing are responsible for personal transportation to and from health agencies and/or clinical sites.
 - b. Personal Electronic Devices: Candidates in the School of Nursing are responsible to be aware of and comply with agency policies regarding personal electronic devices.

A Candidate's ability to satisfactorily meet the Professional Standards is a matter of ongoing academic judgment made by faculty, campus staff and campus management. When it is determined by faculty, campus staff, or campus management that a candidate falls short of meeting any of the above Professional Standards, they may file a "Referral Form" with the Campus College Chair, Regional or Campus Director of Academic Affairs, or designee. Any candidate who receives one or more referral(s) shall be counseled, remediated, or withdrawn from his/her program as appropriate.

Candidates who are separately charged with violating the University of Phoenix Student Code of Conduct shall be subject to the policies, procedures, and sanctions issued by that office.

Procedure for Processing Referral Forms

The School of Nursing has instituted processes to ensure candidates are regularly evaluated by the faculty and have access to guidance and advisement on professional requirements. These processes are conducted through collaboration between faculty, campus staff, and campus management who understand the profession and who can offer constructive feedback. It is the intention of the Referral Process to identify a candidate's deficiencies and promote dialogue on how the candidate can improve and move forward in their program.

During the course of his/her program, faculty members, through a

review of grades and dispositions, will monitor a candidate's academic progress. The Campus College Chair (CCC), Regional or Campus Director of Academic Affairs or Designee, will serve as the primary point of contact for remediation plans and/or Candidate Retention Committees.

A. One Referral

- a. Notification of a Referral Form is sent to the candidate in writing through the ecampus letter center by the Campus College Chair or designee identifying the candidate's deficiencies in meeting the above Professional Standards.
- b. The candidate shall be provided with ten (10) days to respond to the notification. If the student does not respond within ten (10) days the student will receive a suspension letter pending his/her response.
- c. The candidate must meet with the Campus College Chair or designee to discuss why the referral occurred and whether or not a formal remediation plan or other corrective action is needed. At times this will result in the student being unable to resume classes until the requirements of the violation are fulfilled.
- d. The Campus College Chair or designee may convene a meeting of the Candidate Retention Committee ("CRC") if deemed necessary. If the CRC will be convened, the notification to the candidate shall specifically describe the issue(s) to be discussed and the possible recommendation options available to the CRC.
- e. If the CRC meeting is held, the Committee members shall discuss with the candidate the issues or problems that appear to be hindering his/her success and make one of the following recommendations:
 - i. Take no action;
 - ii. Institute a formal remediation plan; or
 - iii. Programmatically withdraw the student
- f. The candidate will have 30 days to complete any remediation plan or other corrective action decided on with the CCC, CRC, or designee. Failure to complete the plan within 30 days will result in a suspension.
- g. The CRC shall issue a report explaining the basis for its recommendation.
- h. If the candidate was placed on a status hindering academic progression during this process, that status will be removed once the candidate has fulfilled the requirements of the remediation plan and/or corrective action and will be able to resume coursework.

B. Two or More Referrals (of the same nature)

- a. Notification of a Referral Form is sent to the candidate in writing through the ecampus letter center by the Campus College Chair or designee identifying the candidate's deficiencies in meeting the above Professional Standards.
- b. Notification shall specifically describe the issue(s) to be discussed and the possible recommendation options available to the CRC. At times this will result in the student being unable to resume classes until a meeting

with the CRC and the subsequent actions are fulfilled.

- c. The candidate shall be provided with ten (10) days to respond to the notification.
- d. After the candidate has the opportunity to respond, the Campus College Chair or designee shall convene a meeting of the Candidate Retention Committee.
- e. The CRC members shall discuss with the candidate the issues or problems that appear to be hindering his/her success ad make one of the following recommendations:
 - i. Take no action;
 - ii. Institute a formal remediation plan; or
 - iii. Programmatically withdraw the student.
- f. The candidate will have 30 days to complete any remediation plan or other corrective action decided on with the CRC or designee. Failure to complete the plan within 30 days will result in a suspension.
- g. The CRC shall issue a report explaining the basis for its recommendation.
- h. If the candidate was placed on a status hindering academic progression during this process, that status will be removed once the candidate has fulfilled the requirements of the remediation plan and/or corrective action and will be able to resume coursework.

Appeals

If the CRC recommends that the candidate be withdrawn from the program, and this recommendation is endorsed by the Campus Director of Academic Affairs, the candidate has the right to appeal this decision to the Central Administration Appeals Committee (CAAC) within 10 days of receipt of the decision.

The CAAC is generally comprised of at least the Dean and an Associate Dean from the School of Nursing or designee(s), and a Regional Director of Academic Affairs (RDAA). The decision of the CAAC is final.

Who is the Candidate Retention Committee?

- 1. The CRC is comprised of the Campus College Chair or designee and at least two faculty members.
- 2. The candidate will be expected to participate in a dialogue with the Committee to exchange ideas on remediation or withdrawal from the program.
- 3. The candidate will not be permitted to have representation by an attorney or any other third party in this academic meeting.

University of Phoenix Supplemental Standards for Candidates in College of Social Sciences Counseling and Human Services Programs

Candidates in College of Social Sciences programs leading to certification or licensure in Counseling and/or Human Services at University of Phoenix are subject to greater scrutiny because of their anticipated interactions with clients and others in the community. These degree candidates participate in one or more field placements, practicums, and/or internships as part of their academic program. As prospective human services workers or counselors, College of Social Sciences candidates are expected to represent the University as professionals and adhere to the ethics and standards of their profession as well as the University's Student Code of Conduct.

The following Supplemental Standards for Candidates in College of Social Sciences Programs ("Supplemental Standards") apply to these degree candidates before, during, and after their field placements, practicums, and internships. The Supplemental Standards address a candidate's affective attributes and disposition to be a human services worker or counselor. A corresponding Professional Dispositions Rubric provides additional guidance.

A candidate's ability to satisfactorily meet the Supplemental Standards is a matter of ongoing academic judgment made by faculty, campus staff, and campus management.

1. The candidate contributes to a positive climate in the University classroom and all field placements, practicums, and internships.
 2. The candidate demonstrates mastery of written and spoken language for self-expression, as well as for effective interaction in all settings.
 3. The candidate is a thoughtful and responsive listener.
 4. The candidate is committed to reflection, assessment, and learning as an ongoing process.
 5. The candidate is willing to give and receive help.
 6. The candidate is sensitive to community and cultural norms of the counseling and/or human services industry, the University classroom, and all field placements, practicums, and internships.
 7. The candidate values human diversity and shows respect for others' varied talents and perspectives.
 8. The candidate values the development of critical thinking, independent problem solving, and performance capabilities in himself/herself and those with whom he/she interacts.
 9. The candidate demonstrates a commitment to keeping abreast of new ideas and understanding in the human services and/or counseling field.
 10. The candidate demonstrates a level of responsibility and ethical judgment consistent with professional guidelines developed for these fields and appropriate for a professional human services worker and/or counselor. These guidelines are outlined in the National Organization for Human Services (NOHS) Code of Ethics, the American School Counselor Association (ASCA) Ethical Standards for School Counselors, and the American Counselors Association (ACA) Code of Ethics.
 11. The candidate maintains the highest ethical standards in interactions with faculty, students, staff, and clients as well as in preparation and submission of required course work, and the completion of assignments.
 12. The candidate maintains a pattern of consistently meeting academic and professional standards in courses, field placements, practicums and internships.
- When it is determined by faculty, campus staff, or campus management that a candidate falls short of meeting any of the above Supplemental Standards, they may file a "Referral Form" with the Campus College Chair, Campus Director of Academic Affairs, or designee. Any candidate who receives one or more referral(s) shall be counseled, remediated, or withdrawn from their program, as appropriate.
- Candidates who are separately charged with violating the Student Code of Conduct shall be subject to the policies, procedures, and sanctions for processing such charges. However, a charge under the Student Code of Conduct may also be the basis for a referral on separate academic grounds under these Supplemental Standards. Similarly, an observation under the Referral Process may be the

basis for a Student Code of Conduct charge.

University of Phoenix Supplemental Standards for Candidates in College of Education Programs

Candidates in a University of Phoenix College of Education program leading to certification or licensure are subject to greater scrutiny because of their anticipated interactions with students, parents, and the school community. These degree candidates participate in one or more field placements as part of their academic program. As prospective educators/administrators, College of Education candidates are expected to represent the University as professionals and adhere to the ethics and standards of their profession, as well as the University's Student Code of Conduct.

The College of Education has instituted processes to ensure that candidates demonstrate the appropriate behavioral and programmatic skills required of the profession. As such, candidate interactions with staff, faculty, fellow students, and external placement constituents are observed throughout their attendance. Additionally, candidates are regularly evaluated by the faculty and have access to counseling on professional requirements. These processes are conducted through collaboration between faculty, campus staff, and campus management who understand the profession and who can offer constructive feedback. It is the intention of the Referral Process to identify a candidate's deficiencies and promote dialogue on how the candidate can improve and move forward in their program. The Referral Process is not intended as punitive, but rather as a corrective measure to ensure candidates are prepared to enter their profession.

During the course of their program, including general education courses, candidates are expected to conduct themselves in accordance with the Student Code of Conduct, Professional Dispositions Rubric, and Supplemental Standards criteria. Faculty members will closely monitor a candidate's academic progress through a review of grades and dispositions. Should a student be reported for academic or behavioral issues at any time during their period of attendance, a student may be issued a Referral under the Supplemental Standards. A referral may be issued with or without a corresponding Student Code of Conduct action.

Supplemental Standards

The following Supplemental Standards for Candidates in College of Education Programs

("Supplemental Standards") apply to these degree candidates before, during, and after their field placements. The Supplemental Standards address a candidate's affective attributes and disposition to be an educator/administrator. A corresponding Professional Dispositions Rubric provides additional guidance. A candidate's ability to satisfactorily meet the Supplemental Standards is a matter of ongoing academic judgment made by faculty, campus staff, and campus management, and external placement constituents.

1. The candidate contributes to a positive climate in the University classroom and all field placements.
2. The candidate demonstrates mastery of written and spoken language for self expression, as well as for effective interaction in all settings.
3. The candidate is a thoughtful and responsive listener.
4. The candidate is committed to reflection, assessment, and learning as an ongoing process and believes that all students can learn.
5. The candidate is willing to give and receive help.
6. The candidate is sensitive to community and cultural norms in

the University classroom and in clinical experience.

7. The candidate appreciates and values human diversity and shows respect and fairness for others' varied talents and perspectives.
8. The candidate values the development of critical thinking, independent problem solving, and performance capabilities in himself/herself and those with whom he/she interacts.
9. The candidate demonstrates a commitment to keeping abreast of new ideas and understanding in the education field.
10. The candidate demonstrates a level of responsibility and ethical judgment appropriate for a professional educator/administrator.
11. The candidate maintains the highest ethical standards in interactions with faculty, students, staff, and external placement constituents, as well as in preparation and submission of required course work and the completion of tests.

Referral under the Supplemental Standards

When it is determined by faculty, campus staff, or campus management that a candidate falls short of meeting any of the above Supplemental Standards, they may file a Referral

Form with the Campus College Chair, Campus Director of Academic Affairs, or designee. Any candidate who receives one or more referral(s) shall be counseled, remediated, or withdrawn from their program, as appropriate.

Candidates who are separately charged with violating the Student Code of Conduct shall be subject to the policies, procedures, and sanctions for such charges. However, a charge under the Student Code of Conduct will also be the basis for a referral on separate academic grounds under these Supplemental Standards. Similarly, an observation under the Referral Process may be the basis for a Student Code of Conduct charge.

University of Phoenix Supplemental Standards for Students/Candidates in School of Advanced Studies Programs

Students/candidates in a University of Phoenix School of Advanced Studies program are subject to greater scrutiny because doctoral students/candidates are expected to represent the University as scholars and professionals and adhere to the ethics and standards of their profession, as well as the University's Student Code of Conduct.

The School of Advanced Studies has instituted processes to ensure that doctoral students/candidates demonstrate the appropriate scholarly and professional skills required of their advanced academic and professional standing that the doctorate represents. As such, student/candidate interactions with staff, faculty, fellow students, and external contacts are observed throughout their attendance. Additionally, doctoral students/candidates are regularly evaluated by the faculty and have access to counseling and academic advisement on scholarly and professional requirements. These processes are conducted through collaboration between faculty, campus staff, and campus management who understand the requirements of doctoral standing and who can offer constructive feedback. It is the intention of the Referral Process to identify a student's/candidate's deficiencies and promote dialogue on how the student/candidate can improve and move forward in their program. The Referral Process is not intended as punitive, but rather as a corrective measure to ensure doctoral students/candidates are prepared to enter their profession at the advanced level appropri-

ate to a completed doctoral education.

During the course of their program students/candidates are expected to conduct themselves in accordance with the Student Code of Conduct, Professional Dispositions Rubric, and Supplemental Standards criteria. Faculty members will closely monitor a student's/candidate's academic progress through a review of grades and dispositions. Should a student be reported for academic or behavioral issues at any time during their period of attendance, a student/candidate may be issued a Referral under the Supplemental Standards. A referral may be issued with or without a corresponding Student Code of Conduct action.

Supplemental Standards

The following Supplemental Standards pertain to doctoral students/candidates in School of Advanced Studies programs. The Supplemental Standards address a student's/candidate's affective attributes and disposition to be a successful scholar and professional at the doctoral level. A corresponding Professional Dispositions Rubric provides additional guidance. A student's/candidate's ability to satisfactorily meet the Supplemental Standards is a matter of ongoing academic judgment made by faculty, campus staff, and campus management, and external placement constituents.

1. The student/candidate contributes to a positive climate in the University classroom, all residencies and research and/or practice settings.
2. The student/candidate demonstrates mastery of written and spoken language for self-expression, as well as for effective interaction in all settings.
3. The student/candidate is a thoughtful and responsive listener.
4. The student/candidate is committed to reflection, assessment, and learning as an ongoing process.
5. The student/candidate is willing to give and receive help.
6. The student/candidate is sensitive to doctoral community values and cultural norms for the degree program, the University classroom, research and scholarly activities, and/or practice hours within their discipline.
7. The student/candidate appreciates and values human diversity and shows respect and fairness for others' varied talents and perspectives.
8. The student/candidate values the development of critical thinking, independent problem solving, and performance capabilities in himself/herself and those with whom he/she interacts.
9. The student/candidate demonstrates a commitment to keeping abreast of new ideas, theories, and understanding in their scholarly discipline and professional field.
10. The student/candidate demonstrates a level of responsibility and ethical judgment appropriate for an advanced scholar, professional, and leader in their professional field.
11. The student/candidate maintains the highest ethical standards and professional demeanor in interactions with faculty, students, staff, and external contacts related to research and scholarly activities and/or practice hours, as well as in preparation and submission of required course work and dissertation research.
12. The student/candidate maintains a pattern of meeting academic and professional standards in courses, residencies, and research and/or practice settings.

Referral under the Supplemental Standards

When it is determined by School of Advance Studies faculty, staff,

or management that a student/candidate falls short of meeting any of the above Supplemental Standards, they may file a Referral Form with the Associate Dean of Instruction, Dean of Instruction, or designee. Any student/candidate who receives one or more referral(s) shall be counseled, remediated, or withdrawn from their program, as appropriate.

Students/candidates who are separately charged with violating the Student Code of Conduct will be subject to the policies, procedures, and sanctions for such charges. However, a charge under the Student Code of Conduct may also be the basis for a referral on separate academic grounds under these Supplemental Standards. Similarly, actions leading to a referral under the Referral Process may be the basis for a Student Code of Conduct charge.

DISPUTE RESOLUTION POLICY AND PROCEDURES

The following policy and procedures are to be used to resolve disputes by both current and former students of the University. The policy applies to all students who applied to the University for the first time or as a re-entry student with an enrollment agreement executed on or after September 1, 2012. Students who change from one program to another program at a different degree level (for example, a student who changes from an associate-level program to a bachelor-level program) will be considered newly entering students for purposes of this policy. Students are encouraged to bring the concerns outlined below to the attention of the appropriate individual/department, as set forth in Step One below. These individuals/departments will investigate and resolve such concerns accordingly. A covered dispute is subject to the conditions below and may be submitted to the formal Dispute Resolution Procedures set forth in this section if not satisfactorily resolved through the prior intervention of Step One.

In connection with the University policies identified in Step One below, this policy is intended to address disputes between a student and the University and create a framework by which students and the University can resolve all such disputes arising from a student's interactions with the University. Although the University strongly recommends utilization of the resources identified in Step One to resolve such disputes, the only dispute resolution policy that is mandatory is the arbitration policy. Arbitration is the exclusive means by which all covered disputes asserted by either a student (whether current or former) or the University, involving justiciable disputes and/or or any justiciable matter arising from the student's interactions with the University, shall be decided and finally resolved.

Claims and/or disputes covered by this policy fall into one of two levels:

- Level One disputes involve alleged violations of state or federal law, any statutory or common law tort claim or alleged breach of contract claim, claims of discrimination or harassment pursuant to state or federal law, or any other issue of a substantial nature. If not resolved sooner, Level One disputes may be processed through all three steps of the following Dispute Resolution Procedures.
- Unless such issue involves a violation of law, issues of a lesser nature — for example, Student Code of Conduct violations, general student grievances, academic issues and grade disputes, etc. — are considered Level Two disputes and, if not resolved sooner, may be processed only through Step One of the following Dispute Resolution Procedures.

Step One: Internal Resolution

Students should first attempt to resolve any dispute or issue related to the following subject matters, or like subject matters, by contacting the following individuals/departments, and utilizing the process set forth in the corresponding section(s) of the Academic Catalog, as referenced below. Please note that the information provided below represents only the initial contact with whom such disputes should be reported. Students should carefully consult the Academic Catalog (<https://www.phoenix.edu/programs/degree-programs/academic-catalog.html>) to gain a fuller understanding of the processes associated with reporting and resolving disputes related to these subject matters.

- Allegations of sex discrimination or sexual harassment: Camie Pratt, Associate Vice President and Title IX Coordinator, Office of Dispute Management ("ODM"). See Nondiscrimination Policy and Harassment Policy in Academic Catalog.
- Allegations concerning all other forms of discrimination: Campus Director of Academic Affairs, Campus Director of Operations, Campus Director of Student Services, or their respective designee. See Nondiscrimination Policy and Harassment Policy in Academic Catalog.
- Student Code of Conduct violations, other than sex discrimination and sexual harassment: Registrar. See Student Code of Conduct section in Academic Catalog.
- General student grievances (other than sex discrimination and sexual harassment): Office of Dispute Management. See General Student Grievances section in Academic Catalog.
- Student grievances relating to financial aid, account balances or collections: Campus Management. See General Student Grievances section in Academic Catalog.
- Academic issues: Student Appeals Center in ODM. See Student Appeals Center Section in Academic Catalog.
- Grade disputes: Director of Academic Affairs or designee. See Grade Disputes section in Academic Catalog.

Step Two: Mediation

If a Level One dispute is not resolved as a result of Step One, then prior to proceeding to Arbitration, all parties are encouraged to participate in a formal mediation session facilitated by a professional, neutral mediator. Mediation is not mandatory but is strongly encouraged as an effective way to resolve disputes. Mediation is not a mandatory prerequisite to arbitration.

The physical location for the mediation shall be mutually selected by the parties. If the parties elect mediation, the student is required to pay the sum of \$100 toward the mediation costs, which amount shall be paid directly to the mediator. Any other costs associated with the mediation shall be paid by the University. Both the student and the University shall submit in writing to the other the name(s) of one or more professional, neutral mediators as a potential mediator in the matter. The parties will exercise their best efforts to agree on the selection of a mediator. If the parties cannot agree on the selection of a mediator, then the parties can submit the matter to the American Arbitration Association for the purpose of having a neutral mediator appointed.

The mediator shall schedule the mediation as expeditiously as pos-

sible. All parties will have the opportunity to attend and participate in the mediation. Any party may be represented by counsel of his or her choosing, at his or her own expense. The mediator shall direct how the mediation will be conducted. As with all mediations, any resulting resolution must be agreed to by the parties, which shall constitute a final and binding resolution of the matter.

Step Three: Binding Arbitration

1. This Binding Arbitration provision ("Arbitration Agreement") is governed by the Federal Arbitration Act 9 U.S.C. § 1 et seq., and evidences a transaction involving commerce. This Arbitration Agreement is a condition of becoming enrolled with the University. This Arbitration Agreement applies to any covered dispute arising out of or related to the student's interactions with the University. Nothing contained in this Arbitration Agreement shall be construed to prevent or excuse the student from utilizing the University's existing internal procedures for resolution of complaints, as set forth in Step One above, and this Arbitration Agreement is not intended to be a substitute for the utilization of such procedures. Except as it otherwise provides, this Arbitration Agreement is intended to apply to the resolution of disputes that otherwise would be resolved in a court of law, and therefore this Arbitration Agreement requires all such disputes to be resolved only by an arbitrator through final and binding arbitration and not by way of court or jury trial. Such disputes include without limitation disputes arising out of or relating to interpretation or application of this Arbitration Agreement, including the enforceability, revocability or validity of the Arbitration Agreement or any portion of the Arbitration Agreement. Regardless of any other terms of this Arbitration Agreement, claims may be brought before an administrative agency if applicable law permits access to such an agency notwithstanding the existence of an agreement to arbitrate. Such administrative claims include without limitation claims or charges brought before the U.S. Department of Education, State Boards of Education or the Office of Federal Contract Compliance Programs.
2. Notwithstanding any other language in this Arbitration Agreement, a student's Enrollment Agreement, the Academic Catalog or any other University policy or practice, this Arbitration Agreement will not be unilaterally revised, modified or eliminated by the University with respect to any covered dispute after that dispute has been submitted to arbitration pursuant to this Arbitration Agreement.
3. The parties shall select the neutral arbitrator and/or arbitration sponsoring organization by mutual agreement. If the parties cannot mutually agree to an arbitrator and/or arbitration sponsoring organization, the arbitration will be held and the arbitrator selected under the auspices of the American Arbitration Association (AAA). Except as provided in this Arbitration Agreement, the arbitration shall be held in accordance with the then current Commercial Arbitration Procedures of the AAA. The AAA rules are available at <http://www.adr.org>. However, nothing in said rules or procedures and/or any modification thereto shall affect the enforceability and validity of the Class Action Waiver, including but not limited to the provision that the enforceability of the Class Action Waiver may be determined only by a court and not by an arbitrator. Unless the parties jointly agree otherwise, the arbitrator shall be either an attorney who is experienced in the subject matter at issue and licensed to practice law in the state in which the arbitration is convened, or a retired judge.
4. The party bringing the claim must demand arbitration in writing and deliver the written demand by hand or first class mail to

the other party within the applicable statute of limitations period. Any demand for arbitration made to the University shall be provided to the Legal Department, University of Phoenix at 4025 S. Riverpoint Parkway, Mail Stop: CF-KX01, Phoenix, AZ 85040. The arbitrator shall resolve all disputes regarding the timeliness or propriety of the demand for arbitration. A party may apply to a court of competent jurisdiction for temporary or preliminary injunctive relief in connection with an arbitrable controversy, but only upon the ground that the award to which that party may be entitled may be rendered ineffectual without such provisional relief.

5. In arbitration, the parties will have the right to conduct adequate civil discovery, bring dispositive motions, present witnesses and evidence as needed to present their cases and defenses, and any disputes in this regard shall be resolved by the arbitrator.
6. **CLASS ACTION WAIVER:** There will be no right or authority for any dispute to be brought, heard or arbitrated as a class, collective or representative action or as a class member in any purported class, collective action or representative proceeding (Class Action Waiver). Notwithstanding any other clause contained in this Arbitration Agreement, the preceding sentence shall not be severable from this Agreement in any case in which the dispute to be arbitrated is brought as a class, collective or representative action. Notwithstanding any other clause contained in this Arbitration Agreement, any claim that all or part of the Class Action Waiver is unenforceable, unconscionable, void or voidable may be determined only by a court of competent jurisdiction and not by an arbitrator.
7. Each party will pay the fees for his, her or its own attorneys, subject to any remedies to which that party may later be entitled under applicable law. The University shall initially bear the administrative costs associated with the conduct of the Arbitration, subject to: (1) a one-time payment by the student toward these costs equal to the filing fee then required by the court of general jurisdiction in the state where the student in question attended the University; and (2) any subsequent award by the Arbitrator in accordance with applicable law.
8. The Federal Rules of Evidence shall apply. The arbitrator shall have jurisdiction to hear and rule on prehearing disputes and is authorized to hold pre-hearing conferences by telephone or in person, as the arbitrator deems necessary. The arbitrator shall have the authority to entertain a motion to dismiss and/ or a motion for summary judgment by any party and shall apply the standards governing such motions under the Federal Rules of Civil Procedure and applicable federal common law.
9. Within 30 days of the close of the arbitration hearing, any party will have the right to prepare, serve on the other party and file with the arbitrator a brief. The arbitrator may award any party any remedy to which that party is entitled under applicable law, but such remedies shall be limited to those that would be available to a party in his or her individual capacity in a court of law for the claims presented to and decided by the arbitrator, and no remedies that otherwise would be available to an individual in a court of law will be forfeited by virtue of this Arbitration Agreement. The arbitrator will issue a decision or award in writing, stating the essential findings of fact and conclusions of law. Except as may be permitted or required by law, as determined by the arbitrator, neither a party nor an arbitrator may disclose the existence, content or results of any arbitration hereunder without the prior written consent of all parties. A court of competent jurisdiction shall have the authority to enter a judgment upon the award made pursuant

to the arbitration.

10. It is against University policy for any student to be subject to retaliation if he or she exercises his or her right to assert claims under this Arbitration Agreement. If any student believes that he or she has been retaliated against by anyone at the University, the student should immediately report this to the ODM.

11. This section entitled "Binding Arbitration" is the full and complete agreement relating to the formal resolution of student-related disputes in arbitration. Except as stated in paragraph 6, above, in the event any portion of this Arbitration Agreement is deemed unenforceable, the remainder of this Arbitration Agreement will be enforceable. If the Class Action Waiver is deemed to be unenforceable, the University and the student agree that this Arbitration Agreement is otherwise silent as to any party's ability to bring a class, collective or representative action in arbitration.

Complaints to the Texas Education Agency

If the stakeholder is not satisfied with the complaint process or outcome, the stakeholder may file a complaint against the Program with the Texas Education Agency. The official Texas Education Agency complaint process can be found at http://tea.texas.gov/About_TEA>Contact_Us/Complaints/Complaints/.

ACADEMIC POLICIES

Academic Advisement

All students are provided the opportunity to communicate with a representative throughout the duration of their program. This advisement can provide students with a preliminary evaluation of their academic status prior to admission and the requirements they must satisfy for both admission to and the completion of their degree program. All students are notified of their official transfer of credits at the time of matriculation and may view their official transfer credit evaluation and progress toward degree completion at any time on their student website. Student services available on the student website include transfer credit summaries, official grades, program GPA, access to update demographic information, and the ability to request transcripts. Guidance on degree completion progress and options may also be discussed at any time with a representative.

Registration

Students must sign an Enrollment/Disclosure Agreement for the program of study which they intend to pursue. The student's Enrollment/Disclosure Agreement defines the student's curriculum and degree requirements. The executed Enrollment Agreement will be effective for a one year from the date signed.

Students who register in an eligible program may qualify for financial aid in accordance with federal regulations.

Admission Statuses

There are thirteen types of admission statuses at the University of Phoenix representing a student's standing: Registered, Orientation Pending, Admitted with Condition, En-Route Credential, Admitted, Deferred Admission, Graduate Provisional, Registered International Credentials, Non-Degree, Denied for Cause, Denied Admission, Admission Deadline Exceeded, and Re-Entry. Applicants to certain degree programs are permitted to begin their course of study under Registered, Registered with International Credentials and Provisional admissions statuses, but are not considered unconditionally admitted until the Office of Admissions and Evaluation grants a status of Admitted and all transfer credits are reviewed for applicability to the degree program.

Official decisions regarding admission and academic statuses may be delivered to students via the student website or US Mail.

Registered (RR) Status

Students qualify for registered status upon completion of the application for admission and payment of the application fee (if applicable). Qualified degree-seeking students in the business, human services, management, education, counseling, computer information systems, psychology or nursing programs may attend a maximum of four courses under registered status. The University makes no guarantees of a favorable admission to students enrolled in course work under registered status.

Orientation Pending (OP) Status

Undergraduate degree applicants with less than 24 credits of previous college credit/experience as listed on their admissions application will be granted Orientation Pending (OP) admitted status after all admission documents have been received, the admission file has been reviewed, and all admission requirements for the chosen program have been met. As a condition of admission, students on Orientation Pending (OP) admitted status must satisfactorily com-

plete the University Orientation prior to gaining unconditional admission status.

Admitted with Condition (AC) Status

Undergraduate degree applicants participating in a university sponsored trial period will be granted Admitted with Condition admission status after all admission documents have been received, the admission file has been reviewed, and the minimum admission requirements for the chosen program have been met. As a condition of admission, students on Admitted with Condition (AC) admission status must meet class attendance requirements in the fourth week of their first course (or after) and have all transfer credits evaluated prior to being unconditionally admitted

En-route Credential (EC) Status

Students who are pursuing an en-route credential on the way to earning a higher level degree program will be placed on En-route Credential (EC) admission status for the lower level program being earned en-route. Student's admissibility as a regular student will be enforced and maintained under the degree program of pursuit associated with the student's enrollment agreement.

Admitted (AM) Status

The Office of Admissions and Evaluation in Office of Admissions & Records grants a student unconditional admitted status after all documents have been received, the applicant's admission file has been officially reviewed, and all admission requirements and conditions for the chosen program have been met. Students in all programs must attain admitted status and be officially evaluated by the completion of their fourth University course. This provides the University the necessary information to develop individualized program schedules for each student and provides an opportunity for an admission decision to be made early in the program. Students who are unable to obtain an official admission status by the completion of their fourth University course will be administratively withdrawn from the University and placed on Admission Deadline Exceeded (DE) admission status.

Deferred Admission (DF) Status

Students will be granted deferred admission (DF) if documents or information required for admission (AM) are missing from the file. Students will remain on DF status until the required documents or information is received. Students on DF status cannot attend class and will be administratively withdrawn from the university until the status is resolved.

Graduate Provisional (PV) Status

Students who meet all admission requirements in graduate programs except the minimum GPA requirement of 2.50 or 3.00 (see program specific admissions requirements) may be admitted on Provisional status if their entrance GPA is between 2.0 and 2.49 or 2.50 and 2.99 depending on the program of interest. Students admitted on provisional status must achieve a GPA of 3.0 in their University of Phoenix course work at the end of their fourth completed program applicable course to be unconditionally admitted and placed on Admitted status. Failure to meet the minimum grade point average (GPA) of 3.0 by the fourth completed program applicable course will result in a DA (Disqualified for Admission) student academic status.

Registered International Credentials (RI) Status

Students using copies of international academic credentials qualify for registered with international credentials status upon comple-

tion of the application for admission and payment of the application fee (if applicable). Students will not be granted unconditional admission using copies of international credentials until verification of the credentials or an original international academic record is received. Qualified degree-seeking students in the business, human services, management, education, counseling, computer information systems, psychology or nursing programs may attend a maximum of four courses under registered status. The University makes no guarantees of a favorable admission to students enrolled in course work under registered with international credentials status.

Non-Degree (ND) Status

Individuals interested in taking coursework at the University, but not interested in pursuing a degree, may register as non-degree students. Non-degree students enrolling in single courses within a degree or certificate program must meet the admissions requirements for the respective college or school. An approved list of courses is available on www.phoenix.edu under Individual Courses.

Students may also register for single courses for credit that are not currently part of a degree program or for non-credit bearing courses resulting in Continuing Education Units (CEU), Professional Development Units (PDU), or Contact Hours. Non-degree status may be granted upon completion of the application. Placement on this status for a student is determined by the campus in which the student seeks to complete non-degree coursework.

Denied for Cause (DC) Status

Applicants for admission who have violated a University policy or procedure or committed some other act which, if he or she were already a student, would pose a risk to the University or would subject him or her to sanctions for violating the Student Code of Conduct, will be placed on Denied for Cause status (DC) and will be administratively withdrawn from the university.

Denied Admission (DN) Status

Applicants who do not meet the minimum requirements for admission to a program will be placed on denied admission status and be administratively withdrawn from the university.

Admission Deadline Exceeded (DE) Status

Students who are unable to attain admitted status by the completion of their fourth university course will be placed on Admission Deadline Exceeded (DE) status and be administratively withdrawn from the University.

Re-entry Required (RE) Status

Students who were previously admitted (AM, PV, IV, OP) into a program but have not posted positive attendance in a course for the amount of time designate by the re-entry policy will be placed on Re-entry Required (RE) admission status. Students placed on Re-entry Required (RE) status will be required to re-enter the most current program/version in their state or jurisdiction and submit an admission application, enrollment agreement and any other documents as required by the new program.

Student Academic Standing

The University recognizes the following Student Academic statuses for degree and certificate seeking students:

Regular (RG)

Student is in compliance with applicable academic standing and progression based on program requirements.

Disqualified for Admission (DA)

Disqualified for Admission results when provisionally-admitted

students fail to achieve the minimum-required grade point average at the conclusion of the provisional period. The date of disqualification is determined by the course end date of the final course completed within the Provisional Admission (PV) period.

Students placed on DA status:

- will be administratively withdrawn from the University and are not eligible to re-enroll until six months from the date of disqualification.
- must be granted approval by the Student Appeals Center to re-enroll at the University and may not appeal to return prior to the end of the six month disqualification period. There will be no exceptions.
- may not transfer to another program or major until they have fulfilled the six month disqualification period and have received approval through a student appeal.
- must meet all conditions of the appeal decision and may be required to retake or replace the course(s) with the lowest grade(s) earned.

Academic Disqualification (AD)

Academic Disqualification results when students on Academic Probation (AP) fail to achieve the minimum-required grade point average (GPA) at the conclusion of the probationary period. The date of disqualification is determined by the course end date of the final course completed within the AP sequence. The University will note the date a student is placed on and removed from Academic Disqualification on the permanent transcript.

Students placed on AD status:

- will be administratively withdrawn from the University and are not eligible to re-enroll until six months from the date of disqualification.
- must be granted approval by the Student Appeals Center to re-enroll at the University and may not appeal to return prior to the end of the six month disqualification period. There will be no exceptions.
- may not transfer to another program or major until they have fulfilled the six month disqualification period and have received approval through a student appeal.
- must meet all conditions of the appeal decision and may be required to retake or replace the course(s) with the lowest grade(s) earned.

Scholastic Disqualification (SD)

Scholastic Disqualification results when a student does not meet the minimum grade requirement for a designated course in their program. If the minimum grade is not earned, the course will be treated as a non-passing grade (F) and will be awarded zero (0.00) credit. The course will be counted in the calculation of the GPA based on attempted credits. The University will note the date a student is placed on and removed from Scholastic Disqualification on the permanent transcript.

Students placed on SD status:

- will not be allowed to continue in their program until they have fulfilled the requirements for progression as determined by University policy.
- may not transfer to another program or major without an approved SAC appeal, or until they have fulfilled the requirements for progression.

Scholastic Suspension (SS)

Scholastic Suspension occurs when a student is suspended for a period of time or indefinitely from the University. The student will be administratively withdrawn and the University will note the

dates of suspension on the permanent transcript. Students placed on SS status will not be allowed to continue in their program or transfer to another program or major without an approved appeal. Students who are placed on Scholastic Suspension must use the following respective appeal processes:

- Student Code of Conduct Violation - Appeal to the Student Discipline Review Committee. (SDRC)
- Program Progression Requirements - Appeal to the Student Appeal Center (SAC), except where specifically noted in program policies
- Supplemental Standards Withdrawal from Program - Appeal to the Central Administration Appeals Committee (CAAC)

Expulsion (EX)

Expulsion occurs when a student is administratively withdrawn from the university and not permitted to return under any circumstances. The date of expulsion is noted on the official transcript.

Program Academic Standing

The University recognizes the following Program Academic statuses for degree and certificate seeking students.

Regular (RG)

Student is in compliance with applicable academic standing and progression based on program requirements.

Academic Probation (AP)

Students will be placed on Academic Probation when their program grade point average (GPA) falls below the minimum GPA required in their program. (R1) Students on Academic Probation status are restricted to a period of four consecutive completed program-applicable courses to bring their GPA to the minimum requirement for their degree program. Only courses that start and end after the course that placed the student on AP (Academic Probation) status will apply toward Academic Probation Concurrent enrollment is prohibited in this status.

Course Statuses

Administrative Withdrawal (AW)

Student is removed from a course due to certain academic, admissions, and/or financial statuses.

Audit (AU)

Student has received appropriate approvals to observe the course and will not receive a letter grade.

Completed (CO)

Student has attended enough workshops to meet minimum attendance requirements and to receive a letter grade.

Dropped (DR)

Student was in a SC or EN course status and requested to be removed from the course. The student has not met the minimum attendance requirements in the course.

Enrolled (EN)

Student has satisfied at least one week of positive class attendance and continues to actively meet class attendance requirements.

Obsolete (OB)

Student has been scheduled for a course that has been retired and that will no longer be offered by the University.

Scheduled (SC)

Student is registered for a course and no class attendance has been posted.

Insufficient Attendance (TA)

Student has been automatically removed from the course due to not meeting minimum class attendance requirements.

Withdrawn for Admissions (WI)

Student not matriculated or student has been removed from admissions (AM) status after completing five courses.

Waived with Credit (WO)

Student has processed a waiver request through the Office of Admissions & Records.

Withdrawn for Prerequisite (WP)

Student has failed to meet the course and/or program prerequisite requirement.

Exemption (WV)

Course waived without credit.

Candidacy Statuses

Level 1 Candidate Status

Level 1 Candidate status is determined at the time of admission and is based on the admissions requirements for the desired program. Not all programs have a candidate status requirement.

- 1S: Level 1 Candidate Status Satisfied: Student has met the admissions requirements and has been admitted.
- 1N: Level 1 Candidate Status has not been satisfied: Student has not met the admissions requirements, has been denied admission, and therefore does not meet the requirements to achieve Level 1 Candidate Status. Students in a 1N Candidate Status should not attend class.

Level 2 Candidate Status

Level 2 Candidate status is a review of additional requirements needed for the student to progress in their program past a certain point, as designated in program policy.

- 2S: Level 2 Candidate Status Satisfied: Student has met the additional requirements by the specified deadline indicated in the program requirements.
- 2N: Level 2 Candidate Status Not Satisfied: Student has not met the additional requirements by the specified deadline indicated in the program requirements. A candidate status of 2N restricts the student from attending any future courses until the requirements are met and the student will be administratively withdrawn from the university.

Enrollment Status

The University recognizes the following enrollment statuses:

Program Level Enrollment Status

Enrollment Status	Code	Definition
Active Full-Time	F	The student's required academic workload for his/her program is at least 6 credits for an academic year, the student is actively attending class and the student's official last date of attendance based on Academically Related Activities (ARAs) does not exceed 14 days. Institutionally Scheduled Breaks and In Progress Extension (IX) grades are excluded from the 14 day out of attendance calculation.
Active Less Than Half Time	L	The student's required academic workload for his/her program amounts to less than the 6 credits for an academic year, as determined by the institution. In addition, the student is actively attending class and student's official last date of attendance based on Academically Related Activities (ARAs) does not exceed 14 days. Institutionally Scheduled Breaks and In Progress Extension (IX) grades are excluded from the 14 day out of attendance calculation.
Leave of Absence	A	The student is on an approved Leave of Absence (LOA).
Withdrawn	W	The student has been withdrawn from the University. Withdrawal can be unofficial, official or administrative.
Academic Complete	C	Academic program requirements have been satisfied, as identified by the academic complete date field in the academic system of record; however, the student's program has not been officially audited nor has the University's Registrar's office officially conferred the degree.
Graduated	G	The student has completed all program requirements and degree is conferred.

Enrollment Status	Code	Definition
Deceased	D	The student is deceased.
Not Started	X	The applicant has not yet attended a course in his/her program.

Student Level Enrollment Status (Overall Enrollment Status)

The program level enrollment status determines a student's overall enrollment status with the University. If there are multiple programs on record, the overall enrollment status will reflect the enrollment status of the program with the highest priority based on the hierarchy below.

1. Deceased
2. Approved Leave of Absence
3. Full Time
4. Less Than Half Time
5. Withdrawn
6. Graduated
7. Academic Complete
8. Not Started

Student Falsification of Information

All students applying for admission to the University have the responsibility to submit a complete and accurate application package including all academic and professional credentials required. Submitting incomplete, false, or misleading information may be grounds for dismissal at any time.

On-Camera Conduct Policy

Students, faculty and staff of University of Phoenix may have reason to utilize electronic camera communication. Any person engaging in a University of Phoenix related activity who activates a camera presence, whether intentionally or unintentionally, must comply with the following guidelines. Failure to comply with these guidelines may result in a Student Code of Conduct violation.

- All persons appearing on camera must be dressed appropriately, as if present in a physical classroom or office setting. Examples of prohibited conduct include but are not limited to appearing on camera without appropriate covering, having exposed undergarments, and wearing clothing which is sexual, discriminatory, or otherwise unprofessional in nature.
- The area visible by the other party must be free from all items which may detract from or be disruptive to the educational environment. Examples of prohibited items include but are not limited to firearms, drugs (legal or illegal), drug paraphernalia (legal or illegal), tobacco products, and material which is sexual, political, discriminatory, or otherwise unprofessional in nature.
- The area in use by all parties must be free from general distractions. Examples include, but are not limited, to children, animals, electronics, appliances, and other adults.
- Parties appearing on camera are to conduct themselves at all times in a professional manner. Either party to on-camera communication may end their video presence at will.

General Grievances

The University has established specific processes for students who wish to submit a grievance or appeal. These processes are outlined

within the respective policies.

Grievances relating to financial aid, account balances, or collections must be reviewed by campus management before being submitted to the Office of Dispute Management (ODM). When such a grievance is received in the ODM, the student will be provided with guidance on filing a formal grievance via this office.

Student grievances and appeals not addressed in policy can be submitted in writing to the ODM, which will determine the appropriate course of action.

Academically-Related Appeals - Student Appeals Center (SAC)

Requests for exceptions to academic policy must be submitted via appeal to the Student Appeals Center (SAC). SAC decision-makers have the authority to make exceptions to University policy based upon a student's individual circumstances. Decisions are based upon maintaining the academic integrity of the institution. It is incumbent upon the student to provide his/her campus representative with an appeal letter and all relevant documents and statements of support for the request. SAC Decisions are ineligible for appeal through any other entity within the University.

Grading Procedures

Course grades can be viewed on the student website (<https://ecampus.phoenix.edu>) on the Schedule and Grades page. In addition, students may view their grades on the official and unofficial transcript available on the home page by selecting Order Transcripts under the Quick Links listing. Faculty members are required to post final grades within seven days of completion of the course.

The University has established the following grading guidelines to be complied with by all faculty.

Grade Definitions

Grade	Quality Points	Grade	Quality Points
A	= 4.00	C-	= 1.67
A-	= 3.67	D+	= 1.33
B+	= 3.33	D	= 1.00
B	= 3.00	D-	= .67
B-	= 2.67	F	= .00
C+	= 2.33		
C	= 2.00		

The following grades are not issued quality points and do not calculate into the GPA:

I = Incomplete

IP = In Progress

IX = In Progress extension

W = Withdrawal

W/F = Withdrawal failing

P = Passing

AU = Audit

QC = No grade awarded

NC = No credit

WC = Waived with credit

The minimum passing grade for a University course is D-; however, some University programs and courses require higher minimum grades. Minimum grade requirements are documented within policy for those specific programs. Students who receive a grade below the minimum passing grade established for a course will not earn quality points, as the grade is considered a failing grade.

A = Outstanding achievement. Student demonstrates intellectual initiative in accomplishing course goals and objectives through high levels of originality and creativity.

B = Very good work. Student performance meets designated course goals and objectives by demonstrating understanding of the course materials at an acceptable level.

C = Average work. Student performance demonstrates average comprehension and satisfactory achievement of the course goals and objectives.

D = Unacceptable work. Student performance demonstrates minimum acceptable performance in accomplishing course goals and objectives.

F = Failing. Student performance demonstrates unsatisfactory or below minimally acceptable achievement in accomplishing course goals and objectives.

I = INCOMPLETE Student granted extension to complete assignments. A student who receives an incomplete is given up to five (5) weeks, at the discretion of the faculty, from the scheduled course completion date to complete the course requirements and receive a grade.

- The student's final grade will be reduced by one full letter grade by the faculty member, regardless of the circumstances under which the Incomplete was granted. Students who do not complete any additional course requirements prior to the new deadline will be awarded the grade earned for the entire course, as though an incomplete grade had not been requested. Faculty members are required to produce completed Incomplete Grade Contracts as needed to enforce the new course completion deadline date.
- Incomplete grades shall be granted for active duty military personnel, regardless of component and including reserve and National Guard personnel who are deployed in operational war zones or in adjacent geographic areas in support of operational war zones. An "operational war zone" is, for purposes of this policy, defined as an area of operations where military personnel are engaged in active conflict or in post-conflict activities. If the student would like an opportunity to complete the course while deployed, an incomplete "I" grade can be issued instead of a "W" grade. The "I" grade may be issued with an initial extension of six (6) weeks beyond the traditional five (5) week extension. The practice of requiring final grades to be lowered by one full letter grade as a result of the incomplete "I" grade shall be waived for deployed students.

IP = IN PROGRESS An IP grade may be awarded in the following instances:

- IP grade can only be awarded in qualified courses by the instructor. The IP grade allows the student additional time to complete requirements. IP grades will default to a QC or an F, depending on the course, if a letter grade is not posted by the instructor by the end of the IP timeframe. Faculty are not required to subtract one letter grade for IP grade awards.

IX = IN PROGRESS EXTENSION An IX grade may be awarded in the following instances:

- This grade is only awarded to eligible students who are approved for reasonable accommodations under American Disabilities Act (ADA).
- A new IX course completion date must be determined by the Disability Services Advisor.
- Students who are approved for reasonable accommodations will not be penalized one letter grade after completing the course to comply with an academic adjustment granted by the University in accordance with the ADA.
- IX grade will default to an F when the course exceeds its expiration date and no grade has been submitted.

QC = No grade awarded. A QC is awarded in the following instances:

- This grade may be used for zero credit courses once the attendance requirement has been satisfied.
- A QC grade may automatically post for certain Doctoral and Counseling courses when the IP period expires and no formal grade has been submitted.
- This grade allows students to repeat a course without penalizing their GPA in eligible courses.

AU = AUDIT Students will receive a designation of "AU" on their permanent record which will not carry any academic credit because there is no measurement of the student's performance.

W = WITHDRAWAL Student withdrew due to exceeding the maximum allowable absences from the course or has been administratively withdrawn by the university. A "W" grade will be issued in the following scenarios:

- The student recorded positive class attendance in at least one scheduled week and did not meet the class attendance requirements due to exceeding the maximum allowable absences.
- The student recorded positive class attendance in at least one week and has been administratively withdrawn from the University and/or program during the course.

WF = WITHDRAWAL/FAILING Student withdrew from the course and the faculty member determined that the student was failing the course at the time of the withdrawal. The student attended at least one week of a course and reached the maximum allowable number of absences. Quality points are 0.00; the grade is not calculated in the GPA.

P = PASSING

Student satisfactorily completed the course.

NC = NO CREDIT

Student withdrew from the course; no grade was issued.

WC = WAIVED WITH CREDIT

University of Phoenix required course, waived with credit.

Program and Cumulative Grade Point Average

Program GPA is calculated using all University of Phoenix (UOPX) courses applicable to the student's degree program.

UOPX cumulative GPA is a calculation of all completed UOPX courses.

The following quality points are associated with the respective grades below:

Grade	Quality Points	Grade	Quality Points
A	= 4.00	C-	= 1.67

Grade	Quality Points	Grade	Quality Points
A-	= 3.67	D+	= 1.33
B+	= 3.33	D	= 1.00
B	= 3.00	D-	= .67
B-	= 2.67	F	= .00
C+	= 2.33		
C	= 2.00		

Program applicable coursework that may not apply towards the program in terms of credit, but is needed to fulfill a proficiency, prerequisite, or other degree requirement will be included in the Program GPA.

Grade Reports and Transcripts

At the end of each course, the faculty member submits and posts grades for each student. Students can view their course information including grades, GPA, program information and scheduled courses online at <https://ecampus.phoenix.edu>. The student's official transcript is prepared by the Registrar's Office. The official transcript will show the current enrollment status, all program(s) and GPAs as well as courses, grades, credits, and dates of instruction for all graded for-credit courses taken at University of Phoenix. Credits awarded from the Prior Learning Assessment will be recorded on the transcripts as the credits are awarded and assessment fees are paid.

Only a summary of credits transferred by institutions will be included on the transcript. If itemized information for these credits are needed, the student must contact the school where the credits were completed.

NOTE: Students may repeat courses. Only the grade and credit for the most recent repetition is used in calculating total hours earned and total cumulative grade-point averages. However, the original and repeated grades remain on the transcript bearing a symbol to show that a particular course has been repeated.

Transcripts will be released only to students who are in good financial standing with the University.

Students may request official transcripts from the student website (<https://ecampus.phoenix.edu>) on the home page by selecting Order Transcripts under the Quick Links listing and by following the directions for requesting a transcript. Students may also request transcripts by phone, fax or mail by contacting the Office of Admissions and Records Service Center at 800-866-3919. Transcript Request Forms are also available at any University of Phoenix campus. Completed forms should be mailed to the Office of the Registrar, University of Phoenix, 4025 S Riverpoint Parkway CF-A206, Phoenix, AZ 85040. The Family Education Rights and Privacy Act of 1974 requires that all mail-in transcript requests be submitted in writing and be signed by the student.

All student academic records are retained, secured, and disposed of in accordance with local, state, and federal regulations. All student record information is maintained on the University computer system, paper and/or microfiche, microfilm, disc or electronic imaging system.

Grade Disputes and Grade Corrections

The University has established a dispute process for students who believe a grade has been awarded incorrectly. Requests or disputes related to grades must be resolved by the faculty member, whose decision is final, unless the dispute alleges discrimination or harassment.

- Disputes challenging the accuracy of a grade must be submitted by the student to the faculty member, with a copy to the campus Director of Academic Affairs, or designee, within six weeks from the grade posting date. Grade disputes based on work submitted, class participation, or claiming a calculation error are to be resolved solely by the faculty member, whose decision is final.
- Disputes challenging a grade which also allege discrimination or harassment by the faculty member are addressed according to the Non-Discrimination and Harassment policies.

Student grades represent the work and knowledge level attained within the regularly scheduled course dates. Students are not allowed to submit extra work to raise their grade after the course has ended because this grade would no longer reflect the level of competency achieved upon completion of the course.

Student grades may not be changed by the faculty member after the grades have been submitted unless the student initiates the formal grade dispute process or if the faculty member determines the original grade was improperly calculated.

Disputes challenging a grade that also allege violation of an established University policy (other than discrimination or harassment) are addressed by the Director of Academic Affairs, or designee, who may mediate a resolution between the student and faculty member. However, the decision regarding whether to change the grade rests solely with the faculty member.

Decisions for grade disputes must be rendered prior to the student being degree conferred.

Program Changes

Students wishing to change their program/version must enter into the most current program or version offered in their state or jurisdiction. Students must do this through consultation with appropriate campus personnel as some other institutional requirements or restrictions may apply. Students changing into a new program must have documentation on file that meets all admission requirements for the new program being entered. Students who are changing programs to a new program that has employment/work experience/access to work environment requirements must submit a Program Change Addendum. Previously transferred or completed University of Phoenix coursework may not apply to the new program requirements due to differences in degree and content requirements for the new program being entered.

Diploma Application and Degree Conferral

University diplomas and certificates are issued to students who have completed all program requirements, are in good academic and financial standing, and whose credential has been officially conferred.

Upon completion of all program requirements, students must submit a diploma application (for a degree program) or certificate application (for a certificate program) in order to be considered for credential conferral.

Following credential conferral, the University will issue one complimentary diploma or certificate.

The date documented on the diploma will reflect the last day of the month in which all program requirements were completed and applied.

The date documented on the certificate will reflect the date on which all program requirements were completed and applied.

Braille Embossed Diplomas

Students may submit a request for a braille embossed diploma to the Disability Services Department. Requests for braille embossed diplomas should be submitted to Robert Becker, Disability Services Manager/Accessibility & Usability at Robert.Becker@phoenix.edu. Approved requests will be routed to the Registrar's Office for fulfillment. Students must provide appropriate documentation and be officially degree conferred.

Posthumous Degrees

The University may present posthumous degrees for deceased students who were enrolled and posted positive attendance, and were in good academic standing in a University program at the time of their death.

Posthumous degrees may be presented to immediate family members who submit a notarized Affidavit of Family Member of Deceased Student or to the executor of the estate with official written authorization.

Degree Posting

Degrees are conferred and posted to students' academic record and transcript on a monthly basis. A student's degree will be posted on his or her academic record and transcript with the last day of the month in which all degree requirements are completed. Degree requirements are considered to be met when all credit has been posted to the academic record. The student's individual program completion date is recorded on the academic record and transcript, indicating that all academic requirements for the degree were fulfilled on that date.

Diplomas are ordered bearing the last day of the month in which all degree requirements were completed for all students who have completed the degree requirements and who have paid all tuition and fees.

Students who are not eligible for degree conferral are notified by their Academic Representative of their degree deficiencies.

Graduation with Honors

Bachelor degree students who complete their degree program with a program grade point average of 3.85 or higher will graduate with "Honors". The "Graduated with Honors" designation will appear on the University diploma and permanent transcript.

Participation in Commencement Ceremony

Commencement ceremonies are held by the majority of campuses. Students who have met all of the requirements and completed a program with University of Phoenix (UOPX) are eligible to participate in commencement.

Students who have not yet completed degree requirements are eligible to participate in commencement ceremonies when they meet the requirements as outlined below.

- Regular (RG) student academic status by the ceremony registration deadline date
- Regular (RG) program academic status by the ceremony registration deadline date
- Satisfaction of all financial obligations to the University

- Completion of degree requirements within the specific credit limits outlined below by the final registration deadline:
 - Associate students- successful completion of all but 6 credits
 - Bachelor's and Master's students- successful completion of all but 9 credits
 - Doctoral students - successful completion of all credit and non-credit bearing degree requirements, including a completed dissertation approved by the Dean, prior to commencement eligibility.
 - Certificate students - successful completion of all but 3 credits

Students who do not meet the eligibility requirements will not be allowed to participate in commencement ceremonies. Campuses are not permitted to grant exceptions to these policies and no appeals will be accepted

Students who attend commencement ceremonies prior to completing their degree requirements are not guaranteed a University Degree. Academic standards must be met in order for a degree to be awarded. Students may fail to meet these standards after attending the commencement ceremonies.

Any student who meets the eligibility requirements may participate in a commencement ceremony at any UOPX campus location. Registration information and a complete listing of scheduled commencement ceremonies may be accessed via the student website. Per the Puerto Rico Council on Higher Education, students enrolled in programs that are not approved for enrollment at the Puerto Rico campus are restricted from participating in commencement ceremonies held in Puerto Rico.

All Bachelors level students who have met the University Honors requirements, and have been degree conferred, will be recognized at commencement ceremonies with the University honor cord (Students must be degree conferred before the ceremony date).

Program Completion Deadlines

The following program completion deadlines outline the maximum timeframes allotted to students who have remained in continuous attendance according to the University's re-entry policy to complete all requirements for their selected program version

Program	Years for Completion
Certificate	within 5 years
Associate of Arts	within 5 years
Associate of Arts (Credit Recognition)	within 2 years
Bachelors	within 8 years
Masters	within 5 years
Doctoral except for PHD/IO & EdS	within 8 years
PHD/IO	within 9 years
EdS	within 3 years

Program completion deadlines are calculated based on first date of positive recorded class attendance in the student's program version.

Changes to a selected major, concentration, emphasis, or en-route credential in which a student remains in the same program version will not result in a change to the student's program completion deadline.

A student who changes their program and/or version will have a new program completion deadline calculated based on the first date of positive recorded attendance in the course beginning after the student signature date on the most recent enrollment agreement on file.

- A student who posts positive class attendance in a program version, changes their program and then reverts back to their prior program version will be held to their original program completion deadline for that program version.

Disclaimer on Job Placement

The purpose of the degree programs offered by the University of Phoenix is to extend the nature and range of careers available to its students by providing a quality education that integrates theory with practical application. However, the University cannot offer guarantees of job placement, advancement, or continued employment.

ACADEMIC QUALITY AND OUTCOMES ASSESSMENT

Academic Quality and Outcomes Assessment- Ensuring Consistent Quality

Ensuring Consistent Quality

Over the last three decades, University of Phoenix has made significant investments in developing and maintaining systems to ensure academic quality. These systems enable the institution to measure and evaluate the University's effectiveness in meeting its mission and purposes and to use the evidence to continuously improve students' educational experiences and institutional processes. The comprehensive nature of the academic quality systems and the data produced provide the University with significant and meaningful input that is used to review and improve every aspect of the institution. Data gathered from course evaluations and student learning assessment are used in the curriculum development process and in the creation of faculty professional development tools. Data gathered from the continuous evaluation of institutional processes and systems are used to streamline processes and to make administrative support systems more user-friendly, continuously building on the analysis of information gathered.

Academic Quality Improvement and Outcomes-based Assessment

Academic quality is an integral part of the culture of continuous improvement at University of Phoenix. The University's focus on academic quality improvement ensures that the institution is meeting its mission through continuous assessment and evaluation of faculty, curriculum, and processes.

Curriculum Development

University of Phoenix curriculum is designed to integrate adult learning theory, constructivist learning theory, brain-based learning research, and professional practice. Programs of study are defined and guided by professional standards, competencies, and/or proficiencies for student achievement of learning outcomes. Curriculum is designed to facilitate the acquisition of theoretical content and useful knowledge and skills identified as essential to the academic and professional success of working adults. The curriculum is designed to integrate academic theory, skills, dispositions, lifelong learning, and professional practice in a manner applicable to students' work and life experiences.

Assessment of Student Learning

For University of Phoenix, the purpose of outcomes-based assessment of student learning is to generate information to the faculty, program, college and school, and University about the efficacy of its curricula and educational practices in enabling students to achieve exit-level expectations at the course, program, and institutional levels. Assessment answers the question: How well are University of Phoenix students meeting the general education, programmatic, and institutional learning outcomes underscored by the University's mission? Its findings inform opportunities for curricular and pedagogical improvement, decision-making processes for policy consideration and resource allocation, and accountability. The process for outcomes-based assessment of student learning uses the following conceptual framework:

- Assessment Planning
- Collecting Evidence and Analyzing Data
- Implementing Improvement
- Monitoring Effectiveness of Improvements

By utilizing this assessment process, the colleges and schools establish clear, measurable outcomes and ensure that students have sufficient opportunities to achieve outcomes; systematically gather, analyze, and interpret evidence to determine how well student learning matches stated expectations; use assessment findings to improve student learning; and monitor improvements by measuring changes in student learning over time.

Academic assessment provides the means for monitoring the educational experience of our students and gathering evidence of student learning. The University's academic assessment processes include an ongoing combination of direct measures, such as course-embedded assignments, portfolios, and exams, and indirect measures that gather information from students, alumni, and employers. The instruments and measures are designed to provide valid and reliable evidence to support continuous improvement of academic programs.

Assessment of Students' Educational Experiences and Administrative and Educational Support Units

Another major component of ensuring academic quality improvement is the assessment of students' educational experiences and the processes of administrative and educational support units. A cadre of instruments and measures are used to monitor the day-to-day educational systems involving student, faculty, curriculum, and administrative services. By performing interim program review, evaluating faculty adherence to program standards and practices, and making small-scale resource decisions, information from academic quality improvement resources is used for assessing overall quality and compliance.

Multiple Measures of Effectiveness Academic Program Review

Academic Program Review (APR) at University of Phoenix is designed to foster academic excellence at all levels of the University. The APR affords UOPX faculty and college/school leadership the information to support the improvement of student learning; the structure to assess program quality, relevancy, and currency; the opportunity to reflect on the alignment of program goals with institutional mission and strategic initiatives; and the provision of data and evidence to support college/school and institutional planning, budgeting, and decision-making. The APR is a key component of the University's assessment system and reflected within the University Program Life Cycle (UPLC).

Beginning of Program Survey (Registration)

During the registration process, students are asked to provide basic background information about themselves. Much of the information from this Registration Survey is used for analyzing outreach trends and for regulatory reporting. However, the Registration Survey also contributes to assessment in two important ways. First, it is used to obtain basic demographic information about students: age, gender, race/ethnicity, work experience, occupation, and income. Second, students are asked to provide information about their goals in attending the University: to identify major academic and professional objectives, to rate the importance of factors influencing their decision to choose the University of Phoenix over alternative institutions, and to indicate what instructional methods are most effective in helping them assimilate and retain knowledge. The Registration Survey is also used to discover how students learned about the University, how they are financing their education, where they live and work in relation to University facilities, and whether they are satisfied with the recruitment and regis-

tration processes.

Student End-of-Course Survey (SEOCS)

Students in all courses complete an End-of-Course Survey, which focuses on students' evaluation of the curriculum, educational effectiveness, learning teams, time allocation, University Library, administrative and support services, facilities and equipment, and faculty skills and abilities. These measures are of significant value in diagnosing how well each component of the University's teaching/learning model is functioning in meeting student needs.

Faculty End-of-Course Survey (FEOCS)

Faculty complete an End-of-Course Survey, which focuses on curriculum evaluation, educational effectiveness, time allocation, administrative and support services, facilities, and access to technology. Because faculty are required to be highly qualified practitioners of the subjects they teach, they serve as an invaluable resource for evaluating programmatic curriculum. Faculty are also the University's best resource for determining whether students are professionally and academically prepared to benefit from their educational experiences.

Faculty Grading Practices

Accurate and fair evaluation of student academic performance is an important attribute of an effective educational program. Accordingly, measures of grade variance are reported by program. Grade variance for campus and individual faculty members are reported as elements of feedback for self-improvement and compliance with University standards of good practice.

End-of-Program Survey

Students finishing their degree programs complete an End-of-Program Survey. This survey asks graduating students to evaluate their overall University of Phoenix experience in areas such as quality of the education they received, skills and knowledge, and workplace application, as well as career advancement and progression. University officials use the information from this survey to continually enhance curriculum, instruction, student services, and overall university operations.

Academic Alumni Questionnaire

Graduates are asked to evaluate the effectiveness of their University of Phoenix education after they have had sufficient time to integrate their learning with the demands of their career and personal responsibilities. Using measures driven by the University's mission, the alumni identify factors that influenced their decision to attend the University of Phoenix, the major personal and professional goals they achieved as a result, the quality of their educational experience according to the stated program student learning outcomes, how effective the University's teaching/learning model was in helping them achieve their educational goals, and their employers' opinions of the programs' benefits. Data gleaned from the Questionnaire is used in program evaluation.

Persistence, Retention, and Graduation Studies

Numerous special studies are undertaken to explore trends and issues of potential significance to academic decision-makers in program evaluation. These studies may include enrollment by campus by academic program, persistence and graduation rates by admission status (first-time; lower-and upper-division transfers), gender and race/ethnicity, class size by rating of faculty and educational effectiveness, etc. Emphasis is placed on examining the nature and extent to which students' educational needs and expectations are being met during the enrollment process, throughout their course work, when they graduate, and in their continuing professional development as alumni.

Classroom Performance Review

The University is committed to providing excellent instructors, which necessarily calls for an ongoing system of faculty evaluation. Faculty members receive periodic Classroom Performance Reviews and feedback from Student End-of-Course Surveys. Faculty members also have an opportunity to provide the University with input about course curriculum, University services, and other related topics at the end of each course. Campus staff review and follow up on all input and feedback from students and faculty. A periodic Classroom Performance Review is completed for each active faculty member at least once every two years. The review represents one method of faculty evaluation based on a class observation.

Each review is conducted with a standardized form by a trained reviewer. Based on the observation, campus academic leadership and the faculty member discuss strengths and areas for improvement related to the faculty member's facilitation skills, assessment and feedback practices, coverage of course objectives, and overall class management.

UNIVERSITY OF PHOENIX ALUMNI ASSOCIATION

Whether you are a recent graduate or a long-time University of Phoenix alumnus, the Alumni Association is an exclusive benefit of University of Phoenix. You are automatically a lifetime member, and no fee or registration is required.

To get the most out of your membership, visit the alumni website at alumni.phoenix.edu and update your profile. You may also print your Alumni Membership Card from your profile page to use as proof of graduation for discounts and more. Begin connecting with the association and your fellow graduates, and start exploring the benefits available to you:

Career Resources

- **Phoenix Career Guidance System™** Continue accessing the entire suite of career tools you enjoyed as a student. Use it throughout your career to conduct labor market research, attend workshops and explore job openings. Learn more at alumni.phoenix.edu/career-resources.
- **Phoenix Career Corner™** Get the latest career advice from recognized social experts at alumni.phoenix.edu/career-resources.

Alumni Services

- **Alumni Locator Tool** - Find and connect with other graduates of University of Phoenix who have public profiles, and build a foundation that promotes communication and networking. Visit alumni.phoenix.edu/search-alumni.
- **Alumni Mentor Program** - Join forces: knowledge + experience = power. The program connects University of Phoenix students to UOPX alumni volunteers for one-on-one online mentorships. Alumni mentors share success stories, industry insights and provide motivation and support. You can apply to be a mentor today or request a mentor for yourself. Find out more on the Alumni Association website at alumni.phoenix.edu/mentor.
- **Alumni Business Directory** - Are you an entrepreneur? Promote your business to fellow alumni. Not an entrepreneur? Support the businesses of your fellow alumni. alumni.phoenix.edu/bizdirectory
- **Alumni Chapters** - There are Alumni Chapters in cities across the country. Share experiences, advice and contacts informally by joining a chapter near you. To learn more about specific locations and chapter events, visit alumni.phoenix.edu/chapters.
- **Benefits & Savings** - Save money on brand-name items through University Marketplace, featuring discounts and cash-back offers from hundreds of retailers. Visit uopxalumniimarketplace.com. University of Phoenix also has partnerships with several businesses to bring discounts to UOPX alumni. You can find these special offers on the Benefits and Discounts page of the Alumni Association website.
- **Scholarships** - The Center for Scholarship Excellence and the Alumni Association have scholarships specifically designed for alumni. Take a look at the scholarship opportunities available to help you continue your education. Visit alumni.phoenix.edu/scholarships.
- **Social Media** - When our network grows, so does yours. Connect and stay in touch with fellow graduates near and far through Facebook®, Instagram®, LinkedIn®, Pinterest® and Twitter® online communities.

- **Homecoming** - The Alumni Association hosts Homecoming festivities across the country every year. Visit with old friends and make new connections. Other local networking and career events are held throughout the year. alumni.phoenix.edu/events
- **Phoenix Focus** - Be in the know with Phoenix Focus, your alumni magazine, featuring alumni profiles, career advice and in-depth articles to inspire you. Read the latest edition of Phoenix Focus at alumni.phoenix.edu/pf.
- **Share Your Story** - Tell others how education played a part in your success. Email your story to alumni@phoenix.edu.

Financial Services

- **Student Loan Resources** - Manage your student loan repayment options and make better financial decisions with iGrad, our complimentary financial planning tool. Visit alumni.phoenix.edu/iGrad.

Academic Resources

- **Complimentary online resources** - Keep learning and brush up on skills you use in the workplace with continued 24/7 access to the University Library phoenix.edu/library, the Center for Mathematics Excellence phoenix.edu/mathematics-excellence and the Center for Writing Excellence phoenix.edu/writing-excellence.
- **Transcripts** - Need a copy of your transcript? Visit phoenix.edu/students/transcripts to order one.

UNDERGRADUATE PROGRAMS

Admission Procedures

Application Process

Potential students applying for admission to the University's undergraduate degree programs begin the admission process by submitting a complete and accurate application. An application which is later verified to contain incomplete, false or misleading information may be grounds for dismissal and administrative withdrawal. Once the application has been received by the University, applicants are responsible for ensuring the completion of their admission file. No applicant will be formally accepted for admission until their admission file is complete and officially evaluated. Formal written notice is provided by the central Office of Admissions & Evaluation upon formal acceptance.

The University will advise students which admission file documents are required in order to begin a program of study. Students may attend their first four courses under Registered status. Students, however, must submit all admission documentation and gain unconditional admission status prior to the start of their fifth course. Students failing to submit all documentation prior to the end of the required time frame will be administratively withdrawn until formally admitted by the central Office of Admissions & Evaluation. The University cannot guarantee that a student who begins course work under Registered status will be admitted to the degree program.

Undergraduate students who have served in the United States military must submit their Joint Services Transcript (JST) or a transcript from a regionally accredited military university or college (Community College of the Air Force and US service academies). If these documents are unavailable, American Council on Education Registry Transcripts (AARTS and SMARTS) or discharge papers (DD-214) will be accepted. This is a requirement if students will be applying for VA educational assistance.

Applications of individuals who have not gained admission to, or enrolled in the University, will be kept on file for one year. After that time, the applicant is required to submit a new application and materials for admission review.

Transcript Requests of Other Institutions

Because institutions vary in the time they take to respond to transcript requests, all transcripts should be requested immediately upon submission of an application. University staff will process all requests for transcripts on behalf of the student unless the transferring institution does not accept third party requests. However, it remains the student's responsibility to ensure that all transcripts are submitted to the University. Students must sign a "Transcript Request Form" for each transcript being requested from educational institutions and national testing programs.

Official Transcript Time Limits

All official transcripts must show an issuance date not more than one year prior to receipt by the University. This is to ensure that all prior course work is reflected on the transcript.

Official foreign records do not have the same time limit issuance requirements, as these documents may be difficult to obtain. This exception does not apply to Canada or U.S. territories.

General International Admissions Information

Graduate applicants relying on educational credentials from an institution outside of the United States to meet admission require-

ments may enroll in University of Phoenix courses prior to the student being officially admitted only if they meet all the following requirements:

- If residing in the United States, have an appropriate immigrant or nonimmigrant status which does not prohibit educational studies
- Graduate applicants must have a professional evaluation report (or pre-eval completed by the Office of Admissions and Records from a country that the Office of Admissions & Records evaluates in-house) indicating that the student has the appropriate academic background to meet the admission requirements, and
- All other program specific admission requirements must be met. An applicant who has earned an undergraduate degree, or other transfer credit, from an institution outside of the United States, but has earned a Master's degree from a regionally accredited or approved nationally accredited institution is eligible to enroll in the University at the graduate level provided all program specific policies have been met by the previous credential earned without requiring an evaluation of the previous international credentials.

Undergraduate applicants relying on educational credentials from an institution outside of the United States may enroll in University of Phoenix courses upon the completion of their admission application and enrollment agreement provided that they meet all admission requirements for their selected program.

For applicants with academic records from colleges or universities earned outside of the United States, the University will accept copies of academic records issued from international institutions to conduct a pre-evaluation to determine comparability of previous academic studies for unofficial placement and advisement purposes.

For official admission and transfer credit evaluation purposes previous academic credentials earned outside of the United States must meet the University's verification standards prior to an official admission or transfer credit decision being rendered. Verification of previous academic credentials earned outside of the United States can be satisfied by the following methods.

- Receipt and verification of official academic credentials issued directly to University of Phoenix by the student's previous institution, or
- Receipt and verification of official academic credentials held in possession of the student as the official record of academic studies conducted in the student's specific country, or
- Receipt and verification of official correspondence issued directly to University of Phoenix by the student's previous institution indicating copies of academic credentials and/or level study is valid, or
- Receipt of an official professional evaluation issued directly from a professional evaluation agency that is approved to satisfy verification requirements as indicated by the Office of Admission and Records.

For applicants with academic records from colleges or universities earned outside of the United States from a regionally accredited or approved nationally accredited institution, academic credentials will be subject to the same policies as credentials issued from a domestic institution.

Secondary completion credentials earned outside of the United States are considered comparable to United States secondary completion credentials and do not need to be validated unless required by the student's state or jurisdiction.

Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet the English language proficiency requirement for admission. Specific English language proficiency policies will be listed in the admission requirements section for each program.

If documents are issued to University of Phoenix in a language other than English, the student will be required to obtain an official translation and submit it to University of Phoenix. Translations must be completed/verified by an official translation service, a foreign language department of an accredited college or university, the country's embassy/consulate or by the Office of Admission and Records at University of Phoenix if translation services are provided for that specific language.

The University is authorized under Federal law to enroll nonimmigrant students. University of Phoenix only issues Forms I-20/A-B to Border Commuters and approved doctoral learners during their residency in the United States. Form I-20/A-B is required by students who need to obtain F-1 (Student) visas to attend school in the United States. The University is only authorized to issue the I-20 for students attending specific campus locations and programs recorded with DHS.

Admission Deadlines

The University cannot guarantee that a student who begins coursework will be admitted to his/her degree or credit-bearing certificate program. Students in all programs must be officially admitted by the completion of their fourth University course. Students who are unable to be admitted by the completion of their fourth University course will be administratively withdrawn from the University and placed on Admission Deadline Exceeded (DE) admission status.

Admissions Appeal Process for Expelled Students

Expelled students are not eligible for admission to University of Phoenix. No appeals will be accepted for students expelled from University of Phoenix. Appeals will be reviewed for students who were expelled from other institutions. Applicants for admission are not eligible to begin classes until formal approval of the appeal is obtained. Students who fail to disclose all prior colleges and universities attended on their Application for Admission may result in a charge under the Student Code of Conduct if it is discovered after their admission to UOPX that they were expelled from an undisclosed institution.

Undergraduate Admission Requirements

Most undergraduate programs have additional admission requirements listed within the program specific information. All applicants are expected to meet the following admission requirements:

- Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet one of the following exceptions in order to meet the English Language Proficiency Requirement:
 - achieved a minimum score of 213 on the computer-based test (cBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.

-or-

- achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.

-or-

- achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.

-or-

- achieved a minimum score of 69 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam within two years of application to the University.

-or-

- successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.

-or-

- achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.

- The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:

- The applicant has successfully completed thirty (30) transferable, academic semester credits at a regionally or nationally accredited college or university in the United States.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized college or university in a country in which English is the official language.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized institution where English is the medium of instruction.
- The applicant has previously earned, prior to applying for admission to the University of Phoenix, a U.S. high school diploma or G.E.D. Applicants that list any language other than English as their native language on the admission application and G.E.D is taken, must submit a copy of the G.E.D to verify it was taken in the English version format.
- The applicant has earned the equivalent of a U.S. high school diploma in a country in which English is the official language.
- The applicant has earned the equivalent of a U.S. high school diploma at an institution where English is the medium of instruction.

- Applicants who reside in the United States must meet one of the following requirements:

- Be a legal resident of the United States
- Have been granted permanent residency
- Have a valid visa that does not prohibit educational studies
- Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.

- Have been granted asylum or refugee status.
- Applicants who reside in Canada must meet one of the following requirements:
 - Be a legal resident of Canada
 - Be a landed immigrant
 - Have a valid visa that does not prohibit educational studies
- A completed and signed undergraduate application
- A signed Enrollment/Disclosure Agreement.
- Completion of any state-specific required documents or forms.
- Applicants who have been expelled from other institutions are not eligible for admission to University of Phoenix.
- Students who have been expelled from University of Phoenix are not eligible for readmission to University of Phoenix. No appeals will be accepted.
- Students enrolled in programs that are not administered under the risk free period policy*, who list less than 24 previous college credits as recognized by the University on the admissions application, are required to successfully complete a University Orientation Workshop (UNIV 100 or UNIV 101) to be officially admitted (AM).

Students who begin their studies at campuses located in the states listed below are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

- Students attending a local campus in Oklahoma must provide written documentation of vaccinations or immunity against Hepatitis B, measles, mumps, and rubella (MMR). Students must demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.
- Students attending a physical campus in the state of Tennessee are required to submit a Hepatitis B Waiver form to the University.

Students attending a local campus in the states listed below are required to submit health insurance information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

- Full and part-time students enrolled in a college, university or other institution of higher learning in Massachusetts must participate in a school sponsored health insurance plan, or an alternate plan with comparable coverage. All full and part-time students attending a Massachusetts local campus must complete the Student Health Insurance Plan Enrollment/Acknowledgement form indicating either that they have either enrolled in the University's sponsored plan or that they decline participation in the University sponsored plan as they have comparable health insurance coverage. Students must complete and submit this form prior to enrolling in any class. Students who do not complete the Enrollment/Acknowledgement form each calendar year may not enroll in further courses until the form has been completed and the student has appropriate health insurance coverage.

Students who begin their studies at campuses located in Hawaii are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1956, be immunized for measles-mumps-rubella

(MMR). Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.

Exemptions from the MMR immunization requirement may be granted for the following reasons:

- A medical exemption may be granted to specific vaccines.
 - A U.S. licensed physician (M.D. or D.O.) must state in writing that giving a specific vaccine would endanger the student's life or health, and specify the reason based on valid medical contraindications.
 - The physician must state the length of time during which the vaccine would endanger the student's health or life.
 - The exemption certification must be signed by the physician on the physician's printed stationery.
- A religious exemption may be granted if the student signs a statement certifying that the student's religious beliefs prohibit the practice of immunization.
- If the State of Hawaii Director of Health determines that there is a danger of an outbreak from any of the diseases for which immunization is required, no exemption shall be recognized and inadequately immunized students shall be excluded from school until the Director has determined that the outbreak is over.
- A copy of each exemption must be kept in the student's health record at school.

The Hawaii State Department of Health requires that all students attending school at a campus in this state shall provide a Certificate of TB Examination issued in the United States within 12 months prior to their first attendance in a post-secondary school in Hawaii. A completed Certificate of TB Examination shall be submitted prior to the first night of class or the student will not be permitted to attend class. Students shall complete Section A of this form, or submit a copy of their TB Clearance Certification received prior to their attendance at another Hawaii post-secondary school.

Students residing in the state of Connecticut are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

In accordance with Section 10a-155 of the Connecticut general statutes, all full time or matriculating students will be required to demonstrate proof of adequate immunization against measles, mumps, rubella (MMR) and varicella as recommended by the Advisory Committee for Immunization Practices (ACIP). For more specific state information, refer to the link below. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.

Exemptions from the MMR and varicella immunization requirements may be granted for the following reasons:

- The student was born before January 1, 1957 (applicable to MMR vaccine only).
- The student was born in the United States before January 1, 1980 (applicable to the varicella (chicken pox) vaccine only).
- The student has documentation from a physician stating that it is medically inadvisable to receive the vaccines for the one or more of the diseases as indicated on the immunization form.

- The student has documentation from a physician or director of health that he/she has had a confirmed case of one or more of the diseases as indicated on the immunization form.
- The student has laboratory confirmation of immunity to the disease(s) as indicated on the immunization form.
- The student has submitted a statement that immunization is contrary to his/her religious beliefs.
- The student is enrolled exclusively in the Online Campus and does not congregate with other students on campus or at campus-sponsored events. If the student later decides to attend a class at a University of Phoenix local campus location in Connecticut, the student must meet the immunization requirements before he/she may begin attending classes at a local campus location.
- The student graduated from a public or nonpublic high school in the state of Connecticut in 1999 or later and was not exempt from the measles, rubella and on or after August 1, 2010, the mumps vaccination requirement pursuant to subdivision (2) or (3) of subsection (a) of section 10-204a.

* Programs administered under the risk free period policy are indicated as such in the "General Information" section of the program's policy in the catalog.

Residency Requirements and Course Waivers for Bachelor Programs

Please see the program for any additional program specific residency requirements and course waivers. The following does not apply to nursing and education programs.

- Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits (as a part of the final 60 credits of the program) come from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
 - The activity must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
 - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
 - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Experiential Learning (essay) credit is not eligible to waive courses in the required course of study.

- Providing that University residency policy is met, through an approved articulation agreement or Educational Partnership Pathway (EPP) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
- Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.
- Eligible students who have attended a SOC Member Institution and have successfully completed equivalent courses according to the SOC Transfer Tables may transfer all equivalent courses into a student's required course of study as a waiver if the courses meet the minimum grade and timeframe as stated in policy.

Residency Requirements and Course Waivers for Associate Programs

Please see the program for any additional program specific residency requirements and course waivers. The following does not apply to nursing and education programs in addition to the AACR.

- Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits (as a part of the final 30 credits of the program) from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
 - The activity must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
 - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
 - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Experiential Learning (essay) credit is not eligible to waive courses in the required course of study.
- Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.

- Eligible students who have attended a SOC Member Institution and have successfully completed equivalent courses according to the SOC Transfer Tables may transfer all equivalent courses into a student's required course of study as a waiver if the courses meet the minimum grade and timeframe as stated in policy.

University Orientation Workshops

Applicants to designated undergraduate programs requiring the Workshop for admission who list less than 24 previous college credits as recognized by the University on the admissions application are required to successfully complete a three week University Orientation Workshop (UNIV 100 for Online or UNIV 101 for local campus) prior to attending a credit bearing degree applicable course.

The following define the University Orientation Workshop statuses:

- **Orientation Complete (OC):** Applicant has attended all three weeks and successfully submitted all assignments.
- **Orientation Not Complete (ON):** Applicant has not successfully completed all Orientation requirements and will remain on Orientation Pending (OP) admission status. Applicants will be allowed two attempts to successfully complete the Orientation. After a second unsuccessful attempt, participants are required to sit out for a period of six months after the last posted attendance in the second attempt.
- **Orientation Extended (OX):** An extension has been awarded to eligible applicants who require reasonable accommodations under Americans with Disabilities Act (ADA). If an applicant does not fulfill the Orientation Workshop requirements at the end of the extension period, the OX status will default to Orientation Not Complete (ON) status.

Orientation Complete (OC) and Orientation Not Complete (ON) completion statuses are not considered grades and will not be calculated in the grade point average (GPA).

Students who were previously admitted to the University are not required to complete the University Orientation Workshop.

Risk Free Period Policy

Students enrolled in programs that are eligible for the risk free period policy* are not required to complete a University Orientation Workshop.

The first three weeks of the first course constitute the trial period for programs that are eligible for the risk free period policy. First time attendees who indicate less than 24 previous college credits (as recognized by the University) on the admission application, who have not previously been admitted as a regular student to the University, and who are intending to pursue such programs will participate in the trial period and will be conditionally admitted. This trial period will apply to all repeated attempts to complete the first course in the program while students are in Admitted with Condition status. Students will be eligible for unconditional admission to the University after meeting class attendance requirements in the fourth week of their first course (or after the fourth week) and after having transfer credits evaluated.

Students will not be eligible for Title IV, HEA funds until they are admitted as a regular student after the trial period has completed. Once admitted as a regular student, students become eligible for Title IV, HEA program funds back to the beginning of the payment or loan period, as applicable, including the trial period. Students who decide not to continue in the trial period may opt out with no

financial obligation prior to meeting class attendance requirements for their fourth week in their first course with the University. Students who withdraw after the trial period and do not continue enrollment will not be eligible for Title IV, HEA program funds for the trial period.

Students will indicate their intent to continue with their program by meeting class attendance requirements in the fourth week of their first course (or after the fourth week) at which point the trial period will end. Students completing the trial period that meet class attendance requirements for their fourth week or after will be financially responsible for all associated course charges. Students that record positive class attendance in at least one class that do not meet the class attendance requirements for the course due to exceeding maximum allowable absences will receive a "W" grade for the course which will be documented on the University of Phoenix transcript.

*Programs that are eligible for the risk free period policy are indicated as such in the "General Information" section of the program's policy in the catalog.

Academic Progression Requirements

Students entering the University bachelor degree programs (other than AAEE, LVN/BSN, LPN/BSN, BSN, BSLS, and BSED/E) with fewer than 24 previous college credits as recognized by the university on the admissions application are required to complete the First-Year Sequence. To enroll in the required course of study students must have a minimum of 24 credits. Students who have 24 credits may take select courses in the business foundation. Students must have 60 credits to enroll in the major.

As an alternative, enrollment into major course work also extends to students who have completed 45 credits, of which 21 credits were earned at the University.

First-Year Sequence

- Applicants disclosing 24 or more previous college credits on the admissions application, enrolling in designated undergraduate programs must successfully complete the entry course as outlined in the individual program policy as the first course with University of Phoenix, and are not required to enroll in the First-Year Sequence.
- Applicants disclosing fewer than 24 previous college credits on the admissions application, enrolling in designated undergraduate programs, are required to complete the First-year Sequence.
 - Prior Learning Assessment and credits earned through National Testing Programs are not included as previous college credits when determining placement in the First-Year Sequence.
- First-Year Sequence students must satisfy all seven (7) required courses from the First-Year Sequence prior to enrolling in any other program applicable course.

Some courses require prerequisites. Prerequisites and course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Preferred Sequence

GEN 195	3 credits
Foundations of University Studies	
COM 170 ~	3 credits
Elements of University Composition and Communication I	
COM 172 ~	3 credits
Elements of University Composition and Communication II	

HUM 114 ~.....	3 credits
Critical Thinking and Creative Problem Solving	
PSY 211 ~.....	3 credits
Essentials of Psychology	
SCI 163 ~.....	3 credits
Elements of Health and Wellness	
FP 120 ~.....	3 credits
Essentials of Personal Finance	

- SOC 110 is an optional course that may be taken prior to the completion of the First-Year Sequence. Students choosing to take SOC 110 may take the course any time after GEN 195.
- With the exception of GEN 195, FP 120, and HUM 114, First-Year Sequence course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited transfer coursework (C- or higher grade),
 - National Testing Programs
 - ACE evaluated Military credits.
- Transfer activity used to satisfy a First-Year Sequence course must be comparable in content to the University of Phoenix course it is replacing, must be at least 2.67 credits, and must be equivalent level or higher.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.

Course Descriptions for First-Year Sequence

GEN 195	3 credits
---------------	-----------

Foundations of University Studies

The essential information, skills, tools, and techniques necessary for academic success and personal effectiveness at the University of Phoenix are introduced in this course. The course develops and applies practical knowledge and skills immediately relevant to first-year university students. Course topics include goal setting and working with personal motivation, understanding and using University resources, developing efficient study habits, making the most of personal learning styles, and how best to manage time and reduce personal stress levels.

COM 170	3 credits
---------------	-----------

Elements of University Composition and Communication I

This course addresses the key elements necessary for effective academic writing in college. The course begins with focus on pre-writing strategies and builds to drafting and revising essays. In addition, the course includes skill development at the sentence and paragraph level.

COM 172	3 credits
---------------	-----------

Elements of University Composition and Communication II

This course builds upon the foundations established in Com155. It addresses the various rhetorical modes necessary for effective college essays: narration, illustration, description, process analysis, classification, definition, comparison and contrast, cause and effect, and argumentation. In addition, requirements for research essays, including the use of outside sources and appropriate formatting, are considered.

HUM 114	3 credits
---------------	-----------

Critical Thinking and Creative Problem Solving

This course focuses on developing the critical and creative thinking skills necessary to analyze and solve problems, make decisions, implement strategies, and formulate well supported points of view

on key academic, social, and professional issues. The principles of creative thinking are essential to critical thinking skills. Students will learn how to evaluate their ideas and how to communicate their points of view persuasively.

PSY 211	3 credits
---------------	-----------

Essentials of Psychology

This course overviews the foundations of psychology as the field applies to everyday life. The physical and mental aspects of psychology are traced through lifespan development with emphasis on psychological health and wellness. Further study focuses on personality; thinking, learning and memory; motivation and emotions; and gender and sexuality. Based in various historical traditions, the course is set in the context of contemporary psychological principles.

SCI 163	3 credits
---------------	-----------

Elements of Health and Wellness

This course reinforces the concept that learning effectively and living well involves both the mind and body. It presents the fundamentals of wellness and preventive health including strategic planning to attain and maintain personal optimal health. In addition, physical and mental diseases are discussed along with the dangers of environmental pollution, stress, addiction, and other negative factors that can affect personal health.

FP 120	3 credits
--------------	-----------

Essentials of Personal Finance

This course provides an overview of the elements necessary for effective personal financial planning and the opportunity to apply the techniques and strategies essential to this understanding. Primary areas of study include creating and managing a personal budget, understanding and paying taxes, working with financial institutions, wise use of credit cards and consumer loans, financing automobiles and homes, and the use of insurance for protecting one's family and property.

SOC 110	3 credits
---------------	-----------

Teamwork, Collaboration, and Conflict Resolution

This course provides an applied approach to teambuilding, collaboration, and conflict resolution. Students will understand and apply these concepts within academic and professional settings. Students will develop structures, processes, and strategies to create and maintain effective teams. Gender, cultural, and individual considerations in team dynamics will also be explored.

Waivers

The University defines a waiver as the substitution of a required course at the University with a course of the same level listed on an official transcript from another institution. Students may find specific course waiver information for their program after the applicable required course of study. Students requesting course waivers must have formal written requests submitted to the central Office of Admissions & Evaluation, utilizing the Request for Course Waiver Form citing the courses requested to be waived, the courses to be transferred into the required course of study, and the university where the transfer courses were completed.

An official catalog course description must accompany the request. The official transcript from the institution where the course was completed must also be submitted, unless it has previously been submitted to the University as part of the application process.

General Education

In its commitment to help working adults achieve their profes-

sional and personal goals, the University of Phoenix endorses the role of general education in ensuring student success in the classroom, the workplace, and the community. The general education curriculum, which is developed through the College of Humanities and Sciences, provides instruction that focuses on skills in communication, critical thinking, and computation, and fosters a philosophical orientation that enables students to function as productive members of society. The University's general education program embraces four goals:

- To refine students' abilities to apply problem-solving skills in many settings and contexts.
- To promote students' active awareness of their relationships to the natural, social, and cultural environments.
- To develop students' appreciation for and commitment to lifelong learning.
- To prepare students with competencies needed to fully benefit from and successfully complete their professional programs of study.

Undergraduate general education requirements emphasize the mastery of competencies within the respective frameworks of mathematics and physical sciences, life sciences, technology, communication arts, social sciences, and humanities. Students are required to demonstrate proficiency in written and oral communication, in the handling and use of quantitative information, and the application of analytic and synthetic-creative thinking skills. This background provides students with the perspectives needed for meaningful self-examination of personal and social values, as well as enhanced ability to understand and cope with social, technological, and cultural change.

If elective curriculum is taken to satisfy graduation requirements, the courses taken cannot duplicate credits earned in the required course of study, credits earned at other institutions, credits earned through national testing programs, or credits awarded through Prior Learning Assessment.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, students should be able to demonstrate the following learning outcomes by the time they complete this program.

- Students will apply scientific reasoning and knowledge, and use basic research methods in science to explain key concepts in the physical and life sciences.
- Students will develop the necessary writing skills to share knowledge, present analysis and engage effectively in daily workplace communication.
- Students will employ appropriate technology to collect, analyze, synthesize and disseminate information.
- Students will use mathematical principles to interpret and represent information in various mathematical forms, and perform computation and quantitative analyses to solve problems and draw appropriate conclusions.
- Students will incorporate essential knowledge, theories and research methods in social sciences, history and behavioral sciences to analyze and propose solutions for social, political and economic problems.
- Students will use information literacy principles to locate and evaluate information for relevancy, reliability and currency.
- Students will evaluate the role of diversity, including culture, class, ethnicity and gender identity, in human affairs.

- Students will analyze works of art and literature as aesthetic and cultural expressions of specific historical and social contexts to demonstrate artistic involvement in society.

Liberal Arts Components

The liberal arts component of the General Education Program is comprised of traditional liberal arts categories. The number of credits required in each category varies by program and may be found after each program. The purpose of this component is to ensure that students are exposed to a breadth of traditional liberal arts essential to a baccalaureate experience, and is distributed as follows:

Communication Arts, credit requirements vary by program Course work in the Communication Arts primarily focuses on the development and application of writing, speaking, group process, and interpersonal communication skills.

English/Language Arts, credit requirements vary by program Course work in the English/Language Arts primarily focuses on the development and application of writing, speaking, group process, and interpersonal communication skills.

Mathematics, credit requirements vary by program Course work in the mathematics area develops quantitative and analytical skills in the fields of mathematics and advanced logic. The area does not include courses in which mathematics is merely an applied component (such as finance and accounting), nor does it include mathematics foundation courses below the level of college algebra.

Social Sciences, credit requirements vary by program Course work in the social science promotes understanding of human behavior as well as the structure and dynamics of social systems. Emphasis is on the discovery of patterns in social processes and institutions, both past and present. Courses in anthropology, sociology, ethnic and gender studies, geography, political science, psychology, history, and certain communications courses focusing on mass media and society typically satisfy these requirements.

In accord with the General Education requirements, Nevada students must take six units of social science credits. However, three of those units may be HIS 311 Nevada and the U.S. Constitutions which is required for Nevada students

Social Studies, credit requirements vary by program Course work in the social studies promotes understanding of human behavior as well as the structure and dynamics of social systems. Emphasis is on the discovery of patterns in social processes and institutions, both past and present. Courses in anthropology, sociology, ethnic and gender studies, geography, political science, psychology, history, and certain communications courses focusing on mass media and society typically satisfy these requirements.

Spanish, credit requirements vary by program Course work in Spanish primarily focuses on the development and application of writing, speaking, group process, and interpersonal communication skills in Spanish. This is a requirement of the Puerto Rico Council on Higher Education.

Humanities, credit requirements vary by program Course work in the humanities focuses on the development of ideas and values, appreciation of cultural and artistic achievements, and the evaluation of human experience. Courses in general humanities, philosophy, literature, fine arts, music, theater, and religious studies normally satisfy requirements in this area. Certain courses in political science and intellectual history emphasizing the

development of cultural thought processes may also satisfy humanities requirements.

Fine Arts, credits requirements vary by program

Course work in the fine arts focuses on the development of ideas and values, appreciation of cultural and artistic achievements, and the evaluation of human experience. Courses in general humanities, philosophy, literature, fine arts, music, theater, and religious studies normally satisfy requirements in this area. Certain courses in political science and intellectual history emphasizing the development of cultural thought processes may also satisfy humanities requirements.

Science/Technology, credit requirements vary by program

Course work in the sciences provides students with an understanding of nature and the physical world, along with knowledge of the methods scientists use to study the world around them. Courses in astronomy, biology, chemistry, physics, anatomy and physiology, geology, and environmental science typically satisfy requirements in this area. All students must complete a minimum of three credits in the physical/biological sciences as part of the six credit Science/Technology requirement. Certain courses in geography or aerospace studies which emphasize the earth's physical characteristics, weather, and climate are included in the science category, along with highly specialized course work in the social sciences such as physical anthropology, archaeological field methods, and psychology courses which focus on human physiological processes.

Technology refers to the application of scientific knowledge in making and using tools to enhance materials culture. Course work in the area of technology which satisfies general education requirements includes engineering, materials science, electronics courses that emphasize theory and design, and computer science courses that focus on programming languages and hardware/software engineering. Courses which focus primarily on the social and environmental conflicts which arise over the uses of technology usually satisfy requirements in the social sciences and humanities.

Liberal Arts, credit requirements vary by program

Students will pursue more depth in the liberal arts by selecting two different courses in any of the liberal arts categories listed above.

Interdisciplinary Component

Interdisciplinary, credit requirements vary by program

To fulfill this requirement, students may select additional general education courses, or they may select from any University courses other than those in their major field. The intent of this requirement is to further increase students' exposure to the liberal arts and to facilitate their exposure to a field of study beyond the necessarily narrow scope of their professional interest. Students are encouraged to explore diverse content areas to add depth to their academic and professional knowledge base.

General Education at the University Level

In addition to the General Education requirements, each degree program at the University of Phoenix' includes courses (elective and core-required) that integrate general education principles. The University of Phoenix's educational philosophy is based on the integration of theory and practice. Within that philosophical framework, a number of the courses required for the professional programs have a strong general education component.

Prior Learning Assessment

Prior Learning Assessment Eligibility Guidelines

University of Phoenix offers Prior Learning Assessment (PLA) as

an option by which students can earn assessed credits toward degree completion requirements.

All prior learning must have academic equivalence to college-level learning to be awarded credit.

- All coursework, professional training, and Experiential Learning must be of sufficient academic merit, and must be determined to have learning, rigor and breadth of knowledge at the post-secondary level as defined by the University's acceptable transfer activity policy.
- Credit is granted for demonstrated knowledge, not for experience alone. Learning must be clearly differentiated from experience through the appropriate demonstration of knowledge application and supporting documentation.

Students are required to submit official and verifiable supporting documentation for all courses, professional training, and experiential learning essays upon applying to PLA. This documentation includes, but is not limited to, proof of completion, proof of course length, proof of course modality, course descriptions, and verification letters. Documentation of professional training submitted for evaluation must match the timeframe in which the license was completed.

The student must demonstrate college-level writing skills in Experiential Learning Essays conforming to the writing standards required of all students enrolled at University of Phoenix.

Credits will be awarded for coursework, professional training, and experiential learning only when it does not duplicate credits previously applied as transfer activity, the UOPX required course of study, or topics from other submissions for credit.

The University of Phoenix recognizes credit recommendations of the American Council on Education ACE/CREDIT Guide, the American Council Guide to Educational Credit by Examination, and the National College Credit Recommendation Service (NCCRS). Credit is awarded using the recommendations as a guide and is not required to be assessed internally by the University's PLA department.

Courses which have been transcribed for academic college-level credit by a regionally accredited institution are not eligible for evaluation through the assessment process, whether or not credit has been awarded, unless they are Continuing Education Units (CEU), professional training courses, extension courses, or courses that are generally considered less than degree applicable college-level credit.

PLA may apply towards both the lower division and upper division credit requirements of the University's undergraduate degree programs unless otherwise specified in policy or limited by the state or jurisdiction of a student's residence. PLA may also apply towards graduate level requirements upon the assessment and review of the activity by the appropriate college or school in which the associated graduate level program or courses reside.

Students may not rewrite an Experiential Learning Essay more than once.

Students may submit a completed Experiential Learning Essay up to 90 days after an essay topic has been removed or modified from the Approved Essay Topic List.

University of Phoenix Code of Academic Integrity Policy is applicable to all PLA submissions.

Prior Learning Assessment Credit Assessment

Credit is awarded based on clock hours or academic content equivalence as determined by PLA evaluators or one of the University's Colleges, Schools, or the Provost's Office.

If an item submitted for professional training review is determined by the evaluator to be so extensive that it is worth more than three credits, the evaluator may recommend division of the content into multiple course titles.

Experiential Learning Essays shall be awarded one, two, or three lower division or upper division undergraduate semester credits as indicated on the Approved Essay Topics List.

With an approved essay, the student will be awarded the credit as indicated in the essay submission documentation. Incomplete or unsatisfactory essays will not be awarded credit. No partial credit will be awarded for essays.

Experiential Learning Essays will be awarded credit limited in application to elective and/or general education options at the undergraduate level only.

Assessed credits will appear on the student's University of Phoenix transcript after they are awarded.

Students have the right to challenge credit awards. Challenges must be submitted to PLA in writing by the student within six weeks of the date of the credit award letter. Challenges received after this date will not be considered.

A student enrolled in an associate degree program may earn a maximum of 15 credits for Experiential Learning Essays and a student enrolled in a baccalaureate program may earn a maximum of 30 credits for Experiential Learning Essays.

Corporate Partnerships- Credit Recommendation Guide

The University will endeavor to create Corporate Partnerships with other corporations as appropriate in order to enhance transfer credit options for students coming to University of Phoenix. Transfer credit recommendations will be created in the format of a Credit Recommendation Guide (CRG).

CRGs will define transferability, applicability, and individual credit recommendations of partner corporations' professional training/seminars, deemed by assessment as comparable to college level learning, to University undergraduate degree program credit requirements. Credits indicated on a CRG are only a recommendation and not a guarantee of credits to be awarded as professional training programs and content may change over time.

Evaluation and determination of credit award for activities listed on the CRG will follow the Credit Assessment Guidelines as indicated in Prior Learning Assessment Credit Assessment. A list of corporations with which University of Phoenix has established corporate partnerships can be viewed at http://www.phoenix.edu/admissions/transfer_information/transfer_credit/corporate_articulation.html

Prior Learning Assessment Submission and Posting & Fees

Charges arising out of services and the posting of credit awarded for prior learning are separate and apart from tuition and curriculum fees.

When materials are complete, they are sent to Prior Learning Assessment in Phoenix and a non-refundable application fee is required and collected. The evaluation and posting fees apply to credit awarded through Prior Learning Assessment:

Student portfolios are subject to fees related to evaluation and assessment of all portfolio inclusions. The fees may vary depending upon number of items reviewed. Fee structure and information may be viewed at: http://www.phoenix.edu/admissions/prior_learning_assessment_center/prior_learning_assessment_center.aspx.

Standardized Credit Recommendations

Credits awarded through the assessment process are applicable to University of Phoenix degrees, and may be transferable subject to the receiving institution's discretion.

Credit awards are applied to Associate or Bachelor elective or general education areas within degree programs. Student degree program admission is required (all other transfer credit applied in the program) prior to portfolio submission.

THIS PAGE WAS LEFT BLANK INTENTIONALLY

COLLEGE OF HUMANITIES AND SCIENCES

The study of Humanities and Sciences illuminates the world in which we live. Through the Humanities we have a greater understanding of the human experience on its highest cognitive, spiritual, and social levels. Students in the Humanities learn to think critically, effectively express themselves, understand the complexities of diverse cultural identities, appreciate the power of words, images and ideas, and interpret the human experience. Studying the sciences gives students insight into the fundamental processes of nature and provides the basic knowledge needed to understand modern scientific accomplishments. Students also develop independent and critical thinking for problem solving that forms the basis of lifelong learning. The College of Humanities and Sciences offers a variety of courses in Biology, Communication, English, Environmental and Natural Sciences, History, Languages, Literature, Mathematics, Philosophy, Politics, Religion, and the Arts.

Associate of Arts/Professional Focus

The following Associate of Arts/Professional Focus (AA/PF) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The University of Phoenix Associate of Arts in Professional Focus acknowledges college level coursework, military training, and national testing to partially fulfill the requirements of the degree. The Associate of Arts degree includes a professional focus recognized by the American Council on Education (ACE) as equivalent college content, to fulfill a 15 credit professional focus in the degree.

***Note: Students enrolled in this degree program are ineligible to receive Federal Student Financial Aid.*

General Information for the AA/PF

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.
- The AA/PF is not eligible for financial aid and thus students may not dual enroll in the AA/PF and a bachelor or Online Associates degree program and receive financial aid funding for the AA/PF courses that apply toward the bachelor or Online Associates degree program.

Additional Admission Requirements for the AA/PF

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
 - Applicants for admission must be active duty (to include members of the National Guard and Reserve), spouses and family members, Department of Defense (DoD) civilians, and veterans.

Degree and General Education Requirements for the AA/PF

Completion of a minimum of 60 credits that include the following distribution:

Communication Arts, 6 credits

A Track must include ENG 220, equivalent or higher

B Track must include ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent or higher

Science and Technology, 6 credits

Must include: three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 9 credits

A Track must include GEN 201

B Track must include GEN 127

Professional Focus/Interdisciplinary, 15 credits

Typically the 15 credit Professional Focus requirement will be fulfilled through selected transfer credits, including American Council on Education (ACE) recognized credit earned from military specialty training, technical schools, MOS's, Navy ratings, NEC's, and law

enforcement training.

Elective, 6 credits

- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- A minimum grade point average (GPA) of 2.0.
- Students must complete the AA/PF degree within 5 years.
- The Professional Focus is reflected on the transcript only and will not appear on the diploma.
- The diploma awarded for this program will read as:
Associate of Arts

Academic Progression Requirements for the AA/PF

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to University of Phoenix with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from University of Phoenix.
 - Previous completion of a Critical Thinking course with University of Phoenix.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.

- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- University of Phoenix Prior Learning Assessment
- National Testing Programs, and
- ACE evaluated Military credits.

- Satisfy University Proficiency Requirements

- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

Students have the following options to fulfill proficiency:

- Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Professional Focus for the AA/PF

- The AA/PF program offers a Professional Focus. The University does not certify students in their Professional Focus but acknowledges their qualifications by recognizing their regionally or approved nationally accredited transfer activity. University of Phoenix coursework may also be recognized to fulfill professional focus credits.
- A minimum of 15 credits are required for each Professional Focus chosen.
- The student may declare or amend their Professional Focus by submitting a signed Professional Focus Declaration request prior to graduation.

Residency Requirements and Course Waivers for the AA/PF

Students must meet the established University residency requirement for degree conferral. The University requires that 15 credits (as a part of the final 30 credits of the program) must be completed at University of Phoenix.

Re-entry for the AA/PF

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the stan-

dard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Communication

The following Bachelor of Science in Communication (BS/COM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Communication (BS/COM) degree program is designed to develop knowledge and skills for effective communication in a variety of public and private work environments. The program was created specifically to build upon personal and professional communication experiences. The BS/COM degree enhances the communication skills necessary for the development of professional competence and values; critical thinking and problem solving; information utilization; and collaboration. The curriculum focuses on the development of core communication competencies. It emphasizes theory and application in the domains of interpersonal, small group, organizational, mass communication, culture, and communication technology. Specific areas of focus include business communication, diversity, intercultural communication, conflict resolution, legal and ethical issues, media, and future trends in communication technology.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bs-com>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Humanities and Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will apply the theoretical concepts and techniques of communication in their professional and personal environments.
- Students will apply interaction strategies in interpersonal, intercultural and organizational settings using multiple media.
- Students will evaluate communication effectiveness in the workplace.
- Students will analyze the historical foundations of communication in order to forecast trends in contemporary society.

- Students will apply ethical principles to all communication channels and strategies.
- Students will recognize the legal implications of the use of all types of communication.
- Students will apply research methods in the field of communication.

Program Category Requirements and Course Selections for the BS/COM

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Foundations of Human Communication, 3 total credits

BSCOM 100 ~ 3 credits
Introduction to Communication

Interpersonal, 3 total credits

BSCOM 234 ~ 3 credits
Foundations of Interpersonal Communication

Mass Communication, 6 total credits

BSCOM 268 ~ 3 credits
Foundations of Mass Communication
BSCOM 410 ~ 3 credits
Media and Society

Communication Research, 3 total credits

BSCOM 324 ~ 3 credits
Communication Research

Communication Theory, 3 total credits

BSCOM 336 ~ 3 credits
Communication Theories and Practice

Group Communication, 3 total credits

BSCOM 348 ~ 3 credits
Small Group and Team Communication

Organizational, 3 total credits

BSCOM 360 ~ 3 credits
Organizational Communication

Intercultural, 3 total credits

BSCOM 390 ~ 3 credits
Intercultural Communication

Communication Law, 3 total credits

BSCOM 415 ~ 3 credits
Communication Law

Communication Ethics, 3 total credits

BSCOM 460 ~ 3 credits
Ethics and Communication

Mediation/Conflict Resolution, 3 total credits

BSCOM 465 ~ 3 credits
Communication in Mediation and Conflict Resolution

Communication Capstone, 3 total credits

BSCOM 485 ~ 3 credits
Capstone in Communication

Upper Division Communication Electives, 18 total credits

General Information for the BS/COM

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BS/COM

- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree or upper division certificate. Listed below are all of the possible en-route credentials:
 - Cultural Studies and Communication Certificate
 - Leadership Communication in Organizations Certificate
 - Communication and Technology Certificate
 - Journalism Certificate
 - Marketing and Sales Certificate
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
 - Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BS/COM

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

Degree Requirements for the BS/COM

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 45 credits
 - Required Course of Study - 39 credits
 - Upper Division Communication Electives - 18 credits
 - Electives - 18 credits
- A minimum of 48 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Communication

General Education Requirements for the BS/COM

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209 or higher

Science and Technology, 6 credits

Must include at least 3 credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BS/COM for Minnesota Students

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 6 credits

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201**B Track must include: GEN 127**

Interdisciplinary Component, 9 credits

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BS/COM for Minnesota Students obtaining an Associates En-Route Credential

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher**B Track must include: ENG 147**

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201**B Track must include: GEN 127**

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BS/COM

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to University of Phoenix with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
- Previous completion of an Associate of Arts or higher degree from University of Phoenix.
- Previous completion of a Critical Thinking course with University of Phoenix
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
 - Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BS/COM

- Students in this program may waive a maximum of 12 credits from their required course of study.
- The 18 credit Upper Division Communication Electives requirement may be satisfied by any of the following means:
 - Upper Division University of Phoenix Communication coursework.
 - Upper Division Certificate approved in the student's state or jurisdiction.
 - Upper Division Communication transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.
 - Upper Division Communication National Testing Program exams that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
 - Upper Division Communication American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
 - Upper Division Communication Prior Learning Assessment (PLA) credits awarded to activities completed within the past ten (10) years from current program enrollment agreement sign date.
- The following courses in the Required Course of Study may not be waived: BSCOM 485

Re-entry for the BS/COM

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Arts in English

The following Bachelor of Arts in English (BA/ENG) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Arts degree with a language requirement and primary major in English is designed to provide students with substantive academic content in a liberal arts discipline of their choice. The program prepares students for teaching opportunities in elementary and secondary education after completion of additional methodology courses required for teacher certification in all states. The degree also provides an academic foundation for students interested in pursuing further graduate education necessary for postsecondary teaching positions in liberal arts at most colleges and universities. Focused studies are designed to provide an interdisciplinary component that will increase the student's breadth of learning. The program will provide workers in business and government, as well as education, with learning that promotes critical thinking, information utilization, collaboration, communication, and analytical skills essential to effective and efficient work productivity. The Bachelor of Arts in English introduces students to literature, rhetoric, grammar and composition as a disciplined course of study. Students will gain a multifaceted understanding of the major literary genres, authors, and forms; and proficiency in the English language through their course of study. Using English language as a context, students develop skills in research, critical thinking & analysis, and communication.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/ba-eng>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Humanities and Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will demonstrate mastery of written English and apply this to a variety of rhetorical strategies of exposition, persuasion, narration and descriptive writing.
- Students will demonstrate understanding of texts and apply rhetorical concepts in a variety of diverse communication situations and contingencies.
- Students will apply collaborative learning skills in analysis and composition to works collectively authored in a team setting in the creation of a product.
- Students will compare and contrast literature across its forms, genres and schools, using significant authors and works in the identification of essential elements.
- Students will research authors, historical contexts and theoretical frames to deepen comprehension of written works.
- Students will evaluate literary and rhetorical works for quality and purpose.

- Students will apply concepts from literary works and scholarly research to their lives.
- Students will explain the importance of literature, rhetoric and linguistics to society.

BA/ENG Preferred Sequence- A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Lower Division Courses - 21 credits*Major Courses - 6 credits*

ENG 270 ~ 3 credits

Literary Interpretation and Analysis

ENG 280 ~ 3 credits

Rhetoric and Critical Thinking

Select 2 courses from the following:

LIT 235 ~ 3 credits

Survey of English Literature to 1798

LIT 245 ~ 3 credits

Survey of English Literature since 1798

LIT 255 ~ 3 credits

Survey of American Literature to 1860

LIT 265 ~ 3 credits

Survey of American Literature since 1860

Select 3 courses from the following or another 200 level ENG course:

ENG 230 ~ 3 credits

Mechanics of Writing

ENG 235 ~ 3 credits

Linguistics

ENG 240 ~ 3 credits

Introduction to Creative Writing

ENG 250 ~ 3 credits

History of the English Language

ENG 260 ~ 3 credits

Folklore and Fairytales

ENG 265 ~ 3 credits

The Short Story

ENG 295 ~ 3 credits

Children's Literature

Upper Division Courses - 27 credits*Major Courses - 6 credits*

LIT 375 ~ 3 credits

Literary Theory and Criticism

WRIT 320 ~ 3 credits

Advanced Composition for the English Major

Select 6 courses from the below list or another upper division course with a LIT, WRIT, or RHET prefix:

LIT 304 ~ 3 credits

Shakespeare

LIT 305 ~ 3 credits

Major American Novel

LIT 315 ~ 3 credits

American Autobiography

LIT 325 ~	3 credits
Modern Theatre	
LIT 330 ~	3 credits
Modern Poetry	
LIT 340 ~	3 credits
African American Literature	
LIT 410 ~	3 credits
Literature of the Fantastic	
LIT 420 ~	3 credits
Comic Books and Graphic Novels	
LIT 430 ~	3 credits
The Romantic Poet	
LIT 450 ~	3 credits
Women Writers	
RHET 300 ~	3 credits
Rhetorical Theories	
RHET 450 ~	3 credits
Advanced Linguistics	
RHET 470 ~	3 credits
Studies of American Rhetoric	
RHET 475 ~	3 credits
Rhetoric and Social Media	
WRIT 310 ~	3 credits
Creative Writing: Personal Essays and Creative Non-Fiction	
WRIT 350 ~	3 credits
Writing for Social Media	
WRIT 410 ~	3 credits
Creative Writing: Poetry	
WRIT 415 ~	3 credits
Creative Writing: Short Story	
WRIT 420 ~	3 credits
Creative Writing: One Act Play	

Select 1 Capstone:

ENG 480 ~ 3 credits

Applied Rhetoric

Focus Study -15 credits

To satisfy the Focus Study requirement, students must complete 15 credits in a content area outside of their selected major, nine (9) of which must be upper division. All 15 credits must be from the same content area and can be satisfied using transfer or University of Phoenix coursework. Credits completed and applying to satisfy the Focus Study requirement may not also apply within applicable General Education categories.

General Information for the BA/ENG

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.

- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BA/ENG

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this

Degree Requirements for the BA/ENG

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education 42 credits
 - Major-English 48 credits
 - Focus Study 15 credits
 - Elective Credits 15 credits
- A minimum of 42 upper division credits.
- Completion of a fifteen (15) credit Focus Study, nine (9) of which must be upper division.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as:
Bachelor of Arts in English

Degree Requirements for the BA/ENG for Minnesota Students

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education 51 credits
 - Major-English 48 credits
 - Focus Study 15 credits
 - Elective Credits 6 credits
- A minimum of 42 upper division credits.
- Completion of a fifteen (15) credit Focus Study, nine (9) of which must be upper division.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as:
Bachelor of Arts in English

General Education Requirements for the BA/ENG

A minimum of 42 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent or higher

Social Science, 6 credits

Science & Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Additional Liberal Arts, 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Foreign Language, 6 credits

NTP Foreign Language Exams may be used to satisfy foreign language requirements.

Interdisciplinary Component, 3 credits

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BA/ENG for Minnesota Students

A minimum of 51 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent or higher

Social Science, 9 credits

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either

Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Foreign Language, 6 credits

NTP Foreign Language Exams may be used to satisfy foreign language requirements.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BA/ENG

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to University of Phoenix with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from University of Phoenix.
 - Previous completion of a Critical Thinking course with University of Phoenix
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)

 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
 - Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BA/ENG

Students in this program may waive a maximum of 15 credits from their required course of study.

Re-entry for the BA/ENG

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Environmental Science

The following Bachelor of Science in Environmental Science (BS/EVS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science degree with a mathematics requirement and primary majors in natural sciences and history is designed to provide students with substantive academic content in the disci-

pline of their choice. The program prepares students for teaching opportunities in elementary and secondary education after completion of additional methodology courses required for teacher certification in all states. The degree also provides an academic foundation for students interested in pursuing further graduate education necessary for postsecondary teaching positions in natural science or history at most colleges and universities. Focused studies are designed to provide an interdisciplinary component that will increase the student's breadth of learning. The program will provide workers in business and government, as well as education, with learning that promotes critical thinking, information utilization, collaboration, communication, and analytical skills essential to effective and efficient work productivity. The major in Environmental Science is designed to provide students with a comprehensive understanding of the relationship between scientific principles and the environment. Topics will include biological and ecological fundamentals, the environment and society, environmental management and law, global health, risk assessment, ethics, and technology.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bs-evs>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Humanities and Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will explain key concepts and theories in the physical and life sciences.
- Students will analyze environmental issues using the fundamentals of the physical and life sciences.
- Students will evaluate scientific reasoning to critically analyze environmental issues.
- Students will apply basic research methods in science.
- Students will explain professional knowledge and ethical responsibilities in environmental science.
- Students will propose solutions to environmental problems based on interdisciplinary knowledge.
- Students will generate effective communications of theory, findings and conclusions in a scientific manner.
- Students will apply laws and policies when evaluating environmental issues.

Preferred Sequence for the BS/EVS

Degree Requirements for the BS/EVS

- Completion of a minimum of 120 credits that include the following distribution:

- General Education - 36 credits
- Major-Environmental Science - 56 credits
- Focus Study - 15 credits
- Elective Credits - 13 credits
- A minimum of 42 upper division credits.
- Completion of a fifteen (15) credit Focus Study, nine (9) of which must be upper division.
- A minimum grade point average (GPA) of 2.0.
- Students may choose additional elective credits to fulfill upper division and elective requirements.
- The diploma awarded for this program will read as: Bachelor of Science in Environmental Science

General Education Requirements for the BS/EVS

A minimum of 36 of the 120 credits must be in the general education areas approved by the University

Electives Requirement 13 credits

Select elective courses to meet the minimum upper division and general education requirements for the Bachelor of Science in Environmental Science degree.

Communication Arts Requirement(s) 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics Requirement(s) 9 credits

Must include: MTH 220 and MTH 231, equivalent or higher

The MTH 220 requirement may be satisfied with College Algebra transfer coursework or math transfer coursework requiring College Algebra as a prerequisite.

Social Science Requirement(s) 6 credits**Science/Tech Requirement(s) 6 credits**

Must include at least three (3) credits in the physical or biological sciences

Humanities Requirement(s) 6 credits

Must include: HUM 115

Additional Liberal Arts Requirement(s) 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BS/EVS for Minnesota Students

A minimum of 36 of the 120 credits must be in the general education areas approved by the University

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 9 credits

Must include: MTH 220 and MTH 231, equivalent or higher

The MTH 220 requirement may be satisfied with College Algebra transfer coursework or math transfer coursework requiring College Algebra as a prerequisite.

Social Science, 6 credits**Natural Science, 6 credits****Humanities, 6 credits**

Must include: HUM 115

Additional Liberal Arts, 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Electives, 13 credits

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BS/EVS

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to University of Phoenix with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from University of Phoenix.
 - Previous completion of a Critical Thinking course with University of Phoenix
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
 - Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BS/EVS

- Students in this program may waive a maximum of 15 credits from their required course of study.

Re-entry for the BS/EVS

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/

restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Biological Science

The following Bachelor of Science in Biological Science (BS/BIO) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The major in Biological Science is designed to provide students with a comprehensive understanding of the relationship between the life sciences and the environment. Topics will include biological and ecological fundamentals, the environment and society, botany, zoology, microbiology, and ethics.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bs-bio>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Humanities and Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will explain key concepts and theories in the physical and life sciences.
- Students will explain professional knowledge and ethical responsibilities.
- Students will apply scientific reasoning to critically analyze topics in biology.
- Students will apply fundamental scientific research methods in the biological sciences.
- Students will apply communication skills in the biological sciences.
- Students will integrate multiple disciplines to explain aspects in biology and their interplay with other fields.

BS/BIO Required Course of Study - Biological Science Major

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Major Requirements

Lower Division Courses - 23 credits

Major Courses - 20 credits

BIO 101 ~	3 credits
Principles of Biology	
CHM 150 ~	4 credits
General Chemistry I	
CHM 151 ~	4 credits
General Chemistry II	
GLG 150 ~	3 credits
Exploration of the Earth Sciences	
PHY 101 ~	3 credits
Fundamentals of Physics	

SCI 256 ~ 3 credits

People, Science and the Environment

Electives - Select (1) course - 3 credits

BIO 204 ~ 3 credits

Plant Physiology

BIO 280 ~ 3 credits

Conservation Biology

SCI 151 ~ 3 credits

Astronomy

SCI 209 ~ 3 credits

Oceanography

Upper Division Courses - 29 credits

Major Courses - 20 credits

BIO 350 ~ 4 credits

General Biology I

BIO 351 ~ 4 credits

General Biology II

BIO 315 ~ 3 credits

Ecology and Evolution

BIO 340 ~ 3 credits

Microbiology

BIO 405 ~ 3 credits

Human Biology

BIO 410 ~ 3 credits

Genetics

Discipline Electives - Select (2) Courses - 6 credits

BIO 310 ~ 3 credits

Ethnobotany

BIO 325 ~ 3 credits

Economic Botany

BIO 330 ~ 3 credits

Invertebrate Zoology

BIO 335 ~ 3 credits

Entomology

BIO 420 ~ 3 credits

Ornithology

BIO 421 ~ 3 credits

Herpetology

BIO 422 ~ 3 credits

Ichthyology

BIO 423 ~ 3 credits

Vertebrate Zoology

BIO 424 ~ 3 credits

Mycology

BIO 425 ~ 3 credits

Primateology

SUS 300 ~ 3 credits

Environmental Sustainability

Electives - Select (1) Course - 3 credits

BIO 402 ~ 3 credits

Immunology

ENV 315 ~	3 credits
Global Change	
ENV 410 ~	3 credits
Environmental Toxicology	
SCI 362 ~.....	3 credits
Environmental Issues and Ethics	

Focus Study - 15 credits

To satisfy the Focus Study requirement, students must complete 15 credits in a content area outside of their selected major, 9 of which must be upper division. All 15 credits must be from the same content area and can be satisfied using transfer or University of Phoenix coursework. Credits completed to satisfy the Focus Study requirement may not apply within applicable General Education categories.

The University reserves the right to modify the required course of study.

General Information for the BS/BIO

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements BS/BIO

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

Degree Requirements for the BS/BIO

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 36 credits
 - Major- Biological Science - 52 credits
 - Focus Study - 15 credits
 - Elective Credits - 17 credits
- A minimum of 45 upper division credits.
- Completion of a fifteen (15) credit Focus Study, nine (9) of which must be upper division.
- A minimum grade point average (GPA) of 2.0.
- Students may choose additional elective credits to fulfill upper division and elective requirements.
- The diploma awarded for this program will read as:
Bachelor of Science in Biological Science

General Education Requirements for the BS/BIO

A minimum of 36 of the 120 credits must be in the general education areas approved by the University

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 9 credits

Must include: MTH 220 and MTH 231, equivalent or higher

The MTH 220 requirement may be satisfied with College Algebra transfer coursework or math transfer coursework requiring College Algebra as a prerequisite.

Social Science, 6 credits

Science/Tech, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Additional Liberal Arts, 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BS/BIO for Minnesota Students

A minimum of 36 of the 120 credits must be in the general education areas approved by the University

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 9 credits

Must include: MTH 220 and MTH 231, equivalent or higher

The MTH 220 requirement may be satisfied with College Algebra transfer coursework or math transfer coursework requiring College Algebra as a prerequisite.

Social Science, 6 credits

Natural Science, 6 credits

Humanities, 6 credits

Must include: HUM 115

Additional Liberal Arts, 3 credits

A Track must include: GEN 201**B Track must include: GEN 127**

Electives, 17 credits

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BS/BIO

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147.
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to University of Phoenix with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from University of Phoenix.
 - Previous completion of a Critical Thinking course with University of Phoenix
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).

- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
 - Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BS/BIO

Students in this program may waive a maximum of 15 credits from their required course of study.

Re-entry for the BS/BIO

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

COLLEGE OF SECURITY AND CRIMINAL JUSTICE

The College of Security and Criminal Justice prepares students for professional and management-related career opportunities in criminal justice and security by applying a multidisciplinary comparative management approach to criminal justice theory and application. Students will be prepared to understand, explain, and predict criminal justice and security concepts and to contribute to the development of public and private policy within communities. Our mission is to enhance the academic preparation and professionalism of the nation's criminal justice and security communities through access to quality criminal justice and security higher education. The College of Security and Criminal Justice provides innovative, respected, relevant, affordable, and student-focused programs, designed to prepare students for opportunities of service and leadership in a diverse, global society. Curriculum is delivered by experts who relate both theory and practice in this evolving field. The College has earned respect through continuous improvement driven by a combination of innovation in the field and empirical evidence of learning outcomes, all of which is accomplished through the integrity, teamwork, and creativity of college faculty and staff. We are a respected criminal justice and security college, known for its distinctive strengths in providing superior and relevant educational programs to its students. It is the student's responsibility to ascertain whether their past history and conduct may prohibit their placement or participation in the criminal justice and security field. The University makes no guarantee or representation that the student will meet all qualifications for such employment or licensure for the occupation or profession related to the chosen program.

Associate of Arts in Criminal Justice

The following Associate of Arts in Criminal Justice (AACJS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The AA in Criminal Justice Program is designed to address the needs of the Criminal justice and security occupations that require the breadth and depth of knowledge and a continually evolving set of physical, technological, cognitive, and interpersonal skills to navigate a rapidly changing environment. The program is designed to accommodate those requiring basic knowledge, as well as individuals seeking a comprehensive understanding of the field.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/aacs>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Security and Criminal Justice graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you com-

plete this program.

- Students will critically analyze issues of diversity, race, ethnicity and multiculturalism related to criminal justice disciplines in order to identify and apply sound strategies to overcome socio-economic and racial issues in service to the communities they serve.
- Students will compare and contrast criminal justice standards relating to the codes of professional conduct in order to apply ethical principles to value-driven community service.
- Students will identify and recognize the importance of nonverbal communication, and the drafting of professionally written communication documents and verbal presentations, in the criminal justice disciplines.
- Students will define and articulate clear understanding in the application of public safety theory and practices, juvenile justice processes, criminal courts and correction systems through the use of technology. This will include the understanding of how sources of information are interpreted and applied to the criminal justice process.
- Students will examine different criminal justice and security problems by analyzing information using learned critical- and creative-thinking skills to find diverse solutions to improve the productivity of criminal justice organizations, and to provide quality community service.
- Students will demonstrate how to utilize information that identifies and classifies historical and contemporary social and behavioral theories to draft theoretical models of victim and criminal behavior, while exploring diverse policy approaches in criminal justice environments geared toward creating improvements in service to the community.
- Students will exhibit an understanding of foundations in forensic science, technology and mathematical principles used in crime laboratories and how utilization of this information applies to criminal justice environments for improved community service.

Required Course of Study for the Criminal Justice- A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

CJS 201 ~	3 credits
Introduction to Criminal Justice	
CJS 225 ~	3 credits
Critical Thinking in Criminal Justice	
CJS 241 ~	3 credits
Introduction to Police Theory and Practices	
CJS 245 ~	3 credits
Juvenile Justice Systems and Processes	
CJS 251 ~	3 credits
Introduction to Criminal Court Systems	
CJS 255 ~	3 credits
Introduction to Corrections	

The University reserves the right to modify the required course of study.

The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

General Information for the AACJS

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for AACJS

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Signed Acknowledgement Form

Degree Requirements for AACJS

- Completion of a minimum of 60 credits that include the following distribution:
 - General Education - 42 credits
 - Required Course of Study - 18 credits
- A minimum grade point average (GPA) of 2.0.

- The diploma awarded for this program will read as:
Associate of Arts

General Education Requirements for the AACJS

The General Education requirements for this program are the following:

Communication Arts, 6 credits

Must include: CJS 205

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 6 credits

Must include: CJS 215

Must include 3 credits in the physical or biological sciences

Humanities, 6 credits

Must include: CJS 211

Must include: HUM 115

Social Science, 9 credits

Must include: CJS 221 and CJS 235

Additional Liberal Arts, 6 credits

Must include CJS 231

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 3 credits

CJS 201 is a prerequisite for the following General Education courses: CJS 215 and CJS 235.

Academic Progression Requirements for the AACJS

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, ENG 147, and HUM 115.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.

- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AACJS

Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AACJS

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts in Criminal Justice (Minnesota)

The following Associate of Arts in Criminal Justice (AACJS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The AA in Criminal Justice Program is designed to address the needs of the Criminal justice and security occupations that require the breadth and depth of knowledge and a continually evolving set of physical, technological, cognitive, and interpersonal skills to navigate a rapidly changing environment. CJS 255 ~.....	3 credits
Introduction to Corrections	

The University reserves the right to modify the required course of study.

The Associate of Arts in Criminal Justice degree program does not satisfy the requirements of the Minnesota Police Officer Standards and Training Board. Students will not qualify to be a police officer nor sit for the licensing exam in Minnesota upon successful completion of this program. The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

General Information for the AACJS

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.

- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for AACJS

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Signed Acknowledgement Form

Degree Requirements for AACJS

- Completion of a minimum of 66 credits that include the following distribution:
 - General Education - 48 credits
 - Required Course of Study - 18 credits
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as:
Associate of Arts

General Education Requirements for the AACJS

The General Education requirements for this program are the following:

Communication Arts, 6 credits

Must include: CJS 205

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: CJS 211

Must include: HUM 115

Social Science, 9 credits

Must include: CJS 221 and CJS 235

Additional Liberal Arts, 6 credits

Must include CJS 231

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics. Note: CJS 231 will count toward additional social science

credits.

Interdisciplinary Component, 3 credits

Must include: CJS 215

CJS 201 is a prerequisite for the following General Education courses: CJS 215 and CJS 235.

Academic Progression Requirements for the AACJS

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, ENG 147, and HUM 115.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AACJS

Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AACJS

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts in Security Management

The following Associate of Arts in Security Management (AASEC) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online

rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The mission of the Associate of Arts in Security Management (AASEC) degree program is to develop critical thinking, creative decision-making, and management capabilities of private industry security practitioners that will enable professional success. Specifically, the program prepares graduates to employ current security, management, and leadership theories and evidence-based practices to:

- Conduct and apply threat assessments and risk analysis, manage integrated physical security systems and the appropriate identification, implementation and ongoing evaluation of security measures.
- Manage corporate investigations through applied investigative interviewing methodologies, case management, evidence collection and preparation of reports and testimony to substantiate findings.
- Apply security practices that enhance the corporate business model and function through workplace safety, loss prevention strategies, ethical applications and corporate communication skills.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/aasec>.

Preferred Sequence for the AASEC - Track A and B

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Required:

SEC 100 ~ 3 credits

Introduction to Security Management

Security Management Electives:

SEC 120 ~ 3 credits

Corporate Security Essentials

SEC 130 ~ 3 credits

Private Security Issues and Conflicts

SEC 150 ~ 3 credits

Insider Threats Fundamentals

SEC 200 ~ 3 credits

Emergency Management and Response

SEC 240 ~ 3 credits

Loss Prevention and Supply Chain Security

The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

The University reserves the right to modify the required course of study.

General Information for the AASEC

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

En-Route Credentials for the AASEC

- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree and a lower division certificate. Listed below are all of the possible en-route credentials:
 - Asset Protection/Loss Prevention Certificate (Undergraduate)
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
 - Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for AASEC

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

- Signed Acknowledgement Form

Degree Requirements for AASEC

- Completion of a minimum of 60 credits that include the following distribution:
 - General Education - 42 credits
 - Required Course of Study - 3 credits
 - Security Management Electives - 15 credits
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as:
Associate of Arts

General Education Requirements for the AASEC

The General Education requirements for this program are the following:

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 6 credits

Must include SEC 250

Must include: 3 credits in the physical or biological sciences

Humanities, 6 credits

Must include: SEC 220

Must include: HUM 115

Social Science, 9 credits

Must include: SEC 110 and SEC 210

Additional Liberal Arts, 6 credits

Must include: SEC 230

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 3 credits

Must include: SEC 140

SEC 100 is a prerequisite for the following General Education courses: SEC 110, SEC 140, SEC 210, SEC 220, SEC 230, and SEC 250.

Academic Progression Requirements for the AASEC

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),

- University of Phoenix Prior Learning Assessment
- National Testing Programs, and
- ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
 - Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
 - Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AASEC

Students in this program may waive a maximum of 3 credits from their required course of study.

The 15 credit Security Management Electives requirement may be satisfied by any of the following means:

- Lower Division UOPX Security Management Elective coursework.
- Lower Division Certificate from the College of Security and Criminal Justice approved in the student's state or jurisdiction.
- Lower Division or Upper Division Security Management transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C or better.
- Lower or Upper Division Security Management National Testing Program exams that are acceptable for transfer and were completed within the past ten(10) years from current program enrollment agreement sign date.
- Lower or Upper Division Security Management American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
- Lower or Upper Division Security Management Prior Learning Assessment (PLA) credits awarded to activities completed within the past ten (10) years from current program enrollment agreement sign date.

Re-entry for the AASEC

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts in Security Management (Minnesota)

The following Associate of Arts in Security Management (AASEC) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states.  - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AASEC

Students in this program may waive a maximum of 3 credits from

their required course of study.

The 15 credit Security Management Electives requirement may be satisfied by any of the following means:

- Lower Division UOPX Security Management Elective coursework.
- Lower Division Certificate from the College of Security and Criminal Justice approved in the student's state or jurisdiction.
- Lower Division or Upper Division Security Management transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C or better.
- Lower or Upper Division Security Management National Testing Program exams that are acceptable for transfer and were completed within the past ten(10) years from current program enrollment agreement sign date.
- Lower or Upper Division Security Management American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
- Lower or Upper Division Security Management Prior Learning Assessment (PLA) credits awarded to activities completed within the past ten (10) years from current program enrollment agreement sign date.

Re-entry for the AASEC

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Security Management

The following Bachelor of Science in Security Management (BSSEC) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The mission of the Bachelor of Science in Security Management (BSSEC) degree consistent with the University of Phoenix Mission and Purpose is to academically prepare students from diverse backgrounds for positions as private industry security practitioners. Students actively participating in the BSSEC program will receive core instruction which is aligned to private security industry standards relating to business operations and continuity, client

relations, corporate security management methodologies, critical incident response, investigative techniques, laws and regulations, private security practices, personnel management, security technology.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bssec>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Security and Criminal Justice graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to identify and describe key components of business operations and continuity, client relations and corporate security management methodologies.
- Students will be able to describe corporate investigative techniques, applicable laws and regulations, investigative interviewing methodologies, evidence collection procedures, preparation of reports, and investigation case management.
- Students will be able to design, direct, manage and apply threat assessment and risk analysis, and describe the implementation of ongoing evolution of security measures.
- Students will be able to apply security best practices to critical incident responses such as natural disasters, workplace violence, catastrophic events, and other internal and external risks and threats.
- Students will be able to apply critical-thinking and decision-making skills to effectively solve ethical situations related to personnel management in the security industry.
- Students will be able to evaluate and apply security technology needs for an organization based on security industry standards.
- Students will be able to describe and analyze the components of effective loss prevention and workplace safety programs based in security industry best practices and standards.

Preferred Sequence for the BSSEC

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

SEC 311 ~	3 credits
Security Management Fundamentals	
SEC 321 ~	3 credits
Survey of Security Specializations	
SEC 331 ~	3 credits
Industrial Safety	
SEC 319 ~	3 credits
Computers and Information Processing in Security	
SEC 300 ~	3 credits
Fundamentals of Human Resource Management in Security	
SEC 341 ~	3 credits
Criminology and the Criminal Justice System	
SEC 351 ~	3 credits
Legal and Regulatory Issues in Security Management	
SEC 361 ~	3 credits
Interpersonal Communications	

SEC 371 ~ 3 credits

Finance and Budgeting Practices

SEC 391 ~ 3 credits

Organizational Behavior and Management

SEC 401 ~ 3 credits

Threat and Vulnerability Management

SEC 431 ~ 3 credits

Principles of Investigation

SEC 441 ~ 3 credits

Security of Networks and Enterprise Systems

SEC 481 ~ 3 credits

Security Capstone

Upper Division Security Management Electives

SEC 411 ~ 3 credits

Physical Security

SEC 421 ~ 3 credits

Personnel Security and Executive Protection

SEC 451 ~ 3 credits

Global Security Issues

SEC 461 ~ 3 credits

Terrorism

SEC 471 ~ 3 credits

Critical Incident Management

SEC 489 ~ 3 credits

Implementation of Security System Measures

SEC 490 ~ 3 credits

Physical Security Operations Capstone

SEC 491 ~ 3 credits

Enterprise Security Administration Capstone

The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

The University reserves the right to modify the required course of study.

General Information for the BSSEC

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.

- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSSEC

- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an upper division certificate. Listed below are all of the possible en-route credentials:
 - Critical Incident Response Certificate (Undergraduate)
 - Advanced Cyber Security Certificate (Undergraduate)
 - Physical Security Operations Certificate (Undergraduate)
 - Enterprise Security Administration Certificate (Undergraduate)
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
 - Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSSEC

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Applicants must be currently employed or have access to a work environment.
- Signed Acknowledgement Form

Degree Requirements for the BSSEC

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 51 credits
 - Required Course of Study - 42 credits
 - Upper Division Security Management Electives - 15 credits
 - Electives - 12 creditsA minimum of 42 upper division credits.
A minimum of 51 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Security Management

Academic Progression Requirements for the BSSEC

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.
- Students must earn a grade of "C-" or better in SEC 481 in order to complete the program. Students who earn a grade lower than "C-" must repeat the course until the minimum grade requirement is met.

Additional Residency Requirements and Course Waivers for the BSSEC

- Students in this program may waive a maximum of 30 credits from their required course of study.
- Students earning a Security Management Certificate en-route to completing the undergraduate degree may waive a maximum of 3 credits within the certificate program in addition to the 30 credits that can be waived in the BSSEC required course of study by meeting the following criteria:
 - The activity must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
 - The activity must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits

- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Students earning a Security Management Certificate en-route must use the certificate coursework to fulfill the 15 credit Upper Division Security Management Electives requirement.
- Students not earning an Security Management Certificate en-route may satisfy the 15 credit Upper Division Security Management Electives requirement through the following means:
 - Approved UOPX Upper Division Security Management coursework.
 - Upper Division Security Management transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.
 - Upper Division Security Management National Testing Program exams that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
 - Upper Division Security Management American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
 - Upper Division Security Management Prior Learning Assessment (PLA) credits awarded to activities completed within the past ten (10) years from current program enrollment agreement sign date.
- The following course in the Required Course of Study may not be waived: SEC 481

General Education Requirements for the BSSEC

A minimum of 51 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 6 credits

Must include three (3) credits in the physical or biological sciences

Humanities, 6 credits

B Track must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 15 credits

Physical Education activity credits are limited to four (4) credits.

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general

education balance in order to complete the minimum general education credits required for their program.

Re-entry for BSSEC

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/ restrictions. Re-entry students should consult their Academic Advisor for guidance.

The Bachelor of Science in Organizational Security and Management

The following Bachelor of Science in Organizational Security and Management (BS/OSM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Organizational Security and Management degree is designed to address an increasing national and international need for greater technical competence and professionalism in the security industry. The distinctions between the roles of criminal justice agencies and private security organizations are recognized and the degree program provides the required knowledge for a student to develop competency and management skills in organizational security. While the program includes courses in Terrorism and Homeland Security, it also recognizes the depth and breadth of the discipline and provides a variety of courses designed to expose students to the entire spectrum of the security profession.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bs-osm>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Security and Criminal Justice graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will demonstrate an integrated holistic approach to the application of enterprise risk management techniques for physical and technology security.

- Students will comprehend and synthesize diverse ethical, competent and professional leadership skills that are founded on core values congruent with evidence-based legal and professional standards in the modern security discipline.
- Students will master effective, practical and sound security-based problem-solving skills, risk assessment methodologies based on theoretical and technical competence designed to efficiently identify and evaluate problems, utilize critical-thinking skills, and provide options for consideration for the implementation of evidence-based solutions to problems.
- Students will identify and describe key components of diverse leadership and communication skills.
- Students will apply understanding of STEM competencies relating to the occupational development of security personnel.
- Students will apply learned concepts for the strategic design and development of security specializations and processes within both public and private organizations.
- Students will be able to apply business and financial management acumen to develop and implement fiscal strategies for criminal justice and security organizations.
- Students will define and determine strategies and best practices for enhancing team performance, including identifying implications of diversity for group effectiveness.

Required Course of Study for the BS/OSM

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

GEN 300	3 credits
Skills for Professional Development	
SEC 310 ~	3 credits
Introduction to Organizational Security and Management	
SEC 320 ~	3 credits
Survey of Security Specializations	
CIS 319 ~	3 credits
Computers and Information Processing	
MGT 431 ~	3 credits
Human Resources Management	
SEC 340 ~	3 credits
Criminology and the Criminal Justice System	
SEC 360 ~	3 credits
Interpersonal Communications	
SEC 390 ~	3 credits
Organizational Behavior and Management	
SEC 370 ~	3 credits
The Administration Process	
SEC 330 ~	3 credits
Industrial Safety	
SEC 350 ~	3 credits
Legal and Regulatory Issues in Security Management	
SEC 400 ~	3 credits
Threat and Vulnerability Management	
SEC 430 ~	3 credits
Principles of Investigation	
SEC 440 ~	3 credits
Security of Information Systems and Technology	

SEC 410 ~	3 credits
Physical Security	
SEC 420 ~	3 credits
Personal Security	
SEC 450 ~	3 credits
Global Security Issues	
SEC 460 ~	3 credits
Terrorism	
SEC 470 ~	3 credits
Homeland Security and Interagency Response	
SEC 480 ~	3 credits
Capstone Course	

The University reserves the right to modify the required course of study.

The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

Additional Admission Requirements for the BS/OSM

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Applicants must be currently employed or have access to a work environment.
- Signed Criminal Conviction Prohibition Acknowledgement Form

Degree Requirements for the BS/OSM

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 57 upper division credits.
 - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.00.
- A minimum of 120 total credits that include a minimum of 57 upper division credits. Students must satisfy all required courses of study and general education requirements. Any remaining credits may be satisfied by elective coursework.

- If a student fails to complete SEC 480 with a C- or better, the student must retake the course to satisfy the degree requirement.

Additional Academic Progression Requirements for the BS/OSM

- Applicants to this program will be required to follow the university's First-Year Sequence policies. Students required to enter the First-Year Sequence will complete GEN 195 as the first course in their program. Students not required to enter the First-Year Sequence will complete GEN 200 as the first course in their program.
- With the exception of course requirements outlined in the First-Year Sequence policies, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited transfer coursework (C- or higher grade),
 - UOPX Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework, certain program areas must be satisfied before students can progress to others.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

General Education Requirements for the BS/OSM

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

Mathematics, 6 credits

Science and Technology, 6 credits

Must include at least 3 credits in the physical or biological sciences

Humanities, 6 credits

Social Science, 6 credits

Additional Liberal Arts, 3 credits

Interdisciplinary Component, 15 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Professional Development, 3 credits

GEN 300 is completed as part of the required course of study

Integrating, 3 credits

SEC 480 is completed as part of the required course of study

Students who lack .67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance. Students must use excess interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BS/OSM for Minnesota Students

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

Mathematics, 6 credits

Natural Science, 6 credits

Humanities, 6 credits

Social Science, 6 credits

Additional Liberal Arts, 3 credits

Interdisciplinary Component, 15 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Professional Development, 3 credits

GEN 300 is completed as part of the required course of study

Integrating, 3 credits

SEC 480 is completed as part of the required course of study

Students who lack .67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance. Students must use excess interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Additional Residency Requirements and Course Waivers for the BS/OSM

Students in this program may waive a maximum of 30 credits from their required course of study.

The following courses in the Required Course of Study may not be waived: GEN 300, SEC 480

Re-entry for the BS/OSM

With the exception of BSED/E, BSLS, LVN/BSN, LPN/BSN, and BSN, students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have less than 24 credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are required to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 24 or more credits

from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are not required to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 12 or more UOPX credits, and a total of 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork will not be required to complete GEN 200 upon re-entry.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Criminal Justice Administration

The following Bachelor of Science in Criminal Justice Administration (BSCJA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The mission of the Bachelor of Science in Criminal Justice Administration is to provide students with a strong foundation in criminal justice principles, concepts, and theories, as well as a practice orientation to justice administration. The degree offers a global perspective, as well as specialty coursework in criminal justice services. Students will receive core instruction in criminal justice as it is represented in the domains of law enforcement, criminal courts, and corrections then advance to emphasis courses within the broad domains of criminal justice.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bscja>.

BSCJA A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Collaborative Services in Criminal Justice	
CJA 484 ~	3 credits
Criminal Justice Administration Capstone	

The University reserves the right to modify the required course of study.

The Bachelor of Science in Criminal Justice Administration program does not satisfy the requirements of the Minnesota Police Officer Standards and Training Board. Students will not qualify to be a police officer nor sit for the licensing exam in Minnesota upon successful completion of this program. The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

General Information for the BSCJA

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.

- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSCJA

- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree and an upper division certificate. Listed below are all of the possible en-route credentials:
 - Criminal Justice Management Certificate
 - Cybercrimes Certificate
 - Human Services and the Criminal Justice System Certificate
 - Criminal Justice Security Certificate
 - Associate of Arts in Criminal Justice
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
 - Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSCJA

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

- Applicants must be currently employed or have access to a work environment.
- Signed Acknowledgement Form

Degree Requirements for the BSCJA

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 45 credits
 - Required Course of Study - 48 credits
 - Upper Division Criminal Justice Electives - 18 credits
 - Electives - 9 credits
- A minimum of 45 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Criminal Justice Administration

Degree Requirements for the BSCJA for Minnesota Students obtaining an Associates En-Route Credential

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 48 credits
 - Required Course of Study - 48 credits
 - Upper Division Criminal Justice Electives - 18 credits
 - Electives - 6 credits
- A minimum of 45 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Criminal Justice Administration

Academic Progression Requirements for the BSCJA

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN/201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.

- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - UOPX Prior Learning Assessment,
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSCJA

Students in this program may waive a maximum of 15 credits from their required course of study.

Students earning a Criminal Justice Certificate en-route to completing the undergraduate degree may waive a maximum of 3 credits within the certificate program in addition to the 15 credits that can be waived in the BSCJA required course of study by meeting the following criteria:

- The activity must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university, or from an approved source of nontraditional transfer credit as listed in University transfer policy.

- The activity must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits

- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students earning a Criminal Justice Certificate en-route must use the certificate coursework to fulfill the 18 credit Upper Division Criminal Justice Electives requirement.

Students not earning an additional credential or earning an Associate of Arts in Criminal Justice en-route may satisfy the 18 credit Upper Division Criminal Justice Electives requirement through the following means:

- Choose from a selection of University of Phoenix Upper Division Criminal Justice courses
- Upper Division Criminal Justice transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.

The following course in the Required Course of Study may not be waived: CJA 385

General Education Requirements for the BSCJA

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 9 credits

Must include at least six (6) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 3 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the Interdisciplinary requirement. Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSCJA for Students Obtaining an Associates En-Route Credential

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Must include: CJS 205 Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 9 credits

Must include at least six (6) credits in the physical or biological sciences

Must include: CJS 215

Humanities, 6 credits

Must include: HUM 115

Social Science, 9 credits

Must include: CJS 235

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 3 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the Interdisciplinary requirement. Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For students earning an associate degree en-route, CJS 201 is a prerequisite for the following General Education courses: CJS 215 and CJS 235.

General Education Requirements for the BSCJA for Minnesota Students

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

B Track must include: ENG 147

Mathematics, 6 credits

Natural Science, 9 credits

Humanities, 6 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 3 credits

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSCJA for Minnesota Students Obtaining an Associates En-Route Credential

A minimum of 48 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Must include: CJS 205

Mathematics, 6 credits

Must include: MTH 209, equivalent, or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Must include CJS 235

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Interdisciplinary Component, 3 credits

Must include: CJS 215

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For students earning an associate degree en-route, CJS 201 is a prerequisite for the following General Education courses: CJS 215 and CJS 235.

Re-entry for the BSCJA

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Criminal Justice Administration (Maryland-Online)

The following Bachelor of Science in Criminal Justice Administration (BSCJA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and emphases depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The mission of the Bachelor of Science in Criminal Justice Administration is to provide students with a strong foundation in criminal justice principles, concepts, and theories, as well as a practice orientation to justice administration. The degree offers a global perspective, as well as specific emphasis areas of criminal justice services delivery. Students will receive core instruction in criminal

justice as it is represented in the domains of police, courts, and corrections and then advance to emphases related to specific areas of criminal justice within those domains.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bscja>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Security and Criminal Justice graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to demonstrate the ability to critically analyze criminological theory, and identify its impact on society and public policy.
- Students will demonstrate a clear understanding of ethical principles and standards for all facets of the criminal justice system.
- Students will be able to identify dynamic human and organizational factors as a process, while applying sound problem-solving and critical-thinking skills to resolve conflict and achieve the desired, measurable outcome.
- Students will demonstrate the application of quantitative and qualitative research methods, and apply each to individualized and complex criminal justice situations.
- Students will demonstrate robust leadership qualities, and exhibit sound management skills aimed at fostering effective communication and performance in a dynamic, collaborative and diverse working environment.
- Students will be able to apply knowledge and skills to successfully collaborate with diverse groups and engage them in best practices. Students also will be able to demonstrate the application of research and evaluation methods to identify trends and evidence-based practices within the components of the criminal justice system and their specializations.
- Students will demonstrate the knowledge and skills to successfully collaborate with diverse groups and engage them in best practices of the criminal justice profession.

BSCJA Foundation Courses

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

GEN 200	3 credits
Foundations for General Education and Professional Success	
CJA 204 ~	3 credits
Introduction to Criminal Justice	
CJA 214 ~	3 credits
Introduction to Police Theory and Practices	
CJA 224 ~	3 credits
Introduction to Criminal Court Systems	
CJA 234 ~	3 credits
Introduction to Corrections	

BSCJA Required Course of Study

CJA 304 ~	3 credits
Interpersonal Communications	

CJA 314 ~	3 credits
Criminology	
CJA 324 ~	3 credits
Ethics in Criminal Justice	
CJA 334 ~	3 credits
Research Methods in Criminal Justice	
CJA 344 ~	3 credits
Cultural Diversity Issues in Criminal Justice	
CJA 354 ~	3 credits
Criminal Law	
CJA 364 ~	3 credits
Criminal Procedure	
CJA 374 ~	3 credits
Juvenile Justice Systems and Processes	
CJA 384 ~	3 credits
Criminal Organizations	
CJA 394 ~	3 credits
Contemporary Issues and Futures in Criminal Justice	
Students must select one emphasis in a particular area of study at the time of enrollment.	
Students may also complete an additional emphasis. Please contact your academic representative for more information.	

Emphasis in Human Services

The BSCJA Human Services emphasis is intended to give graduates knowledge and basic skills to work in the human services and helping areas of the criminal justice system. This particular emphasis represents an integrated program combining academic instruction in criminal justice with applied skills for students whose goal is a career in the areas of the system where basic skills in interviewing, case management, mental health interventions, advocacy and mediation are required. Human Services graduates are prepared to provide services in a variety of institutional and community settings within the criminal justice domains of policing, the courts, institutional and community corrections.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bscja-hs>.

BSHS 311 ~	3 credits
Models of Effective Helping	
BSHS 401 ~	3 credits
Case Management	
BSHS 441 ~	3 credits
Advocacy and Mediation	
BSHS 471 ~	3 credits
Mental Health and Crisis Intervention Practices	
CJA 484 ~	3 credits
Criminal Justice Administration Capstone	

Emphasis in Management

The BS/CJA Management emphasis is designed to give learners a depth of understanding concerning the management and administrative skills necessary to effectively run organizations in the various domains of criminal justice system. The courses included in this degree emphasis focus primarily on the management and administration skill sets associated with the police, the courts, and

with corrections. The theories and principles behind criminal justice are also examined. Students learn about policies, procedures associated with management functions, as well as many administrative practices and factors impacting criminal justice agency operations. This will not only give you the insight into what these specific departments are and what they do, but how to maintain and evaluate organizational operations from an administrative viewpoint.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bscja-m>.

CJA 444 ~.....	3 credits
Organizational Behavior and Management	
CJA 454 ~.....	3 credits
Criminal Justice Management Theory and Practice	
CJA 464 ~.....	3 credits
Criminal Justice Policy Analysis	
CJA 474 ~.....	3 credits
Managing Criminal Justice Personnel	
CJA 484 ~.....	3 credits
Criminal Justice Administration Capstone	

Emphasis in Institutional Healthcare

The BSCJA Institutional Health Care emphasis addresses the basic body of knowledge, understanding, and skills identified as relevant to criminal justice based health care services. This includes such areas as management, policy, legal and ethical parameters, health and disease factors, and health care service delivery. The reshaping of contemporary criminal justice health care requires workers to have a broad range of knowledge associated with the functions of health care in detention and correctional institutions, as well as various other areas represented in the greater criminal justice system.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bscja-ih>.

Health Care Delivery in the United States	
HCS 330 ~.....	3 credits
Introduction to Health and Disease	
HCS 430 ~.....	3 credits
Legal Issues in Health Care: Regulation and Compliance	
HCS 455 ~.....	3 credits
Health Care Policy: The Past and the Future	
CJA 484 ~.....	3 credits
Criminal Justice Administration Capstone	

Emphasis in Cybercrimes

The BSCJA Cybercrimes emphasis provides students with the basic skills needed to recognize relevant sources of electronic evidence and determine how electronic evidence can be used in court proceedings and as part of an organizational security plan. The emphasis combines academic instruction in criminal justice and cybercrime concepts to include; the evolution of cybercrime, cybercrime forensics, electronic evidence gathering, and cybercrime investigation and prevention. Students are prepared to provide ser-

vices in a variety of private and public settings within the criminal justice domains of policing, the courts, corrections, and security. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bscja>.

BCC 400 ~.....	3 credits
Information Systems Fundamentals	
BCC 401 ~.....	3 credits
Cybercrimes in the 21st Century	
BCC 402 ~.....	3 credits
Cybercrime and Role of Law Enforcement Security Personnel	
BCC 403 ~.....	3 credits
Global Technology and Cybercrime	
CJA 484 ~	3 credits
Criminal Justice Administration Capstone	

Emphasis in Security

The BSCJA Security concentration is intended to provide students with the knowledge and basic skills to work in homeland security and other areas of the criminal justice system that deal with terrorism, counterintelligence, and analysis. This concentration combines academic instruction in criminal justice and security practices to include; risk management, counterterrorism, critical infrastructure protection, and critical incident management. Students are prepared to provide services in a variety of private and public settings within the criminal justice domains of policing, the courts, corrections and security.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bscja>.

BSS 480 ~	3 credits
Risk Management Perception and Communication	
BSS 481 ~	3 credits
Counterterrorism Intelligence and Analysis	
BSS 482 ~	3 credits
Securing Critical Infrastructure and Cyberspace	
BSS 483 ~	3 credits
World View of Homeland Security	
CJA 484 ~	3 credits
Criminal Justice Administration Capstone	

Emphasis in Human Services for Criminal Justice

The BSCJA Human Services for Criminal Justice emphasis is intended to give graduates knowledge and basic skills to work in the human services and helping areas of the criminal justice system. This particular emphasis represents an integrated program combining academic instruction in criminal justice with applied skills for students whose goal is a career in the areas of the system where basic skills in interviewing, case management, mental health interventions, advocacy and mediation are required. Human Services for Criminal Justice graduates are prepared to provide services in a variety of institutional and community settings within the criminal justice domains of policing, the courts, institutional and community corrections.

CJHS 420 ~.....	3 credits
Case Management and Services Provided in Criminal Justice	
CJHS 430 ~.....	3 credits
Collaborative Services in Criminal Justice	
CJA 484 ~	3 credits
Criminal Justice Administration Capstone	

The University reserves the right to modify the required course of study.

The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

Additional Admission Requirements for the BSCJA

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.
- Signed Criminal Conviction Prohibition Acknowledgement Form

General Education Requirements for the BSCJA

A minimum of 54 credits of the 120 credits in the following general education areas approved by the University:

Communication Arts, 6 credits

Mathematics, 6 credits

Science and Technology, 6 credits

Must include at least three credits in physical or biological sciences

Humanities, 6 credits

Social Science, 6 credits

Additional Liberal Arts, 6 credits

Interdisciplinary Component, 18 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Degree Requirements for the BSCJA

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 45 upper division credits.
 - A minimum of 54 credits of the 120 credits must be in the general education areas approved by the University.

- A minimum program grade point average (GPA) of 2.0.
- Students must satisfy all required courses of study and general education requirements. Any remaining credits may be satisfied by elective coursework.
- Students will declare an emphasis at the time of enrollment.
- Emphases are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as: Bachelor of Science in Criminal Justice Administration.

Additional Academic Progression Requirements for the BSCJA

- Applicants to this program will be required to follow the university's First-Year Sequence policies. Students required to enter the First-Year Sequence will complete GEN 195 as the first course in their program. Students not required to enter the First-Year Sequence will complete GEN 200 as the first course in their program.
- With the exception of course requirements outlined in the First-Year Sequence policies, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited transfer coursework (C- or higher grade),
 - UOPX Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework, certain program areas must be satisfied before students can progress to others.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Residency Requirements and Course Waivers for the BSCJA

Students in this program may waive a maximum of 15 upper divi-

sion credits from their required course of study.

Students may also waive twelve (12) lower division credits from the required course of study.

The following courses in the required course of study may not be waived: GEN 200, CJA 484, GEN 195.

Re-entry for the BSCJA

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Public Administration

The following Bachelor of Science in Public Administration (BSPA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Public Administration program develops skills necessary for a career in government policy, organization and management at the local, federal, and state level, and in non-profit administration. The program topics include: administrative management, civic leadership, business and governmental law, risk management, ethics, public programs, human resources, and public finance and budgeting.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bspa>.

Preferred Sequence and Prerequisites for the BSPA - A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

BPA 200 ~ 3 credits

Public Sector Communications

BPA 201 ~ 3 credits

Foundations of Public Administration

Urban and Regional Planning	
BPA 451 ~	3 credits
Capital Improvement Planning and Management	
BPA 461 ~	3 credits
Contemporary Issues in Public Administration	

The University reserves the right to modify the required course of study.

The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

General Information for the BSPA

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.

- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BSPA

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Applicants must be currently employed or have access to a work environment.
- Signed Acknowledgement Form

Degree Requirements for the BSPA

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 54 credits
 - Required Course of Study - 60 credits
 - Electives - 6 credits
- A minimum of 45 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Public Administration

Academic Progression Requirements for the BSPA

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.

- Transfer to University of Phoenix with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
- Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
- Previous completion of an Associate of Arts or higher degree from University of Phoenix.
- Previous completion of a Critical Thinking course with University of Phoenix.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment,
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Satisfy University Proficiency Requirements.
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment (5 years School of Nursing)
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment (5 years School of Nursing).
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's re-entry policy.

Residency Requirements and Course Waivers for the BSPA

- Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits (as a part of the final 60 credits of the program) come from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
 - The activity must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
 - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
 - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Experiential Learning (essay) credit is not eligible to waive courses in the required course of study.
- Providing that University residency policy is met, through an approved articulation agreement or Educational Partnership Pathway (EPP) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
- Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.
- Eligible students who have attended a SOC Member Institution and have successfully completed equivalent courses according to the SOC Transfer Tables may transfer all equivalent courses into a student's required course of study as a waiver if the courses meet the minimum grade and timeframe as stated in policy.

- Students in this program may waive a maximum of 30 credits from their required course of study.
- The following course in the Required Course of Study may not be waived: BPA 461

General Education Requirements for the BSPA

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 6 credits

Must include three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 18 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSPA for Minnesota Students

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 6 credits

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 18 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Re-Entry for BSPA

- Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.
- Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.
- Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

THIS PAGE WAS LEFT BLANK INTENTIONALLY

COLLEGE OF SOCIAL SCIENCES

The College of Social Sciences offers undergraduate and graduate degree programs in a number of diverse academic areas including counseling, psychology, and human services. In addition, the college offers a certificate program in mediation.

The College provides innovative educational programs designed to enhance the core knowledge, skills and values essential for students seeking to achieve their academic goals in the field of social sciences. These programs are developed and taught by skilled practitioners who work in their respective fields. Through individual and collaborative work, students can acquire the knowledge and skills needed in today's working environment.

Bachelor of Science in Psychology

The following Bachelor of Science in Psychology (BSP) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Psychology program provides students with a strong foundation in general psychology. Students will gain insight into the cognitive and affective processes that underlie the individual human experience through an analysis of a variety of theoretical approaches related to human development and behavior. The courses in this program do not have a clinical emphasis and do not lead to professional licensure; instead, they are designed to provide students with greater skills in critical thinking, communication, collaboration, and information utilization through the enhanced understanding of human psychology and also include field experience possibilities and research activities throughout the program.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bs-p>.

Program Purpose

The Bachelor of Science in Psychology is an educational degree program that provides a foundation of knowledge in the field of psychology. This program does not prepare students for any type of professional certification or licensure as a psychologist.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to analyze psychological phenomena based on psychological theories, concepts and research.
- Students will be able to analyze the historical evolution of the science of psychology.
- Students will be able to evaluate the validity of conclusions derived from existing psychological research.

- Students will be able to apply research methods to conduct basic psychological research studies.
- Students will be able to apply ethical principles in all aspects of the science and practice of psychology.
- Students will be able to apply sociocultural and international awareness to all aspects of the science and practice of psychology.
- Students will be able to apply psychological principles to address personal, social and organizational issues.
- Students will be able to apply strategies to self-management and self-improvement.
- Students will be able to apply psychological knowledge, skills and values to meet professional and personal goals and societal needs in a variety of settings.

BSP Required Course of Study- A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

PSY 305 ~	3 credits
Professional Orientation in Psychology	3 credits
PSY 310 ~	3 credits
History and Systems in Psychology	3 credits
PSY 335 ~	3 credits
Research Methods	3 credits
PSY 340 ~	3 credits
Biological Foundations in Psychology	3 credits
PSY 345 ~	3 credits
Sensation and Perception	3 credits
PSY 315 ~	3 credits
Statistical Reasoning in Psychology	3 credits
PSY 360 ~	3 credits
Cognitive Psychology	3 credits
PSY 405 ~	3 credits
Theories of Personality	3 credits
PSY 410 ~	3 credits
Abnormal Psychology	3 credits
PSY 420 ~	3 credits
Theories of Behavior	3 credits
PSY 450 ~	3 credits
Diversity and Cultural Factors in Psychology	3 credits
PSY 400 ~	3 credits
Social Psychology	3 credits

Industrial/Organizational Psychology	3 credits
PSY 480 ~	3 credits
Elements of Clinical Psychology	

The University reserves the right to modify the required course of study.

General Information for the BSP

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSP

Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree.

Students may apply for conferral of an en-route credential upon meeting the following program requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSP

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

Degree Completion Requirements for the BSP

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 45 credits
 - Required Course of Study (BSP) - 42 credits
 - Electives - 33 credits
- A minimum of 42 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Psychology

General Education Requirements for the BSP

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent for higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209 or higher

Science and Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance.

Students must use excess interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSP for Minnesota Students

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent for higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 6 credits

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance.

Students must use excess interdisciplinary or elective credits to

waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSP for Minnesota

Students obtaining an Associates En-Route Credential

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent for higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Students who lack .67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance. Students must use excess interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BSP

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
 - Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
 - Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSP

Students in this program may waive a maximum of 24 credits from their required course of study.

Re-entry for the BSP

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Human Services

The following Bachelor of Science in Human Services (BSHS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The BSHS program curriculum at University of Phoenix employs an interdisciplinary approach for assimilating theory, knowledge, skills and core competencies of today's human service professional. The conceptual framework of the program draws from a range of human service domains such as counseling, biopsychosocial development, human systems and social change, psychology, and management theories. The program is designed with experiential components, integrated within the academic foundation, to provide students with experience as service providers in a range of human service settings in both private and public sectors. The Human Services program's interdisciplinary design builds core skills and competencies based on established methods for delivering a variety of direct service roles in the wide-ranging field of human services. Upon graduation from the program students will be qualified for Registry as Mental Health Facilitators with the National Board for Certified Counselors-International and prepared academically to sit for the Human Services-Board Certified Practitioner examination administered by the Center for Credentialing and Education.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bshs>.

Program Purpose

The Bachelor of Science in Human Services degree program provides a general foundation of human services theory and application coursework for students at entry levels in the helping professions. This program does not prepare students for any type of professional certification or state licensure as a social worker, counselor or psychologist.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to apply key aspects of the historical development of human services when analyzing theories of the interaction of human systems.
- Students will be able to interpret and judge the scope of human conditions that provide the focus for the human services profession.
- Students will be able to analyze client needs when formulating a plan for human service strategies and services.
- Students will be able to apply knowledge, skills and theory for structuring and administering direct service delivery and use of appropriate interventions with clients.
- Students will be able to develop and integrate self-assessment skills, and human services values and attitudes, for providing ethical human service practices.

Preferred Sequence for the BSHS

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

BSHS 305 ~.....	3 credits
Historical Development of Human Services: An Introduction	
BSHS 415O ~.....	0 credits
Orientation to Field Experience

Action Planning, Relapse Prevention and Aftercare	
HS 205 ~	3 credits
Human Service Helping Process and Self-Care	
HS 215 ~	3 credits
Introduction to the Human Services Profession	
HS 225 ~	3 credits
Introduction to Case Management and Helping Strategies	
HS 235 ~	3 credits
Public Policy, Social Welfare, and Research	
HS 245 ~	3 credits
Fundamentals of Working With People	
HS 255 ~	3 credits
Human Services Capstone Course	

The University reserves the right to modify the required course of study.

General Information for the BSHS

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).

- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSHS

- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree and/or upper division certificate. Listed below are all of the possible en-route credentials:
 - Addictions Certificate
 - Family and Child Services Certificate
 - Gerontology Certificate
 - Human Services Management Certificate
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
 - Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSHS

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- No work experience and /or current employment is required for this program.
- Effective 7/1/2015, A signed Enrollment Addendum
- Effective 7/1/2015, A signed Criminal Conviction Disclosure Form.

Degree Requirements for the BSHS

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 54 credits
 - Required Course of Study - 51 credits

- Human Services Electives - 9 credits
- Electives - 6 credits

• A minimum of 51 upper division credits.

• A minimum grade point average (GPA) of 2.0.

• The diploma awarded for this program will read as:
Bachelor of Science in Human Services

Academic Progression Requirements for the BSHS

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSHS

Students in this program may waive a maximum of 30 credits from their required course of study.

The 9 credit Human Services Elective requirement may be satisfied by any of the following means:

- Lower or Upper Division UOPX Human Services Elective coursework.
- Upper Division Certificate certificate approved in the student's state or jurisdiction.
- Lower or Upper Division Human Services transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.
- Lower or Upper Division Human Services National Testing Program exams that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
- Lower or Upper Division Human Services American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
- Lower or Upper Division Human Services Prior Learning Assessment (PLA) credits awarded to activities completed within the past ten (10) years from current program enrollment agreement sign date.

The following courses in the Required Course of Study may not be waived: BSHS 305, BSHS 325, BSHS 335, BSHS 345, BSHS 405, BSHS 415, BSHS 415O, BSHS 475, BSHS 485

General Education Requirements for the BSHS

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Requirements, 18 credits

Students who are earning the AAHS en-route must include: HS 235, HS 245, and HS 255

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement. Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Field Experience for the BSHS

BSHS programs include two field experience courses: BSHS 415 and BSHS 475. Each field experience course is 15 weeks in length. These courses require at least 175 hours of field experience, or an average of 12 hours per week committed to a community human services placement site. Weekly seminars (2 hours per week) are provided to offer support and supervision of the student activities during their field experience.

Re-entry for the BSHS

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/ restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Correctional Program Support Services

The following Bachelor of Science in Correctional Program Support Services (BSCPSS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Correctional Program Support Services undergraduate degree at University of Phoenix is focused on developing professional intervention, facilitation skills and foundational competencies specifically for students working with a forensic population. The program provides instruction in correctional assessment, case management, facilitation skills, systems of therapeutic intervention, and reintegration strategies. This program does not lead to an industry certification or license.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bscpss>.

Program Purpose

The Bachelor of Science in Correctional Program Support Services is an educational degree program that provides a foundation of knowledge in the field of correctional program support services. This program does not prepare students for any type of professional certification or licensure as a correctional officer, social worker or counselor.

Preferred Sequence for the BSCPSS

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

CPSS 210 ~ 3 credits

Introduction to Criminal Justice

CPSS 215 ~ 3 credits

Survey of Corrections in the United States

CPSS 225 ~ 3 credits

Survey of Correctional Program Career Opportunities

CPSS 235 ~ 3 credits

Working with the Juvenile Justice System

CPSS 240 ~ 3 credits

Foundations of Criminal Behavior

CPSS 300 ~ 3 credits

Working with the Correctional Population

CPSS 315 ~ 3 credits

Social Psychology

CPSS 330 ~ 3 credits

Essentials of Communication in Corrections

CPSS 370 ~ 3 credits

Intake, Assessment, and Classification

CPSS 385 ~ 3 credits

Case Planning and Case Management

CPSS 395 ~ 3 credits

Program Facilitation Skills

CPSS 400 ~ 3 credits

Institutional and Community-Based Programs	
CPSS 405 ~	3 credits
Working with Sex Offenders	
CPSS 410 ~	3 credits
Overview of Mental Health in Criminal Justice	
CPSS 415 ~	3 credits
Working with Juvenile Offenders	
CPSS 420 ~	3 credits
Issues of Substance Abuse and Addiction	
CPSS 430 ~	3 credits
Maintaining Boundaries and Self-Care	

The University reserves the right to modify the required course of study.

General Information for the BSCPSS

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BSCPSS

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- No work experience and/or current employment is required for this program.
- Signed Acknowledgement Form

- A signed Professional Non-Academic Requirement Addendum Form.

Degree Requirements for the BSCPSS

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 54 credits
 - Required Course of Study - 51 credits
 - Upper Division Correctional Program Support Services Electives - 9 credits
 - Electives - 6 credits
- A minimum of 42 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Correctional Program Support Services

General Education Requirements for the BSCPSS

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must Include MTH 209, equivalent or higher

Science and Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Requirements, 18 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance.

Students must use excess interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BSCPSS

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.

- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Residency Requirements and Course Waivers for the BSCPSS

- Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits (as a part of the final 60 credits of the program) come from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
 - The activity must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
 - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
 - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
 - Experiential Learning (essay) credit is not eligible to waive courses in the required course of study.
 - Providing that University residency policy is met, through an approved articulation agreement or Educational Partnership Pathway (EPP) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
 - Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.
 - Eligible students who have attended a SOC Member Institution and have successfully completed equivalent courses according to the SOC Transfer Tables may transfer all equivalent courses into a student's required course of study as a waiver if the courses meet the minimum grade and timeframe as stated in policy.
 - Students in this program may waive a maximum of 24 credits from their required course of study.

- Students may fulfill a maximum of 30 credits through their Peace Officer Standards and Training (POST) Certification, by submitting their certification documents through Prior Learning Assessment. POST credits not applied as waivers in the required course of study may be applied to interdisciplinary and elective components.
- The nine credit Upper Division Correctional Program Support Services (CPSS) Elective requirement may be satisfied by the following means:
 - University of Phoenix Upper Division CPSS Electives.
 - Upper division transfer coursework that has been approved through a course waiver request.
- The following courses in the Required Course of Study may not be waived: CPSS 225, CPSS 400

Re-entry for the BSCPSS

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

SCHOOL OF BUSINESS

We prepare future leaders for business excellence. Consistent with the values, mission, and purpose of the University of Phoenix, the mission of the School of Business is to provide effective and accessible higher education that prepares its students to be ethical practitioners and leaders. Our goal is to make a difference in the lives of our students and their organizations. We achieve this by always acting with a sense of social responsibility and in a manner consistent with our core values.

In particular we:

- Define quality as standards-based, industry-aligned, career-relevant educational curriculum, linked to current and future business needs
- Commit to excellence in teaching and to leveraging innovative teaching methodologies
- Be relentless in driving institutional self-assessment and continuous quality improvement

By 2020, through its integrated network of faculty, staff and business collaborators, the University of Phoenix, School of Business will be a preferred source for finding and developing emerging leaders for organizations.

Associate of Arts/Concentration in Accounting Fundamentals

The following Associate of Arts/Concentration in Accounting Fundamentals (AAACCT) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Associate of Arts with a concentration in Accounting Fundamentals focuses on the role of accounting in business strategy, financial statements, cost information, economics, management, and ethical issues. Students will encounter real-world scenarios where they will use accounting information resources and systems, and present conclusions based on accounting and business data. Additionally, students will use ledgers, journals, and worksheets to complete formal, informal, and quantitative accounting tasks.

Concentration in Accounting Fundamentals- A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

BIS 220 ~ 3 credits

Introduction to Computer Applications and Systems

BCOM 230 ~ 3 credits

Business Communication for Accountants

QNT 275 ~ 3 credits

Statistics for Decision Making

MGT 230 ~ 3 credits

Management Theory and Practice

ACC 290 ~ 3 credits

Principles of Accounting I

ACC 291 ~ 3 credits

Principles of Accounting II

The University reserves the right to modify the required course of study.

General Information for the AAACCT

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for AAACCT

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

General Education Requirements for the AAACCT

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 6 credits

Must include: 3 credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Degree Requirements for the AAACCT

- Completion of a minimum of 60 credits.
- A minimum grade point average (GPA) of 2.0.
 - Students earning the associate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
 - Students earning this associate en-route to completion of a bachelor degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the associate degree to be eligible for associate conferral.
- Concentrations or emphases are reflected on the transcript only and will not appear on the diploma.
- The diploma awarded for this program will read as:
Associate of Arts

Academic Progression Requirements for the AAACCT

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from University of Phoenix.
 - Previous completion of a Critical Thinking course with University of Phoenix
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.

- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - UOPX Prior Learning Assessment,
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
 - Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
 - Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AAACCT

- Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AAACCT

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a pro-

gram applicable course is considered a re-entry student. Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts/Concentration in Accounting Fundamentals (Minnesota)

The following Associate of Arts/Concentration in Accounting Fundamentals (AAACCT) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Associate of Arts with a concentration in Accounting Fundamentals focuses on the role of accounting in business strategy, financial statements, cost information, economics, management, and ethical issues. Students will encounter real-world scenarios where they will use accounting information resources and systems, and present conclusions based on accounting and business data. Additionally, students will use ledgers, journals, and worksheets to complete formal, informal, and quantitative accounting tasks.

Concentration in Accounting Fundamentals- A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

BIS 220 ~ 3 credits

Introduction to Computer Applications and Systems

BCOM 230 ~ 3 credits

Business Communication for Accountants

QNT 275 ~ 3 credits

Statistics for Decision Making

MGT 230 ~ 3 credits

Management Theory and Practice

ACC 290 ~ 3 credits

Principles of Accounting I

ACC 291 ~ 3 credits

Principles of Accounting II

The University reserves the right to modify the required course of study.

General Information for the AAACCT

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.

- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for AAACCT

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

Degree Requirements for the AAACCT

- Completion of a minimum of 61 credits.
- A minimum grade point average (GPA) of 2.0.
 - Students earning the associate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
 - Students earning this associate en-route to completion of a bachelor degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the associate degree to be eligible for associate conferral.
 - Concentrations are reflected on the transcript only and will not appear on the diploma.
- The diploma awarded for this program will read as Associate of Arts

General Education Requirements for the AAACCT

The General Education requirements for this program are the following:

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 4 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the AACCT

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN/201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C-grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - UOPX Prior Learning Assessment,
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement

- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AACCT

Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AACCT

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts/Concentration in Accounting Fundamentals (Certificate Track)

The following Associate of Arts/Concentration in Accounting Fundamentals (Certificate Track) (AACCTC) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Associate of Arts with a concentration in Accounting Fundamentals focuses on the role of accounting in business strategy, financial statements, cost information, economics, management, and ethical issues. Students will encounter real-world scenarios where they will use accounting information resources and systems, and present conclusions based on accounting and business data. Additionally, students will use ledgers, journals, and worksheets to

complete formal, informal, and quantitative accounting tasks.

The University reserves the right to modify the required course of study.

General Information for the AAACCTC

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- The Certificate Track associates programs are designed to be an option for students to earn a certificate en-route to earning the associates degree.
- Students who completed a certificate in its entirety and who later choose to enroll in an associates program with a concentration in the same area of focus as the completed certificate will be required to enroll in the Certificate Track and will not earn a second certificate en-route to completing the associates program.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for AAACCTC

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

Degree Requirements for the AAACCTC

- Completion of a minimum of 60 credits.
- A minimum grade point average (GPA) of 2.0.
 - Students earning the associate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
 - Students earning this associate en-route to completion of a bachelor degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the associate degree to be eligible for associate conferral.
- Students may earn a certificate in the same area of focus as the concentration en route to completing the associates degree. Students may apply for certificate conferral upon meeting the following program requirements:
 - Successful completion of the concentration courses outlined in the enrollment agreement for the certificate
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:
Associate of Arts

General Education Requirements for the AAACCTC

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Science and Technology, 6 credits

Must include: 3 credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the AAACCTC

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, and ENG 147
- Students are encouraged to complete the concentration or emphasis courses prior to enrolling in any other general education or interdisciplinary courses.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
 - Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)

-At least 2.67 semester credits

-Eligible to receive general education credits

- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AAACCTC

Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AAACCTC

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts/Concentration in Accounting Fundamentals (Certificate Track) (Minnesota)

The following Associate of Arts/Concentration in Accounting Fundamentals (Certificate Track) (AAACCTC) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. - Completion of a minimum of 61 credits.
- A minimum grade point average (GPA) of 2.0.
- Students may earn a certificate in the same area of focus as the concentration en route to completing the associates degree. Students may apply for certificate conferral meeting the following program requirements:

- Successful completion of the concentration or emphasis courses outlined in the enrollment agreement for the certificate.
- Achievement of the minimum program GPA.
- Fulfillment of the minimum University residency requirement.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:
Associate of Arts

General Education Requirements for the AAACCTC

The General Education requirements for this program are the following:

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 4 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the AAACCTC

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Students are encouraged to complete the concentration or emphasis courses prior to enrolling in any other general education or interdisciplinary courses.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.

- Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AAACCTC

Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AAACCTC

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a pro-

gram applicable course is considered a re-entry student. Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts/Concentration in Business Fundamentals

The following Associate of Arts/Concentration in Business Fundamentals (AABFN) program may be offered at these University of Phoenix campus locations as of: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Associate of Arts with a concentration in Business Fundamentals focuses on a variety of business essentials including management theory and practice, information systems, financial accounting, critical thinking and effective managerial communications. Students will explore business principles and learn to apply problem solving strategies to real-life scenarios. In addition, students will also discuss the effects of culture and ethics in current global and domestic business environments.

ACC 290 ~ 3 credits

Principles of Accounting I

ACC 291 ~ 3 credits

Principles of Accounting II

The University reserves the right to modify the required course of study.

General Information for the AABFN

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.

- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.

- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for the AABFN

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

General Education Requirements for the AABFN

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Degree Requirements for the AABFN

- Completion of a minimum of 60 credits.
- A minimum grade point average (GPA) of 2.0.

- Students earning the associate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
- Students earning this associate en-route to completion of a bachelor degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the associate degree to be eligible for associate conferral.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:
Associate of Arts

Academic Progression Requirements for the AABFN

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, and ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment,

- National Testing Programs, and
- ACE evaluated Military credits.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AABFN

- Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AABFN

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts/Concentration in Business Fundamentals (Minnesota)

The following Associate of Arts/Concentration in Business Fundamentals (AABFN) program may be offered at these University of Phoenix campus locations as of Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Associate of Arts with a concentration in Business Fundamentals focuses on a variety of business essentials including management theory and practice, information systems, financial accounting, critical thinking and effective managerial communications. Students will explore business principles and learn to apply problem solving strategies to real-life scenarios. In addition, students will also discuss the effects of culture and ethics in current global and domestic business environments.

Concentration in Business Fundamentals- A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

BUS 211 ~ 3 credits

Foundations of Business

COM 295 ~ 3 credits

Business Communications

QNT 275 ~ 3 credits

Statistics for Decision Making

BIS 220 ~ 3 credits

Introduction to Computer Applications and Systems

ACC 290 ~ 3 credits

Principles of Accounting I

ACC 291 ~ 3 credits

Principles of Accounting II

The University reserves the right to modify the required course of study.

General Information for the AABFN

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for the AABFN

- Applicants must be at least 16 years of age at the time of application.

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

Degree Requirements for the AABFN

- Completion of a minimum of 61 credits.
- A minimum grade point average (GPA) of 2.0.
 - Students earning the associate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
 - Students earning this associate en-route to completion of a bachelor degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the associate degree to be eligible for associate conferral.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:
Associate of Arts

General Education Requirements for the AABFN

The General Education requirements for this program are the following:

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent, or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 4 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the AABFN

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and

- ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
 - Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AABFN

- Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AABFN

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to com-

plete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

The Bachelor of Science in Business

The following Bachelor of Science in Business (BSB) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and en-route credentials depend on student demand and other factors. Not all programs and en-route credentials may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Business (BSB) undergraduate degree program is designed to prepare graduates with the requisite knowledge, skills, and values to effectively apply various business principles and tools in an organizational setting. The BSB foundation is designed to bridge the gap between theory and practical application, while examining the areas of accounting, critical thinking and decision-making, economics, finance, business law and ethics, management, marketing, organizational behavior, business statistical techniques, and information systems. Students are required to demonstrate a comprehensive understanding of the undergraduate business curricula through an integrated topics course.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Business graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will apply decision-making skills and consider ethical implications when solving business situations.
- Students will integrate business concepts and principles to advance organizational goals.
- Students will analyze interrelationships among distinct functional areas of an organization.
- Students will analyze the implications of operating in a changing global business environment.
- Students will examine the degree of alignment between their individual values and an organization's values as reflected in the organization's plans and actions.
- Students will apply key disciplinary skills as practitioners in business to critical business issues in the following domains of the BSB program:
 - Finance
 - Marketing

- Information systems
- Research methodologies
- Economics
- Business law
- Management
- Accounting

BSB Program Category Requirements- A Track and B Track

The University reserves the right to modify the required course of study.

General Information for the BSB

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSB

- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree, lower division certificate, and/or upper division certificate. Listed below are all of the possible en-route credentials:
 - Hospitality Fundamentals Certificate (Undergraduate)
 - Bookkeeping Fundamentals Certificate (Undergraduate)
 - Retail Management Certificate
 - Business Administration Certificate
 - Digital Marketing Certificate
 - Financial Planning Certificate
 - Marketing Certificate
 - Operations Management Certificate
 - Sales Management Certificate
 - Small Business Management and Entrepreneurship Certificate
 - Supply Chain Management Certificate
 - Project Management Certificate
 - Human Resource Management Certificate
 - General Management Certificate
 - Hospitality Management Certificate (Undergraduate)
 - Retail Fundamentals Certificate (Undergraduate)
 - Associate of Arts with a Concentration in Business Fundamentals
 - Associate of Arts with a Concentration in Accounting Fundamentals
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
 - Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement

- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSB

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Applicants must be currently employed or have access to a work environment.

Degree Requirements for the BSB

- Completion of a minimum of 120 credits.
 - General Education - 45 credits
 - Required Course of Study (BSB) - 39 credits
 - Upper Division Business/Management Electives - 18 credits
 - Electives - 18 credits
- A minimum of 42 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as:
Bachelor of Science in Business

General Education Requirements for the BSB

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Liberal Arts Component, 36 credits

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209 or higher

Science and Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSB for Minnesota

Students

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Liberal Arts Component 36 credits

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent or higher

Natural Science, 6 credits

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSB for Minnesota

Students obtaining an Associates En-Route Credential

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Liberal Arts Component, 36 credits

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either

Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BSB

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, and ENG 147

- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students ave the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits

- Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.
- Students transferring to University of Phoenix into an undergraduate Bachelor of Science in Business degree program with a previously completed Associate degree in Business under Direct Transfer Agreement (DTA) provisions from a Community or Technical College in the state of Washington will be considered as satisfying their lower division elective and general education requirements making the student Required Course of Study ready at University of Phoenix. Students utilizing this policy will still need to meet all pre-requisite or state specific content requirements as outlined in the Academic Progression and General Education Requirements policy sections for their Bachelor of Science in Business degree program.

Additional Residency Requirements and Course Waivers for the BSB

- Students in this program may waive a maximum of 18 upper division credits from their required course of study.
- Students may also waive twelve (12) lower division credits from the required course of study.
- The 18 credit Upper Division Business/Management Elective requirement may be satisfied by any of the following means:
 - Upper Division University of Phoenix Business/Management coursework.
 - Upper Division Certificate approved in the student's state or jurisdiction.
 - Upper Division Business/Management transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.
 - Upper Division Business/Management National Testing Program exams that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
 - Upper Division Business/Management American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
 - Upper Division Business/Management Prior Learning Assessment (PLA) credits awarded to activities completed within the past ten (10) years from current program enrollment agreement sign date.
- The following course(s) may not be waived: BUS 475

Re-entry for the BSB

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

The Bachelor of Science in Business (Maryland-Online)

The following Bachelor of Science in Business (BSB) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and emphases depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Business (BSB) undergraduate degree program is designed to prepare graduates with the requisite knowledge, skills, and values to effectively apply various business principles and tools in an organizational setting. The BSB foundation is designed to bridge the gap between theory and practical application, while examining the areas of accounting, critical thinking and decision-making, finance, business law, management, marketing, organizational behavior, research and evaluation, and technology. Integrated Business Topics

Students must select one emphasis in a particular area of study at the time of enrollment.

Students may also complete an additional emphasis. Please contact your academic representative for more information.

Accounting Emphasis

The Accounting Emphasis promotes identification with and orientation to the accounting profession and is designed to provide knowledge skills, and abilities necessary for a career in accounting. Core competencies in technology, critical thinking, and communication are emphasized throughout the curriculum. The program also utilizes specific accounting problem-solving software to provide students with practical knowledge of the accounting field. Students have broad exposure to varied business disciplines, including management, organizational behavior, economics, and finance, and learn how the general manager integrates these disciplines to meet the strategic goals of the organization.

ACC 423 ~ 3 credits

Intermediate Financial Accounting III

ACC 497 ~ 3 credits

Advanced Topics in Accounting Research

The BSB/ACC may not educationally qualify graduates to sit for the CPA exam in some states. To the extent that a student intends to sit for the CPA

examination, the student should consult with the applicable board of examiners in the state or states in which the individual intends to sit for the examination to determine the precise educational and other requirements, including the acceptability of the University's BSB/ACC.

Administration Emphasis

The Business Administration emphasis is designed for the working professional employed in a business or public organization. The major coursework emphasizes quantitative skills and is designed to enable graduates to deal effectively with an increasingly complex business environment. The administration emphasis examines the areas of operations management, project management, economics, accounting, finance, and strategic management.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/> programs/bsb-a.

ACC 400 ~ 3 credits

Accounting for Decision Making

MGT 448 ~ 3 credits

Global Business Strategies

Students must choose three of the following courses:

ACC 340 ~ 3 credits

Accounting Information Systems I

BSA 375 ~ 3 credits

Fundamentals of Business Systems Development

EBUS 405 ~ 3 credits

E-Business Technologies

ISCOM 472 ~ 3 credits

Lean Enterprise

MKT 441 ~ 3 credits

Marketing Research

MGT 437 ~ 3 credits

Project Management

ETH 355 ~ 3 credits

Understanding Ethics

OI 370 ~ 3 credits

Innovation for the 21st Century

PHL 410 ~ 3 credits

Classical Logic

Finance Emphasis

The Finance Emphasis emphasizes fundamental and advanced financial concepts, theories, and practices to promote well-informed financial decision making. The Finance Emphasis allows students to examine the areas of finance for decision making, financial risk management, mergers, acquisitions, and corporate restructuring, investment analysis and portfolio management, and global finance. Students will integrate advanced topics in financial management through real-world business application. Financial managers need many different skills. Interpersonal skills are important because these jobs involve managing people and working as part of a team to solve problems. Financial managers must have excellent communication skills to explain complex financial data. Since financial managers work extensively with various departments in their firm, a broad understanding of business is essential. Financial managers should be creative thinkers and problem-solvers, applying their analytical skills to business. They must be comfortable with the latest computer technology. Financial managers must have knowledge of international finance because financial operations are increasingly being affected by the global economy.

FIN 419 ~	3 credits
Finance for Decision Making	
FIN 486 ~	3 credits
Strategic Financial Management	
<i>Students must choose three of the following courses:</i>	
FIN 366 ~	3 credits
Financial Institutions	
FIN 375 ~	3 credits
Financial Management in the Small Business	
FIN 402 ~	3 credits
Investment Fundamentals and Portfolio Management	
FIN 410 ~	3 credits
Working Capital Management	
FIN 415 ~	3 credits
Corporate Risk Management	
FIN 420 ~	3 credits
Personal Financial Planning	
FIN 444 ~	3 credits
Mergers, Acquisitions, and Corporate Restructuring	
FIN 467 ~	3 credits
Real Estate Investment	

Global Management Emphasis

The Global Business emphasis emphasizes fundamental principles and practices of conducting global business activities. Components include: international marketing, international trade and investment, global finance, global human resource management, and global value-chain management. Students will integrate advanced topics in global business through real-life applications. The program promotes the development of a "global mindset" and reflects the dynamic nature of global business realities.

Implementing Entrepreneurship in Early-stage Enterprises	

Human Resource Management Emphasis

The Human Resource Management Emphasis helps students develop an understanding of the fundamentals of human resource management and its strategic relevance in business. The emphasis addresses the legal and ethical components of the decision making process involved in the human resources environment. The Human Resource Management Emphasis introduces students to the basic concepts of human resource management, and allows further study in the areas of employment law, risk management, recruitment and selection of employees, international HR, change management, compensation and benefits, employee development, and performance management. Students will also develop an understanding of the critical business implications for human resource professionals today and in the future. HR practitioners and managers must be equipped with a solid understanding of the fundamentals of human resource management, along with strong skills in the areas of systems thinking, problem solving, influencing, negotiating, communications, and leadership. This program is consistent with generally accepted human resource management principles, including the professional certification knowledge areas.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsb-hrm>.

HRM 300 ~	3 credits
Fundamentals of Human Resource Management	
HRM 498 ~	3 credits
Strategic Human Resource Management and Emerging Issues	

Students must choose three of the following courses:

HRM 310 ~ 3 credits

Change Management

HRM 324 ~ 3 credits

Total Compensation

HRM 326 ~ 3 credits

Employee Development

OI 370 ~ 3 credits

Innovation for the 21st Century

PHL 410 ~ 3 credits

Classical Logic

MUS 320 ~ 3 credits

The Music Business Today

Marketing Emphasis

The Marketing Emphasis addresses how to identify customer needs, how to communicate information about products and services to customers and potential customers, where to market, the pricing of products and services, and how to respond to growing demands in different countries and cultures. The marketing emphasis builds upon the foundational marketing course, which allows further study in the areas of consumer behavior, advertis-

ing, marketing research, public relations, promotion measurement and analysis, and international and global marketing. Marketing managers need creative, analytical, and leadership abilities to manage the marketing function of the business enterprise.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsb-mkt>.

MKT 435 ~ 3 credits

Consumer Behavior

MKT 498 ~ 3 credits

Integrated Marketing Strategies

Students must choose three of the following courses:

COM 340 ~ 3 credits

Mass Communication

COM 400 ~ 3 credits

Media and Society

MKT 438 ~ 3 credits

Public Relations

BRM 353 ~ 3 credits

Product and Brand Management

MKT 411 ~ 3 credits

Green Marketing

MKT 431 ~ 3 credits

Small Business Marketing

MKT 441 ~ 3 credits

Marketing Research

Project Management Emphasis

The Project Management emphasis focuses on the professional success of its students. It emphasizes real-world application with assignments designed to apply the newfound skills and knowledge to the workplace. Practical study materials, team activities, and presentations to the class foster teamwork, critical thinking, self-confidence, and application of project technical and leadership skills on a real-time basis. This program is consistent with generally accepted project management principles, including the project management processes and knowledge areas that lead to professional certification.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsb-pm>.

CPMGT 300 ~ 3 credits

Project Management

CPMGT 301 ~ 3 credits

Strategic Portfolio and Project Management

CPMGT 302 ~ 3 credits

Procurement and Risk Management

CPMGT 303 ~ 3 credits

Project Estimating and Control Techniques

CPMGT 305 ~ 3 credits

Project Management Capstone

Public Sector Emphasis

The Public Sector emphasis focuses on the efficient and effective utilization of public resources to achieve the public purpose within a state, local, or not-for-profit environment. The emphasis emphasizes the foundations of public policy, program development, implementation and valuation, human resources and labor relations, and public finance. Students will develop powerful leader-

ship skills enabling them to successfully manage complex public programs.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsb-ps>.

BPA 303 ~	3 credits
Public Programs: Implementation and Evaluation in a Dynamic Environment	
<i>Students must choose three of the following courses:</i>	
BPA 301 ~	3 credits
Foundations of Public Administration	
HRM 330 ~	3 credits
Human Resources and Labor Relations in Public Service

MKT 438 ~	3 credits
Public Relations	

Small Business Management & Entrepreneurship Emphasis

The Small Business Management emphasis provides students with a course framework built around small business planning, financial management, and integrated business topics on entrepreneurship and small business management. Within the emphasis, students can elect to study advanced concepts in small business marketing, leadership, family business management, operations management, and business law for entrepreneurs. They may also elect to explore in more depth either small business management or entrepreneurship studies as a function of their emphasis electives. Students graduating with the Small Business Management emphasis will be prepared to address the challenges and opportunities specific to small business management and entrepreneurship.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsb-sbe>.

Food and Beverage Management	
MGT 373 ~	3 credits
Events and Recreation Management	

The University reserves the right to modify the required course of study. Please note that within each state, emphasis availability may vary by campus location.

Additional Admission Requirements BSB

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.

Degree Requirements for the BSB

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 45 upper division credits
 - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- A minimum program grade point average (GPA) of 2.0.
- Emphases are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:
Bachelor of Science in Business

General Education Requirements for the BSB

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: COM 170 and COM 172

Mathematics, 6 credits

Must include MTH 209 or higher

Science & Technology, 6 credits

B Track must include: SCI 163

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

B Track must include: HUM 114

Social Science, 6 credits

B Track must include: PSY 211

Additional Liberal Arts, 6 credits

Interdisciplinary Component, 18 credits

B Track must include: FP 120

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Additional Academic Progression Requirements for the BSB

- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSB

Students in this program may waive a maximum of 30 credits from their required course of study.

The following courses in the required course of study may not be waived: ACC 497, BPA 406, BUS 475, CPMGT 305, FIN 486, GBM 489, GEN 195, GEN 200, HRM 498, MGT 420, MGT 465, MGT 470, MGT 488, MGT 498, MKT 498, OI 466, SUS 300

Re-entry for the BSB

With the exception of AAEE, BSED/E, BSLS, LVN/BSN, LPN/BSN, and BSN, students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have less than 24 credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are required to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are not required to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 12 or more UOPX credits, and a total of 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork will not be required to complete GEN 200 (or equivalent) upon re-entry.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Management

The following Bachelor of Science in Management (BSM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Management (BSM) degree program is designed to develop the professional knowledge and skills of cross-functional managers in an organization. The BSM degree enhances skills necessary for improved organizational effectiveness in a dynamic and evolving workplace. The program focuses on the development of management roles and emphasizes skills necessary to align resources, and to improve communication, productivity, and effectiveness. Upon completion of the program, students will possess the skills and competencies needed to determine and implement key management decisions and develop skills in leadership, human resource management, change management, and core business functional areas.

For more information about our graduation rates, the median debt

of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/bsm>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Business graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will identify management principles necessary for organizational effectiveness.
- Students will evaluate the effectiveness of processes used to achieve organizational goals.
- Students will apply key problem-solving strategies in the analysis and recommendation of business decisions.
- Students will analyze the implications of diversity in an organization.

BSM Program Category Requirements - A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Business Communications, 3 total credits

The University reserves the right to modify the required course of study.

General Information for the BSM

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSM

- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree, lower division certificate, and/or upper division certificate. Listed below are all of the possible en-route credentials:
 - Bookkeeping Fundamentals Certificate (Undergraduate)
 - Hospitality Fundamentals Certificate (Undergraduate)
 - Hospitality Management Certificate (Undergraduate)
 - Human Resource Management Certificate (Undergraduate)
 - Marketing Certificate (Undergraduate)
 - Operations Management Certificate (Undergraduate)
 - Project Management Certificate (Undergraduate)
 - Retail Fundamentals Certificate (Undergraduate)
 - Small Business Management and Entrepreneurship Certificate (Undergraduate)
 - Supply Chain Management Certificate (Undergraduate)
 - Sales Management Certificate (Undergraduate)
 - Retail Fundamentals Certificate (Undergraduate)
 - Associate of Arts Concentration in Accounting Fundamentals
 - Associate of Arts Concentration in Business Fundamentals
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
 - Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSM

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Applicants must be currently employed or have access to a work environment.

Degree Requirements for the BSM

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 45 credits
 - Required Course of Study (BSM) - 36 credits
 - Electives - 39 credits

- A minimum of 33 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Management

General Education Requirements for the BSM

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209 or higher

Science and Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Must include: 3 credits of upper division Humanities coursework

The preferred course is PHL 320

Social Science, 6 credits

Must include: 3 credits of upper division Social Science coursework

The preferred course is SOC 315

Additional Liberal Arts, 6 credits

A Track must include: GEN/201

B Track must include: GEN/127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BSM

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UOPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.

- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSM

Students in this program may waive a maximum of nine (9) upper division credits from their required course of study.

Students may also waive three (3) lower division credits from the required course of study.

The elective requirement may be satisfied by any of the following

means:

- Any upper and/or lower division University of Phoenix coursework.
- Upper or lower division Certificate approved in the student's state or jurisdiction.
- Any upper and/or lower division transfer coursework that is acceptable for transfer and was completed with a grade of C- or better.
- Upper and/or lower division National Testing Program exams that are acceptable for transfer.
- Upper and/or lower division American Council on Education recommended (Military) credits that are acceptable for transfer.
- Upper and/or lower division Prior Learning Assessment (PLA) credits awarded to activities.

The following course(s) and their equivalents may not be waived:
MGT 498

Re-entry for the BSM

Re-entry students who have successfully completed an approved entry point course will not be required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Management Concentration in Manufacturing Sector

The following Bachelor of Science in Management Concentration in Manufacturing Sector (BSM/MAN) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Management (BSM) degree program is designed to develop the professional knowledge and skills of cross functional managers in any organization. The BSM degree enhances skills necessary for improved organizational effectiveness in a dynamic and evolving workplace. The curriculum focuses on the development of management roles. It emphasizes skills necessary to align resources, and to improve communication, productivity, and effectiveness. Through a participative learning environment structured for adult learners, students are taught to manage innovation and apply professional skills and knowledge. Special emphasis can be placed on key management areas, including, leadership, general management, or human resource management based on student preference. The Manufacturing Sector (MAN) concentration focuses on strategic performance improve-

ment of all business planning, global sourcing and procurement, production, and logistical activities that make up an organization's operations and supply chain. The program highlights the important role that operations and supply chain play in satisfying customer demands and expectations. The program also emphasizes a company's need to develop and maintain a sustainable competitive advantage through the efficient and effective performance of all operations. The program provides the most current content in the manufacturing field as outlined by various specialized manufacturing and supply chain organizations and experts. In addition to courses in the BSM foundation and courses specific to manufacturing, the degree concentration has coursework that stresses key business related knowledge and skill development in the areas of computers and information processing, business law, macro-economics, financial analysis, and marketing.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs-bsm-man>.

BSM/MAN Program Category Requirements - A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Communications, 3 total credits

BCOM 275 3 credits
Business Communications and Critical Thinking

Management, 3 total credits

PHL 458 ~ 3 credits
Creative Minds and Critical Thinking

Ethics and Social Responsibility, 3 total credits

ETH 316 ~ 3 credits
Ethics and Social Responsibility

Business Law, 3 total credits

LAW 421 ~ 3 credits
Contemporary Business Law

Research and Statistics, 3 total credits

RES 320 ~ 3 credits
Foundations of Research

Marketing, 3 total credits

PSY 322 ~ 3 credits
Consumer Psychology and Research

Business Information Systems, 3 total credits

BIS 320 ~ 3 credits
Business Information Systems

Economics, 3 total credits

ECO 365 ~ 3 credits
Principles of Microeconomics

Accounting, 3 total credits

ACC 300 ~ 3 credits
Principles of Accounting

Finance, 3 total credits

FIN 370 ~ 3 credits
Finance for Business

Management Capstone, 3 total credits

MGT 498 ~ 3 credits
Strategic Management

Manufacturing Sector Concentration, 15 total credits

ISCOM 370 ~ 3 credits
Strategic Supply Chain Management

MGT 420 ~ 3 credits
Managing Quality in the Supply Chain

Students must choose three of the following BSM/MAN Concentration Electives:

HRM 420 ~ 3 credits
Human Resource Risk Management

ISCOM 352 ~ 3 credits
Logistics Management

ISCOM 472 ~ 3 credits
Lean Enterprise

ISCOM 471 ~ 3 credits
Operations Management

ISCOM 473 ~ 3 credits
Global Sourcing and Procurement

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the BSM/MAN

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations, must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

Degree Requirements for the BSM/MAN

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 45 upper division credits.
 - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.0.
- Students holding an associate degree from the University or a regionally or approved nationally accredited, or candidate for accreditation, college or university or equivalent undergraduate degree earned at a recognized foreign institution will have that associate degree emphasis(es) noted on the student's University of Phoenix transcript when the BSM degree is conferred, if applicable.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as follows:
Bachelor of Science in Management

General Education Requirements for the BSM/MAN

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

(A Track must include COMM 215, equivalent, or higher)

(B Track must include: COM 170 and COM 172)

Mathematics, 6 credits

(Must include MTH 209, equivalent, or higher)

Science & Technology, 6 credits

(B Track must include: SCI 163)

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

(B Track must include: HUM 114)

Social Science, 6 credits

(B Track must include: PSY 211)

Additional Liberal Arts, 6 credits

(B Track must include: GEN 195)

Interdisciplinary Component, 18 credits

(B Track must include: FP 120)

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSM/MAN for Minnesota Students

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

(A Track must include COMM 215, equivalent, or higher)

(B Track must include: COM 170 and COM 172)

Mathematics, 6 credits

(Must include MTH 209, equivalent, or higher)

Natural Science, 6 credits

(B Track must include: SCI 163)

Humanities, 6 credits

(B Track must include: HUM 114)

Social Science, 6 credits

(B Track must include: PSY 211)

Additional Liberal Arts, 6 credits

(B Track must include: GEN 195)

Interdisciplinary Component, 18 credits

(B Track must include: FP 120)

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Additional Academic Progression Requirements for the BSM/MAN

- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSM/MAN

Students in this program may waive a maximum of 30 credits from their required course of study.

The following courses in the Required Course of Study may not be waived: MGT 420, MGT 498

Re-entry for the BSM/MAN

With the exception of BSED/E, BSLS, LVN/BSN, LPN/BSN, and BSN, students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have less than 24 credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are required to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are not required to enroll in the First-Year Sequence upon re-entry.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic

Advisor for guidance.

Bachelor of Science in Management Emphasis in Manufacturing Sector (Maryland-Online)

The following Bachelor of Science in Management Emphasis in Manufacturing Sector (BSM/MAN) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and emphases depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Accounting

The following Bachelor of Science in Accounting (BSACC) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online

*rates if the program is available via the Online modality in their state.
Please contact your enrollment representative for more information.*

The Bachelor of Science in Accounting (BSACC) promotes identification with, and orientation to, the accounting profession and is designed to provide knowledge and skills necessary to an accounting career. In addition to the key accounting course work at the introductory and intermediate levels, critical areas of study including auditing and taxation are required in the program. The importance of ethics and international issues are emphasized throughout the curriculum, along with core competencies in technology and communication. The program utilizes specific accounting problem-solving software to provide students with practical knowledge of the accounting field. The program also addresses the goals of professional values, communications and leadership skills, strategic and critical thinking skills, and technology skills of the professional accounting environment and provides additional coverage on the International Financial Reporting Standards (IFRS). Students are also exposed to varied business disciplines including economics, statistics, law, corporate finance, and marketing to provide the general business overview and context necessary for accounting studies. This program is consistent with generally accepted accounting principles, including the accounting processes and knowledge areas that lead to professional certification.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsacc>.

Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. While this program was designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA), the University of Phoenix cannot, and will not, provide any assurance that completion of this program will allow a successful student to qualify within the student's specific jurisdiction. Potential applicants should check with the appropriate organization within their jurisdiction to determine requirements. States frequently change their requirements for examination. There is no assurance that at the time of degree completion the specific jurisdiction's requirements will be consistent with the requirements at the time of admission.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Business graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

Business Core

- Students will demonstrate the ability to make business-related decisions that incorporate ethical implications.
- Students will integrate business concepts and principles to advance organizational goals.
- Students will analyze interrelationships among distinct functional areas of an organization.
- Students will analyze the implications of operating in a changing global business environment.
- Students will apply knowledge attained from the following domains of the MBA program as practitioners in business:
 - Finance
 - Marketing
 - Information systems
 - Research methodologies
 - Economics

- Business law
- Management
- Accounting

- Students will identify the degree of alignment between their individual values and an organization's values as reflected in the organization's plans and actions.

Accounting Core

- Students will apply financial accounting principles to record and communicate measurable business activities to stakeholders.
- Students will analyze accounting financial statements to support effective financial decision-making.
- Students will evaluate various accounting activities in relation to ethical, legal and professional standards.
- Students will apply business issues in the application of generally accepted accounting principles, government and not-for-profit accounting, international transactions, taxation, and auditing.

General Information for the BSACC	
<ul style="list-style-type: none"> • First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy. <ul style="list-style-type: none"> • Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits. • Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track). • Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track). • Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway. 	
En-Route Credentials for the BSACC	
Students may declare and earn additional credentials that are	

approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree. Listed below are all of the possible en-route credentials:

- Associate of Arts with a Concentration in Business Fundamentals

Students may apply for conferral of an en-route credential upon meeting the following program requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSACC

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Applicants must be currently employed or have access to a work environment.

Degree Requirements for the BSACC

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 45 credits
 - Required Course of Study - 66 credits
 - Electives - 9 credits
- A minimum of 51 upper division credits.
- A minimum grade point average (GPA) of 2.00.
- The diploma awarded for this program will read as: Bachelor of Science in Accounting

General Education Requirements for the BSACC

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

B Track must include: ENG 147

Mathematics, 6 credits

Science and Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the BSACC for Minnesota Students

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent or higher

Natural Science, 6 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BSACC

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
 - Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSACC

- Students in this program may waive a maximum of 30 credits from their required course of study.
- The following courses in the Required Course of Study may not be waived: ACC 497, BUS 475

Re-entry for the BSACC

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/ restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science/Concentration in Accounting (Ohio)

The following Bachelor of Science/Concentration in Accounting (BSACC) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science/Concentration in Accounting (BSACC) promotes identification with, and orientation to, the accounting profession and is designed to provide knowledge and skills necessary to an accounting career. In addition to the key accounting course work at the introductory and intermediate levels, critical areas of study including auditing and taxation are required in the program. The importance of ethics and international issues are emphasized throughout the curriculum, along with core competencies in technology and communication. The program utilizes specific accounting problem-solving software to provide students with practical knowledge of the accounting field. The program also addresses the goals of professional values, communications and leadership skills, strategic and critical thinking skills, and technology skills of the professional accounting environment and provides additional coverage on the International Financial Reporting Stan-

dards (IFRS). Students are also exposed to varied business disciplines including economics, statistics, law, corporate finance, and marketing to provide the general business overview and context necessary for accounting studies. This program is consistent with generally accepted accounting principles, including the accounting processes and knowledge areas that lead to professional certification.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsacc>.

Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. While this program was designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA), the University of Phoenix cannot, and will not, provide any assurance that completion of this program will allow a successful student to qualify within the student's specific jurisdiction. Potential applicants should check with the appropriate organization within their jurisdiction to determine requirements. States frequently change their requirements for examination. There is no assurance that at the time of degree completion the specific jurisdiction's requirements will be consistent with the requirements at the time of admission.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Business graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

Business Core

- Students will demonstrate the ability to make business-related decisions that incorporate ethical implications.
- Students will integrate business concepts and principles to advance organizational goals.
- Students will analyze interrelationships among distinct functional areas of an organization.
- Students will analyze the implications of operating in a changing global business environment.
- Students will apply knowledge attained from the following domains of the MBA program as practitioners in business:
 - Finance
 - Marketing
 - Information systems
 - Research methodologies
 - Economics
 - Business law
 - Management
 - Accounting
- Students will identify the degree of alignment between their individual values and an organization's values as reflected in the organization's plans and actions.

Accounting Core

- Students will apply financial accounting principles to record and communicate measurable business activities to stakeholders.
- Students will analyze accounting financial statements to support effective financial decision-making.
- Students will evaluate various accounting activities in relation to ethical, legal and professional standards.

Students will apply business issues in the application of generally accepted accounting principles, government and not-for-profit

accounting, international transactions, taxation, and auditing.

Program Category Requirements - A Track and B Track

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Communications, 3 total credits

COM 295 ~ 3 credits
Business Communications

Business Information Systems, 3 total credits

ACC 210 ~ 3 credits
Accounting Information Systems

Quantitative Techniques/Statistics, 3 total credits

QNT 275 ~ 3 credits
Statistics for Decision Making

Accounting Principles, 6 total credits

ACC 290 ~ 3 credits
Principles of Accounting I
ACC 291 ~ 3 credits
Principles of Accounting II

Management, 6 total credits

PHL 320 ~ 3 credits
Critical Thinking and Decision Making in Business
MGT 312 ~ 3 credits
Organizational Behavior for Managers

Ethics and Legal Topics in Business, 3 total credits

ETH 321 ~ 3 credits
Ethical and Legal Topics in Business

Economics, 6 total credits

ECO 365 ~ 3 credits
Principles of Microeconomics
ECO 372 ~ 3 credits
Principles of Macroeconomics

Marketing, 3 total credits

MKT 421 ~ 3 credits
Marketing
Finance, 3 total credits

FIN 370 ~ 3 credits
Finance for Business

Strategy, 3 total credits

BUS 475 ~ 3 credits
Integrated Business Topics

Cost Accounting, 3 total credits

ACC 349 ~ 3 credits
Cost Accounting

Intermediate Accounting, 9 total credits

ACC 421 ~ 3 credits
Intermediate Financial Accounting I
ACC 422 ~ 3 credits
Intermediate Financial Accounting II
ACC 423 ~ 3 credits
Intermediate Financial Accounting III

Tax, 3 total credits

Students must choose one of the following courses:

ACC 455 ~ 3 credits
Corporate Taxation
ACC 456 ~ 3 credits
Individual/Estate Taxation

Government & Non-Profit Accounting, 3 total credits

ACC 460 ~ 3 credits
Government and Non-Profit Accounting

Auditing, 6 total credits

ACC 491 ~ 3 credits
Contemporary Auditing I
ACC 492 ~ 3 credits
Contemporary Auditing II

Accounting Research, 3 total credits

ACC 497 ~ 3 credits
Advanced Topics in Accounting Research
The University reserves the right to modify the required course of study.

General Information for the BSACC

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSACC

Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree. Listed below are all of the possible en-route credentials:

- Associate of Arts with a Concentration in Business Fundamentals
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
- Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selec-

tion of credentials.

Additional Admission Requirements for the BSACC

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.

Degree Requirements for the BSACC

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 45 credits
 - Required Course of Study - 66 credits
 - Electives - 9 credits
- A minimum of 51 upper division credits.
- A minimum grade point average (GPA) of 2.00.
- The diploma awarded for this program will read as: Bachelor of Science in Accounting

General Education Requirements for the BSACC

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

B Track must include: ENG 147

Mathematics, 6 credits

Science and Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BSACC

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment

- National Testing Programs, and
- ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
 - Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and /or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSACC

- Students in this program may waive a maximum of 30 credits from their required course of study.
- The following courses in the Required Course of Study may not be waived: ACC 497, BUS 475

Re-entry for the BSACC

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

COLLEGE OF INFORMATION SYSTEMS AND TECHNOLOGY

The College of Information Systems and Technology prepares students for professional and management-related career opportunities in six different IT pathways and provides the knowledge students need to successfully apply information systems theory and principles that address real world business opportunities and challenges that meet the needs of today's information economy. Students will be prepared to work in core technologies such as systems integration, web systems, network architecture, database design, information security, programming and other IT principles. Our mission is to provide industry-relevant education through innovative learning pathways, which will prepare learners for career success. The College of Information Systems and Technology delivers real-time, IT education solutions that are experiential, relevant and applicable to solving IT challenges anywhere, any place, and at any time. The curriculum in the College of Information Systems and Technology is delivered by experts who relate both theory and practice in this evolving, fast-paced industry. Each degree and certificate program is aligned to one or more of over 40 industry certifications so students are provided the relevant, hands-on learning they need to be successful in this industry. The College of Information Systems and Technology is continuously updating curriculum, staying relevant in the industry and evolving with the always changing world of technology, all of which is accomplished through dedication, creativity and teamwork of the college faculty and staff. The College of Information Systems and Technology is an innovative, education leader in the IT industry and proud to partner with Fortune 1000 companies and other entities and creators of emerging IT standards nationwide.

Associate of Arts/Concentration in Information Technology

The following Associate of Arts/Concentration in Information Technology (AAITT) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Associate of Arts degree in Information Technology program provides the opportunity to specialize through the selection of College of Information Systems and Technology practical based academic certificates aligned to industry certifications in areas such as desktop support, network support, multimedia development, information security, database administration, web administration, programming and IT healthcare. Knowledge and skills in Information Technology professional competence and values, information utilization, collaboration, communication, critical thinking and problem solving are provided in the program.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/aaitt>.

Some courses require prerequisites. Prerequisites and course descriptions for all courses are listed in the Course Guide section of

the catalog (page B-1).

Program Category Requirements for the AAITT

Information Systems and Technology Electives 18 credits
The University reserves the right to modify the required course of study.

General Information for the AAITT

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

En-Route Credentials for the AAITT

Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the Associate degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Additional credentials include a lower division certificate. Listed below are all of the possible enroute credentials:

- Cisco Networking Certificate (Undergraduate)
- Database Administration Certificate (Undergraduate)
- Desktop Support Certificate (Undergraduate)
- Health Care Information Technology Certificate (Undergraduate)
- Information Assurance and Security Certificate (Undergraduate)
- Multimedia Development Certificate (Undergraduate)
- Network Support Certificate (Undergraduate)
- Programming Certificate (Undergraduate)
- Web Administration Certificate (Undergraduate)
- Storage Management Certificate (Undergraduate)

Students may apply for conferral of an en-route credential upon meeting the following requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
- Achievement of the minimum program GPA

- Fulfillment of the minimum University residency requirement
Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the AAITT

All applicants are expected to meet the following admissions requirements:

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Signed Hardware/Software Agreement

Degree Requirements for the AAITT

- Completion of a minimum of 60 credits.
- A minimum grade point average (GPA) of 2.0.
- All students must complete the minimum number of credits required by their degree program.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as follows:
Associate of Arts

General Education Requirements for the AAITT

The General Education requirements for this program are the following:

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 220, equivalent, or higher

The MTH 220 requirement may be satisfied with College Algebra transfer coursework or math transfer coursework requiring College Algebra as a prerequisite.

Science & Technology, 6 credits

Must include: 3 credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use

interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the AAITT

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
 - Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement

- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AAITT

The 18 credit Information Systems and Technology Electives requirement may be satisfied by any of the following means:

- Lower Division University of Phoenix IS&T coursework.
- Previously completed Lower or Upper Division coursework from the College of IS&T.
- Lower Division Certificate from the College of IS&T approved in the student's state or jurisdiction.
- Lower or Upper Division Information Technology transfer coursework that is acceptable for transfer and was completed within the past five (5) years from current program enrollment agreement sign date with a grade of C or better.
- Lower or Upper Division Information Technology National Testing Program exams that are acceptable for transfer and were completed within the past five (5) years from current program enrollment agreement sign date.
- Lower or Upper Division Information Technology American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past five (5) years from current program enrollment agreement sign date.
- Lower or Upper Division Information Technology Prior Learning Assessment (PLA) credits awarded to activities completed within the past five (5) years from current program enrollment agreement sign date.

Re-entry for the AAITT

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts/Emphasis in Information Technology (Maryland-Online)

The following Associate of Arts/Emphasis in Information Technology (AAITT) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and emphases depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Associate of Arts degree in Information Technology program provides the opportunity to specialize through the selection of College of Information Systems and Technology practical based academic certificates aligned to industry certifications in areas such as desktop support, network support, multimedia development, information security, database administration, web administration, programming and IT healthcare. Knowledge and skills in Information Technology professional competence and values, information utilization, collaboration, communication, critical thinking and problem solving are provided in the program.

- Health Care Information Technology Certificate (Undergraduate)
- Information Assurance and Security Certificate (Undergraduate)
- Multimedia Development Certificate (Undergraduate)
- Network Support Certificate (Undergraduate)
- Programming Certificate (Undergraduate)
- Web Administration Certificate (Undergraduate)
- Storage Management Certificate (Undergraduate)

Students may apply for conferral of an en-route credential upon meeting the following requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the AAITT

All applicants are expected to meet the following admissions requirements:

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Signed Hardware/Software Agreement

Degree Requirements for the AAITT

- Completion of a minimum of 60 credits.
- A minimum grade point average (GPA) of 2.0.
- All students must complete the minimum number of credits required by their degree program.
- Emphases are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as follows:

Associate of Arts

General Education Requirements for the AAITT

The General Education requirements for this program are the following:

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 220, equivalent, or higher

The MTH 220 requirement may be satisfied with College Algebra transfer coursework or math transfer coursework requiring College Algebra as a prerequisite.

Science & Technology, 6 credits

Must include: 3 credits in the physical or biological sciences

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 3 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the AAITT

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
 - Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AAITT

The 18 credit Information Systems and Technology Electives requirement may be satisfied by any of the following means:

- Lower Division University of Phoenix IS&T coursework.
- Previously completed Lower or Upper Division coursework from the College of IS&T.
- Lower Division Certificate from the College of IS&T approved in the student's state or jurisdiction.
- Lower or Upper Division Information Technology transfer coursework that is acceptable for transfer and was completed within the past five (5) years from current program enrollment agreement sign date with a grade of C or better.
- Lower or Upper Division Information Technology National Testing Program exams that are acceptable for transfer and were completed within the past five (5) years from current program enrollment agreement sign date.
- Lower or Upper Division Information Technology American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past five (5) years from current program enrollment agreement sign date.

- Lower or Upper Division Information Technology Prior Learning Assessment (PLA) credits awarded to activities completed within the past five (5) years from current program enrollment agreement sign date.

Re-entry for the AAITT

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Associate of Arts/Concentration in Information Technology (Minnesota)

The following Associate of Arts/Concentration in Information Technology (AAITT) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Associate of Arts degree in Information Technology program provides the opportunity to specialize through the selection of College of Information Systems and Technology practical based academic certificates aligned to industry certifications in areas such as desktop support, network support, multimedia development, information security, database administration, web administration, programming and IT healthcare. Knowledge and skills in Information Technology professional competence and values, information utilization, collaboration, communication, critical thinking and problem solving are provided in the program.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/aaitt>.

Some courses require prerequisites. Prerequisites and course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Program Category Requirements for the AAITT

Information Systems and Technology Electives 18 credits
The University reserves the right to modify the required course of study.

General Information for the AAITT

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

En-Route Credentials for the AAITT

Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the Associate degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Additional credentials include a lower division certificate. Listed below are all of the possible en-route credentials:

- Cisco Networking Certificate
- Database Administration Certificate
- Desktop Support Certificate
- Health Care Information Technology Certificate
- Information Assurance and Security Certificate
- Multimedia Development Certificate
- Network Support Certificate
- Programming Certificate
- Web Administration Certificate

Students may apply for conferral of an en-route credential upon meeting the following requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
- Achievement of the minimum program GPA
- Fulfillment of the minimum University residency requirement

Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the AAITT

All applicants are expected to meet the following admissions requirements:

- Applicants must be at least 16 years of age at the time of application.

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

- Signed Hardware/Software Agreement

Degree Requirements for the AAITT

- Completion of a minimum of 61 credits.
- A minimum grade point average (GPA) of 2.0.

Concentrations are reflected on the transcript only and will not appear on the diploma.

The diploma awarded for this program will read as:
Associate of Arts

General Education Requirements for the AAITT

The General Education requirements for this program are the following:

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent, or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 220, equivalent, or higher

Natural Science, 9 credits

Must include: 3 credits in the physical or biological sciences

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 4 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the AAITT

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.

- Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the AAITT

The 18 credit Information Systems and Technology Electives requirement may be satisfied by any of the following means:

- Lower Division UOPX IS&T coursework
- Previously completed Lower or Upper Division coursework from the College of IS&T.
- Lower Division Certificate from the College of IS&T approved in the student's state or jurisdiction.

- Lower or Upper Division Information Technology transfer coursework that is acceptable for transfer and was completed within the past five (5) years from current program enrollment agreement sign date with a grade of C or better.
- Lower or Upper Division Information Technology National Testing Program exams that are acceptable for transfer and were completed within the past five (5) years from current program enrollment agreement sign date.
- Lower or Upper Division Information Technology American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past five (5) years from current program enrollment agreement sign date.
- Lower or Upper Division Information Technology Prior Learning Assessment (PLA) credits awarded to activities completed within the past five (5) years from current program enrollment agreement sign date.

Re-entry for the AAITT

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student. Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Bachelor of Science in Information Technology

The following Bachelor of Science in Information Technology (BSIT) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and en-route credentials depend on student demand and other factors. Not all programs and en-route credentials may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Information Technology (BSIT) program provides the knowledge to successfully apply information technology theory and principles to address real world business opportunities and challenges. The program covers fundamental and advanced knowledge in core technologies such as systems integration, web systems, network architecture, database design, information security, programming and other supporting IT principles.

The program provides the opportunity to specialize through the selection of University of Phoenix IT academic certificates, aligned to industry certifications, to support IT career goals.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Information Systems and Technology

graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to apply key principles of systems analysis and design to selected business processes within the organization in order to implement effective information systems. (BSA - Business Systems Analysis)
- Students will be able to design and develop key database structures meeting selected business requirements for effective storage and retrieval of information. (DBM - Database Management)
- Students will be able to explain implementation, integration and maintenance for IT applications to support selected business processes. (INT - Integration)
- Students will be able to explain information systems security that will comply with key requirements of accepted industry standards to support and improve the security of an organization's systems. (ISS - Information Systems Security)
- Students will be able to explain select network and telecommunications technologies that will comply with key requirements of accepted industry standards to improve organizational network communications. (NTC - Networking)
- Students will be able to explain and develop an effective IT project plan using selected accepted project management standards to manage projects in a cost-effective manner. (PPL - Project Planning)
- Students will be able to design and develop computer programs using standards promoted by the Association of Software Professionals (ASP) to promote the quality and effectiveness of programs. (PRG - Programming)
- Students will be able to design and develop a website using selected professional web design principles and standards to facilitate the professional appearance of an organization. (WEB - Web development)

Program Category Requirements for the BSIT

Some courses require prerequisites. Prerequisites and course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Systems Integration, 6 total credits

CIS 207 ~.....	3 credits
Information Systems Fundamentals	
CMGT 445 ~.....	3 credits

Application Implementation

WEB 240 ~.....	3 credits
Web Design Fundamentals	

Networking, 3 total credits

NTC 362 ~	3 credits
Fundamentals of Networking	

Information Management, 3 total credits

DBM 380 ~	3 credits
Database Concepts	

Security, 3 total credits

CMGT 400 ~	3 credits
Intro to Information Assurance & Security	

Programming, 3 total credits

PRG 420 ~.....	3 credits
Java Programming I	

Supporting IT Principles, 9 total credits

BSA 375 ~	3 credits
Fundamentals of Business Systems Development	

CMGT 410 ~.....	3 credits
Project Planning & Implementation	

PRG 211 ~.....	3 credits
Algorithms and Logic for Computer Programming	

Enhanced Math, 3 total credits

MTH 221 ~	3 credits
Discrete Math for IT	

MTH 280 ~	3 credits
Calculus I	

Information Systems and Technology Electives, 15 total credits

The University reserves the right to modify the required course of study.

General Information for the BSIT

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSIT

Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree and/or upper division certificate. Listed below are all of the possible en-route credentials:

- Advanced Multimedia Development Certificate (Undergraduate)
- Advanced Software Developer Certificate (Undergraduate)
- Advanced Cyber Security Certificate (Undergraduate)

- Advanced Networking Certificate
- Associate of Arts with a Concentration in Information Technology

Students may apply for conferral of an en-route credential upon meeting the following program requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
 - Achievement of the minimum program GPA
 - Fulfillment of the minimum University residency requirement
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSIT

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
 - Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
 - Applicants must be currently employed or have access to a work environment.
 - Signed Hardware/Software Agreement
 - Students who have previously completed a regionally accredited Associate of Arts or Associate of Science degree from a Community College will be eligible to apply all of the credits earned for the associate degree towards the lower division general education and elective requirements at University of Phoenix. The transfer coursework will be applied as a block at the time of admission to the program.
- Students utilizing this policy will need to meet the following conditions:
- Satisfy the Accelerated Pathway entry course sequence (GEN 201 and HUM 115), unless otherwise stated in policy.
 - Satisfy the MTH 220 General Education requirement.
 - Complete a minimum of 15 credits of upper division Information Technology elective coursework or enroll in an en-route upper division Information Technology certificate approved in the student's state or jurisdiction.
 - Meet all prerequisite or state specific content requirements as outlined in the Academic Progression, Preferred Course Sequence, and General Education Requirements policy sections for their BSIT program.

Degree Requirements for the BSIT

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 45 credits
 - Required Course of Study - 33 credits
 - Information Systems and Technology Electives - 15 credits

- Electives - 6 credits
- Upper Division Electives - 21 credits
- A minimum of 42 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Information Technology

General Education Requirements for the BSIT

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

(Must include MTH 220, equivalent, or higher)

Science & Technology, 6 credits

Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

(Must include: HUM 115)

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Graduate coursework from the College of Information Systems and Technology may be completed as an option to satisfy credits within the Upper Division Elective requirement.

General Education Requirements for the BSIT for Minnesota Students

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 220, equivalent, or higher

Natural Science, 6 credits

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Graduate coursework from the College of Information Systems and Technology may be completed as an option to satisfy credits within the Upper Division Elective requirement.

General Education Requirements for the BSIT for Minnesota Students obtaining an Associates En-Route Credential

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: COMM 215, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 220, equivalent, or higher

Natural Science, 9 credits

Humanities, 9 credits

Must include: HUM 115

Social Science, 9 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Students are required to complete at least 1 credit in either Communication Arts, Social Science, Natural Science, Humanities, or Mathematics.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Graduate coursework from the College of Information Systems and Technology may be completed as an option to satisfy credits within the Upper Division Elective requirement.

Academic Progression Requirements for the BSIT

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
 - Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
 - Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
 - Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
 - Previous completion of an Associate of Arts or higher degree from UOPX.
 - Previous completion of a Critical Thinking course with UOPX.
 - Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
 - Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
 - Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
 - Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
 - Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
 - Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
 - With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - UOPX Prior Learning Assessment,
 - National Testing Programs, and
 - ACE evaluated Military credits.
 - Satisfy University Proficiency Requirements
 - Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
 - Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
 - Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
 - Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSIT

Students in this program may waive a maximum of 21 credits from

their required course of study.

The 15 credit Information Systems and Technology Electives requirement may be satisfied by any of the following means:

- Lower/Upper Division or Graduate IS&T University of Phoenix coursework.
- Previously completed Graduate coursework from the College of IS&T.
- Lower or Upper Division Certificate approved in the student's state or jurisdiction.
- Lower/Upper Division or Graduate Information Technology transfer coursework that is acceptable for transfer and was completed within the past five (5) years from current program enrollment agreement sign date with a grade of C- or better.
- Lower or Upper Division Information Technology National Testing Program exams that are acceptable for transfer and were completed within the past five (5) years from current program enrollment agreement sign date.
- Lower or Upper Division Information Technology American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past five (5) years from current program enrollment agreement sign date.
- Lower or Upper Division Information Technology Prior Learning Assessment (PLA) credits awarded to activities completed within the past five (5) years from current program enrollment agreement sign date.

Re-entry for the BSIT

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

THIS PAGE WAS LEFT BLANK INTENTIONALLY

COLLEGE OF HEALTH PROFESSIONS

The College of Health Professions provides a blend of the business and management focus of health care with the clinical/delivery focus of nursing. Each academic program area will provide stu-

dents with the insight and perspectives needed to support their specific career focus.

School of Health Services Administration

As the health care industry expands and evolves at a rapid rate, jobs in health care administration (the "business" side of health care) are expected to increase by 23 percent between 2012 and 2022.¹

Whether you are already working in the field and looking to deepen your knowledge and advance in your profession, or if you are new to health care and want to gain the skills needed to launch a new career, The University of Phoenix® School of Health Services Administration will equip you with the leading-edge training you need to succeed in today's dynamic health care environment-and to effectively tackle all of tomorrow's challenges.

The Bachelor of Science in Health Administration

The following Bachelor of Science in Health Administration (BSHA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Health Administration (BSHA) Program is designed to integrate a framework of general education courses with a health care curriculum that prepares the graduate with the foundational knowledge needed to enter today's challenging health industry. The BSHA curriculum addresses the basic body of knowledge, understanding, and skills identified as relevant to an ever expanding and diverse health care arena. Coursework includes content in some of the following areas- management, finance, legal and ethical parameters, risk and quality management, human resources, and information systems. Upon completion of the core curriculum health care students have the opportunity to select an area of focus that is designed to expand their professional opportunities.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsha>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Health Services Administration graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to analyze a health care organization from a market-based perspective.
- Students will be able to analyze financial and economic issues in the health care industry.

- Students will be able to explain the application of risk and quality management concepts in the health care industry.
- Students will be able to analyze the utilization and application of technology within a health care organization.
- Students will be able to apply management and adaptable leadership skills in the health care industry.

BSHA Foundation Courses

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

HCS 120 ~	3 credits
Medical Terminology for Health Care Professionals	
HCS 131 ~	3 credits
Business Communication Skills for Health Care Professionals	
HCS 235 ~	3 credits
Health Care Delivery in the U. S.	
HCIS 140 ~.....	3 credits
Fundamentals of Electronic Health Records	

BSHA Core Courses

HCS 305 ~	3 credits
Health Care Professional Development	
HCS 335 ~	3 credits
Health Care Ethics and Social Responsibility	
HCS 325 ~	3 credits
Health Care Management	
HCS 370 ~	3 credits
Organizational Behavior	
HCS 341 ~	3 credits
Human Resources in Health Care	
HCS 380 ~	3 credits
Health Care Accounting	
HCS 385 ~	3 credits
Health Care Finance	
HCS 490 ~	3 credits
Health Care Consumer - Trends and Marketing	
HCS 457 ~	3 credits
Public and Community Health	
HCS 483 ~	3 credits
Health Care Information Systems	
HCS 451 ~	3 credits
Health Care Quality Management and Outcomes Analysis	
HCS 465 ~	3 credits
Health Care Research Utilization	

HCS 499 ~.....3 credits

Health Care Strategy Capstone

BSHA Health Administration Electives

The electives below are intended for students earning their Associates en-route to the BSHA or students pursuing the BSHA with no en-route credential.

Students may satisfy the 15 credit Upper Division Health Administration Electives using the courses below and their respective equivalencies. Students earning a certificate en-route will fulfill the 15 credit Upper Division Health Administration Electives using the certificate coursework.

HCS 430 ~.....3 credits

Legal Issues in Health Care: Regulation and Compliance

HCS 446 ~.....3 credits

Facility Planning

HCS 455 ~.....3 credits

Health Care Policy: The Past and the Future

HCS 456 ~.....3 credits

Risk Management

HCS 475 ~.....3 credits

Leadership and Performance Development

The University reserves the right to modify the required course of study as necessary.

General Information for the BSHA

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.

- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.

- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).

- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).

- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

En-Route Credentials for the BSHA

- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree and/or upper division certificate. Listed below are all of the possible en-route credentials:

- Emergency Management Certificate
- Long Term Care Certificate

- Students may apply for conferral of an en-route credential upon meeting the following program requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
- Achievement of the minimum program GPA
- Fulfillment of the minimum University residency requirement

- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the BSHA

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

- Applicants must be currently employed or have access to a work environment.

- Applicants to the BSHA completing the Emergency Management Certificate (BSHA/EMY) en-route must be currently employed in or have prior employment experience, within the last five (5) years, in an Emergency Management position such as Emergency Medical Technician (EMT), First Responder, firefighter, or other emergency personnel.
Effective 10/1/2015 Applicants to the BSHA completing the Emergency Management Certificate (BSHA/EMY) en-route must be currently employed in or have one (1) year minimum of prior employment experience in the last five (5) years in an Emergency Management position such as Emergency Medical Technician (EMT), First Responder, firefighter, or other emergency personnel.

Degree Requirements for the BSHA

- Completion of a minimum of 120 credits that include the following distribution:

- General Education - 45 credits
- Required Course of Study (BSHA) - 51 credits
- Upper Division Health Administration Electives - 15 credits
- Electives - 9 credits

- A minimum of 42 upper division credits.

- A minimum grade point average (GPA) of 2.0.

- The diploma awarded for this program will read as:
Bachelor of Science in Health Administration

General Education Requirements for the BSHA

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

A Track must include: ENG 220, equivalent or higher

B Track must include: ENG 147

Mathematics, 6 credits

Must include MTH 209, equivalent or higher

Science and Technology, 6 credits

Must include: HCS 245

Humanities, 6 credits

Must include: HUM 115

Social Science, 6 credits

Additional Liberal Arts, 6 credits

A Track must include: GEN 201

B Track must include: GEN 127

Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Bachelor of Science in Health Administration students who want to transition into the Masters of Health Administration (MHA) degree program may complete a maximum of six (6) graduate-level credits as part of their Elective requirement. These courses may only be taken after the completion of the required course of study.

Students may select a maximum of six (6) credits from the following MHA courses to fulfill their elective credits. A minimum grade of "B" is required in the courses listed below.

HCI 500 ~ 3 credits

Concepts of Health Care Informatics

HCS 548 ~ 3 credits

Foundations of Gerontology

HCS 567 ~ 3 credits

Entrepreneurship in Health Care

HCS 587 ~ 3 credits

Creating Change within Organizations

HCS 591 ~ 3 credits

Creating a Sustainable Health Care Organization

Academic Progression Requirements for the BSHA

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- Accelerated Pathway (A Track) students have the option to satisfy HUM 115 by meeting one of the following criteria:
 - Transfer a regionally accredited Associate of Arts degree from a community college, or higher degree from a regionally or approved nationally accredited institution.
 - Transfer to UoPX with an Associate's Degree, or higher, from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
- Transfer a Critical Thinking course of 2.67 credits or higher with a C- grade.
- Previous completion of an Associate of Arts or higher degree from UOPX.
- Previous completion of a Critical Thinking course with UOPX.
- Non-pathway students may not enroll in HUM 115 to satisfy programmatic prerequisites, general education, or elective requirements.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - University of Phoenix Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN/127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
 - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.

- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.
- Effective for new Enrollment Agreements Signed 7/1/2015 and thereafter: Students must successfully complete a minimum of 24 general education credits prior to entry into the first required course of study course. The 24 credits may be satisfied using UOPX coursework or applied transfer credit.

The 24 general education credits must consist of:

- 6 credits in Communication Arts
- 3 credits in Humanities
- 6 credits in Social Science
- 3 credits in Science/Technology
- 3 credits in Physical/Biological Science
- 3 credits in Liberal Arts

- Minnesota students and Minnesota residents attending Online: Effective for new Enrollment Agreements Signed 7/1/2015 and thereafter: Students must successfully complete a minimum of 24 general education credits prior to entry into the first required course of study course. The 24 credits may be satisfied using UOPX coursework or applied transfer credit.

The 24 general education credits must consist of:

- 6 credits in Communication Arts
- 3 credits in Humanities
- 6 credits in Social Science
- 6 credits in Natural Science
- 3 credits in Liberal Arts

Minimum Grade Requirements for the BSHA

- Students in this program are required to achieve a minimum grade of "C" (2.0) in course listed below. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.
 - HCS 499 Health Care Strategy Capstone
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the BSHA program.

Additional Residency Requirements and Course Waivers for the BSHA

Students in this program may waive a maximum of 15 upper division credits from their required course of study.

Students may also waive 12 lower division credits from the required course of study.

The Upper Division Health Administration Elective requirement may be satisfied by any of the following means:

- Approved UOPX Health Administration Elective coursework.
- Upper division Certificate approved in the student's state or jurisdiction.

The following course(s) may not be waived: HCS 305, HCS 499

Re-entry for the BSHA

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to com-

plete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

The Bachelor of Science in Health Administration (Maryland-Online)

The following Bachelor of Science in Health Administration (BSHA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and emphases depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Health Administration (BSHA) Program is designed to integrate a framework of general education courses with a health care curriculum that provides the graduate with the foundational knowledge needed to enter today's challenging health industry. The BSHA curriculum focuses on the basic body of knowledge, understanding, and skills identified as relevant to an ever expanding and diverse health care arena.

Coursework includes content in some of the following areas- management, finance, legal and ethical parameters, human resources, and information systems. Upon completion of the core curriculum healthcare students have the opportunity to select an emphasis that is designed to expand their professional opportunities.

Health Administration Capstone**Emphasis in Emergency Management**

This emphasis is designed for EMTs, First Responders, Firefighters, or any other emergency personnel that want to expand their knowledge and skills related to emergency management. Focus will be on principles of emergency management, managing emergency response operations, and planning and preparedness of emergency situations.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsha-em>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Health Services Administration graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will create emergency operations plans from a community perspective to mitigate, prepare, respond and recover from natural and man-made disasters.
- Students will apply leadership and management skills to all aspects of emergency services.
- Students will evaluate research related to emergency services to prepare the community for all phases of emergency management.

Health Administration Capstone**Emphasis in Long Term Care**

As the needs of the long-term care population evolve, there is a growing market for long-term care products and services. The long-term care certificate focuses on increasing the knowledge and skills essential to work with various populations across the life span that require long-term care. Courses focus on long-term care administration, health and wellness, legal issues and perspectives, programs and services, as well as alternative living environments for populations that require long-term care.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsha-ltc>.

Program Purpose

This program is designed to integrate a framework of general education courses with a health care curriculum that provides the graduate with the foundational knowledge needed to enter today's challenging health industry. This concentration is designed to increase skills that are essential when working with various populations requiring long-term care. This program does not prepare students for any type of licensure or certification in any state.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Health Services Administration graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will apply concepts of long-term care administration within the industry.
- Students will analyze health and wellness concepts to address the needs of various LTC populations.
- Students will integrate ethical principles into all aspects of the LTC industry.
- Students will explain products and services to address the needs of various LTC populations.

HCS 437 3 credits

Long-term Care Administration

HCS 433 ~ 3 credits

Dimensions of Health and the Older Adult

LTC 315 ~ 3 credits

Alternative Living Environments

LTC 328 ~ 3 credits

Legal Perspectives in Aging

LTC 310 ~ 3 credits

Social and Community Related Programs and Services

HCS 449 ~ 3 credits

Health Administration Capstone

Emphasis in Health Information Systems

This emphasis is designed for individuals that want to work with information technology in health care. Focus is on database concepts as well as information network and system design.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsha-his>.

HCIS 410 ~ 3 credits

Health Administration Capstone

The University reserves the right to modify the required course of study as necessary.

Additional Admission Requirements BSHA

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.
- Applicants to the Emergency Management emphasis (BSHA/EM) must be currently employed or have prior employment experience in an Emergency Management position such as Emergency Medical Technician (EMT), First Responder, firefighter, or other emergency personnel.

Degree Requirements for the BSHA

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 48 upper division credits
 - A minimum of 54 credits of the 120 must be in the general education areas approved by the University.
- A minimum program grade point average (GPA) of 2.0.
- Students must satisfy all required courses of study and general education requirements. Any remaining credits may be satisfied by elective coursework.
- Students will declare an emphasis at the time of enrollment.
- Emphases are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as: Bachelor of Science in Health Administration

General Education Requirements for the BSHA

All students must complete a minimum of 54 credits in the following areas as a part of their minimum 120 credit degree requirement.

Communication Arts, 6 credits

Mathematics, 6 credits

Science & Technology, 6 credits

Must include at least 3 credits in the physical or biological sciences

Humanities, 6 credits

Social Science, 6 credits

Additional Liberal Arts, 6 credits

Interdisciplinary Component, 18 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/ Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the proceeding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the BSHA

- Applicants to this program will be required to follow the university's First-Year Sequence policies. Students required to enter the First-Year Sequence will complete GEN 195 as the first course in their program. Students not required to enter the First-Year Sequence will complete GEN 200 as the first course in their program.

- With the exception of course requirements outlined in the First-Year Sequence policies, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited transfer coursework (C- or higher grade),
 - UOPX Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework, certain program areas must be satisfied before students can progress to others.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSHA

Students in this program may waive a maximum of eighteen (18) upper division credits from their required course of study (national testing program credit, prior learning credit, and military credit may not be used to waive with or without credit coursework in the required course of study).

Students may also waive nine (9) lower division credits from the required course of study.

The following courses in the required course of study may not be waived: GEN 200, HCS 449

Re-entry for the BSHA

With the exception of BSED/E, BSLS, LVN/BSN, LPN/BSN, and BSN, students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have less than 24 credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are required

to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are not required to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 12 or more UOPX credits, and a total of 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork will not be required to complete GEN 200 upon re-entry.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

The Bachelor of Science in Health Administration (Certificate Track) (Maryland-Online)

The following Bachelor of Science in Health Administration (Certificate Track) (BSHA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and emphases depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Health Administration (BSHA) Program is designed to integrate a framework of general education courses with a health care curriculum that provides the graduate with the foundational knowledge needed to enter today's challenging health industry. The BSHA curriculum focuses on the basic body of knowledge, understanding, and skills identified as relevant to an ever expanding and diverse health care arena.

Coursework includes content in some of the following areas- management, finance, legal and ethical parameters, human resources, and information systems. Upon completion of the core curriculum healthcare students have the opportunity to select a emphasis that is designed to expand their professional opportunities.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsha>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Health Services Administration graduat-

ing students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to analyze a health care organization from a market-based perspective.
- Students will be able to analyze financial and economic issues in the health care industry.
- Students will be able to explain the application of risk and quality management concepts in the health care industry.
- Students will be able to analyze the utilization and application of technology within a health care organization.
- Students will be able to apply management and adaptable leadership skills in the health care industry.

BSHA Foundation Courses (Certificate Track)

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

GEN 200 (For A Track only)	3 credits
Foundations for General Education and Professional Success	
GEN 195 (For B Track only).....	3 credits
Foundations of University Studies	
HCS 212 ~.....	3 credits
Health Care Vocabulary	
HCS 235 ~.....	3 credits
Health Care Delivery in the United States	
HCS 245 ~.....	3 credits
Introduction to Health and Disease	

BSHA Required Course of Study (Certificate Track)

HCS 320 ~.....	3 credits
Health Care Communication Strategies	
HCS 325 ~.....	3 credits
Health Care Management	
HCS 335 ~.....	3 credits
Health Care Ethics and Social Responsibility	
HCS 341 ~.....	3 credits
Human Resources in Health Care	
HCS 483 ~.....	3 credits
Health Care Information Systems	
HCS 490 ~.....	3 credits
Health Care Consumer - Trends and Marketing	
HCS 405 ~.....	3 credits
Health Care Financial Accounting	
HCS 440 ~.....	3 credits
Economics: The Financing of Health Care	
HCS 465 ~.....	3 credits
Health Care Research Utilization	
HCS 451 ~.....	3 credits
Health Care Quality Management and Outcome Analysis	

Students must select one emphasis in a particular area of study at the time of enrollment.

Students may complete an additional emphasis. Please contact your academic representative for more information.

Emphasis in Health Management (Certificate Track)

This emphasis is designed to expand the students' health care management focus. Courses will include content in leadership theory, the legal and regulatory aspects in health care, facility planning, community health as well as an introduction to health care policy.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsha-hm>.

HCS 457 ~	3 credits
Public and Community Health	
HCS 430 ~	3 credits
Legal Issues in Health Care: Regulation and Compliance	
HCS 475 ~	3 credits
Leadership and Performance Development	
HCS 455 ~	3 credits
Health Care Policy: The Past and the Future	
HCS 446 ~	3 credits
Facility Planning	
HCS 449 ~	3 credits
Health Administration Capstone	

Emphasis in Emergency Management (Certificate Track)

This emphasis is designed for EMTs, First Responders, Firefighters, or any other emergency personnel that want to expand their knowledge and skills related to emergency management. Focus will be on principles of emergency management, managing emergency response operations, and planning and preparedness of emergency situations.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsha-em .	
EMC 310 ~	3 credits
Principles of Emergency Management	
EMC 330 ~	3 credits
Political and Policy Issues for Emergency Management	
EMC 340 ~	3 credits
Emergency Services and the Community	
EMC 320 ~	3 credits
Emergency Preparedness and Planning	
EMC 350 ~	3 credits
Managing Emergency Response Operations	
HCS 449 ~	3 credits
Health Administration Capstone	

Emphasis in Long Term Care (Certificate Track)

As the needs of the long-term care population evolve, there is a growing market for long-term care products and services. The long-term care certificate focuses on increasing the knowledge and skills essential to work with various populations across the life span that require long-term care. Courses focus on long-term care administration, health and wellness, legal issues and perspectives, programs and services, as well as alternative living environments for populations that require long-term care.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsha-ltc>.

Program Purpose

This program is designed to integrate a framework of general education courses with a health care curriculum that provides the graduate with the foundational knowledge needed to enter today's challenging health industry. This concentration is designed to increase skills that are essential when working with various populations requiring long-term care. This program does not prepare students for any type of licensure or certification in any state.

HCS 437	3 credits
Long-term Care Administration	
HCS 433 ~	3 credits
Dimensions of Health and the Older Adult	
LTC 315 ~	3 credits
Alternative Living Environments	
LTC 328 ~	3 credits
Legal Perspectives in Aging	
LTC 310 ~	3 credits
Social and Community Related Programs and Services	
HCS 449 ~	3 credits
Health Administration Capstone	

The University reserves the right to modify the required course of study as necessary.

General Information for the BSHA (Certificate Track)

The Certificate Track bachelors programs are designed to be an option for students to earn a certificate en-route to earning the bachelors degree.

Students who completed a certificate in its entirety and who later choose to enroll in a bachelors program with an emphasis in the same area of focus as the completed certificate will not be required to enroll in the Certificate Track and will not earn a second certificate en-route to completing the bachelors program.

Additional Admission Requirements for the BSHA (Certificate Track)

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.
- Applicants to the Emergency Management emphasis (BSHA / EMC) must be currently employed in or have prior employment experience in an Emergency Management position such as Emergency Medical Technician (EMT), First Responder, firefighter, or other emergency personnel.

Degree Requirements for the BSHA (Certificate Track)

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 48 upper division credits.

- A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.0.
- Students may earn a certificate in the same area of focus as the emphasis en route to completing the bachelor degree. Students may apply for certificate conferral upon successful completion of both the 18 credits required for the certificate and the certificate programmatic requirements outlined in the certificate program policy.
- Students must successfully complete the following programmatic requirements for certificate conferral:
 - Health Management Certificate (HM) - 18 credits: GEN 200, HCS 235 *Choose four of the following:* HCS 325, HCS 335, HCS 341, HCS 405, HCS 430, HCS 446, HCS 457, HCS 483
 - Emergency Management Certificate (EMC) - 18 credits: EMC 310, EMC 320, EMC 330, EMC 340, EMC 350, GEN 200
 - Long Term Care Certificate (LTC) - 18 credits: GEN 200, HCS 433, HCS 437, LTC 310, LTC 315, LTC 328
- Students can only earn one certificate en-route to completing the undergraduate program.
- Emphases are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:
Bachelor of Science in Health Administration

Academic Progression Requirements for the BSHA (Certificate Track)

- Applicants to this program will be required to follow the university's First-Year Sequence policies. Students required to enter the First-Year Sequence will complete GEN 195 as the first course in their program. Students not required to enter the First-Year Sequence will complete GEN 200 as the first course in their program.
- With the exception of course requirements outlined in the First-Year Sequence policies, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited transfer coursework (C- or higher grade),
 - UOPX Prior Learning Assessment
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework, certain program areas must be satisfied before students can progress to others.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
-Completed within ten years of enrollment

- Grade of C- or better (or academic equivalent)
- At least 2.67 semester credits
- Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Additional Residency Requirements and Course Waivers for the BSHA (Certificate Track)

Students in this program may waive a maximum of eighteen (18) upper division credits from their required course of study (national testing program credit, prior learning credit, and military credit may not be used to waive with or without credit coursework in the required course of study).

Students may also waive nine (9) lower division credits from the required course of study.

The following courses in the Required Course of Study may not be waived: GEN 195, GEN 200, HCS 449

General Education Requirements for the BSHA (Certificate Track)

All students must complete a minimum of 54 credits in the following areas as a part of their minimum 120 credit degree requirement.

Communication Arts, 6 credits

A track must include: COMM 215, equivalent or higher

B Track must include: COM 170 and COM 172

Mathematics, 6 credits

Must include: MTH 209 or higher

Science & Technology, 6 credits

B Track must include: SCI 163

Must include at least 3 credits in the physical or biological sciences

Humanities, 6 credits

B Track must include: HUM 114

Social Science, 6 credits

B Track must include: PSY 211

Additional Liberal Arts, 6 credits

Interdisciplinary Component, 18 credits

B Track must include: FP 120

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Re-entry for the BSHA (Certificate Track)

With the exception of BSED/E, BSLS, LVN/BSN, LPN/BSN, and BSN, students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have less than 24

credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are required to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are not required to enroll in the First-Year Sequence upon re-entry.

Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 12 or more UOPX credits, and a total of 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork will not be required to complete GEN 200 upon re-entry.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

School of Nursing

Programs in the School of Nursing are designed to support the career advancement and educational needs of licensed practical, vocational and registered nurses, who are looking to expand their professional horizons. In an era of unprecedented and disruptive change in the health care industry—from shifting patient demographics, to the emergence of new models like telemedicine and retail medicine, to an increasingly complex licensing and credentialing environment—today's nurses must work hard to navigate the changes and remain on the leading-edge of their professions.

Whether you are a registered nurse looking to bolster your credentials to meet today's higher standards, or an advanced-practice nurse seeking to expand your knowledge and take on greater leadership challenges, The University of Phoenix® School of Nursing will equip you with the deep industry insight and up-to-the-minute knowledge and skills you need to become the nurse tomorrow needs.

Accreditation- School of Nursing Programs

The Bachelor of Science in Nursing and Master of Science in Nursing programs at University of Phoenix are accredited by the Commission on Collegiate Nursing Education (CCNE) One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791.

<http://www.aacn.nche.edu/ccne-accreditation>

International Nursing Honor Society

The mission of Sigma Theta Tau International (STTI) is advancing world health and celebrating nursing excellence in scholarship, leadership, and service. The honor society provides products and services that advance the learning and professional development of members and all nurses who strive to improve the health of the world's people.

University of Phoenix, School of Nursing is a member of the Omicron Delta chapter of STTI, a virtual chapter that support members across the globe. Membership is by invitation to baccalaureate and graduate nursing students who demonstrate excellence in scholarship and to nurse leaders exhibiting exceptional achievements in nursing. Undergraduate students must have completed at least 1/2 of the nursing curriculum, rank in the upper 35 percent of his/her graduating class, achieved academic excellence (at least a 3.0 on a 4.0 grade point average scale) and met the expectation of academic integrity. Graduate students must have completed at least 1/4 of the nursing curriculum, achieved academic excellence (at least 3.5 on a 4.0 grade point average scale) and met the expectation of academic integrity.

STTI has more than 135,000 active members who reside in more than 85 countries. There are roughly 500 chapters at approximately 695 higher education institutions. To learn more about STTI visit their website at www.nursingsociety.org. To learn more about the Omicron Delta chapter visit their website at <http://www.omicron-delta.net>.

Academic Progression Requirements for all Current Nursing Programs (excluding BSN/I)

License Requirement

PN/VN to BSN students must possess an active unrestricted/unencumbered PN or VN license in the state where they are completing clinical hours. PN/VN to BSN students must hold a valid

and unrestricted/unencumbered PN or VN license in all states and jurisdictions in which the applicant holds an active nursing license. RN to BSN, MSN and post-master's certificate students must hold a valid, unrestricted/unencumbered RN license in all states and jurisdictions in which the applicant holds an active nursing license. Students must also hold a valid and unrestricted/unencumbered RN license for the state in which they practice.

All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. With the exception of Hawaii, VA, and active duty military students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. In Hawaii, students must possess a valid Hawaii license.

Scholastic Disqualification

Students who receive a non-passing grade in a Nursing CORE course (CORE courses are listed in the program description of each program handbook chapter) will be required to meet with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns prior to retaking the course that placed the student on scholastic disqualification. Students will also be required to complete and sign an Academic Progression Student Agreement Form.

For Students signing an enrollment agreement 10/1/2015 or later:

Students are permitted one retake of a nursing course due to non-passing grades. Students who fail to achieve the minimum grade on a second course will be scholastically suspended and permanently withdrawn from their nursing program.

Drug Testing

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion of substance abuse, or otherwise indicates that the student may be impaired by drugs or alcohol without reasonable justification, will be required to undergo a "for-cause" 10-panel drug screen plus an alcohol drug test.

1. For purposes of this policy, the following definitions apply:

- Drug testing means the scientific analysis of urine, blood, breath, saliva, hair, tissue, and other specimens from the human body for the purpose of detecting the use of drugs or alcohol.
- Reasonable suspicion means evidence which forms a reasonable basis for concluding that it is more likely than not that a person is impaired by alcohol or drugs or has engaged in substance abuse. Facts which could give rise to reasonable suspicion include, but are not limited to: the odor of alcohol or drugs, impaired behavior such as slurred speech, decreased motor coordination, difficulty in maintaining balance, marked changes in personality or job performance, and unexplained accidents, without reasonable justification. Such evidence may come from a professional or expert opinion, layperson opinion, scientific tests, or other sources or methods.

- Illegal drug means any drug which is not legally obtainable; any drug which is legally obtainable but has not been legally obtained; any prescribed drug not legally obtained; any prescribed drug not being used for the prescribed purpose or by the person for whom it was prescribed; any over-the-counter drug being used at a dosage level other than that recommended by the manufacturer, or being used for a purpose other than the purpose intended by the manufacturer; and any drug being used for a purpose or by a person not in accordance with bona fide medical therapy. Examples of illegal drugs include, but are not limited to, stimulants; depressants; narcotic or hallucinogenic drugs; cannabis substances, such as marijuana and hashish; cocaine; heroin; methamphetamine; phencyclidine (PCP); and so-called designer drugs and look-alike drugs.
 - Impaired means that a person's mental or physical capabilities are reduced below his or her normal levels without reasonable justification. An impaired student manifests deterioration in the level of function as compared to that previously observed, or the student does not function at a level normally expected under the prevailing circumstances. Impairment may exist in one or more multiple domains, including psychomotor activity and skills, conceptual or factual recall, integrative or synthetic thought processes, judgment, attentiveness, demeanor and attitudes as manifested in speech or actions. Impairment will include addiction to and/or physical dependence upon alcohol or illegal drugs.
 - Substance abuse means:
 - the consumption, possession, or distribution of alcohol or illegal drugs by any nursing student while on University or affiliated clinical site premises or while participating in any University (or affiliated clinical site) sponsored or related activity, including any nursing-related course or clinical training activity.
 - a nursing student's use of alcohol or any drug in such a way that the student's performance in any nursing course, including activities at any clinical site, is impaired.
2. Prior to being assigned to a clinical placement and as a prerequisite site for placement at any agency or health care facility the nursing student shall sign an agreement:
- to abide by the drug policies and drug testing policies of the University and each agency or health care facility in which a student is assigned as applicable,
 - to submit to any "for cause" drug testing required by the University and testing required by each agency or health care facility the nursing student obtains clinical hours, and
 - to release a copy of any and all drug test results to the University of Phoenix, Dean / Associate Dean of Nursing, other appropriate University officials, and to any State Board(s) of Nursing in which the student holds a nursing license or certificate, where required by the relevant State Board(s) of Nursing.
- Failure to sign such agreement is grounds for refusal for student admission and progression in the program.
3. The College of Health Professions, School of Nursing requires students to obtain a 10 panel, plus alcohol drug test if the student's behavior in the clinical, classroom or laboratory setting creates facts that give rise to a reasonable suspicion of substance abuse, or indicates they are impaired by alcohol or drugs.
4. If the results of the 10 panel, plus alcohol drug test is negative for alcohol or illegal drugs:
- The student shall meet with their Campus College Chair, Director of Nursing, or NP Program Manager within 24 hours or by the first business day following the test results to discuss the circumstances surrounding suspected behavior.
 - The Campus College Chair, Director of Nursing, or NP Program Manager will counsel the student regarding return to the classroom and clinical agency. The preliminary investigation will cease and the student will be released from further action at that time.
 - The Campus College Chair, Director of Nursing, or NP Program Manager will arrange for the student to make up the missed clinical hours.
5. If the results of the 10 panel, plus alcohol drug test is positive for alcohol or illegal drugs:
- A full review by the Office of Dispute Management and Apollo Ethics and Compliance shall be conducted. Students who test positive for alcohol or illegal drugs will not be permitted to return to any clinical setting pending conclusion of the review. The findings may result in student dismissal from the nursing program and expulsion from the University.
 - The results of the positive test for alcohol or illegal drugs shall be reported to the applicable State Board(s) of Nursing, if required by the applicable State Board(s), by the Campus College Chair, Director of Nursing, or NP Program Manager.
6. If the results of the 10 panel, plus alcohol drug test(s) are positive for a prescribed drug(s) but not those that would be defined as illegal in the definitions above:
- The student shall, within three (3) business days, obtain a written statement from their treating, licensed health care provider (MD, DO, HMD, ND/NMD, NP or PA) stating that:
 - the drug level is within prescribed limits.
 - the level does not indicate abuse.
 - the student's use of the drug as prescribed will not interfere with safe practice in the clinical area.
- This statement must be provided to the Campus College Chair, Director of Nursing, or NP Program Manager. If the statement is approved, then the test result will be deemed acceptable and not failed for these purposes.
- The failure of a student to provide the above statement or a health care provider's inability to provide a statement meeting the requirements above shall be treated as a positive test for an illegal drug.
7. Students who refuse to submit to a "for-cause" drug test will not be allowed to return to any clinical setting pending conclusion of a full review by the Office of Dispute Management and Apollo Ethics and Compliance. The findings may result in dismissal from the nursing program and expulsion from the University. The results of a positive test for illegal drugs as defined herein or a refusal to undergo a required drug test will be reported to the applicable State Board of Nursing where required by the applicable State Board(s) of Nursing's statute(s) or regulation(s).
8. Students must also adhere to any other additional policies prescribed by the clinical agency. It is the sole responsibility of the student to read and acknowledge the requirements of the clinical health care facility in addition to University policy.
9. All costs associated with the drug test, including any transportation costs to or from the drug testing facility, will be the responsibility of the student.
10. University of Phoenix, College of Health Professions, School of Nursing, campus officials may be required to report all failed drug

tests to each State Board of Nursing in which the student holds a nursing license or certificate. Campus officials shall report test results to all applicable State Boards of Nursing as described in the applicable Board's statutes and/or regulations.

Bachelor of Science in Nursing

The following Bachelor of Science in Nursing (BSN) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Nursing (BSN), accredited by the Commission of Collegiate Nursing Education* (CCNE), is a program designed to develop the professional knowledge and skills of registered nurses. The curriculum builds on a foundation of biological, physical, and social sciences, which contribute to the science of nursing. The liberal arts components enhance the development of the intellectual, social, and cultural aspects of the professional nurse. This baccalaureate program includes behavioral objectives that concentrate on the development of the nurse's role as researcher, practitioner, and leader. Using human caring as a framework, registered nurses are prepared as generalists who are able to apply critical thinking, professional skills, and knowledge to patient outcomes and health care systems. The Bachelor of Science in Nursing degree program has a 38-credit required course of study. The required course of study includes a capstone course that synthesizes baccalaureate student learning outcomes. The required course of study fulfills only part of the 120-minimum-credit requirement for degree completion. *Nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, NW, Suite 530, Washington, DC 20036-1120, 202-887-6791

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs-bsn>.

Program Purpose

The Registered Nurse to Bachelor of Science in Nursing is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a bachelor's degree in the professional field of nursing. The program is designed to develop the professional knowledge and skills of registered nurses and prepare them as generalists who are able to apply critical thinking, professional skills, and knowledge to client outcomes and health care systems.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will integrate ethical values and respect for cultural diversity in safe patient-centered health care delivery and practice in a variety of health care settings.
- Students will apply theories, knowledge and the nursing process to provide safe patient-centered care in a variety of health care settings.

- Students will apply health promotion and disease management principles that integrate evidenced-based nursing knowledge to ensure safe patient-centered care.
- Students will integrate professional nursing leadership roles as designer, manager and coordinator of safe patient-centered care in a variety of health care settings.
- Students will use health care equipment, technology, communication devices and information systems to provide safe patient-centered care in a variety of health care settings.
- Students will analyze the effect of health care policy, regulatory, legal, economic and sociocultural environments on health care delivery and practice in a variety of health care settings.
- Students will integrate professional role as educator in health care delivery and practice in a variety of health care settings.

Required Course of Study for the BSN

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

NSG 301	3 credits
Transition to Baccalaureate Studies	
HSN 375 ~	3 credits
Informatics for Patient-Centered Care	
NSG 397 ~	3 credits
Professional Nursing Role	
NSG 415 ~	3 credits
Theory-Based Nursing Practice	
NSG 425 ~	4 credits
Nursing Ethics and Professionalism	
NSG 455 ~	3 credits
Evidence-Based Practice and Statistics	
NSG 467 ~	4 credits
Influencing Quality Improvement	
HSN 475 ~	3 credits
Health Policy and Finance	
NSG 478 ~	4 credits
Promoting Healthy Communities	
NSG 485 ~	4 credits
Public Health: Health Promotion and Disease Prevention	
NSG 495 ~	4 credits
Senior Leadership Project	
Upper Division Coursework	6 credits

The University reserves the right to modify the required course of study.

State approval of a program to offer Alabama licensed nurses opportunities for advanced degrees does not indicate eligibility for approval to practice as an advanced practice nurse in Alabama. Applicants for approval in Alabama are required to meet the Alabama requirements for national certification, graduation from a specific-type program for the advanced practice approval, and completion of the appropriate application. Any program offering a pre-licensure track to Alabama students shall meet the requirements of the Alabama regulations for pre-licensure programs or the graduates may not be eligible to take the national licensure examination required by the Alabama Board of Nursing

to enter practice. www.abn.alabama.gov

Additional Admission Requirements for the BSN

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Applicants must reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the US NCLEX-RN exam:
 - Guam
 - American Samoa
 - Northern Mariana Islands
 - US Virgin Islands
- Completion of a nursing diploma earned from a recognized school of nursing in the United States; associate degree (any emphasis) earned in the United States from an approved regionally or nationally accredited institution; an associate degree in nursing or post-secondary diploma in nursing or foreign equivalent earned at a recognized foreign institution; California 30 credit option or California BSN approved program.
- Non-military students who enroll in this program while living in the US and then move outside of the U.S. and its territories must change to the international version of the degree BSN-I. Students must sign a new Enrollment Agreement for the international version of the degree. Students must: 1) notify their campus representative within thirty (30) days of their moving outside the country; 2) update their profile to reflect the new international address; and 3) have a nursing license to practice nursing in the country where they are residing for the BSN practicum or contact an Online College representative.
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

Degree Requirements for the BSN

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 44 upper division credits.
 - A maximum of 76 lower division credits
- A minimum grade point average (GPA) of 2.0.

- University of Phoenix offers assessment of prior learning as an option by which students can earn assessed credits toward degree completion requirements. Registered nurses, enrolled in the BSN program, whose nursing education was completed at a non-US institution, or a non-accredited institution, may be evaluated for transferable non-nursing credits for degree completion.

- The diploma awarded for this program will read as:
Bachelor of Science in Nursing

Academic Progression Requirements for the BSN

- All students enrolling in the BSN program will take NSG 301 as their first course.
- Students may take courses required for the Bachelor of Science in Nursing degree in any sequence as long as the prerequisite(s) for each course has been satisfactorily completed.
- Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within five years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within five years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.
- A clinical course may not be taken concurrently with any other course. The clinical courses in this program include: NSG 425, NSG 467, NSG 478, NSG 485, NSG 495.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.

Minimum Grade Requirements for the BSN

- Students in the Bachelor of Science in Nursing are required to achieve a minimum grade of "C" (2.0) in specific nursing and clinical courses. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" in any of the following courses will be scholastically disqualified from the University: HSN 375, HSN 475, NSG 301, NSG 397, NSG 415, NSG 425, NSG 455, NSG 467, NSG 478, NSG 485
- Students in the Bachelor of Science in Nursing are required to achieve a minimum grade of "B-" (2.5) in the Senior Leadership Project course. A "C+" grade is not acceptable. Students who fail to receive a minimum grade of "B-" will be scholastically disqualified from the University: NSG 495
- Effective for new Enrollment Agreements signed 10/1/2015 or later: Students cannot repeat more than one nursing or clinical course from the lists above. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Bachelor of Science in Nursing program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
 - Met with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
 - Completion of the academic progression student agreement form, signed by the student and returned to Campus College Chair, or designee.
 - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
- Re-Admission is granted when the student satisfactorily fulfills the outlined requirements to remove the scholastic disqualification. Students may repeat the specific nursing courses listed above only one time. If the student does not receive the minimum grade requirement on the second attempt, the student will be scholastically suspended, permanently withdrawn, from the Bachelor of Science in Nursing program.

Residency Requirements and Course Waivers for the BSN

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 9 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.

- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: NSG 397, NSG 415, NSG 425, NSG 455, NSG 467, NSG 478, NSG 485, NSG 495

General Education Requirements for the BSN

A minimum of 52 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

ENG 220, equivalent or higher

Mathematics, 6 credits

MTH 209, equivalent or higher

Natural/Physical Sciences, 12 credits

Humanities, 6 credits

Social Science, 6 credits

Interdisciplinary Requirements, 16 credits

Any earned credit may be applied to the Interdisciplinary Component, with the exception of the following: credits applied to course(s) in the Required Course of Study as a waiver, equivalent course(s) to the BSN Required Course of Study and credits that apply to other areas of general education or the nursing Required Course of Study. Students may be able to apply additional Lower Division nursing content credits towards the interdisciplinary component exceeding 30 total LD nursing credits in transfer.

Physical Education activity credits are limited to four (4) credits.

Six (6) credits must be Upper Division.

Six (6) upper division RN to BSN pathway course credits may be applied to the interdisciplinary category.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Nursing Pathway for BSN

Bachelor of Science in Nursing students who want to transition into the University's Master of Science in Nursing (MSN) or (MSN/MHA) degree programs may complete two (2) of the following courses as part of their upper division elective credits which are required for degree completion. The nursing pathway courses may be taken only after completion of the required course of study.

All MSN pathway courses must be completed with a grade of B- or better. Students who do not pass these classes with a grade of B- or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension. Appeals through SAC for readmission to the program will not be accepted by the School of Nursing.

Re-entry for the BSN

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student to this program.

Re-entry students may re-enroll into their program version if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

An appeal will be required for re-entry students to re-enroll in their program if:

- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
- The student's program version is still the most current offered in their state or jurisdiction but they are unable to complete the remaining program requirements within the original program completion deadline.
- The student wishes to return to a prior program version and the student can complete their remaining requirements within the original program completion deadline.

Re-entry students will be required to submit an admissions application as well as all forms and documents required for readmission to the program at the time of re-entry.

Bachelor of Science in Nursing/International

The following Bachelor of Science in Nursing (BSN-I) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

This program is intended for Registered Nurses living outside the US and not considered US residents. The Bachelor of Science in Nursing (BSN), accredited by the Commission of Collegiate Nursing Education* (CCNE), is a program designed to develop the pro-

fessional knowledge and skills of registered nurses. The curriculum builds on a foundation of biological, physical, and social sciences, which contribute to the science of nursing. The liberal arts components enhance the development of the intellectual, social, and cultural aspects of the professional nurse. This baccalaureate program includes behavioral objectives that concentrate on the development of the nurse's role as researcher, practitioner, and leader. Using human caring as a framework, registered nurses are prepared as generalists who are able to apply critical thinking, professional skills, and knowledge to patient outcomes and health care systems. The Bachelor of Science in Nursing degree program has a 38-credit required course of study. The required course of study includes a capstone course that synthesizes baccalaureate student learning outcomes. The required course of study fulfills only part of the 120-minimum-credit requirement for degree completion. *Nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, NW, Suite 530, Washington, DC

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsn>.

Required Course of Study for the BSN-I

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

NSG 301.....	3 credits
Transition to Baccalaureate Studies	
HSN 375 ~	3 credits
Informatics for Patient-Centered Care	
NSG 397 ~	3 credits
Professional Nursing Role	
NSG 415 ~	3 credits
Theory-Based Nursing Practice	
NSG 425 ~	4 credits
Nursing Ethics and Professionalism	
NSG 455 ~	3 credits
Evidence-Based Practice and Statistics	
NSG 467 ~	4 credits
Influencing Quality Improvement	
HSN 475 ~	3 credits
Health Policy and Finance	
NSG 478 ~	4 credits
Promoting Healthy Communities	
NSG 485 ~	4 credits
Public Health: Health Promotion and Disease Prevention	
NSG 495 ~	4 credits
Senior Leadership Project	
Upper Division Coursework.....	6 credits
The University reserves the right to modify the required course of study.	

Additional Admission Requirements for the BSN-I

All applicants are expected to meet the following admissions requirements:

- Applicants must be residents outside of the United States or approved US Territories. Program will be offered only through the Online Campus.
- Completion of a nursing diploma, associates degree in nursing, or foreign equivalent program.
- All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.
- All Canadian students must complete the Canadian RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.
- Applicants residing in the Commonwealth of Puerto Rico must have an approved appeal on file documenting successful completion of the US NCLEX-RN exam and that all Puerto Rico RN licensing requirements are met to be eligible for admission.
- A signed Foreign Nursing Memorandum of Understanding
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

Degree Requirements for the BSN-I

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 44 upper division credits.
 - A maximum of 76 lower division credits
- A minimum grade point average (GPA) of 2.0.
- University of Phoenix offers assessment of prior learning as an option by which students can earn assessed credits toward degree completion requirements. Registered nurses, enrolled in the BSN program, whose nursing education was completed at a non-US institution or a non-accredited institution, may be evaluated for transferable non-nursing credits for degree completion.
- The diploma awarded for this program will read as:
Bachelor of Science in Nursing

Additional Academic Progression Requirements for the BSN-I

- All students enrolling in the BSN program will take NSG 301 as their first course.
- Students may take courses required for the Bachelor of Science in Nursing degree in any sequence as long as the prerequisite(s) for each course has been satisfactorily completed.
- Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement

- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within five years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within five years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and /or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.
- A clinical course may not be taken concurrently with any other course. The clinical courses in this program include: NSG 425, NSG 467, NSG 478, NSG 485, NSG 495.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.

Minimum Grade Requirements for the BSN-I

- Students in the Bachelor of Science in Nursing are required to achieve a minimum grade of "C" (2.0) in specific nursing and clinical courses. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" in any of the following courses will be scholastically disqualified from the University: HSN 375, HSN 475, NSG 301, NSG 397, NSG 415, NSG 425, NSG 455, NSG 467, NSG 478, NSG 485
- Students in the Bachelor of Science in Nursing are required to achieve a minimum grade of "B-" (2.5) in the Senior Leadership Project course. A "C+" grade is not acceptable. Students who fail to receive a minimum grade of "B-" will be scholastically disqualified from the University: NSG 495
- Effective for new Enrollment Agreements signed 10/1/2015 or later: Students cannot repeat more than one nursing or clinical course from the lists above. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Bachelor of Science in Nursing program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
 - Met with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
 - Completion of the academic progression student agreement form, signed by the student and returned to Campus College Chair, or designee.
 - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

- Re-Admission is granted when the student satisfactorily fulfills the outlined requirements to remove the scholastic disqualification. Students may repeat the specific nursing courses listed above only one time. If the student does not receive the minimum grade requirement on the second attempt, the student will be scholastically suspended, permanently withdrawn, from the Bachelor of Science in Nursing program.

Residency Requirements and Course Waivers for the BSN-I

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 9 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: NSG 397, NSG 415, NSG 425, NSG 455, NSG 467, NSG 478, NSG 485, NSG 495

General Education Requirements for the BSN-I

A minimum of 52 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

ENG 220, equivalent or higher

Mathematics, 6 credits

MTH 209, equivalent or higher

Natural/Physical Sciences, 12 credits

Humanities, 6 credits

Social Science, 6 credits

Interdisciplinary Requirements, 16 credits

Any earned credit may be applied to the Interdisciplinary Component, with the exception of the following: credits applied to course(s) in the Required Course of Study as a waiver, equivalent course(s) to the BSN Required Course of Study and credits that apply to other areas of general education or the nursing Required Course of Study. Students may be able to apply additional Lower Division nursing content credits towards the interdisciplinary component exceeding 30 total LD nursing credits in transfer.

Physical Education activity credits are limited to four (4) credits.

Six (6) credits must be Upper Division.

Six (6) upper division RN to BSN pathway course credits may be applied to the interdisciplinary category.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Nursing Pathway for BSN-I

Bachelor of Science in Nursing students who want to transition into the University's Master of Science in Nursing (MSN) or (MSN/MHA) degree programs may complete two (2) of the following courses as part of their upper division elective credits which are required for degree completion. The nursing pathway courses may be taken only after completion of the required course of study.

All MSN 006 pathway courses must be completed with a grade of B- or better. Students who do not pass these classes with a grade of B- or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension. Appeals through SAC for readmission to the program will not be accepted by the School of Nursing.

Re-entry for the BSN-I

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student to this program.

Re-entry students may re-enroll into their program version if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

An appeal will be required for re-entry students to re-enroll in their program if:

- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).

- The student's program version is still the most current offered in their state or jurisdiction but they are unable to complete the remaining program requirements within the original program completion deadline.
- The student wishes to return to a prior program version and the student can complete their remaining requirements within the original program completion deadline.

Re-entry students will be required to submit an admissions application as well as all forms and documents required for readmission to the program at the time of re-entry.

Bachelor of Science in Nursing Partner

The following Bachelor of Science in Nursing Partner (BSN) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Nursing (BSN), accredited by the Commission of Collegiate Nursing Education (CCNE), is a program designed to develop the professional knowledge and skills of registered nurses. The curriculum builds on a foundation of biological, physical, and social sciences, which contribute to the science of nursing. The liberal arts components enhance the development of the intellectual, social, and cultural aspects of the professional nurse. This baccalaureate program includes behavioral objectives that concentrate on the development of the nurse's role as caregiver, teacher, and leader. Utilizing human caring as a framework, registered nurses are prepared as generalists who are able to apply critical thinking, professional skills, and knowledge to client outcomes and health care systems. Registration in the partnership program is limited to students who are following the program of study as outlined by the community college partnership(s): Gateway Community College.

* For more information about accreditation, please contact CCNE at One Dupont Circle NW, Suite 530, Washington, DC 20036; (202)887-6791.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsn>.

Program Purpose

This program is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a Bachelor's degree in the professional field of nursing. The program is designed to develop the professional knowledge and skills of registered nurses and prepare them as generalists who are able to apply critical thinking, professional skills, and knowledge to client outcomes and health care systems.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will integrate ethical values and respect for cultural diversity in safe patient-centered health care delivery and practice in a variety of health care settings.

- Students will apply theories, knowledge and the nursing process to provide safe patient-centered care in a variety of health care settings.
- Students will apply health promotion and disease management principles that integrate evidenced-based nursing knowledge to ensure safe patient-centered care.
- Students will integrate professional nursing leadership roles as designer, manager and coordinator of safe patient-centered care in a variety of health care settings.
- Students will use health care equipment, technology, communication devices and information systems to provide safe patient-centered care in a variety of health care settings.
- Students will analyze the effect of health care policy, regulatory, legal, economic and sociocultural environments on health care delivery and practice in a variety of health care settings.
- Students will integrate professional role as educator in health care delivery and practice in a variety of health care settings.

Required Course of Study for the BSN

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

HSN 302 3 credits

Undergraduate Nursing Studies

NSG 391 ~ 3 credits

Professional Nursing Practice

Upper Division Humanities Elective 3 credits

NUR 440CC ~ 3 credits

Health Assessment and Promotion for Vulnerable Populations

HSN 251 3 credits

Critical Thinking

Upper Division Elective 3 credits

NUR 443CC ~ 3 credits

Evidence-Based Nursing Research and Practice

NUR 405CC ~ 4 credits

Healthy Communities: Theory and Practice

NUR 408CC ~ 4 credits

Epidemiology: Global and Public Health

NUR 492CC ~ 4 credits

Senior Practicum: Leadership and Management

The following courses will be waived with coursework from the partner institution:

HCS 350 3 credits

Health Care Communication

HCS 438 3 credits

Statistical Applications

HCS 478 3 credits

Health Law and Ethics

HCS 482 3 credits

Health Care Informatics

NUR 403 3 credits

Theories and Models of Nursing Practice

NUR 427 3 credits

Health and Chronic Disease Management

The University reserves the right to modify the required course of study. All grades of "F" or grades not meeting minimum specific

course grade requirements must be repeated.

Additional Admission Requirements for the BSN

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Current employment is not a requirement for admission.
- Completion of an associate degree in nursing from an approved RN-BSN transfer partner institution.
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results
- Students must complete HSN 302, NSG 391 and NUR 440CC as a Non-Degree student with UOPX with a C or better as part of their associate degree progression with the partner institution and prior to admission to University of Phoenix.

Degree Requirements for the BSN

- Completion of a minimum of 120 credits that include the following:
 - A minimum of 30 upper division credits.
 - A maximum of 90 lower division credits
 - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- A minimum program grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Nursing

Academic Progression Requirements for the BSN

- All students enrolling in the BSN Partner program will take NUR 443CC as their first course.
- Students may take courses required for the Bachelor of Science in Nursing degree in any sequence as long as the prerequisite(s) for each course has been satisfactorily completed.
- Students whose RN license becomes restricted, encumbered or revoked while enrolled in the program may not enroll in any further program courses.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within five years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within five years of enrollment.

- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.
- A clinical course may not be taken concurrently with any other course. The clinical courses in this program include: NUR 405CC, NUR 408CC, and NUR 492CC.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.

Candidacy Status for the BSN

The School of Nursing has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- All Level 2 Candidate Status requirements must be completed and posted to the student's academic record prior to starting NUR 405CC. Review for Level 2 Candidacy will be based on the following items:
 - Documentation of a permanent valid, unrestricted, unencumbered RN license.
 - Completion of all general education credits.

Minimum Grade Requirements for the BSN

Students in the Bachelor of Science in Nursing are required to achieve a minimum grade of "C" (2.0) in specific nursing and clinical courses. Students who fail to receive a minimum grade of "C" in any of the specified courses will be scholastically disqualified from the University. ("C-" is not acceptable). These courses include: HSN 302, NSG 391, NUR 405CC, NUR 408CC, NUR 440CC, NUR 443CC, and NUR 492CC.

Effective for new Enrollment Agreements signed 10/1/2015 or later: Students cannot repeat more than one nursing or clinical course from the list above. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Bachelor of Science in Nursing program.

Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:

- Met with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
- Completion of the academic progression student agreement form, signed by the student and returned to Campus College Chair, or designee.
- Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the BSN

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required

Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 18 credits from their required course of study using their associates degree in nursing from an approved partner institution. The following courses will be waived with coursework from the partner institution: HCS 350, NUR 403, NUR 427, HCS 438, HCS 478, and HCS 482. Students in this program are not eligible to waive any additional courses from the required course of study.

The following courses in the Required Course of Study may not be waived or satisfied with transfer coursework: HSN 251, HSN 302, NSG 391, NUR 405CC, NUR 408CC, NUR 440CC, NUR 443CC, NUR 492CC, Upper Division Elective, and Upper Division Humanities.

General Education Requirements for the BSN

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

Must include COMM 215, equivalent or higher.

Mathematics, 6 credits

Must include MTH 209, equivalent or higher.

Natural/Physical Sciences, 12 credits

Humanities, 6 credits

Students will fulfill the Humanities content requirement by completing HSN 251 and a 3-credit upper division Humanities Elective as part of the required course of study. Students may use excess general education or elective credit to satisfy the six required Humanities General Education credits.

Social Science, 6 credits

Interdisciplinary Component, 18 credits

Any earned credit may be applied to the Interdisciplinary Component, with the exception of the following: credits applied to course(s) in the Required Course of Study as a waiver, equivalent course(s) to the BSN Required Course of Study and credits that apply to other areas of general education or the nursing Required Course of Study.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Re-entry for the BSN

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student to this program.

Re-entry students may re-enroll into their program version if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

An appeal will be required for re-entry students to re-enroll in their program if:

- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
- The student's program version is still the most current offered in their state or jurisdiction but they are unable to complete the remaining program requirements within the original program completion deadline.
- The student wishes to return to a prior program version and the student can complete their remaining requirements within the original program completion deadline.

Re-entry students will be required to submit an admissions application as well as all forms and documents required for readmission to the program at the time of re-entry.

Bachelor of Science in Nursing Partner (California)

The following Bachelor of Science in Nursing Partner (BSN) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Nursing (BSN), accredited by the Commission of Collegiate Nursing Education (CCNE), is a program designed to develop the professional knowledge and skills of registered nurses. The curriculum builds on a foundation of biological, physical, and social sciences, which contribute to the science of nursing. The liberal arts components enhance the development of the intellectual, social, and cultural aspects of the professional nurse. This baccalaureate program includes behavioral objectives that concentrate on the development of the nurse's role as caregiver, teacher, and leader. Utilizing human caring as a framework, registered nurses are prepared as generalists who are able to apply critical thinking, professional skills, and knowledge to client outcomes and health care systems.

* For more information about accreditation, please contact CCNE at One Dupont Circle NW, Suite 530, Washington, DC 20036; (202)887-6791.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsn>.

Program Purpose

This program is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a Bachelor's degree in the professional field of nursing. The program is designed to develop the professional knowledge and skills of registered nurses and prepare them as generalists who are able to apply critical thinking, professional skills, and knowledge to client outcomes and health care systems.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will integrate ethical values and respect for cultural diversity in safe patient-centered health care delivery and practice in a variety of health care settings.

- Students will apply theories, knowledge, and the nursing process to provide safe patient-centered care in a variety of health care settings.
- Students will apply health promotion and disease management principles that integrate evidenced-based nursing knowledge to ensure safe patient-centered care.
- Students will integrate professional nursing leadership roles as designer, manager, and coordinator of safe patient-centered care in a variety of health care settings.
- Students will use health care equipment, technology, communication devices, and information systems to provide safe patient-centered care in a variety of health care settings.
- Students will analyze the effect of health care policy, regulatory, legal, economic, and sociocultural environments on health care delivery and practice in a variety of health care settings.
- Students will integrate professional role as educator in health care delivery and practice in a variety of health care settings.

Preferred Sequence and Prerequisites for the BSN

The courses below make up the Required Course of Study for the BSN program and must be completed at University of Phoenix. Since this is a Pathway Partnership program, course requirements may be satisfied three different ways. As outlined below, some courses may be completed by the student in a Non-Degree status prior to admission to the program. Other courses may be waived using transfer coursework from the partnering institution. The remaining courses will be completed at University of Phoenix following admission to the BSN program.

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

The following courses will be taken at University of Phoenix:

HSN 302	3 credits
Undergraduate Nursing Studies	
NSG 391 ~	3 credits
Professional Nursing Practice	
NUR 440CC ~	3 credits
Health Assessment and Promotion for Vulnerable Populations	
Upper Division Non-Nursing Elective	6 credits
NUR 443CC ~	3 credits
Evidence-Based Nursing Research and Practice	
NUR 405CC ~	4 credits
Healthy Communities: Theory and Practice	
NUR 408CC ~	4 credits
Epidemiology: Global and Public Health	
NUR 492CC ~	4 credits
Senior Practicum: Leadership and Management	
The following courses will be waived with coursework from the partner institution:	
HCS 350	3 credits
Health Care Communication	
HCS 438.....	3 credits
Statistical Applications	
HCS 478.....	3 credits
Health Law and Ethics	
HCS 482.....	3 credits
Health Care Informatics	

NUR 403	3 credits
Theories and Models of Nursing Practice	
NUR 427	3 credits
Health and Chronic Disease Management	
Lower Division Nursing Elective	24 credits
The University reserves the right to modify the required course of study.	

Additional Admission Requirements for the BSN

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Current employment is not a requirement for admission.
- Completion of an associate degree in nursing from an approved RN-BSN transfer partner institution.
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results
- Students must complete HSN 302, NSG 391 and NUR 440CC as a Non-Degree student with UOPX with a C or better as part of their associate degree progression with the partner institution and prior to admission to University of Phoenix.

Candidacy Status for the BSN

The College of Nursing has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.

All Level 2 Candidate Status requirements must be completed and posted to the student's academic record prior to starting NUR/405CC. Review for Level 2 Candidacy will be based on the following items:

- Documentation of a valid, unrestricted, unencumbered RN license.
- Completion of all general education credits.

Degree Requirements for the BSN

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 30 upper division credits.
 - A maximum of 90 lower division credits
 - A minimum of 48 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Nursing

Additional Academic Progression Requirements for the BSN

- All students enrolling in the BSN Partner program will take NUR 443CC as their first course.
- Students may take courses required for the Bachelor of Science in Nursing degree in any sequence as long as the prerequisite(s) for each course has been satisfactorily completed.

- Students whose RN license becomes restricted, encumbered or revoked while enrolled in the program may not enroll in any further program courses.
- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within five years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within five years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.
- A clinical course may not be taken concurrently with any other course. The clinical courses in this program include: NUR 405CC, NUR 408CC, and NUR 492CC.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.

Minimum Grade Requirements for the BSN

- Students in the Bachelor of Science in Nursing are required to achieve a minimum grade of "C" (2.0) in specific nursing and clinical courses. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" in any of the following courses will be scholastically disqualified from the University. These courses include: HSN 302, NSG 391, NUR 405CC, NUR 408CC, NUR 440CC, NUR 443CC, NUR 492CC.

Effective for new Enrollment Agreements signed 10/1/2015 or later: Students cannot repeat more than one nursing or clinical course from the list above. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Bachelor of Science in Nursing program.

Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:

- Met with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.

- Completion of the academic progression student agreement form, signed by the student and returned to Campus College Chair, or designee.
- Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the BSN

- Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.
- Students in this program may waive a maximum of 18 credits from their required course of study using their associates degree in nursing from an approved partner institution. The following courses will be waived with coursework from the partner institution: HCS 350, NUR 403, NUR 427, HCS 438, HCS 478, and HCS 482. Students in this program are not eligible to waive any additional courses from the required course of study.
- The following courses in the Required Course of Study may not be waived or satisfied with transfer coursework: HSN 302, NSG 391, NUR 405CC, NUR 408CC, NUR 440CC, NUR 443CC, NUR 492CC, Upper Division Non-Nursing Elective.

General Education Requirements for the BSN

A minimum of 48 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

Must include COMM 215, equivalent or higher.

Must include an oral communication course and a written communication course.

Mathematics, 6 credits

Must include MTH 209, equivalent or higher

Must include a statistics course

Natural/Physical Sciences, 12 credits

Humanities, 6 credits

Social Science, 6 credits

Must include 3 credits of psychology and 3 credits of sociology or anthropology

Additional Liberal Arts, 3 credits

Interdisciplinary Component, 9 credits

Any earned credit may be applied to the Interdisciplinary Component, with the exception of the following: credits applied to course(s) in the Required Course of Study as a waiver, equivalent course(s) to the BSN Required Course of Study and credits that apply to other areas of general education or the nursing Required Course of Study.

Physical Education activity credits are limited to four (4) credits.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Re-entry for the BSN

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student to this program.

Re-entry students may re-enroll into their program version if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

An appeal will be required for re-entry students to re-enroll in their program if:

- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
- The student's program version is still the most current offered in their state or jurisdiction but they are unable to complete the remaining program requirements within the original program completion deadline.
- The student wishes to return to a prior program version and the student can complete their remaining requirements within the original program completion deadline.

Re-entry students will be required to submit an admissions application as well as all forms and documents required for readmission to the program at the time of re-entry.

COLLEGE OF EDUCATION (*Online*)

The College of Education offers undergraduate programs designed for future educators combining content and pedagogical preparation. These programs are developed and taught by skilled practitioners who work in their respective fields, and emphasize knowledge, skills, dispositions, and lifelong learning as essential elements for professional practice. Each program blends theory and practice through a combination of individual and collaborative work to foster a learning environment that allows students to build their knowledge base and apply what they have learned to "impact student learning one educator at a time." Each student/applicant is responsible for checking with his/her state Department of Education and/or school district to determine specific credentialing requirements. The College of Education offers associate level degree programs designed to provide content knowledge in areas such as English/language arts, fine arts, math, science, and social studies, as well as foundational coursework in education.

Admission Requirements for University of Phoenix

All applicants are expected to meet the following admission requirements:

- Applicants whose native language is not English must have either:
 - achieved a minimum score of 213 on the computer-based test (CBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.
 - or-
 - achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.
 - or-
 - achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.
 - or-
 - achieved a minimum score of 69 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam within two years of application to the University.
 - or-
 - successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.
 - or-
 - achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.
 - The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:
 - The applicant has successfully completed thirty (30) transferable, academic semester credits at a regionally or nationally accredited college or university in the United States.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized college or university in a country in which English is the official language.
 - The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized institution where English is the medium of instruction.
 - The applicant has previously earned, prior to applying for admission to the University of Phoenix, a U.S. high school diploma or G.E.D. Applicants that list any language other than English as their native language on the admission application and G.E.D is taken, must submit a copy of the G.E.D to verify it was taken in the English version format.
 - The applicant has earned the equivalent of a U.S. high school diploma in a country in which English is the official language.
 - The applicant has earned the equivalent of a U.S. high school diploma at an institution where English is the medium of instruction.
 - Applicants who reside in the United States must meet one of the following requirements:
 - Be a legal resident of the United States
 - Have been granted permanent residency
 - Have a valid visa that does not prohibit educational studies
 - Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
 - Have been granted asylum or refugee status.
 - A signed Enrollment/Disclosure Agreement.
 - Students, who list less than 24 previous college credits as recognized by the University on the admissions application, are required to successfully complete a University Orientation Workshop (UNIV 100 for Online or UNIV 101 for local campus) to be officially admitted (AM).
 - Only students who reside within the United States and its territories are eligible to enroll into a University of Phoenix bachelor or master of education program.
 - A signed New Student Checklist may be required.
 - Completion of any state-specific required documents or forms.
 - Applicants who have been expelled from other institutions are not eligible for admission to University of Phoenix.
 - Students who have been expelled from University of Phoenix are not eligible for readmission to University of Phoenix. No appeals will be accepted.

Students who begin their studies at campuses located in the states listed below are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

- Students attending a local campus in Oklahoma must provide written documentation of vaccinations or immunity against Hepatitis B, measles, mumps, and rubella (MMR). Students must demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.
- Students attending a physical campus in the state of Tennessee are required to submit a Hepatitis B Waiver form to the University.

Students residing in the states listed below are required to submit health insurance information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

- Full and part-time students enrolled in a college, university or other institution of higher learning in Massachusetts must participate in a school sponsored health insurance plan, or an alternate plan with comparable coverage. All full and part-time students attending a Massachusetts local campus must complete the Student Health Insurance Plan Enrollment/

Acknowledgement form indicating either that they have either enrolled in the University's sponsored plan or that they decline participation in the University sponsored plan as they have comparable health insurance coverage. Students must complete and submit this form prior to enrolling in any class. Students who do not complete the Enrollment/Acknowledgement form each calendar year may not enroll in further courses until the form has been completed and the student has appropriate health insurance coverage.

Students who begin their studies at campuses located in Hawaii are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1956, be immunized for measles-mumps-rubella (MMR). Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.

Exemptions from the MMR immunization requirement may be granted for the following reasons:

- A medical exemption may be granted to specific vaccines.
 - A U.S. licensed physician (M.D. or D.O.) must state in writing that giving a specific vaccine would endanger the student's life or health, and specify the reason based on valid medical contraindications.
 - The physician must state the length of time during which the vaccine would endanger the student's health or life.
 - The exemption certification must be signed by the physician on the physician's printed stationery.
- A religious exemption may be granted if the student signs a statement certifying that the student's religious beliefs prohibit the practice of immunization.
- If the State of Hawaii Director of Health determines that there is a danger of an outbreak from any of the diseases for which immunization is required, no exemption shall be recognized and inadequately immunized students shall be excluded from school until the Director has determined that the outbreak is over.

- A copy of each exemption must be kept in the student's health record at school.

The Hawaii State Department of Health requires that all students attending school at a campus in this state shall provide a Certificate of TB Examination issued in the United States within 12 months prior to their first attendance in a post-secondary school in Hawaii. A completed Certificate of TB Examination shall be submitted prior to the first night of class or the student will not be permitted to attend class. Students shall complete Section A of this form, or submit a copy of their TB Clearance Certification received prior to their attendance at another Hawaii post-secondary school.

Students residing in the state of Connecticut are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

In accordance with Section 10a-155 of the Connecticut general statutes, all full time or matriculating students will be required to demonstrate proof of adequate immunization against measles, mumps, rubella (MMR) and varicella as recommended by the Advisory Committee for Immunization Practices (ACIP). For more specific state information, refer to the link below. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.

Exemptions from the MMR and varicella immunization requirements may be granted for the following reasons:

- The student was born before January 1, 1957 (applicable to MMR vaccine only).
- The student was born in the United States before January 1, 1980 (applicable to the varicella (chicken pox) vaccine only)
- The student has documentation from a physician stating that it is medically inadvisable to receive the vaccines for the one or more of the diseases as indicated on the immunization form.
- The student has documentation from a physician or director of health that he/she has had a confirmed case of one or more of the diseases as indicated on the immunization form.
- The student has laboratory confirmation of immunity to the disease(s) as indicated on the immunization form.
- The student has submitted a statement that immunization is contrary to his/her religious beliefs.
- The student is enrolled exclusively in the Online Campus and does not congregate with other students on campus or at campus-sponsored events. If the student later decides to attend a class at a University of Phoenix local campus location in Connecticut, the student must meet the immunization requirements before he/she may begin attending classes at a local campus location.
- The student graduated from a public or nonpublic high school in the state of Connecticut in 1999 or later and was not exempt from the measles, rubella and on or after August 1, 2010, the mumps vaccination requirement pursuant to subdivision (2) or (3) of subsection (a) of section 10-204a.

Bachelor of Science in Education/Elementary Education

The following Bachelor of Science in Education/Elementary Education (BSED/E) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Elementary (BSED-E) is an undergraduate degree program preparing candidates for teacher licensure. The guiding philosophy of the BSED/E program is to provide students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student's professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsed-e>.

State authorization to provide a program related to the preparation of teachers or other P-12 school/system personnel does not indicate eligibility for an Alabama certificate. Applicants for an Alabama certificate based on reciprocity must meet Alabama's test requirements and submit a valid, renewable professional educator certificate/license issued by another state at the degree level, grade level, and in the teaching field or area of instructional support for which an Alabama certificate is sought and for which Alabama issues a certificate. Applicants for Alabama certification in an area of administration must also document at least three years of full-time employment as an administrator in a P-12 school system(s). www.alsde.edu

Program Purpose

The Bachelor of Science in Education/Elementary Education is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers and includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to

verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits

GEN 201 (A TRACK)	3 credits
Foundations for University Success	
GEN 127 (B TRACK)	3 credits)

Orientation, 0 total credits

EDU 300	0 credits
Orientation to Teacher Education

General Information for the BSED/E

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BSED/E

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

- South Carolina: Applicants attending a local campus in South Carolina must submit a copy of their high school diploma, high school transcript with graduation posted, GED certificate, GED transcript with successful completion posted, CHSPE examination results or a letter on letterhead from the high school records office confirming the date of graduation. Students may submit an Associate Degree posted transcript in lieu of the high school documentation. This may include a copy of a transcript or degree verification information from the institution's student website. Students can also submit a copy of a DD-214 showing high school graduation or equivalency to satisfy this requirement.
- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school attended and date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.
- Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/E

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.

- Demonstration of basic skills proficiency
Students who reside in a state that does not have a basic skills exam have three options for completing this requirement. Students must pass the Praxis I exam at the cut score determined by the College of Education.

* Reading 169

* Writing 172

* Math 170

Students must pass the Essential Academic Skills provided by National Evaluation Systems at the cut scores determined by the national benchmark.

* Essential Academic Skills Subtest I: Reading - 220

* Essential Academic Skills Subtest II: Writing - 220

* Essential Academic Skills Subtest III: Mathematics - 220

* Essential Academic Skills Subtest IV: Technology Literacy - 220

Core Academic Skills for Educators (Core)

* Core Academic Skills for Educators: Reading 156

* Core Academic Skills for Educators: Writing - 162

* Core Academic Skills for Educators: Mathematics - 150

- Verification of fingerprint clearance

Georgia residents attending Online and Local Campus students with enrollment agreements signed 3/1/2015 or thereafter seeking

a Georgia certificate:

Additional Candidacy Level II Requirements:

- Obtain a Georgia Pre-service Certificate. The steps to qualify for this certificate include:
 - Completion of GACE Educator Ethics Assessment-Program Entry Assessment (350)
 - Signed Pre-service certification application
 - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
 - Completed Background Check Form

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 60 upper division credits in the Required Program Category Preferred Sequence.
 - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, practicum courses and/or alternative clinical practice.
- Complete course within the sequence specified by course prerequisite requirements.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (100 hours).
- All students must complete the minimum number of credits required by their degree program.
- Georgia residents attending Online and Local Campus students who complete field experience, student teaching, and apply for state certification 9/1/2015 or thereafter must complete:
 - Teacher Performance Assessment
 - GACE Educator Ethics Exit Exam (360)
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Elementary Education

Academic Progression Requirements for the BSED/E

Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 as the first course in their program.

Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147

With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- National Testing Programs, and
- ACE evaluated Military credits.

Concurrent enrollment is prohibited during any of the courses in the standard pathway (B Track).

Accelerated Pathway (A Track) students may not enroll in GEN 127, ENG 147, or HUM 115 to satisfy programmatic prerequisites, general education or elective requirements.

Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).

Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

Students may not complete any of the standard pathway (B Track) courses via Directed Study.

Satisfy University Proficiency Requirements

Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

Students have the following options to fulfill proficiency:

- Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.

Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

- Passing scores on the designated state content knowledge exam.
- Verification of immunization or TB test results (district specific)
- Verification of the completion of 100 hours of field experience

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All students must complete GEN 201 or GEN 127 as their first course at the University.

Students must complete all General Education requirements prior to completion of EDU 390.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" (grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: EDU 390, EED 498, EED 499. Georgia and Illinois students only: EDU 390, EED 496
- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.

Upon the successful completion of the Child Development Associate (CDA) candidates transferring to UOPX may waive 12 credits using the following coursework in the BSED/E program. The options for credit application are based upon specific GE requirements for each state.

- * 3 credits in social studies
- * 9 credits in additional liberal arts
 - or
- *12 credits in social studies
 - or
- *12 credits in any combination of social studies, additional liberal arts or electives

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program

(each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, GEN 127, GEN 201, RDG 415, SPE 300. Georgia and Illinois students only: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, GEN 127, GEN 201, RDG 415, SPE 300, EED 496. Arizona residents may waive SEI 300 and/or SEI 301 with an Arizona Department of Education approved SEI course (institution of higher education or approved district workshop) OR verification of one of the following endorsements:

- Arizona Provisional SEI Endorsement (SEI 300)
- Arizona Full SEI Endorsement (SEI 300 and SEI 301)
- Arizona English as a Second Language Endorsement
- Arizona Bilingual Endorsement

Approved SEI courses/workshops can be found at <http://www.ade.state.az.us/asd/lep/>.

General Education Requirements for the BSED/E

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits

Must include HUM 115

B track must include ENG 147

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Physical/Biological Science Requirement(s) 6 credits

Social Studies Requirement(s) 9 credits

3 credits must include HIS 301 or HIS 110

Effective for Enrollment Agreements signed 7/1/2014 or later 3 credits must include ETH 120. Prior to 7/1/2014, 3 credits must include SOC 315

Prior to 7/1/2014, 3 credits must include SOC 315

Fine Arts Requirement(s) 3 credits

Art, music, drama or dance

Humanities Requirement(s) 3 credits

Additional Liberal Arts Requirement(s) 9 credits

Physical Education activity credits are limited to four (4) credits.

All undergraduate students are required to complete the minimum general education credits required by their program version.

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS

110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements. Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Field Experience for BSED/E

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Student Teaching for the BSED/E

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a 1-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.
- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
 - Transcripts documenting of a minimum of 24 semester credits in their content area
 - Passing scores on the state mandated content exam
- Candidates must earn a "B" or better in Elementary Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.

- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Re-entry for the BSED/E

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version. However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/E

Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they

have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Candidates must pass their state-mandated professional knowledge exam.

Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

Bachelor of Science in Education/Elementary Education (New Mexico)

The following Bachelor of Science in Education/Elementary Education (BSED/E) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Elementary (BSED-E) is an undergraduate degree program preparing candidates for teacher licensure. The guiding philosophy of the BSED/E program is to provide students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher.

Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student's professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsed-e>.

Program Purpose

The Bachelor of Science in Education/Elementary Education is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers and includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Category Requirements

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits

GEN 201 (A Track)	3 credits
Foundations for University Success	
GEN 127 (B Track).....	3 credits
University Studies for Success	

Orientation, 0 total credits

EDU 300	0 credits
Orientation to Teacher Education

Elementary Student Teaching, Seminar II	

The University reserves the right to modify the required course of Study.

General Information for the BSED/E

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BSED/E

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/E

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXP file.

- Demonstration of basic skills proficiency

Students who reside in a state that does not have a basic skills exam have three options for completing this requirement.

Students must pass the Praxis I exam at the cut score determined by the College of Education.

* Reading 169

* Writing 172

* Math 170

Students must pass the Essential Academic Skills provided by National Evaluation Systems at the cut scores determined by the national benchmark.

- * Essential Academic Skills Subtest I: Reading - 220
- * Essential Academic Skills Subtest II: Writing - 220
- * Essential Academic Skills Subtest III: Mathematics - 220
- * Essential Academic Skills Subtest IV: Technology Literacy - 220
- Core Academic Skills for Educators (Core)
- * Core Academic Skills for Educators: Reading 156
- * Core Academic Skills for Educators: Writing - 162
- * Core Academic Skills for Educators: Mathematics - 150
- Verification of fingerprint clearance

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E

- Completion of a minimum of 129 credits that include the following distribution:
 - A minimum of 48 upper division credits in the Required Program Category Preferred Sequence.
 - A minimum of 78 of the 129 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, and/or practicum courses.
- Complete courses within the sequence specified by course prerequisite requirements.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (100 hours).
- All students must complete the minimum number of credits required by their degree program.
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Elementary Education

Academic Progression Requirements for the BSED/E

Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.

Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147

With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- National Testing Programs, and
- ACE evaluated Military credits.

Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:

- Students transferring to University of Phoenix with a regionally accredited Associate of Arts degree from a community college.
- Students transferring to University of Phoenix with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course

Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.

Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.

Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).

Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.

Satisfy University Proficiency Requirements

Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

Students have the following options to fulfill proficiency:

- Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:

- Completed within ten years of enrollment
- Grade of C- or better (or academic equivalent)
- At least 2.67 semester credits

- Eligible to receive general education credits

Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.

Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

- Verification of Elementary Education (Subtest I, II, and III)
- Verification of immunization or TB test results (district specific)
- Verification of the completion of 100 hours of field experience

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All students must complete GEN 201 or GEN 127 as their first course at the University.

Students must complete all General Education requirements prior to completion of EDU 390.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" (Grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: EDU 390, EED 498, EED 499
- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 21 credits from their required course of study on the basis of regionally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: GEN 201, GEN 127, EDU 300, EDU 311, EDU 321, EDU

390, EED 416, EED 498, EED 499, RDG 415, SPE 300

General Education Requirements for the BSED/E

A minimum of 78 of the 129 credits must be in the general education areas approved by the University.

Candidates must complete one of the following Content Areas: English/Language Arts, Mathematics or Social Studies. Content Area credits (18) combined with General Education credit requirements listed in the table below for the categories of English/Language Arts (12), Mathematics (12) and Social Studies (12) will provide candidates with a total of 30 credits in their selected Content Area. The 30 credits in the Content Area must include a breakdown of 15 upper division credits and 15 lower division credits.

English/Language Arts Requirement(s) 12 credits

Must include HUM 115

B track must include ENG 147

Spanish Requirement(s) 3 credits

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Physical/Biological Science Requirement(s) 12 credits

Must include at least 3 credits in Physical Science and 3 credits in Biological Science

Social Studies Requirement(s) 18 credits

3 credits must include U.S. Constitution

12 credits must be in History, American History or Western Civilization

3 credits must be in Government, Economics or Sociology

Fine Arts Requirement(s) 3 credits

Art, music, drama or dance

Content Area 18 credits

English/Language Arts, Mathematics and Social Studies

All undergraduate students are required to complete the minimum general education credits required by their program version.

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Student Teaching and Field Experience for the BSED/E

Student Teaching Policies

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a K-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.

- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
 - Transcripts documenting of a minimum of 24 semester credits in their content area
 - Passing scores on the state mandated content exam
- Candidates must earn a "B" or better in Elementary Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Out of State Student Teaching

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Field Experience

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic

portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Re-entry for the BSED/E

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version. However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/E

Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Candidates must pass their state-mandated professional knowledge exam.

Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

Bachelor of Science Education/Elementary Education (Colorado)

The following Bachelor of Science in Education/Elementary Education (BSED/E) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Elementary (BSED-E) is an undergraduate degree program preparing candidates for teacher

licensure. The guiding philosophy of the BSED/E program is to provide students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student's professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsed-e>.

Program Purpose

The Bachelor of Science in Education/Elementary Education is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers and includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Category Requirements

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits

GEN 201 (A Track) 3 credits
Foundations for University Success

GEN 127 (B Track) 3 credits
University Studies for Success

Orientation, 0 total credits

EDU 300 0 credits
Orientation to Teacher Education

History and Foundations of Education, 6 total credits

EDU 301 ~ 3 credits
Foundations of Education
EDU 315 ~ 3 credits
Legal & Ethical Issues in Education

Educational Theories and Models, 6 total credits

EDU 311 ~ 3 credits
Models and Theories of Instruction
EDU 321 3 credits
Classroom Management

Human Development, 3 total credits

EDU 305 ~ 3 credits

Child Development

Assessment, 3 total credits

EED 400 3 credits

Assessment in Elementary Education

Reading, 9 total credits

RDG 412 3 credits

Scientifically Based Literacy Instruction

RDG 415 ~ 3 credits

Diagnosis and Remediation of Reading Difficulties

RDG 418 3 credits

Phonological Theory and Reading Instruction

Special Populations, 6 total credits

ESL 300 3 credits

Teaching English Language Learners

SPE 300 3 credits

Orientation to the Exceptional Child

Elementary Methods, 15 total credits

EED 416 ~ 3 credits

Elementary Methods - Mathematics

EED 420 ~ 3 credits

Elementary Methods - Science

EED 425 ~ 3 credits

Elementary Methods - Health / PE

EED 430 ~ 3 credits

Elementary Methods - Social Studies

EED 435 ~ 3 credits

Elementary Methods - Fine Arts

Student Teaching, 9 total credits

EDU 390 ~ 1 credit

Elementary Education Seminar

EED 498 ~ 4 credits

Elementary Student Teaching, Seminar I

EED 499 ~ 4 credits

Elementary Student Teaching, Seminar II

The University reserves the right to modify the required course of Study.

General Information for the BSED/E

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for the BSED/E

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/E

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.

- Demonstration of basic skills proficiency

Students who reside in a state that does not have a basic skills exam have three options for completing this requirement.

Students must pass the Praxis I exam at the cut score determined by the College of Education.

* Reading 169

* Writing 172

* Math 170

Students must pass the Essential Academic Skills provided by National Evaluation Systems at the cut scores determined by the national benchmark.

* Essential Academic Skills Subtest I: Reading - 220

* Essential Academic Skills Subtest II: Writing - 220

* Essential Academic Skills Subtest III: Mathematics - 220

* Essential Academic Skills Subtest IV: Technology Literacy - 220

Core Academic Skills for Educators (Core)

* Core Academic Skills for Educators: Reading 156

* Core Academic Skills for Educators: Writing - 162

* Core Academic Skills for Educators: Mathematics - 150

- Verification of fingerprint clearance

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E

- Completion of a minimum of 120 credits that include the following distribution:
Candidates who select the Science Content Area are required to complete 126 credits
 - A minimum of 57 upper division credits in the Required Program Category Preferred Sequence.

- A minimum of 60 of the 120 credits must be in the general education areas approved by the University.
- A minimum of 66 of the 126 credits (Science content area) must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, and/or practicum courses.
- Complete courses within the sequence specified by course prerequisite requirements.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (200 hours).
- All students must complete the minimum number of credits required by their degree program.
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Elementary Education

Academic Progression Requirements for the BSED/E

Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.

Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147

With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- National Testing Programs, and
- ACE evaluated Military credits.

Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:

- Students transferring to University of Phoenix with a regionally accredited Associate of Arts degree from a community college.
- Students transferring to University of Phoenix with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course

Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.

Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.

Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).

Students who previously completed an approved entry point

course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
Satisfy University Proficiency Requirements

Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

Students have the following options to fulfill proficiency:

- Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:

- Completed within ten years of enrollment
- Grade of C- or better (or academic equivalent)
- At least 2.67 semester credits

-Eligible to receive general education credits

Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.

Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

- Verification of content knowledge mastery prior to student teaching.
- Verification of immunization or TB test results (district specific)
- Verification of the completion of 200 hours of field experience

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All students must complete GEN 201 or GEN 127 as their first course at the University.

Students must complete all General Education requirements prior to completion of EDU 390.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" (Grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: EDU 390, EED 498, EED 499
- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.

- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, GEN 127, GEN 201, RDG 412, RDG 415, RDG 418, SPE 300

General Education Requirements for the BSED/E

A minimum of 60 of the 120 credits must be in the general education areas approved by the University.

Candidates must complete one of the following Content Areas: English/Language Arts, Mathematics, Social Studies or Science. Candidates who select English/Language Arts, Mathematics or Social Studies as their Content Area are required to complete the general education requirements outlined in the table below.

English/Language Arts Requirement(s) 12 credits

Must include HUM 115

B track must include ENG 147

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Physical/Biological Science Requirement(s) 6 credits

Must include at least 3 credits in Physical Science and 3 credits in Biological Science

Social Studies Requirement(s) 12 credits

Must include HIS 301

Fine Arts Requirement(s) 6 credits

Art, music, drama or dance

Content Area 12 credits

Students must complete an additional 12 credits for their selected Content Area outside of their English, Mathematics and Social Studies general education requirements.

Candidates who select Science as their Content Area are required to complete the general education requirements outlined in the table below.

English/Language Arts Requirement(s) 12 credits

Must include HUM 115

B track must include ENG 147

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Physical/Biological Science Requirement(s) 6 credits

Must include at least 3 credits in Physical Science and 3 credits in Biological Science

Social Studies Requirement(s) 12 credits

Must include HIS 301

Fine Arts Requirement(s) 6 credits

Art, music, drama or dance

Content Area 18 credits

Students must complete an additional 18 credits for their selected Content Area outside of their Physical/Biological Science general education requirements.

All undergraduate students are required to complete the minimum general education credits required by their program version.

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Student Teaching and Field Experience for the BSED/E

Student Teaching Policies

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a K-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.
- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
 - Transcripts documenting of a minimum of 24 semester credits in their content area.
 - Passing scores on the state mandated content exam.
- Candidates must earn a "B" or better in Elementary Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Out of State Student Teaching

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Field Experience

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 200 hours of verified field experiences, covering a variety of developmental levels

from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Re-entry for the BSED/E

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version.

However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/E

Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Candidates must pass their state-mandated professional knowledge exam.

Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

Bachelor of Science in Education/Elementary Education (Hawaii)

The following Bachelor of Science in Education Elementary Education (BSED/E) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online

classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Elementary (BSEd-E) is an undergraduate degree program preparing candidates for teacher licensure. The guiding philosophy of the BSEd/E program is to provide students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher.

Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student's professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bse-e>.

Program Purpose

The Bachelor of Science in Education/Elementary Education is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers and includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits

 Elementary Methods - Health/PE
 EED 430 ~ 3 credits

Elementary Methods - Social Studies

EED 435 ~ 3 credits
 Elementary Methods - Fine Arts
 EED 444 3 credits

Elementary Methods - Integration of Hawaiian Studies

Student Teaching and Field Experience, 9 total credits

EDU 390 ~ 1 credit
 Elementary Education Seminar
 EED 498 ~ 4 credits

Elementary Student Teaching, Seminar I

EED 499 ~ 4 credits

Elementary Student Teaching, Seminar II

The University reserves the right to modify the required course of Study.

General Information for the BSED/E

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.

- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BSED/E

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/E

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.
 - Demonstration of basic skills proficiency

Students who reside in a state that does not have a basic skills exam have three options for completing this requirement.

Students must pass the Praxis I exam at the cut score determined by the College of Education.

- * Reading 169
- * Writing 172
- * Math 170

Students must pass the Essential Academic Skills provided by National Evaluation Systems at the cut scores determined by the national benchmark.

- * Essential Academic Skills Subtest I: Reading - 220
- * Essential Academic Skills Subtest II: Writing - 220
- * Essential Academic Skills Subtest III: Mathematics - 220
- * Essential Academic Skills Subtest IV: Technology Literacy - 220

Core Academic Skills for Educators (Core)

- * Core Academic Skills for Educators: Reading 156
- * Core Academic Skills for Educators: Writing - 162
- * Core Academic Skills for Educators: Mathematics - 150

- Verification of fingerprint clearance

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 60 upper division credits in the Required Program Category Preferred Sequence.
 - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, practicum courses and/or alternative clinical practice.
- Complete course within the sequence specified by course prerequisite requirements.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (100 hours).
- All Students must complete the minimum number of credits required by their degree program.
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Elementary Education

Academic Progression Requirements for the BSED/E

Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.

Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147

With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- National Testing Programs, and
- ACE evaluated Military credits.

Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:

- Students transferring to University of Phoenix with a regionally accredited Associate of Arts degree from a community college.
- Students transferring to University of Phoenix with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course

Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.

Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.

Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

Students who have successfully completed an approved entry

point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).

Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.

Satisfy University Proficiency Requirements

Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

Students have the following options to fulfill proficiency:

- Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.

Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide the following verification prior to beginning student teaching:

- Verification of content knowledge mastery prior to student teaching
- Verification of immunization or TB test results (district specific)
- Verification of the completion of 100 hours of field experience

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All students must complete GEN 201 or GEN 127 as their first course at the University.

Students must complete all General Education requirements prior to completion of EDU 390.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" (Grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: EDU 390, EED 498, EED 499

- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.

Upon the successful completion of the Child Development Associate (CDA) candidates transferring to UOPX may waive 12 credits using the following coursework in the BSED/E program. The options for credit application are based upon specific GE requirements for each state.

- * 3 credits in social studies
- * 9 credits in additional liberal arts
 - or
- *12 credits in social studies
 - or
- *12 credits in any combination of social studies, additional liberal arts or electives

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, GEN 127, GEN 201, RDG 415, SPE 300

General Education Requirements for the BSED/E

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits

Must include HUM 115

B track must include ENG 147

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Physical/Biological Science Requirement(s) 6 credits

Social Studies Requirement(s) 9 credits

3 credits must include HIS 301 or HIS 110

3 credits must include HIS 265

Effective for Enrollment Agreements signed 7/1/2014 or later, 3 credits

must include ETH 120. Prior to 7/1/2014, 3 credits must include SOC

315

Fine Arts Requirement(s) 3 credits

Art, music, drama or dance

Humanities Requirement(s) 3 credits

Additional Liberal Arts Requirement(s) 9 credits

All undergraduate students are required to complete the minimum general education credits required by their program version.

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements. Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Field Experience for BSED/E

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic

portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Student Teaching for the BSED/E

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a K-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.
- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
 - Transcripts documenting of a minimum of 24 semester credits in their content area
 - Passing scores on the state mandated content exam
- Candidates must earn a "B" or better in Elementary Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.

- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Re-entry for the BSED/E

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version. However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/E

Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Candidates must pass their state-mandated professional knowledge exam.

Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

Bachelor of Science in Education/Elementary Education (Nevada)

The following Bachelor of Science in Education/Elementary Education (BSED/E) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. - First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).

- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).

- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BSED/E

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Nevada: Applicants attending a local campus in Nevada must submit a copy of their high school diploma, high school transcript with graduation posted, GED certificate, GED transcript with successful completion posted, CHSPE examination results or a letter on letterhead from the high school records office confirming the date of graduation. Students may submit a college transcript which documents high school attended and date of completion or a copy of a DD-214 showing high school graduation or equivalency to satisfy this requirement.
- Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/E

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.
 - Demonstration of basic skills proficiency
Students who reside in a state that does not have a basic skills exam have three options for completing this requirement.
Students must pass the Praxis I exam at the cut score determined by the College of Education.
 - * Reading 169
 - * Writing 172
 - * Math 170
 - Core Academic Skills for Educators (Core)
 - * Core Academic Skills for Educators: Reading 156
 - * Core Academic Skills for Educators: Writing - 162
 - * Core Academic Skills for Educators: Mathematics - 150
 - CBEST (California Basic Education Skills Test)
 - Verification of fingerprint clearance
Nevada residents are required to submit Sublicense with provision 004 removed for fingerprint clearance.

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 57 upper division credits in the Required Program Category Preferred Sequence.
 - A minimum of 51 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, and/or practicum courses.
- Complete courses within the sequence specified by course prerequisite requirements.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (100 hours).
- All students must complete the minimum number of credits required by their degree program.
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Elementary Education

Academic Progression Requirements for the BSED/E

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147

With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- National Testing Programs, and
- ACE evaluated Military credits.

Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:

- Students transferring to University of Phoenix with a regionally accredited Associate of Arts degree from a community college.
- Students transferring to University of Phoenix with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course

Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.

Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.

Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

Students who have successfully completed an approved entry

point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).

Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.

Satisfy University Proficiency Requirements

Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

Students have the following options to fulfill proficiency:

- Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.

Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

- Verification of content knowledge mastery prior to student teaching.
- Verification of immunization or TB test results (district specific)
- Verification of the completion of 100 hours of field experience

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All students must complete GEN 201 or GEN 127 as their first course at the University.

Students must complete all General Education requirements prior to completion of EDU 390.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" (Grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: EDU 390, EED 498, EED 499.

- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.

Upon the successful completion of the Child Development Associate (CDA) candidates transferring to UOPX may waive 12 credits using the following coursework in the BSEd/E program. The options for credit application are based upon specific GE requirements for each state.

- * 3 credits in social studies
- * 9 credits in additional liberal arts
 - or
- *12 credits in social studies
 - or
- *12 credits in any combination of social studies, additional liberal arts or electives

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.

- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: GEN 201, GEN 127, EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, RDG 415, SPE 300

Note: All students must meet minimum upper division and residency credit requirements.

General Education Requirements for the BSED/E

A minimum of 51 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits

Must include HUM 115

B track must include ENG 147

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Social Studies Requirement(s) 12 credits

3 credits must include HIS 311 Nevada Constitution

Effective for Enrollment Agreements signed 7/1/2014 or later, 3 credits must include ETH 120. Prior to 7/1/2014, 3 credits must include SOC 315

Physical/Biological Science Requirement(s) 6 credits

Fine Arts Requirement(s) 3 credits

Art, music, drama or dance

Humanities Requirement(s) 3 credits

Additional Liberal Arts Requirement(s) 3 credits

All undergraduate students are required to complete the minimum general education credits required by their program version.

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Student Teaching and Field Experience for the BSED/E

Student Teaching Policies

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a K-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.

- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
 - Transcripts documenting of a minimum of 24 semester credits in their content area
 - Passing scores on the state mandated content exam
- Candidates must earn a "B" or better in Elementary Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Out of State Student Teaching

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Field Experience

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic

portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Re-entry for the BSED/E

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version.

However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/E

Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Candidates must pass their state-mandated professional knowledge exam.

Candidates must provide verification of school law, state and U.S. Constitution coursework, as required by the state certification agency.

Bachelor of Science in Education/Elementary Education (Utah)

The following Bachelor of Science in Education/Elementary Education (BSED/E) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Elementary (BSED-E) is an

undergraduate degree program preparing candidates for teacher licensure. The guiding philosophy of the BSED/E program is to provide students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student's professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsed-e>.

Program Purpose

The Bachelor of Science in Education/Elementary Education is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers and includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Category Requirements

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits

GEN 200 3 credits
Foundations for General Education and Professional Success

Orientation, 0 total credits

EDU 300 0 credits
Orientation to Teacher Education

History and Foundations of Education, 6 total credits

EDU 301 ~ 3 credits
Foundations of Education

EDU 315 ~ 3 credits
Legal & Ethical Issues in Education

Educational Theories and Models, 6 total credits

EDU 311 ~ 3 credits
Models and Theories of Instruction

EDU 321 3 credits
Classroom Management

Human Development, 3 total credits

EDU 305 ~ 3 credits

Child Development

Assessment, 3 total credits

EED 400 3 credits
Assessment in Elementary Education

Reading, 9 total credits

RDG 350 3 credits
Children's Literature
RDG 420 ~ 3 credits
Elementary Methods - Reading/Language Arts
RDG 415 ~ 3 credits
Diagnosis and Remediation of Reading Difficulties

Special Populations, 6 total credits

ESL 300 3 credits
Teaching English Language Learners
SPE 300 3 credits
Orientation to the Exceptional Child

Elementary Methods, 15 total credits

EED 416 ~ 3 credits
Elementary Methods - Mathematics
EED 420 ~ 3 credits
Elementary Methods - Science
EED 425 ~ 3 credits
Elementary Methods - Health/PE
EED 430 ~ 3 credits
Elementary Methods - Social Studies
EED 435 ~ 3 credits
Elementary Methods - Fine Arts

Student Teaching and Field Experience, 9 total credits

EDU 390 ~ 1 credit
Elementary Education Seminar
EED 498 ~ 4 credits
Elementary Student Teaching, Seminar I
EED 499 ~ 4 credits
Elementary Student Teaching, Seminar II

The University reserves the right to modify the required course of Study.

Additional Admission Requirements for the BSED/E

All applicants are expected to meet the following admissions requirements:

- High school graduation (with a minimum 3.0 high school/ college GPA) from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body.
- Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/E

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.

- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.
 - Demonstration of basic skills proficiency
 - Verification of fingerprint clearance

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E

Completion of a minimum of 120 credits that include the following distribution:

- A minimum of 57 upper division credits in the Required Program Category Preferred Sequence.
- A minimum of 51 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, and/or practicum courses.
- Complete courses within the sequence specified by course prerequisite requirements.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (100 hours).
- All students must complete the minimum number of credits required by their degree program.
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Elementary Education

Academic Progression Requirements for the BSED/E

- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

- Passing scores on the designated state content knowledge exam.
- Students must provide verification of a student teaching license and submit copy of the license prior to the student teaching placement.
- Verification of immunization or TB test results (district specific)
- Verification of the completion of 100 hours of field experience

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

- All students must complete GEN 200 as their first course at the University.

Students must complete all General Education requirements prior to completion of EDU 390.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" (grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: EDU 390, EED 498, EED 499
- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.

Upon the successful completion of the Child Development Associate (CDA) candidates transferring to UOPX may waive 12 credits using the following coursework in the BSED/E program. The options for credit application are based upon specific GE requirements for each state.

- * 3 credits in social studies
- * 9 credits in additional liberal arts
 - or
- *12 credits in social studies
 - or
- *12 credits in any combination of social studies, additional liberal arts or electives

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.

- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

The following courses in the Required Course of Study may not be waived: GEN 200, EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, RDG 415, SPE 300

General Education Requirements for the BSED/E

A minimum of 51 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits

Must include 3 credit lower division writing course and 3 credit upper division writing course

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Social Studies Requirement(s) 9 credits

3 credits must include HIS 301 or HIS 110

3 credits must include ETH 120

Physical/Biological Science Requirement(s) 6 credits

Must include at least 3 credits in Physical Science and 3 credits in Biological Science

Fine Arts Requirement(s) 3 credits

Art, music, drama or dance

Humanities Requirement(s) 3 credits

Additional Liberal Arts Requirement(s) 6 credits

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

All undergraduate students are required to complete the minimum general education credits required by their program version.

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Student Teaching and Field Experience for the BSED/E

Student Teaching Policies

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a K-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.
- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
 - Transcripts documenting of a minimum of 24 semester credits in their content area
 - Passing scores on the state mandated content exam
- Candidates must earn a "B" or better in Elementary Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.

- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Out of state Student Teaching

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Field Experience

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Re-entry for the BSED/E

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version. However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/E

- Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

- Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates must pass their state-mandated professional knowledge exam.
- Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

Bachelor of Science in Liberal Studies (California)

The following Bachelor of Science in Liberal Studies (BSLS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Liberal Studies (BSLS) is an undergraduate liberal studies program that combines content and pedagogical preparation required for multiple subject credential candidates. Field experiences are integrated throughout the program, with a culminating student teaching experience. The program and field experiences are designed to emphasize mastery of state standards with ongoing assessment to measure candidate competency.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsls>.

Program Purpose

The Bachelor of Science in Liberal Studies is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Orientation, 0 total credits

EDU 300CA ~ 0 credits

Designing Instruction

The University reserves the right to modify the required course of Study.

General Information for the BSLS

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree or higher at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who have completed an associate degree or higher at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).

- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BSLS

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.
- Verification of negative TB test results
- A receipt of the Request for Certificate of Clearance.
- A signed New Student Checklist:
- Students who reside outside of the state of California are not eligible to apply.
- Signed Enrollment/Disclosure Agreement
- Signed CalTPA Code of Honor
- Completion of any state-specific required documents or forms
- Students transferring to University of Phoenix on or after July 1, 2015, with a California completed Associate of Arts or Associate of Science transfer degree in Elementary or Early Childhood Education will be considered as satisfying a 60 credit block of courses within the program. To earn the Bachelor of Science in Liberal Studies degree, students must:
 - Successfully complete a minimum of 61 credits at University of Phoenix.
 - Meet all pre-requisite, proficiency, and/or state specific content requirements as outlined in the program policies

Candidacy Status for the BSLS

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.

Level 2 Candidate Status is completed prior to the completion of 12 University of Phoenix credits from the Required Course of Study (Core) of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.

- Demonstration of basic skills proficiency (CBEST)
- Verification of Certificate of Clearance
- Must provide one of the following verifications prior to the completion of 12 semester credits in the program:
 - The candidate provides evidence of having passed the appropriate subject matter examination(s).
 - The candidate provides evidence of having attempted the appropriate subject matter examination(s).
 - The candidate provides evidence of registration for the next scheduled examination.

- The candidate provides evidence of having completed a Commission approved subject matter preparation program.
- The candidate provides evidence of continuous progress toward meeting the subject matter requirement.

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSLS

- Completion of a minimum of 121 credits that include the following distribution:
 - A minimum of 43 upper division credits.
 - A minimum of 81 of the 121 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion of CalTPA 1-4.
- Satisfactory completion of student teaching.
- Complete courses within the sequence specified by course prerequisite requirements.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (100 hours).
- All Students must complete the minimum number of credits required by their degree program.
- The diploma awarded for this program will read as:
Bachelor of Science in Liberal Studies

Academic Progression Requirements for the BSLS

Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.

Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147

With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- National Testing Programs, and
- ACE evaluated Military credits.

Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:

- Students transferring to University of Phoenix with a regionally accredited Associate of Arts degree from a community college.
- Students transferring to University of Phoenix with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course

Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, OR HUM 115.

Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.

Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a

program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).

Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, OR HUM 115.

- Satisfy University Proficiency Requirements
- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

- Verification of content knowledge mastery prior to student teaching (CSET content exam)
- Verification of Disposition Assessments (Self-Evaluation Dispositions Rubric & Personal Assessment Interview)
- Passing score on Teaching Performance Assessment CalTPA 1: Subject-Specific Pedagogy
- Passing score on Teaching Performance Assessment CalTPA 2: Designing Instruction
- Completion of all coursework prior to Student Teaching Seminar I & II with a 2.5 program GPA
- Verification of the completion of 100 hours of field experience.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

- All students must complete GEN 201 or GEN 127 and BSLS/ 101CA as the first two courses at the University.
- BSLS students are not required to enroll in the First-Year Sequence.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

A candidate must earn a grade of "B" (Grades of "I" and "B-" are not

accepted) or better in the following courses in order to student teach: HUM 375CA, PHL 310CA

A candidate must earn a grade of "C" (Grades of "I" and "C-" are not accepted) or better in the following course: HIS 110CA

Minimum Grade Requirements for the BSLS

- A candidate must earn a grade of "B" (Grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: EED 498CA, EED 499CA
- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSLS

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the required course of study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.

- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students may use a 2 semester credit Constitution course to satisfy the HIS 305CA or HIS 110CA constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213CA and MTH 214CA requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

The following courses in the Required Course of Study may not be waived: EED 498CA, EED 499CA, GEN 127, GEN 201

General Education Requirements for the BSLS

A minimum of 81 of the 121 credits must be in the general education areas approved by the University.

BSLS Orientation, 0 credits

Must include: BSLS 101CA, Orientation to Liberal Studies in Education
English/Language Arts, 21 credits

Must include the following:

Must include HUM 115

B Track must include ENG 147

6 credits in Writing (RDG 201CA)

3 credits in Communication

3 credits in Linguistics

3 credits in American Literature

3 credits in Reading

Mathematics, 12 credits

Must include: MTH 213CA & MTH 214CA

Physical/Biological Science, 12 credits

Must include the following:

3 credits in Physics

3 credits in Biology

3 credits in Chemistry

3 credits in Earth Science

(must include two lab sciences)

Social Studies, 15 credits

Must include the following:

6 credits in World History

3 credits in CA History (HIS 305CA)

6 credits in U.S. History (HIS 110CA)

Fine Arts, 9 credits

Must include: ARTS 100CA, ARTS 230CA, and ARTS 340CA

Humanities, 6 credits

Must include: HUM 375CA and PHL 310CA

Health/Physical Education, 6 credits

Must include the following:

3 credits in Health/PE (HPE 170CA)

3 credits in Human Nutrition

Coursework which was completed at an institution that offers associate degrees or higher, which was accredited, or a candidate for accreditation at the time the student attended, by a regional or approved national accrediting body, or a foreign institution recognized/authorized by the country's Ministry of Education, will be reviewed for transfer into the University.

In order to satisfy RDG 201CA with transfer coursework, a student must have completed a previous course which meets the following

criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework).

Coursework in which students earn a minimum grade of "C-" or grades of credit, pass or satisfactory will be accepted towards student's degree requirements.

The following courses may not be satisfied by transfer coursework or nontraditional credit (i.e. PLA, NTP, Military, ACE, etc.,) and must be completed at University of Phoenix: HUM 375CA, PHL 310CA

All undergraduate students are required to complete the minimum general education credits required by their program version.

Students who lack .67 or fewer general education credits may use liberal arts credits to satisfy the balance in order to complete the minimum general education credits required for their program.

Field Experience for BSLS

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must be placed for field experience by the campus. A Certificate of Clearance and negative TB test is required prior to Field Experience placement.

Student Teaching for the BSLS

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Liberal Studies program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Students must complete placements in two elementary grade levels. Placement must occur in two of the following grade levels: K-2, 3-5, 6. One placement is seven weeks and the other placement is eight weeks. These must be in self-contained classroom settings in which the candidate teaches 6 of the 7 multiple subject areas to the same group of students.
- Candidates must earn a "B" or better in Student Teaching Seminar I and II. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.

- Student teaching can only be repeated one time.
- Candidates that do not successfully complete the second student teaching experience will be removed from the program and are not eligible for re-entry.
- Candidates must teach in a self-contained elementary setting. Candidates may not teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teaching Performance Assessment.

Re-entry for the BSLS

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version. However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSLS

- Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).
- Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates must provide verification of U.S. Constitution coursework (with a grade of "C" or better), or exam as required by the state certification agency.
- Candidates must provide proof of certification in cardio pulmonary resuscitation (CPR).
- Candidates must pass the RICA exam.

California Teaching Performance Assessment Policy

- Candidates must receive passing scores on TPA/001: Subject-Specific Pedagogy (course and assessment) and TPA/002: Designing Instruction (course and assessment) prior to beginning their student teaching experience. Verification of scores is maintained by the campus Credential Analyst.
- Candidates may attempt the Teaching Performance Assessment 1: Subject-Specific Pedagogy and Teaching Performance Assessment 2: Designing Instruction a total of three times each. Candidates are required to retake TPA/001 or TPA/002 courses if they have failed the corresponding assessment two times. This retake must be completed prior to the third attempt.
- Teaching Performance Assessment 3: Assessing Learning and Teaching Performance Assessment 4: Culminating Teaching Experience are completed during the student teaching experience. These assessments can only be attempted two times each.
- Candidates must earn a score of 3 or 4 on each Teaching Performance Assessment to be considered passing. Scores of 1 or 2 are not considering passing scores.
- Candidates who are unable to pass any assessment after the allotted number of attempts are permanently removed from the program
TPA 1 and TPA2 = 3 attempts
TPA 3 and TPA4 = 2 attempts
- Students who transfer into the BSLS program and have documentation of passing TPA 1: Subject-specific Pedagogy and/or TPA 2: Designing Instruction while attending another university are not required to complete the corresponding preparation courses TPA 001 - Subject-specific Pedagogy and/or TPA 002 - Designing Instruction. Students should submit a course waiver request to apply the TPA 1 and/or TPA 2 assessments to the TPA 001 and/or TPA 002 courses at University of Phoenix.

Bachelor of Science in Education/Elementary Education (Education Pathway Partnership)

The following Bachelor of Science in Education/Elementary Education (BSED/E) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The BSED/E-EPP is an undergraduate degree program preparing candidates for teacher licensure. The BSED/E-EPP program is intended to afford candidates the opportunity to develop the skills and knowledge that will allow them to become competent and effective educators. This program focuses on improving elementary student learning through coursework that focuses on instructional strategies, assessment, and the integration of instructional technology. Throughout the program, students are required to complete verified field experiences covering a variety of developmental levels. The focus of each field experience will relate to specific course content. Documentation will be maintained in the student's professional portfolio. Student teaching is an integral component of the program. It provides students with a field-based

experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty supervisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsed-e>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to design and implement effective instruction in the elementary classroom to produce a positive impact on student learning.
- Students will be able to evaluate effective professional practice in elementary education.
- Students will be able to apply professional ethics to their instructional practices in elementary education.
- Students will be able to evaluate learning principles to differentiate instruction to meet the needs of diverse elementary student populations.
- Students will be able to create innovative strategies and incorporate technology in an elementary classroom setting.

Program Category Requirements and Course Selections for the BSED/E

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits

GEN 200 3 credits
Foundations for General Education and Professional Success

Orientation, 0 total credits

EDU 340 0 credits
Orientation to Teacher Education

Foundations, 3 total credits

SPE 350 ~ 3 credits
Foundations of Response to Intervention (RTI)

Instructional Design/Curriculum and Instruction, 12 total credits

CUR 506 ~ 3 credits
Theories and Best Practices of Curriculum and Instruction

CUR 545 ~ 3 credits
Using Technology for Teaching and Learning

CUR 515 ~ 3 credits
Critical Thinking and Innovative Skills

Students must select complete 3 elective credits from the following:

EDU 430 ~ 3 credits
Implementing the Common Core in English Language Arts

EDU 440 ~ 3 credits
Implementing the Common Core in Mathematics

EDU 450 ~ 3 credits
Strategies and Innovation in STEM

Assessment, 3 total credits

EED 400 ~ 3 credits

Assessment in Elementary Education

Elementary Methods, 6 total credits

EED 425 ~ 3 credits

Elementary Methods - Health/PE

EED 435 ~ 3 credits

Elementary Methods - Fine Arts

Legal and Ethical, 3 total credits

EDU 315 ~ 3 credits

Legal & Ethical Issues in Education

Student Teaching and Field Experience, 8 total credits

EED 498 ~ 4 credits

Elementary Student Teaching, Seminar I

EED 499 ~ 4 credits

Elementary Student Teaching, Seminar II

The University reserves the right to modify the required course of Study.

Additional Admission Requirements for the BSED/E

All applicants are expected to meet the following admissions requirements:

- Successful completion of MCCD Education Pathway program requirements
- Applicants must be currently employed or have access to a work environment.
- Verification of fingerprint clearance
- Demonstration of basic skills proficiency
- Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet the English language proficiency requirement for admission.

Degree Requirements for the BSED/E

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 45 credits
 - Education Preparation Coursework - 37 credits
 - Required Course of Study - 38 credits
- A minimum of 82 of the 120 credits must be in transfer from MCCD Education Pathway Program.
- A minimum of 38 upper division credits in the Required Program Category Preferred Sequence.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, practicum courses and/or alternative clinical practice.
- Complete course within the sequence specified by course prerequisite requirements.
- Complete Field Experience Observation Record (30-40 hours).
- All Students must complete the minimum number of credits required by their degree program.
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Elementary Education

Academic Progression Requirements for the BSED/E

Satisfy University Proficiency Requirements

Undergraduate students must satisfy math and English proficien-

cies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

Students have the following options to fulfill proficiency:

- Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.

Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

- Passing scores on the designated state content knowledge exam.
- Verification of immunization or TB test results (district specific)
- Verification of the completion of 30-40 hours of field experience

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" or better in the following courses in order to student teach: EED 498, EED 499. Grades of "I" and "B-" are not accepted. Students who fail to receive a minimum grade of "B" in any of the following courses will be scholastically disqualified from the University.
- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet the established University residency requirement for degree conferral. The University requires that 38 credits must be completed at University of Phoenix.

Students in this program may not waive any credits from the required course of study

General Education Requirements for the BSED/E

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits

Mathematics Requirement(s) 12 credits

Physical/Biological Science Requirement(s) 6 credits

Social Studies Requirement(s) 9 credits

Fine Arts Requirement(s) 3 credits

Humanities Requirement(s) 3 credits

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

Field Experience for BSED/E

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 30-40 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Student Teaching for the BSED/E

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a 1-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.
- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
 - Transcripts documenting of a minimum of 24 semester credits in their content area
 - Passing scores on the state mandated content exam
- Candidates must earn a "B" or better in Elementary Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.

- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Out of state Student Teaching for the BSED/E

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Re-entry for the BSED/E

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version. However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/E

- Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

- Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates must pass their state-mandated professional knowledge exam.
- Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

Bachelor of Science in Education/Early Childhood Education

The following Bachelor of Science in Education/Early Childhood Education (BSED/ECH) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Education (BSED) with a specialization in Early Childhood Education is an undergraduate degree program preparing candidates for teacher licensure in the field of early childhood (birth to age eight/grade 3). The curriculum is aligned with the Interstate Teaching Assessment and Support Consortium's (InTASC) model core teaching standards and the National Association for the Education of Young Children (NAEYC) standards. The curriculum includes common core standards, child development and learning, building family and community relations, cultural diversity, assessment to support young children and families, strong content knowledge to build developmentally appropriate and meaningful curriculum and experiences, and professionalism and ethics of educators. Throughout the program, students are required to complete verified field experiences and student teaching.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsed-ech>.

State authorization to provide a program related to the preparation of teachers or other P-12 school/system personnel does not indicate eligibility for an Alabama certificate. Applicants for an Alabama certificate based on reciprocity must meet Alabama's test requirements and submit a valid, renewable professional educator certificate/license issued by another state at the degree level, grade level, and in the teaching field or area of instructional support for which an Alabama certificate is sought and for which Alabama issues a certificate. Applicants for Alabama certification in an area of administration must also document at least three years of full-time employment as an administrator in a P-12 school system(s).

www.alsde.edu

Program Purpose

The Bachelor of Science in Education/Early Childhood is an

undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to work with children from pre-K through grade 3 or age 8 as a licensed early childhood educator. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to design and implement effective instruction in the early childhood classroom to produce a positive impact on student learning.
- Students will be able to evaluate effective professional practice in early childhood education.
- Students will be able to apply professional ethics to their instructional practices in early childhood education.
- Students will be able to evaluate learning principles to differentiate instruction to meet the needs of diverse early childhood populations.
- Students will be able to create innovative strategies and incorporate developmentally appropriate technology in an early childhood setting.

Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits

GEN 201 (A Track)	3 credits
Foundations for University Success	
GEN 127 (B Track)	3 credits
University Studies for Success	

Orientation, 0 total credits

ECH 300 ~	0 credits
Orientation to Early Childhood Education	

History and Foundations of Education, 9 total credits

ECH 301 ~	3 credits
Foundations of Early Childhood Education	
EDU 215 ~	3 credits
Ethics and Social Responsibility in Education	
ECH 418 ~	3 credits
Community and Family Engagement	

Educational Theories and Models, 6 total credits

ECH 211 ~	3 credits
Instructional Strategies for Early Childhood Education	
ECH 321 ~	3 credits
Developmentally Effective Learning Environments	

Human Development, 3 total credits

ECH 205 ~	3 credits
-----------------	-----------

Early Childhood Growth and Development

Assessment, 3 total credits

ECH 400 ~ 3 credits
Assessment and Evaluation in Early Childhood

Reading, 6 total credits

RDG 351 ~ 3 credits
Early Childhood Literacy Development

RDG 416 ~ 3 credits
Methods of Teaching in Early Childhood Language and Literacy

Special Populations, 9 total credits

SEI 300 ~ 3 credits
Structured English Immersion

SEI 301 ~ 3 credits
Advanced Structured English Immersion Methods

ECH 302 ~ 3 credits
Exceptionalities of the Young Child

Early Childhood Methods, 12 total credits

ECH 416 ~ 3 credits
Methods of Teaching in Early Childhood: Math

ECH 420 ~ 3 credits
Methods of Teaching in Early Childhood: Science

ECH 430 ~ 3 credits
Methods of Teaching in Early Childhood: Social Studies

ECH 435 ~ 3 credits
Methods of Teaching in Early Childhood: Arts & Music

Student Teaching and Field Experience, 9 total credits

ECH 390 ~ 1 credit
Early Childhood Student Teaching Seminar

ECH 498 ~ 4 credits
Early Childhood Student Teaching (Birth-Preschool)

ECH 499 ~ 4 credits
Early Childhood Student Teaching (K through Age 8/Grade 3)

Georgia and Illinois students will take EED 496 in place of ECH 498 and ECH 499

EED 496 ~ 8 credits
Student Teaching

The University reserves the right to modify the required course of Study.

General Information for the BSED/ECH

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who have not previously completed an associate degree at a regionally or approved nationally accredited institution must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).

- Students who have completed an associate degree at a regionally or nationally accredited institution are not required to complete the Pathway Diagnostic and will be placed in the Accelerated Pathway (A Track).

- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway

Additional Admission Requirements for the BSED/ECH

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

- Tennessee: Students residing in Tennessee who are attending classes via the Online modality and students attending a local campus in Tennessee, including from any cross-border locations must provide the university with an official High School transcript or official GED score (if applicable). A college transcript which documents high school attended and date of completion or a copy of a DD-214 showing high school graduation or equivalency may be submitted to satisfy this requirement.

- Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/ECH

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.

- Demonstration of basic skills proficiency

Students who reside in a state that does not have a basic skills exam have three options for completing this requirement. Students must pass the Praxis I exam at the cut score determined by the College of Education.

* Reading 169

* Writing 172

* Math 170

Students must pass the Essential Academic Skills provided by National Evaluation Systems at the cut scores determined by the national benchmark.

* Essential Academic Skills Subtest I: Reading - 220

* Essential Academic Skills Subtest II: Writing - 220

* Essential Academic Skills Subtest III: Mathematics - 220

* Essential Academic Skills Subtest IV: Technology Literacy - 220

Core Academic Skills for Educators (Core)

* Core Academic Skills for Educators: Reading 156

* Core Academic Skills for Educators: Writing - 162

* Core Academic Skills for Educators: Mathematics - 150

- Verification of fingerprint clearance

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/ECH

- Completion of a minimum of 120 credits that include the following distribution:
 - General Education - 57 credits
 - Required Course of Study- 60 credits
 - Electives - 3 credits
- A minimum of 48 upper division credits.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required student teaching and/or alternative clinical practice.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (100 hours).
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Early Childhood Education
- Students who have graduated from any BS Early Childhood Education program leading to initial teacher certification are not eligible for admission to any MAED/TED programs.

Academic Progression Requirements for the BSED/ECH

Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.

Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147.

With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
- National Testing Programs, and
- ACE evaluated Military credits.

Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:

- Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
- Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course

Concurrent enrollment is prohibited during any of the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.

Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.

Continuously enrolled students in an approved entry point course

should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.

Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).

Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.

Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.

Satisfy University Proficiency Requirements

Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.

Students have the following options to fulfill proficiency:

- Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
- Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits

Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.

Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.

Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

- Passing scores on the designated state content knowledge exam.
 - Verification of immunization or TB test results (district specific)
 - Verification of the completion of 100 hours of field experience
- Candidates residing in the state of Idaho must provide verification of the completion of twenty (20) required semester credits in one of the endorsement areas below prior to student teaching.
- Social Studies (This may include areas such as American Government, Political Science, Economics, Geography, History, Psychology, Sociology, and Anthropology).
 - English/Language Arts (This may include areas such as Communication, English, English as a New Language, Journalism, Literacy, Writing and Foreign Language).
 - Mathematics (This may include areas such as Mathematics, Geometry, Linear Algebra, Discrete Mathematics, Probability and Statistics, Trigonometry, and Calculus).
 - Science (This may include areas such as Biological Science, Chemistry, Earth Science, Geology, Natural Science, and Physical Science).

Students must complete all General Education requirements prior

to completion of ECH 390.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/ECH

- A candidate must earn a grade of "B" or better in the following courses in order to progress in future coursework. Grades of "I" and "B-" are not accepted. Students who do not receive a B- or better will be placed on Scholastic Disqualification and will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan: ECH 390, ECH 498, ECH 499 Georgia students only: ECH 390, EED 496
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/ECH

- Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.
- Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.
- Upon the successful completion of the Child Development Associate (CDA) candidates transferring to University of Phoenix may waive 21 credits using the following coursework in the BSED/ECH program:
 - 3 credits in social studies
 - 9 credits in additional liberal arts
 - ECH 301: Foundations of Early Childhood (3 credits)
 - ECH 205: Growth and Development (3 credits)
 - ECH 321: Developmentally Effective Learning Environments (3 credits)
- Arizona residents may waive SEI 300 and/or SEI 301 with an Arizona Department of Education approved SEI course (institution of higher education or approved district workshop) OR verification of one of the following endorsements:
 - Arizona Provisional SEI Endorsement (SEI/300)
 - Arizona Full SEI Endorsement (SEI/300 and SEI/301)
 - Arizona English as a Second Language Endorsement
 - Arizona Bilingual Endorsement
- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
 - The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
 - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.

- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

- Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.
- The following courses in the Required Course of Study may not be waived: ECH 211, ECH 300, ECH 302, ECH 321, ECH 390, ECH 416, ECH 498, ECH 499, RDG 416. Georgia and Illinois students only: ECH 211, ECH 300, ECH 302, ECH 321, ECH 390, ECH 416, RDG 416, EED 496.

General Education Requirements for the BSED/ECH

A minimum of 57 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits

Must include: HUM 115

B Track must include: ENG 147

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Physical/Biological Science Requirement(s) 6 credits

Social Studies Requirement(s) 9 credits

3 credits must include ETH 120

3 credits must include HIS 301 or HIS 110

Fine Arts Requirement(s) 6 credits

Art, music, drama or dance

Humanities Requirement(s) 3 credits

Additional Liberal Arts Requirement(s) 9 credits

All undergraduate students are required to complete the minimum general education credits required by their program version.

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Field Experience for BSED/ECH

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Student Teaching for the BSED/ECH

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Early Childhood program. Students must complete prerequisites leading up to Student Teaching prior to beginning the student teaching experience.
- Candidates must earn a "B" or better in Early Childhood Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Early Childhood Student Teaching courses during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these courses.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained early childhood setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A

select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Early Childhood Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching courses through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Re-entry for the BSED/ECH

- Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.
- Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version. However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.
- Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/ECH

- Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).
- Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates must pass their state-mandated professional knowledge exam.
- Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

Bachelor of Science in Education/Educational Studies

The following Bachelor of Science in Education/Educational Studies (BSED/ES) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The

availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Educational Studies (BSED/ES) degree is a non-teaching degree designed to facilitate the development of professional knowledge, skills and understanding of the teaching and learning process. The program provides students with information across a variety of education topics with an emphasis in the field of education.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsed-es>.

Program Purpose

The Bachelor of Science in Education/Educational Studies is an undergraduate degree program intended for students who have completed all coursework from a UOPX initial licensure program with the exception of both student teaching courses. The program does not prepare students for any type of professional certification or state licensure as a teacher. It is only intended as a degree completion option.

BSED/ES Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Students must choose 3 courses from the following list:

AET 500	3 credits
Foundations of Adult Learning Theory	
AET 508	3 credits
Community-Based Education	
AET 552	3 credits
Marketing Adult Education	
AET 560	3 credits
Facilitating Change	
AET 562	3 credits
Social Media for Professional Learning	

The University reserves the right to modify the required course of Study.

Additional Admission Requirements for the BSED/ES

Applicants are expected to meet all admissions requirements:

- Applicants enrolling in this program must have met all admission requirements from their University of Phoenix previous pre-licensure program.
- All versions of the following University of Phoenix previous pre-licensure programs eligible for admission to the BSED/ES:
 - BSED/E
 - BSED/E-MTH
 - BSED/E-SOC
 - BSED/E-SCI
 - BSED/E-ELA
- Applicants to this program must have completed all coursework from their University of Phoenix previous pre-licensure program with the exception of both Student Teaching courses.

- Students will be eligible for admission to the BSED/ES program provided that the Enrollment Agreement sign date for the previous pre-licensure program is no more than nine and a half (9.5) years in the past. Applicants must be able to complete all requirements of the degree within 10 years of the Enrollment Agreement sign date of the previous pre-licensure program.
- Continuously enrolled students completing a program change from a pre-licensure program to the BSED/ES program only need to submit an Enrollment Agreement and will not be required to complete a new admissions application.

Degree Completion Requirements for the BSED/ES

- Completion of a minimum of 121 credits.
- Completion of three (3) BSED/ES Elective courses in addition to all completed coursework from the previous pre-licensure program, with the exception of student teaching.
- A minimum grade point average (GPA) of 2.5.
- BSED/ES graduates will not be permitted to return to complete student teaching and receive a degree in any previous pre-licensure program at the University. In addition students will not be permitted to enter a new Bachelor or Master level pre-licensure program.
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Educational Studies

Residency Requirements and Course Waivers for the BSED/ES

Students must meet the established University residency requirement for degree conferral. The University requires that all nine (9) elective credits must be completed at University of Phoenix in order to meet residency.

Re-entry for the BSED/ES

Students who have been out of attendance for more than one year must complete an Enrollment Agreement for the BSED/ES program and will be eligible for re-entry into the program provided that they are able to complete all requirements of the degree within 10 years of the Enrollment Agreement sign date of the previous pre-licensure program.

Bachelor of Science in Education/Elementary Education (Florida)

The following Bachelor of Science in Education/Elementary Education (BSED/E) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Elementary (BSED-E) is an undergraduate degree program preparing candidates for teacher licensure. The guiding philosophy of the BSED/E program is to provide students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating

teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher.

Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student's professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/bsed-e>.

Program Purpose

The Bachelor of Science in Education/Elementary Education is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers and includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits

GEN 201 (A TRACK) 3 credits
Foundations for University Success

GEN 127 (B TRACK) 3 credits
University Studies for Success

Orientation, 0 total credits

EDU 300 0 credits
Orientation to Teacher Education

History and Foundations of Education, 6 total credits

EDU 301 ~ 3 credits
Foundations of Education

EDU 315 ~ 3 credits
Legal & Ethical Issues in Education

Educational Theories and Models, 6 total credits

EDU 311 ~ 3 credits
Models and Theories of Instruction

EDU 321 3 credits
Classroom Management

Human Development, 3 total credits

EDU 305 ~ 3 credits
Child Development

Assessment, 3 total credits

EED 400 3 credits
Assessment in Elementary Education

Reading, 9 total credits

RDG 350 3 credits

Children's Literature

RDG 420 ~ 3 credits

Elementary Methods - Reading/Language Arts

RDG 415 ~ 3 credits

Diagnosis and Remediation of Reading Difficulties

Special Populations, 9 total credits

SEI 300 3 credits

Structured English Immersion

SEI 301 ~ 3 credits

Advanced Structured English Immersion Methods

SPE 300 3 credits

Orientation to the Exceptional Child

Elementary Methods, 15 total credits

EED 416 ~ 3 credits

Elementary Methods - Mathematics

EED 420 ~ 3 credits

Elementary Methods - Science

EED 425 ~ 3 credits

Elementary Methods - Health/PE

EED 430 ~ 3 credits

Elementary Methods - Social Studies

EED 435 ~ 3 credits

Elementary Methods - Fine Arts

Student Teaching and Field Experience, 9 total credits

EDU 390 ~ 1 credit

Elementary Education Seminar

EED 498 ~ 4 credits

Elementary Student Teaching, Seminar I

EED 499 ~ 4 credits

Elementary Student Teaching, Seminar II

The University reserves the right to modify the required course of Study.

General Information for the BSED/E

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program.
 - Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants must complete a Pathway Diagnostic before enrolling into their first credit-bearing course. The results of the diagnostic will determine placement in the Accelerated Pathway (A Track) or standard pathway (B Track).
- Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.
- Any student planning to complete an associate of arts degree prior to enrolling in a bachelor degree must complete all required credits of the associates degree and meet admission requirements for their chosen bachelor degree before enrolling in any University bachelor degree programs.

Additional Admission Requirements for the BSED/E

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.
- Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/E

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.

- Demonstration of basic skills proficiency

Students who reside in a state that does not have a basic skills exam have three options for completing this requirement. Students must pass the Praxis I exam at the cut score determined by the College of Education.

* Reading 169

* Writing 172

* Math 170

Students must pass the Essential Academic Skills provided by National Evaluation Systems at the cut scores determined by the national benchmark.

* Essential Academic Skills Subtest I: Reading - 220

* Essential Academic Skills Subtest II: Writing - 220

* Essential Academic Skills Subtest III: Mathematics - 220

* Essential Academic Skills Subtest IV: Technology Literacy - 220

Core Academic Skills for Educators (Core)

* Core Academic Skills for Educators: Reading 156

* Core Academic Skills for Educators: Writing - 162

* Core Academic Skills for Educators: Mathematics - 150

- Verification of fingerprint clearance

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E

- Completion of a minimum of 120 credits that include the following distribution:
 - A minimum of 60 upper division credits in the Required Program Category Preferred Sequence.
 - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).

- Satisfactory completion of any required internship, student teaching, practicum courses and/or alternative clinical practice.
- Complete course within the sequence specified by course prerequisite requirements.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Complete Field Experience Observation Record (100 hours).
- All Students must complete the minimum number of credits required by their degree program.
- The diploma awarded for this program will read as:
Bachelor of Science in Education
Elementary Education

Academic Progression Requirements for the BSED/E

- Students placed in the Accelerated Pathway (A Track) are required to successfully complete GEN 201 followed by HUM 115 prior to proceeding into additional coursework in their programs.
- Standard pathway (B Track) students must satisfy all three (3) courses from the standard pathway prior to enrolling in any other course: GEN 127, HUM 115, ENG 147
- With the exception of ENG 147, GEN 127, GEN 201, and HUM 115, General Education and Elective course requirements may be satisfied by any of the following means:
 - University of Phoenix coursework,
 - Regionally or nationally accredited coursework (C- or higher grade),
 - National Testing Programs, and
 - ACE evaluated Military credits.
- Accelerated Pathway (A Track) students who meet the following criteria may satisfy the HUM 115 requirement with transfer coursework:
 - Students transferring to UoPX with a regionally accredited Associate of Arts degree from a community college.
 - Students transferring to UoPX with an Associate's Degree from an articulated institution where the Program Transfer Guide requirements do not mandate completion of a critical thinking course.
- Concurrent enrollment is prohibited during the following courses: GEN 201, GEN 127, ENG 147, or HUM 115.
- Accelerated Pathway (A Track) students may not enroll in GEN 127 or ENG 147 to satisfy programmatic prerequisites, general education or elective requirements.
- Continuously enrolled students in an approved entry point course should not execute a program or version change until completion of the entry point course to determine if the pathway diagnostic is required based on the outcome of the course.
- Students who have successfully completed an approved entry point course in a degree program and are re-entry or executing a program change will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track).
- Students who previously completed an approved entry point course and choose to transition to the standard pathway (B Track) are not required to take GEN 127.
- Students may not complete any of the following courses via Directed Study: GEN 201, GEN 127, ENG 147, or HUM 115.
- Satisfy University Proficiency Requirements

- Undergraduate students must satisfy math and English proficiencies as a condition of degree conferral and as a degree progression requirement prior to specific courses in their program.
- Students have the following options to fulfill proficiency:
 - Successful completion of University of Phoenix math and English courses designated as applicable to the proficiency requirement
 - Comparable regionally or approved nationally accredited transfer, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
 - Completed within ten years of enrollment
 - Grade of C- or better (or academic equivalent)
 - At least 2.67 semester credits
 - Eligible to receive general education credits
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam completed within ten years of enrollment.
- Demonstrate competency by meeting minimum passing score on University of Phoenix approved placement exam.
- Students who satisfied the English and/or math proficiency and sign a new enrollment agreement may carry forward the completed proficiency in their new program/version provided they have remained in continuous attendance in alignment with the University's Re-Entry policy.
- Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:
 - Passing scores on the designated state content knowledge exam.
 - Verification of immunization or TB test results (district specific)
 - Verification of the completion of 100 hours of field experience
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
 - All students must complete GEN 201 or GEN 127 as their first course at the University.
- Students must complete all General Education requirements prior to completion of EDU 390.

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" (grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: EDU 390, EED 498, EED 499
- Candidates must earn a "B" or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.

- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.

Upon the successful completion of the Child Development Associate (CDA) candidates transferring to University of Phoenix may waive 12 credits using the following coursework in the BSED/E program. The options for credit application are based upon specific GE requirements for each state.

- * 3 credits in social studies
- * 9 credits in additional liberal arts

OR

- *12 credits in social studies

OR

- *12 credits in any combination of social studies, additional liberal arts or electives

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.

- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, GEN 127, GEN 201, RDG 415, SPE 300

General Education Requirements for the BSED/E

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits

Must include: HUM 115

B track must include ENG 147

Mathematics Requirement(s) 12 credits

6 credits must include MTH 213 and MTH 214

Physical/Biological Science Requirement(s) 6 credits

Social Studies Requirement(s) 9 credits

3 credits must include HIS 301 or HIS 110

Effective for Enrollment Agreements signed 7/1/2014 or later 3 credits

must include ETH 120. Prior to 7/1/2014, 3 credits must include SOC 315

Fine Arts Requirement(s) 3 credits

Art, music, drama or dance

Humanities Requirement(s) 3 credits

Additional Liberal Arts Requirement(s) 9 credits

All undergraduate students are required to complete the minimum general education credits required by their program version.

Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Field Experience for BSED/E

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

Student Teaching for the BSED/E

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at

their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a K-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.
- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
 - Transcripts documenting of a minimum of 24 semester credits in their content area
 - Passing scores on the state mandated content exam
- Candidates must earn a "B" or better in Elementary Education Seminar. If a candidate receives less than a "B" (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Re-entry for the BSED/E

Re-entry students who have successfully completed an approved entry point course in a degree program will not be required to complete the pathway diagnostic and will be placed in the Accelerated Pathway (A Track). They will not be required to enroll in the standard pathway (B Track) courses.

Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum and can complete within their original deadline may reenter their original program version.

However, if the state certification requirements have changed since a candidate went out of attendance needing only student teaching, internship or practicum, in addition to the admissions paperwork required by the University Re-entry policy, the candidate must complete an Enrollment Agreement Addendum before reentry to the original program version will be approved.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/E

- Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).
- Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and be degree conferred. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates must pass their state-mandated professional knowledge exam.
- Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

THIS PAGE WAS LEFT BLANK INTENTIONALLY

GRADUATE PROGRAMS

Admission Procedures

Application Process

Students seeking admission to the University's graduate programs in business, management, information systems, nursing, counseling, or education begin the admission process by submitting a complete and accurate application. An application which is later verified to contain incomplete, false or misleading information may be grounds for dismissal and administrative withdrawal. Once the application has been received by the University, applicants are responsible for ensuring the completion of their admission file. No applicant will be formally accepted for admission until their admission file is complete and officially evaluated. Formal written notice is provided by the central Office of Admissions & Evaluation upon formal acceptance.

The University will advise students which admission file documents are required in order to begin a program of study. Students may attend their first four courses under Registered status. Students, however, must submit all admission documentation and gain unconditional admission status prior to the start of their fifth course. Students failing to submit all documentation prior to the end of the required time frame will be administratively withdrawn until formally admitted by the central Office of Admissions & Evaluation. The University cannot guarantee that a student who begins course work under Registered status will be admitted to the degree program.

Applications of individuals who have not gained admission or enrolled in the University will be kept on file for one year. After that time, the applicant is required to submit a new application and material. A second application fee (if applicable) is not required.

Transcript Requests of Other Institutions

Because institutions vary in the time they take to respond to transcript requests, all transcripts should be requested immediately upon submission of an application and application fee (if applicable). University staff will process all requests for transcripts on behalf of the student unless the transferring institution does not accept third party requests. However, it remains the student's responsibility to ensure that all transcripts are submitted to the University. The student must sign a "Transcript Request Form" for each transcript being requested from educational institutions. The University's application fee (if applicable) covers the student's expense for requesting official transcripts.

General International Admissions Information

Graduate applicants relying on educational credentials from an institution outside of the United States to meet admission requirements may enroll in University of Phoenix courses prior to the student being officially admitted only if they meet all the following requirements:

- If residing in the United States, have an appropriate immigrant or nonimmigrant status which does not prohibit educational studies

- Graduate applicants must have a professional evaluation report (or pre-eval completed by the Office of Admissions and Records from a country that the Office of Admissions & Records evaluates in-house) indicating that the student has the appropriate academic background to meet the admission requirements, and

- All other program specific admission requirements must be met. An applicant who has earned an undergraduate degree, or other transfer credit, from an institution outside of the United States, but has earned a Master's degree from a regionally accredited or approved nationally accredited institution is eligible to enroll in the University at the graduate level provided all program specific policies have been met by the previous credential earned without requiring an evaluation of the previous international credentials.

Undergraduate applicants relying on educational credentials from an institution outside of the United States may enroll in University of Phoenix courses upon the completion of their admission application and enrollment agreement provided that they meet all admission requirements for their selected program.

For applicants with academic records from colleges or universities earned outside of the United States, the University will accept copies of academic records issued from international institutions to conduct a pre-evaluation to determine comparability of previous academic studies for unofficial placement and advisement purposes.

For official admission and transfer credit evaluation purposes previous academic credentials earned outside of the United States must meet the University's verification standards prior to an official admission or transfer credit decision being rendered. Verification of previous academic credentials earned outside of the United States can be satisfied by the following methods.

- Receipt and verification of official academic credentials issued directly to University of Phoenix by the student's previous institution, or
- Receipt and verification of official academic credentials held in possession of the student as the official record of academic studies conducted in the student's specific country, or
- Receipt and verification of official correspondence issued directly to University of Phoenix by the student's previous institution indicating copies of academic credentials and/or level study is valid, or
- Receipt of an official professional evaluation issued directly from a professional evaluation agency that is approved to satisfy verification requirements as indicated by the Office of Admission and Records.

For applicants with academic records from colleges or universities earned outside of the United States from a regionally accredited or approved nationally accredited institution, academic credentials will be subject to the same policies as credentials issued from a domestic institution.

Secondary completion credentials earned outside of the United States are considered comparable to United States secondary completion credentials and do not need to be validated unless required by the student's state or jurisdiction.

Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official

language, must meet the English language proficiency requirement for admission. Specific English language proficiency policies will be listed in the admission requirements section for each program.

If documents are issued to University of Phoenix in a language other than English, the student will be required to obtain an official translation and submit it to University of Phoenix. Translations must be completed/verified by an official translation service, a foreign language department of an accredited college or university, the country's embassy/consulate or by the Office of Admission and Records at University of Phoenix if translation services are provided for that specific language.

The University is authorized under Federal law to enroll nonimmigrant students. University of Phoenix only issues Forms I-20/A-B to Border Commuters and approved doctoral learners during their residency in the United States. Form I-20/A-B is required by students who need to obtain F-1 (Student) visas to attend school in the United States. The University is only authorized to issue the I-20 for students attending specific campus locations and programs recorded with DHS.

Admission Deadlines

The University cannot guarantee that a student who begins coursework will be admitted to his/her degree or credit-bearing certificate program. Students in all programs must be officially admitted by the completion of their fourth University course. Students who are unable to be admitted by the completion of their fourth University course will be administratively withdrawn from the University and placed on Admission Deadline Exceeded (DE) admission status.

Admissions Appeal Process for Expelled Students

Expelled students are not eligible for admission to University of Phoenix. No appeals will be accepted for students expelled from University of Phoenix. Appeals will be reviewed for students who were expelled from other institutions. Applicants for admission are not eligible to begin classes until formal approval of the appeal is obtained.

Graduate Admission Requirements

For graduate education and doctoral admission requirements please refer to the education and doctoral section(s) of the catalog. Most graduate programs have additional admission requirements listed within the program specific information. All applicants are expected to meet the following admission requirements:

• Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet one of the following exceptions in order to meet the English Language Proficiency Requirement:

- achieved a minimum score of 213 on the computer-based test (cBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.

-or-

- achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.

-or-

- achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.

-or-

- achieved a minimum score of 69 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam within two years of application to the University

-or-

- successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.

-or-

- achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.

• The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:

- The applicant has successfully completed thirty (30) transferable, academic semester credits at a regionally or nationally accredited college or university in the United States.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized college or university in a country in which English is the official language.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized institution where English is the medium of instruction.
- The applicant has previously earned, prior to applying for admission to the University of Phoenix, a U.S. high school diploma or G.E.D. Applicants that list any language other than English as their native language on the admission application and G.E.D is taken, must submit a copy of the G.E.D to verify it was taken in the English version format.
- The applicant has earned the equivalent of a U.S. high school diploma in a country in which English is the official language.
- The applicant has earned the equivalent of a U.S. high school diploma at an institution where English is the medium of instruction.

• Applicants who reside in the United States must meet one of the following requirements:

- Be a legal resident of the United States
- Have been granted permanent residency
- Have a valid visa that does not prohibit educational studies
- Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
- Have been granted asylum or refugee status.

• Applicants who reside in Canada must meet one of the following requirements:

- Be a legal resident of Canada

- Be a landed immigrant
- Have a valid visa that does not prohibit educational studies
- Students may not receive a graduate degree and a graduate-level certificate in the same area of focus.
- A signed Enrollment/Disclosure Agreement.
- Completion of any state-specific required documents or forms.
- Applicants who have been expelled from other institutions are not eligible for admission to University of Phoenix.
- Students who have been expelled from University of Phoenix are not eligible for readmission to University of Phoenix. No appeals will be accepted.

Students who begin their studies at campuses located in the states listed below are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

- Students attending a local campus in Oklahoma must provide written documentation of vaccinations or immunity against Hepatitis B, measles, mumps, and rubella (MMR). Students must demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.
- Students attending a physical campus in the state of Tennessee are required to submit a Hepatitis B Waiver form to the University.

Students attending a local campus in the states listed below are required to submit health insurance information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

- Full and part-time students enrolled in a college, university or other institution of higher learning in Massachusetts must participate in a school sponsored health insurance plan, or an alternate plan with comparable coverage. All full and part-time students attending a Massachusetts local campus must complete the Student Health Insurance Plan Enrollment/Acknowledgement form indicating either that they have either enrolled in the University's sponsored plan or that they decline participation in the University sponsored plan as they have comparable health insurance coverage. Students must complete and submit this form prior to enrolling in any class. Students who do not complete the Enrollment/Acknowledgement form each calendar year may not enroll in further courses until the form has been completed and the student has appropriate health insurance coverage.

Students who begin their studies at campuses located in Hawaii are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1956, be immunized for measles-mumps-rubella (MMR). Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.

Exemptions from the MMR immunization requirement may be granted for the following reasons:

- A medical exemption may be granted to specific vaccines.

- A U.S. licensed physician (M.D. or D.O.) must state in writing that giving a specific vaccine would endanger the student's life or health, and specify the reason based on valid medical contraindications.
- The physician must state the length of time during which the vaccine would endanger the student's health or life.
- The exemption certification must be signed by the physician on the physician's printed stationery.
- A religious exemption may be granted if the student signs a statement certifying that the student's religious beliefs prohibit the practice of immunization.
- If the State of Hawaii Director of Health determines that there is a danger of an outbreak from any of the diseases for which immunization is required, no exemption shall be recognized and inadequately immunized students shall be excluded from school until the Director has determined that the outbreak is over.
- A copy of each exemption must be kept in the student's health record at school.

The Hawaii State Department of Health requires that all students attending school at a campus in this state shall provide a Certificate of TB Examination issued in the United States within 12 months prior to their first attendance in a post-secondary school in Hawaii. A completed Certificate of TB Examination shall be submitted prior to the first night of class or the student will not be permitted to attend class. Students shall complete Section A of this form, or submit a copy of their TB Clearance Certification received prior to their attendance at another Hawaii post-secondary school.

Students residing in the state of Connecticut are required to submit immunization information to the University. The state appropriate forms must be completed and sent to Office of Admissions & Records.

In accordance with Section 10a-155 of the Connecticut general statutes, all full time or matriculating students will be required to demonstrate proof of adequate immunization against measles, mumps, rubella (MMR) and varicella as recommended by the Advisory Committee for Immunization Practices (ACIP). For more specific state information, refer to the link below. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a university course and documentation concerning this requirement must be on file at the time of admission to the university.

Exemptions from the MMR and varicella immunization requirements may be granted for the following reasons:

- The student was born before January 1, 1957 (applicable to MMR vaccine only).
- The student was born in the United States before January 1, 1980 (applicable to the varicella (chicken pox) vaccine only).
- The student has documentation from a physician stating that it is medically inadvisable to receive the vaccines for the one or more of the diseases as indicated on the immunization form.
- The student has documentation from a physician or director of health that he/she has had a confirmed case of one or more of the diseases as indicated on the immunization form.
- The student has laboratory confirmation of immunity to the disease(s) as indicated on the immunization form.
- The student has submitted a statement that immunization is contrary to his/her religious beliefs.

- The student is enrolled exclusively in the Online Campus and does not congregate with other students on campus or at campus-sponsored events. If the student later decides to attend a class at a University of Phoenix local campus location in Connecticut, the student must meet the immunization requirements before he/she may begin attending classes at a local campus location.
- The student graduated from a public or nonpublic high school in the state of Connecticut in 1999 or later and was not exempt from the measles, rubella and on or after August 1, 2010, the mumps vaccination requirement pursuant to subdivision (2) or (3) of subsection (a) of section 10-204a.

COLLEGE OF SECURITY AND CRIMINAL JUSTICE

The College of Security and Criminal Justice prepares students for professional and management-related career opportunities in criminal justice and security by applying a multidisciplinary comparative management approach to criminal justice theory and application. Students will be prepared to understand, explain, and predict criminal justice and security concepts and to contribute to the development of public and private policy within communities. Our mission is to enhance the academic preparation and professionalism of the nation's criminal justice and security communities through access to quality criminal justice and security higher education. The College of Security and Criminal Justice provides innovative, respected, relevant, affordable, and student-focused programs, designed to prepare students for opportunities of service and leadership in a diverse, global society. Curriculum is delivered by experts who relate both theory and practice in this evolving field. The College has earned respect through continuous improvement driven by a combination of innovation in the field and empirical evidence of learning outcomes, all of which is accomplished through the integrity, teamwork, and creativity of college faculty and staff. We are a respected criminal justice and security college, known for its distinctive strengths in providing superior and relevant educational programs to its students.

It is the student's responsibility to ascertain whether their past history and conduct may prohibit their placement or participation in the criminal justice and security field. The University makes no guarantee or representation that the student will meet all qualifications for such employment or licensure for the occupation or profession related to the chosen program.

Master of Science/Administration of Justice and Security

The following Master of Science/Administration of Justice and Security (MS/AJS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The mission of the Master of Science/Administration of Justice and Security degree program is to provide criminal justice practitioners, pre-service students and second career students with administrative skills required in both public and private sector criminal justice organizations. While distinctions between the roles of justice and security organizations are understood, the degree emphasizes an understanding of administrative responsibilities common to both disciplines. Consistent with the University of Phoenix Mission Statement, and focuses on organizational productivity, leadership, and providing quality service in criminal justice organizations and the community are stressed. The degree provides students with administrative program and policy development and problem solving skills that blend industry theory with best practices and practical application. This degree should be of particular interest to criminal justice practitioners, pre-service students and second career students seeking executive, management, promotional or transitional opportunities in the management of

police, corrections, court operations, and security organizations. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/ms-ajs>.

MS/AJS Preferred Course Sequence

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

AJS 503	1 credit
Introduction to Graduate Study in Criminal Justice and Security	
AJS 504 ~	3 credits
Survey of Justice and Security	
AJS 514 ~	3 credits
Criminological Theory	
AJS 524 ~	3 credits
Cybercrime and Information Systems Security

Program Development and Evaluation	
The University reserves the right to modify the required course of study.	
<i>The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.</i>	
<i>The Master of Science/Administration of Justice and Security program does not satisfy the requirements of the Minnesota Police Officer Standards and Training Board. Students will not qualify to be a police officer nor sit for the licensing exam in Minnesota upon successful completion of this program. The University's Criminal Justice programs are edu-</i>	

tional degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

Additional Admission Requirements for the MS/AJS

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A minimum of three (3) years of full-time, post-high school professional work experience.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.
- Signed Acknowledgement Form

Degree Requirements for the MS/AJS

- The completion of a minimum of 37 credits.
- A minimum program grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as:
Master of Science
Administration of Justice and Security

Residency Requirements and Course Waivers for the MS/AJS

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 28 credits in the Required Course of Study, must be completed at University of Phoenix.
- Students in this program may waive a maximum of 9 credits from their required course of study.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
 - The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
 - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.

• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

- Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.
- The following courses in the Required Course of Study may not be waived: AJS 594

Re-entry for the MS/AJS

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Master of Public Administration

The following Master of Public Administration (MPA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Public Administration (MPA) program is designed to prepare students for a leadership career within private, non-profit, and public service organizations and communities. To prepare students for leadership careers in public administration, the program focuses on the regulatory, political, economic, social, and cultural environments and the theories and concepts that influence management and evaluation of diverse public service organizations, programs and processes; presents social entrepreneurial and business approaches to public service issues and opportunities at the state, county and local levels of government; and emphasizes adherence to the values and ethical principles of the public administration profession in all aspects of public service. The Masters of Public Administration program curriculum is based on the current accreditation standards set forth by the National Association of Schools of Public Affairs and Administration (NASPAA).

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/>

COLLEGE OF SOCIAL SCIENCES

The College of Social Sciences offers undergraduate and graduate degree programs in a number of diverse academic areas including counseling, psychology, and human services. In addition, the college offers a certificate program in mediation.

The College provides innovative educational programs designed to enhance the core knowledge, skills and values essential for students seeking to achieve their academic goals in the field of social sciences. These programs are developed and taught by skilled practitioners who work in their respective fields. Through individual and collaborative work, students can acquire the knowledge and skills needed in today's working environment.

Master of Science in Counseling Clinical Mental Health Counseling

The following Master of Science in Counseling Clinical Mental Health Counseling (MSC/CCMH) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Science in Counseling: Clinical Mental Health Counseling is a 63 credit program that prepares graduates to work as practitioners with diverse clients in various mental health environments, including private practice, hospitals, and public and private mental health agencies. Students learn the foundations of counseling including theories and their application with groups and individuals; assessment and evaluation; counseling and consultative relationships; career planning; research methods; legal and ethical concerns, trauma and crisis, and program development, implementation, and evaluation. The program addresses critical issues facing counselors and includes supervised practicum and internship experiences where students obtain practical experience prior to graduation. Students in the program must pass the Counselor Preparation Comprehensive Examination (CPCE) as part of the graduation requirements.

This program meets the California LPCC educational requirements for registration with the Board of Behavioral Sciences (BBS) as an Professional Clinical Counselor Intern (PCCI). Upon successful completion of all educational requirements and required postgraduate supervised clinical hours, graduates are eligible to sit for the LPCC licensure exams in California.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/msc-ccmh>.

Program Purpose

In order to practice as a counselor in most states, the student must be licensed as an LPC (Licensed Professional Counselor), MFT (Marriage and Family Therapist) or other comparable state professional license designation. License requirements vary by state. It is the student's responsibility to ascertain and meet licensure requirements in any state in

which the student desires to practice.

The Master of Science in Counseling/Clinical Mental Health Counseling degree program meets the California LPCC educational requirements for registration with the Board of Behavioral Sciences (BBS) as a Licensed Professional Clinical Counselor Intern (PCCI). Upon successful completion of all educational requirements and required postgraduate supervised clinical hours, graduates are eligible to sit for the LPCC licensure exams in California.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

Core Counseling Program Student Learning Outcomes

- Students will be able to integrate legal and ethical standards of the counseling profession in all aspects of professional practice.
- Students will be able to apply the historical, philosophical and theoretical foundations of the counseling profession in all aspects of professional practice.
- Students will be able to synthesize aspects of professional functioning to develop a professional counselor identity.
- Students will be able to apply multicultural competencies in all aspects of professional practice.
- Students will be able to analyze the needs of diverse groups to advocate for equitable mental health and counseling services, programs, policies and interventions.
- Students will be able to apply theories of human growth and development in all aspects of professional practice in diverse societies.
- Students will be able to apply career development theories and models to all aspects of educational and career counseling in a global economy.
- Students will be able to apply counseling theories, techniques and processes to develop a personal model of counseling practice to help diverse clients.
- Students will be able to apply theoretical and experiential group approaches in all aspects of professional practice in diverse societies.
- Students will be able to ethically apply psychological measurement theories and concepts in assessment and evaluation in multicultural societies.
- Students will be able to analyze counseling research and ethically apply the findings in an evidence-based practice and program evaluation.

CCMH-Specific Program Student Learning Outcomes

- Students will be able to analyze the effect of mental health policies, regulatory processes and legal standards in the practice of mental health counseling.
- Students will be able to apply culturally responsive mental health counseling, prevention, intervention and referral practices in mental health counseling.
- Students will be able to apply developmentally appropriate diagnostic principals and tools in all aspects of mental health counseling.

Program Category Requirements for the MSC/CCMH

Practicum in Clinical Mental Health Counseling	
CCMH 597A~	3 credits
Internship A	
CCMH 597B ~	3 credits
Internship B	

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSC/CCMH

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A signed Criminal Conviction Disclosure Form.
- A signed Professional Counseling Non-Academic Requirement Addendum Form.
- Official transcripts listing at least six (6) credits in the helping professions (psychology, counseling, or related) or education with a grade of "C" or better in each course. The six credits must have been completed prior to the student starting CNSL 500 - Orientation to the Counseling Profession.
- A minimum equivalent of two (2) years of full-time, post-high school paid and/or volunteer work experience with direct exposure to human services, human resources, primary, secondary or higher education, or organizational systems and associated management processes is required.
- Successful completion of CNSL 500, Orientation to the Counseling Profession. If the student is denied admission because of the unacceptable grade, the student may reapply for the Counseling program in 30 days and would be required to retake and pass CNSL 500. A student failing CNSL 500 on the second attempt, must wait 6 months before reapplying. Passing CNSL 500 is limited to a total of three attempts.

Degree Requirements for the MSC/CCMH

- Completion of a minimum of 63 credits.
- A minimum program grade point average (GPA) of 3.0.
- Students are required to complete and earn the minimum score for the Counselor Preparation Comprehensive Exam (CPCE) or another assessment/examination instrument as authorized by the Dean of the College. Successful completion of this assessment is a degree completion and graduation requirement. The CPCE may not be scheduled before the Practicum. The University provides students with the opportunity to take the exam three times at no cost. Additional attempts to pass the exam are the student's financial responsibility.
 - This program requires a minimum percentage of 60
- Completion of Internship (600 hours) and Practicum (100 hours).
- The diploma awarded for this program will read as:
Master of Science in Counseling
Clinical Mental Health Counseling

Academic Progression Requirements for the MSC/CCMH

- Residency courses contain multiple requirements for academic progression; therefore sufficient time is needed for faculty to conduct a thorough assessment of student coursework.
Residency courses are: CNSL 503R, CNSL 513R, CNSL 523R.

- Clinical Practice courses contain multiple requirements for academic progression; therefore sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Clinical Practice courses are: CCMH 592, CCMH 597A, CCMH 597B.
- The following Clinical courses contain multiple requirements for academic progression; therefore sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Clinical courses are: CCMH 515, CCMH 548, CCMH 551, CCMH 568, CNSL 500.
- Completion of all courses with a grade of "B-" or better. Students must maintain an overall GPA of at least 3.0.

Academic Standing and Minimum Grade Requirements for the MSC/CCMH

- Students in this program may not attend any further courses after being assigned a grade of incomplete in a course.
- MSC students will be placed on Scholastic Disqualification if a minimum grade of "B-" is not attained in any course. If a student repeats a course due to receiving a grade that is less than a "B-", and does not receive a grade of "B-" or better the second time, the student will be scholastically suspended, permanently withdrawn, from this program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have fulfilled the requirements for reentry as determined by the Campus College Chair.
- Students must successfully complete CNSL 503R Graduate Portfolio Residency I in order to continue in this program. Students who don't successfully complete CNSL 503R may not enroll in any subsequent coursework until the course has been successfully completed. Students who fail CNSL 503R may repeat the course after three (3) months. If the student does not meet the minimum grade requirement on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program.
- Students in the College of Social Science graduate programs may not transfer credit to the University from courses taken from other schools while academically or scholastically disqualified.

Residency Requirements and Course Waivers for the MSC/CCMH

- Students in this program may waive a maximum of 9 credits from their required course of study.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
 - The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
 - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
 - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

- The following courses in the Required Course of Study may not be waived: CCMH 515, CCMH 515CA, CCMH 522, CCMH 547, CCMH 548, CCMH 558, CCMH 565, CCMH 581, CCMH 592, CCMH 597A, CCMH 597B, CNSL 500, CNSL 503R, CNSL 513R, CNSL 523R

Re-entry for the MSC/CCMH

All students who have been out of attendance for one (1) year or more in a counseling program must retake and pass the most recently graded Residency class.

If a student is required to retake CNSL 503R Residency I: Basic Helping Competencies upon re-entry and does not pass the course, the student may reapply for the Counseling program in three (3) months and would be required to retake and pass CNSL 503R. A student failing CNSL 503R on the second attempt, must wait six (6) months before reapplying. Passing CNSL 503R is limited to a total of three attempts.

Master of Science in Counseling Clinical Mental Health Counseling (Utah)

The following Master of Science in Counseling Clinical Mental Health Counseling (MSC/CCMH) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Science in Counseling: Clinical Mental Health Counseling is a 66 credit program that prepares graduates to work as practitioners with diverse clients in various mental health environments, including private practice, hospitals, and public and private mental health agencies. Students learn the foundations of counseling including theories and their application with groups and individuals; assessment and evaluation; counseling and consultative relationships; career planning; research methods; legal and ethical concerns, trauma and crisis, and program development, implementation, and evaluation. The program addresses critical issues facing counselors and includes supervised practicum and internship experiences where students obtain practical experience prior to graduation. Students in the program must pass the Counselor Preparation Comprehensive Examination (CPCE) as part of the graduation requirements.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/msc-ccmh>.

Program Purpose

In order to practice as a counselor in most states, the student must be licensed as an LPC (Licensed Professional Counselor), MFT (Marriage and Family Therapist) or other comparable state professional license designation. License requirements vary by state. It is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social Sciences graduating students are intended to attain certain program-specific knowledge, skills and

abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

Core Counseling Program Student Learning Outcomes

- Students will be able to integrate legal and ethical standards of the counseling profession in all aspects of professional practice.
- Students will be able to apply the historical, philosophical and theoretical foundations of the counseling profession in all aspects of professional practice.
- Students will be able to synthesize aspects of professional functioning to develop a professional counselor identity.
- Students will be able to apply multicultural competencies in all aspects of professional practice.
- Students will be able to analyze the needs of diverse groups to advocate for equitable mental health and counseling services, programs, policies and interventions.
- Students will be able to apply theories of human growth and development in all aspects of professional practice in diverse societies.
- Students will be able to apply career development theories and models to all aspects of educational and career counseling in a global economy.
- Students will be able to apply counseling theories, techniques and processes to develop a personal model of counseling practice to help diverse clients.
- Students will be able to apply theoretical and experiential group approaches in all aspects of professional practice in diverse societies.
- Students will be able to ethically apply psychological measurement theories and concepts in assessment and evaluation in multicultural societies.
- Students will be able to analyze counseling research and ethically apply the findings in an evidence-based practice and program evaluation.

CCMH-Specific Program Student Learning Outcomes

- Students will be able to analyze the effect of mental health policies, regulatory processes and legal standards in the practice of mental health counseling.
- Students will be able to apply culturally responsive mental health counseling, prevention, intervention and referral practices in mental health counseling.
- Students will be able to apply developmentally appropriate diagnostic principals and tools in all aspects of mental health counseling.

Residency III	

Clinical Placement, 12 total credits

CCMH 592 ~	3 credits
Practicum in Clinical Mental Health Counseling	
CCMH 597A ~	3 credits
Internship A	
CCMH 597B ~	3 credits
Internship B	
CCMH 597C ~	3 credits
Internship C	

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSC/CCMH

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A signed Criminal Conviction Disclosure Form.
- A signed Professional Counseling Non-Academic Requirement Addendum Form.
- Official transcripts listing at least six (6) credits in the helping professions (psychology, counseling, or related) or education with a grade of "C" or better in each course. The six credits must have been completed prior to the student starting CNSL/500 - Orientation to the Counseling Profession.
- A minimum equivalent of two (2) years of full-time, post-high school paid and/or volunteer work experience with direct exposure to human services, human resources, primary, secondary or higher education, or organizational systems and associated management processes is required.
- Successful completion of CNSL 500, Orientation to the Counseling Profession. If the student is denied admission because of the unacceptable grade, the student may reapply for the Counseling program in 30 days and would be required to retake and pass CNSL 500. A student failing CNSL 500 on the second attempt, must wait 6 months before reapplying. Passing CNSL 500 is limited to a total of three attempts.

Degree Requirements for the MSC/CCMH

- Completion of a minimum of 66 credits.
- A minimum program grade point average (GPA) of 3.0.
- Students are required to complete and earn the minimum score for the Counselor Preparation Comprehensive Exam (CPCE) or another assessment/examination instrument as authorized by the Dean of the College. Successful completion of this assessment is a degree completion and graduation requirement. The CPCE may not be scheduled before the Practicum. The University provides students with the opportunity to take the exam three times at no cost. Additional attempts to pass the exam are the student's financial responsibility.
 - This program requires a minimum percentage of 60
- Completion of Internship (900 hours) and Practicum (100 hours).
- The diploma awarded for this program will read as:
Master of Science in Counseling
Clinical Mental Health Counseling

Academic Progression Requirements for the MSC/CCMH

- Residency courses contain multiple requirements for academic progression; therefore sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Residency courses are: CNSL 503R, CNSL 513R, CNSL 523R
- Clinical Practice courses contain multiple requirements for academic progression; therefore sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Clinical Practice courses are: CCMH 592, CCMH 597A, CCMH 597B, CCMH 597C
- The following Clinical courses contain multiple requirements for academic progression; therefore sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Clinical courses are: CCMH 515, CCMH 548, CCMH 551, CCMH 568, CNSL 500
- Completion of all courses with a grade of "B-" or better. Students must maintain an overall GPA of at least 3.0.

Academic Standing and Minimum Grade Requirements for the

MSC/CCMH

- Students in this program may not attend any further courses after being assigned a grade of incomplete in a course.
- MSC students will be placed on Scholastic Disqualification if a minimum grade of "B-" is not attained in any course. If a student repeats a course due to receiving a grade that is less than a "B-" and does not receive a grade of "B-" or better the second time, the student will be scholastically suspended, permanently withdrawn, from this program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have fulfilled the requirements for reentry as determined by the Campus College Chair.
- Students must successfully complete CNSL/503R Graduate Portfolio Residency I in order to continue in this program. Students who don't successfully complete CNSL/503R may not enroll in any subsequent coursework until the course has been successfully completed. Students who fail CNSL/503R may repeat the course after three (3) months. If the student does not meet the minimum grade requirement on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program.
- Students in the College of Social Science graduate programs may not transfer credit to the University from courses taken from other schools while academically or scholastically disqualified.

Residency Requirements and Course Waivers for the MSC/CCMH

- Students in this program may waive a maximum of 9 credits from their required course of study.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
 - The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
 - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
 - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- The following courses in the Required Course of Study may not be waived: CCMH 515, CCMH 522, CCMH 547, CCMH 548, CCMH 558, CCMH 565, CCMH 581, CCMH 592, CCMH 597A, CCMH 597B, CCMH 597C, CNSL 500, CNSL 503R, CNSL 513R, CNSL 523R

Re-entry for the MSC/CCMH

All students who have been out of attendance for one (1) year or more in a counseling program must retake and pass the most recently graded Residency class.

If a student is required to retake CNSL 503R Residency I: Basic Helping Competencies upon re-entry and does not pass the course, the student may reapply for the Counseling program in three (3) months and would be required to retake and pass CNSL 503R. A

student failing CNSL 503R on the second attempt, must wait six (6) months before reapplying. Passing CNSL 503R is limited to a total of three attempts.

Master of Science in Counseling Clinical Mental Health Counseling (Nevada)

The following Master of Science in Counseling Clinical Mental Health Counseling (MSC/CCMH) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

Master of Science in Psychology

The following Master of Science in Psychology (MSP) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Science in Psychology focuses on the scientific study of human behavior including cognition, motivation and emotion. The program provides training in four core areas: biological bases of behavior, acquired or learned bases of behavior, social, cultural and systemic influences on behavior and individual differences in behavior. Students will learn how the science of psychology is advanced through research. Emphasis is placed on critical thinking, problem-solving and the application of knowledge to problems and issues related to the human experience. This program is not designed to prepare students for professional licensure. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/ms-p>.

Program Purpose

The Master of Science in Psychology is an educational degree program that provides a foundation of knowledge in the field of psychology. This program does not prepare students for any type of professional certification or licensure as a psychologist.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to analyze the major concepts, theories, methodologies and historical trends in psychology.
- Students will be able to apply the scientific method to research-related activities in psychology.
- Students will be able to apply psychological principles to address personal, social and organizational problems and/or issues.
- Students will be able to apply the APA code of ethics when resolving problems and/or issues related to human behavior and conducting psychological research.
- Students will be able to interpret relevant psychological theories, interventions and research results from a global perspective.

The University reserves the right to modify the required course of study.	

Additional Admission Requirements for the MSP

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university, or comparable undergraduate bachelor's degree earned at a recognized foreign institution, or a graduate degree from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No work experience is required for this program.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MSP

- Completion of a minimum of 39 credits.
 - A minimum grade point average (GPA) of 3.0.
 - Concentrations are reflected on the transcript only and will not appear on the diploma.
- The diploma awarded for this program will read as:
Master of Science in Psychology

Academic Progression Requirements for the MSP

- Students must successfully complete COM 600 with a B or better.

Minimum Grade Requirements for the MSP

COM 600 must be completed with a grade of B or better. Students who do not pass this course with a grade of B or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and permanently withdrawn from the program.

Residency Requirements and Course Waivers for the MSP

Students must meet established University residency requirement for degree conferral. The University requires that the majority of

coursework, 30 credits from the Required Course of Study must be completed at University of Phoenix.

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 600, PSYCH 610, PSYCH 660, PSYCH 665

Re-entry for the MSP

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Master of Science in Psychology Concentration in Industrial-Organizational Psychology

The following Master of Science in Psychology Concentration in Industrial-Organizational Psychology (MSP/I-O) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Science in Psychology focuses on the scientific study of human behavior including cognition, motivation and emotion. The program provides training in four core areas: biological bases of behavior acquired or learned bases of behavior, social, cultural and systemic influences on behavior and individual differences in behavior. Students will learn how the science of psychology is advanced through research. Emphasis is placed on critical thinking, problem-solving and the application of knowledge to problems and issues related to the human experience. This program is not designed to prepare students for professional licensure.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/ms-p>.

Program Purpose

The Master of Science in Psychology Concentration in Industrial-Organizational Psychology is an educational degree program that provides a foundation of knowledge in the field of psychology. This program does not prepare students for any type of professional certification or licensure as a psychologist.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to analyze the major concepts, theories, methodologies and historical trends in psychology.
- Students will be able to apply the scientific method to research-related activities in psychology.
- Students will be able to apply psychological principles to address personal, social and organizational problems and/or issues.
- Students will be able to apply the APA code of ethics when resolving problems and/or issues related to human behavior and conducting psychological research.
- Students will be able to interpret relevant psychological theories, interventions and research results from a global perspective.

MSP/I-O Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

COM 600	3 credits
Communication Skills for Graduate Study

Ethics and Professional Issues

PSYCH 665 ~ 3 credits

Integrative Capstone: Psychology Past and Present

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSP/I-O

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university, or comparable undergraduate bachelor's degree earned at a recognized foreign institution, or a graduate degree from an ABA accredited institution (i.e- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No work experience is required for this program.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MSP/I-O

- Completion of a minimum of 51 credits.
- A minimum grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma.

The diploma awarded for this program will read as:
Master of Science in Psychology

Academic Progression Requirements for the MSP/I-O

- Students must successfully complete COM 600 with a B or better.

Minimum Grade Requirements for the MSP/I-O

COM 600 must be completed with a grade of B or better. Students who do not pass this course with a grade of B or better will be academically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt will be Academically Suspended and permanently withdrawn from the program.

Residency Requirements and Course Waivers for the MSP/I-O

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 42 credits from the Required Course of Study must be completed at University of Phoenix.

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.

- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 600, PSYCH 610, PSYCH 660, PSYCH 665

Re-entry for the MSP/I-O

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

SCHOOL OF BUSINESS

We prepare future leaders for business excellence.

Consistent with the values, mission, and purpose of the University of Phoenix, the mission of the School of Business is to provide effective and accessible higher education that prepares its students to be ethical practitioners and leaders. Our goal is to make a difference in the lives of our students and their organizations. We achieve this by always acting with a sense of social responsibility and in a manner consistent with our core values.

In particular we:

- Define quality as standards-based, industry-aligned, career-relevant educational curriculum, linked to current and future business needs
- Commit to excellence in teaching and to leveraging innovative teaching methodologies
- Be relentless in driving institutional self-assessment and continuous quality improvement

By 2020, through its integrated network of faculty, staff and business collaborators, the University of Phoenix, School of Business will be a preferred source for finding and developing emerging leaders for organizations.

Master of Business Administration

The following Master of Business Administration (MBA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Business Administration (MBA) program prepares students in the functional areas of business allowing them to develop managerial skills necessary to be effective in a rapidly changing business environment. The program is based on current research of managerial competencies and graduate business standards as tested by existing national standardized graduate business examinations.

In addition to the University of Phoenix learning goals, the MBA program prepares students to:

- Demonstrate the knowledge and skills needed to identify and solve organizational problems using a systematic decision-making approach.
- Demonstrate the knowledge and skills needed to manage, develop, and motivate personnel to meet changing organizational needs in a global business environment.
- Apply critical analysis of alternatives under conditions of uncertainty.
- Develop awareness of their own values and the effect of those values on organizational decision making.
- Assess whether an organization's plans and actions align with its values.

- Comprehend the application of a significant amount of business administration knowledge within the domains of management, business law, human capital management, organizational leadership, quantitative reasoning for business, economics, accounting, applied business research & statistics, operations management, corporate finance, marketing, and strategic planning & implementation.

Students can gain additional knowledge in a concentration area through the selection and completion of up to 15 graduate-level credits in required concentration-specific courses.

Students may also complete an additional concentration. Please contact your academic representative for more information.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mba>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Business graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will apply key systematic and analytical decision-making skills to solve complex organizational problems.
- Students will create strategies for business growth based on the alignment of their personal values against the organization's values.
- Students will apply key managerial skills to foster innovation and lead change in a dynamic business environment.
- Students will evaluate the implications of changing environmental factors on organizational choices within a global environment.
- Students will apply key disciplinary skills to the following domains of the MBA program as practitioners in business:
 - Human capital management
 - Business law
 - Organizational leadership
 - Economics
 - Accounting
 - Research and statistics
 - Operations management
 - Corporate finance
 - Marketing
 - Strategic planning and implementation

Technology Transfer in the Global Economy

TMGT 590 ~ 3 credits

Applications of Technology Management

The University reserves the right to modify the required course of study. Please note that within each state, concentration availability may vary by campus location.

Additional Admission Requirements for the MBA

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No work experience is required for this program.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MBA

The degree requirements for this program are the following:

- A minimum of 36 graduate credits must be completed to meet all areas of the required course of study.
- A minimum grade point average (GPA) of 3.0.
- Students must take courses within a sequence specified by course prerequisite requirements.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Business Administration

Academic Progression Requirements for the MBA

- MGT 521 must be the first course taken.
- QRB 501 must be satisfied prior to progressing in courses in Economics, Accounting, Applied Business Research & Statistics, Operations Management, Corporate Finance, Marketing, and Strategic Planning & Implementation.
- Strategic Planning & Implementation (STR 581 or an alternative strategy course) must be taken as the last core course in the program.

Residency Requirements and Course Waivers for the MBA

- The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 30 graduate level credits at the University.
- In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:
 - The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
 - The course must have been completed within the past ten (10) years with a "B" (3.0) or better; and
 - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Management (MGT 521) may not be waived.
- Strategic Planning & Implementation (STR 581 or an alternative strategy course), which is the last core course in the program, may not be waived.

- Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.

- The following courses may not be waived: ACC 541, CAP GM591, EM 555, EM 595, GMGT 510, HCS 531, HCS 586, HRM 595, MGT 521, MKT 593, PM 598, QRB 501, STR 581

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.

The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.

- Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
- Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Students who have completed Meritus University graduate MBA courses may transfer all courses earned at Meritus University into the MBA program at the University of Phoenix without limitation provided that they sign an Enrollment Agreement for the University of Phoenix MBA program by March 1, 2012. Students transferring from Meritus University to University of Phoenix will still be required to satisfy all program requirements for the University of Phoenix MBA program and complete at least 3 credits at University of Phoenix in order to obtain their MBA degree from University of Phoenix.

Re-entry for the MBA

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Master of Business Administration (Certificate Track)

The following Master of Business Administration (MBA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Business Administration (MBA) program prepares students in the functional areas of business allowing them to develop managerial skills necessary to be effective in a rapidly changing business environment. The program is based on current research of managerial competencies and graduate business standards as tested by existing national standardized graduate business examinations. In addition to the University of Phoenix learning goals, the MBA program prepares students to:

- Demonstrate the knowledge and skills needed to identify and solve organizational problems using a systematic decision-making approach.
- Demonstrate the knowledge and skills needed to manage, develop, and motivate personnel to meet changing organizational needs in a global business environment.
- Apply critical analysis of alternatives under conditions of uncertainty.
- Develop awareness of their own values and the effect of those values on organizational decision making.
- Assess whether an organization's plans and actions align with its values.
- Comprehend the application of a significant amount of business administration knowledge within the domains of management, business law, human capital management, organizational leadership, quantitative reasoning for business, economics, accounting, applied business research & statistics, operations management, corporate finance, marketing, and strategic planning & implementation.

The MBA consists of 36-51 credit hours. Thirty-six credit hours constitute the required course of study. Students can gain additional knowledge in a concentration area through the selection and completion of concentration-specific courses.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mba>.

Program Student Learning Outcomes

General Information for the MBA

- The Certificate Track graduate program is designed to be an option for students to earn a certificate en-route to earning the graduate degree.
- Students who completed a certificate in its entirety and who later choose to enroll in a graduate program with a concentration in the same area of focus as the completed certificate will not be required to enroll in the Certificate Track and will not earn a second certificate en-route to completing the graduate program.

Additional Admission Requirements for the MBA

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No prior work experience is required for this program.
- Applicants must have access to a suitable work environment for the completion of course assignments.

- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MBA

The degree requirements for this program are the following:

- Completion of a minimum of 36-51 credits.
- A minimum grade point average (GPA) of 3.0.
- Students must take courses within a sequence specified by course prerequisite requirements.
- Students may earn a certificate in the same area of focus as the concentration en-route to completing the graduate degree. Students may apply for certificate conferral meeting the following program requirements:
 - Successful completion of all courses outlined in the enrollment agreement for the certificate.
 - Achievement of the minimum program GPA.
 - Fulfillment of the minimum University residency requirement.

Students must successfully complete the following programmatic requirements for certificate conferral:

Graduate Accounting Certificate (CERT/G-ACC) - 15 credits

Foundational coursework

- ACC 541 - Accounting Theory & Research
- ACC 561 - Accounting

Graduate Accounting Certificate Electives (Choose 3):

- ACC 542 - Accounting Information Systems
- ACC 543 - Managerial Accounting & Legal Aspects of Business
- ACC 544 - Internal Control Systems
- ACC 545 - Financial Reporting
- ACC 546 - Auditing
- ACC 547 - Taxation
- ACC 548 - Not-for-Profit & Government Accounting
- ACC 556 - Forensic Accounting
- ETH 557 - Accounting Ethics

Graduate Human Resources Management Certificate (CERT/G-HRM) - 15 credits

Foundational coursework

- HRM 531 - Human Capital Management
- HRM 595 - Human Resource Capstone Course

Graduate Human Resource Management Certificate Electives (Choose 3):

- HRM 546 - Human Resource Law
- HRM 548 - Recruitment and Retention Practices
- HRM 552 - Organizational Training and Development
- HRM 558 - Research in Human Resource Management

Graduate Marketing Certificate (CERT/G-MKT) - 15 credits

Foundational coursework

- MKT 571 - Marketing
- MKT 593 - Product Design and Development

Graduate Marketing Certificate Electives (Choose 3):

- MKT 544 - Integrated Marketing Communications
- MKT 552 - Technology Applications and e-Marketing
- MKT 554 - Consumer Behavior
- MKT 562 - Advanced International Marketing

Graduate Project Management Certificate (G-PM) - 18

- MGT 521 - Management

- PM 571 - Project Management
- PM 582 - Project Leadership
- PM 584 - Project Risk Management
- PM 586 - Project Quality Management
- PM 598 - Project Management Capstone

Students can only earn one certificate en-route to completing the graduate program.

Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Business Administration

Academic Progression Requirements for the MBA

- The Program Requirement in Management must be completed first.
- The Program Requirement in Quantitative Reasoning for Business must be satisfied prior to progressing in courses in Economics, Accounting, Applied Business Research & Statistics, Operations Management, Corporate Finance, Marketing, and Strategic Planning & Implementation.
- Strategic Planning & Implementation (STR 581 or an alternative strategy course) must be taken as the last core course in the program.

Residency Requirements and Course Waivers for the MBA

The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 30 graduate level credits at the University.

In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years with a "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.

The following courses may not be waived: ACC 541, HRM 595, MGT 521, MKT 593, PM 598, QRB 501, STR 581

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

Re-entry for the MBA

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without

appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Master of Management

The following Master of Management (MM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Management degree program promotes the development of management competencies through the practical application of theory, business and management diagnostics, and the formulation of creative management and consulting solutions. Students will acquire a wide range of tools, concepts and methodologies to design, conduct, and follow through on successful leadership and entrepreneurship practices. In addition, students will be able to actively develop their interpersonal and business-related management skills in order to foster leadership, creative thinking, collegiality, and teamwork ability in an international context. The Master of Management will provide students with first-hand knowledge of the tools and techniques used by successful consultants in the competitive leadership, entrepreneurship and management industry.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mm>.

Project Budget and Finance

Management, 3 total credits

MGT 521 3 credits
Management

Entrepreneurial Project, 3 total credits

ENT 588 ~ 3 credits
Innovation and Design: Capstone Project

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MM

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No work experience is required for this program.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MM

- Completion of a minimum of 39 credits.
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as:
Master of Management

Academic Progression for the MM

- Students must complete the following three Master of Management (MM) foundational courses before proceeding into any additional coursework for the program: BUS 502, BUS 503, BUS 511

Residency Requirements and Course Waivers for the MM

The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 30 graduate level credits at the University.

Students may waive the three foundational courses (BUS 511, BUS 502, and BUS 503) using one of the following methods:

- Successful completion of approved University of Phoenix coursework and equivalents.
- Undergraduate degree in Business or Accounting completed within 10 years from current program enrollment agreement sign date.
- Graduate degree in Business.
- At least 30 credits in undergraduate and/or graduate level business or accounting-related coursework completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university within ten years from current program enrollment agreement sign date.

Only the three foundational courses can be waived, no other required course of study courses can be waived.

Re-entry for the MM

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.
- Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.
- Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Master of Science in Accountancy

The following Master of Science in Accountancy (MSA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Science in Accountancy (MSA) provides the breadth of knowledge for the professional accountant. Students master the theory and principles that frame a wide range of problems and issues encountered in the accounting profession. This program is designed for accountants and non-accountants who are preparing for a professional certification in accounting such as the uniform Certified Public Accountant (CPA) exam. This degree will allow students to seek positions in such career areas as accounting, auditing, and budgeting. The MSA core curriculum covers the following areas of accounting: accounting theory and research, accounting information systems, managerial accounting and legal aspects of business, internal control systems, financial reporting, auditing, taxation, not-for-profit and government accounting, forensic accounting, and accounting ethics. The core courses were designed based upon the standards proposed by the National Association of State Boards of Accountancy (NASBA). This program addresses the goals of the American Institute of Certified Public Accountants (AICPA) for the professional values, communications and leadership skills, strategic and critical thinking skills, and technology skills (The American Institute of Certified Public Accountants, 2015). In addition, this program utilizes CPA Exam Prep software, which is integrated throughout the core program.

Note: Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. While this program was designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA), the University of Phoenix cannot, and will not, provide any assurance that completion of this program will allow a successful student to qualify within the student's specific jurisdiction. Potential applicants should check with the appropriate organization within their jurisdiction to determine if this program, combined with their undergraduate degree and any other specific criteria, meets the requirements to qualify for examination in that specific jurisdiction. States frequently change their requirements for examination. There is no assurance that at the time of degree completion the specific jurisdiction's requirements will be consistent with the requirements at the time of admission.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/msa>.

MSA Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

En-Route Credentials for the MSA

Students may declare and earn an additional credential that is approved in their state or jurisdiction en-route to completing the graduate degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of

desired credentials to be earned. Possible credentials include a graduate certificate. Listed below are all of the possible en-route credentials:

- Graduate CPA Bridge Certificate

Students may apply for conferral of an en-route credential upon meeting the following program requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
- Achievement of the minimum program GPA

• Fulfillment of the minimum University residency requirement
Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Additional Admission Requirements for the MSA

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No work experience is required for this program.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.

Academic Progression Requirements for the MSA

- Students must complete COM 530 as the first course in the program.
- After COM 530, students must complete the following three Master of Science in Accountancy (MSA) foundational courses before proceeding into any additional coursework for the program: BUS 511, BUS 502, BUS 503

Degree Requirements for the MSA

The degree requirements for this program are the following:

- A minimum of 45 graduate credits.
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as:
Master of Science in Accountancy

Residency Requirements and Course Waivers for the MSA

The University requires completion of a minimum of 21 graduate level credits at the University to meet residency requirements.

Students may satisfy the three foundational courses (BUS 511, BUS 502, and BUS 503) using one of the following methods:

- Successful completion of approved University of Phoenix coursework and equivalents.
- Undergraduate degree in Business or Accounting completed within 10 years from current program enrollment agreement sign date.
- Graduate degree in Business.
- At least 30 credits in undergraduate and/or graduate level business or accounting-related coursework completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university within ten years from current program enrollment agreement sign date.

Eligible students may satisfy COM 530 and ACC 537 using one of

the following methods:

- Six semester credits of upper-division undergraduate coursework or three semester credits of graduate coursework in communications that meets the following requirements will satisfy COM 530:
 - The coursework must have been completed at a regionally or approved nationally accredited, foreign equivalency, or candidate for accreditation, college or university,
 - The coursework must have been completed with a C- or better, within the past ten (10) years from current program enrollment agreement sign date
 - A Waiver Request Form must be submitted listing six semester credits of upper division undergraduate coursework or three semester credits of graduate coursework and the courses requested to be satisfied as some students may wish to complete one or more of the courses to improve their ability to succeed in the MSA Program.
- Six semester credits of upper-division undergraduate coursework or three semester credits of graduate coursework in financial accounting that meets the following requirements will satisfy ACC 537:
 - The coursework must have been completed at a regionally or approved nationally accredited, foreign equivalency, or candidate for accreditation, college or university,
 - The coursework must have been completed with a C- or better, within the past ten (10) years from current program enrollment agreement sign date
 - A Waiver Request Form must be submitted listing six semester credits of upper division undergraduate coursework or three semester credits of graduate coursework and the courses requested to be satisfied as some students may wish to complete one or more of the courses to improve their ability to succeed in the MSA Program.

In addition to waiving the foundational courses and COM 530 and ACC 537 using one of the approved methods, students may also waive a maximum of nine (9) credits in the MSA Core on the basis of prior graduate-level college coursework.

In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.

Re-entry for the MSA

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

COLLEGE OF INFORMATION SYSTEMS AND TECHNOLOGY

The College of Information Systems and Technology prepares students for professional and management-related career opportunities in six different IT pathways and provides the knowledge students need to successfully apply information systems theory and principles that address real world business opportunities and challenges that meet the needs of today's information economy. Students will be prepared to work in core technologies such as systems integration, web systems, network architecture, database design, information security, programming and other IT principles. Our mission is to provide industry-relevant education through innovative learning pathways, which will prepare learners for career success. The College of Information Systems and Technology delivers real-time, IT education solutions that are experiential, relevant and applicable to solving IT challenges anywhere, any place, and at any time. The curriculum in the College of Information Systems and Technology is delivered by experts who relate both theory and practice in this evolving, fast-paced industry. Each degree and certificate program is aligned to one or more of over 40 industry certifications so students are provided the relevant, hands-on learning they need to be successful in this industry. The College of Information Systems and Technology is continuously updating curriculum, staying relevant in the industry and evolving with the always changing world of technology, all of which is accomplished through dedication, creativity and teamwork of the college faculty and staff. The College of Information Systems and Technology is an innovative, education leader in the IT industry and proud to partner with Fortune 1000 companies and other entities and creators of emerging IT standards nationwide.

Master of Information Systems

The following Master of Information Systems (MIS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Information Systems (MIS) program provides the knowledge to successfully apply information systems theory and principles to address real world business opportunities and challenges to meet the needs of today's information economy. Under the guidance of practitioner faculty, the graduate student will use innovative digital materials to understand the development and management of business systems within the organization, to understand and apply the principles of systems analysis and design, to analyze and evaluate emerging information technologies, and to create project, risk, and information systems strategic plans.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mis>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Information Systems and Technology

graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to design and plan for the development of an information system to address the needs of an organization.
- Students will be able to create the plans required for key roles, resources, operational metrics and risk responses needed to implement and maintain information systems within an organization.
- Students will be able to develop methods and tools for communication to facilitate the satisfactory completion of processes required to manage IT resources.
- Students will be able to generate the vision, direction and strategic purpose for the creation of an information systems project.
- Students will be able to construct a plan to verify that the regulations, compliance and security issues within an organization are addressed.
- Students will be able to explain and develop an effective IT project plan meeting professional standards.

En-Route Credentials for the MIS

Students may declare and earn an additional credential that is approved in their state or jurisdiction en-route to completing the graduate degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include a graduate certificate. Listed below are all of the possible en-route

credentials:

- Graduate Business Analytics Certificate
- Graduate Information Systems Management Certificate
- Graduate Cyber Security Certificate

Students may apply for conferral of an en-route credential upon meeting the following program requirements:

- Successful completion of all the courses outlined in the enrollment agreement for the credential
- Achievement of the minimum program GPA
- Fulfillment of the minimum University residency requirement

Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Admission Requirements for the MIS

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Applicants must have access to a suitable work environment for the completion of course assignments.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- Signed Hardware/Software Agreement

Degree Requirements for the MIS

- Completion of a minimum of 42 credits that include the following distribution:
 - Required Course of Study - 24 credits
 - Graduate Electives - 18 credits
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as: Master of Information Systems

Residency Requirements and Course Waivers for the MIS

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 24 credits in the program, must be completed at University of Phoenix.

Students in this program may waive a maximum of 9 credits from their required course of study.

In order to waive a course in the major course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better; and

- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The 18 credit Graduate Electives requirement may be satisfied by any of the following means:

- Any pre-determined 3-credit Graduate UOPX courses.
- Any previously completed Graduate coursework from UOPX.
- Graduate transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.
- Graduate Certificate approved in the student's state or jurisdiction.

Students earning a certificate en-route to completing the graduate degree may waive a maximum of 6 credits within the certificate program in addition to the 9 credits that can be waived in the MIS required course of study by meeting the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.

Re-entry for the MIS

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

COLLEGE OF HEALTH PROFESSIONS

The College of Health Professions provides a blend of the business and management focus of health care with the clinical/delivery focus of nursing. Each academic program area will provide stu-

dents with the insight and perspectives needed to support their specific career focus.

School of Health Services Administration

As the health care industry expands and evolves at a rapid rate, jobs in health care administration (the “business” side of health care) are expected to increase by 23 percent between 2012 and 2022.¹

Whether you are already working in the field and looking to deepen your knowledge and advance in your profession, or if you are new to health care and want to gain the skills needed to launch a new career, The University of Phoenix® School of Health Services Administration will equip you with the leading-edge training you need to succeed in today’s dynamic health care environment—and to effectively tackle all of tomorrow’s challenges.

Master of Health Administration

The following Master of Health Administration (MHA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Health Administration (MHA) program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry. These individuals have a capacity to critically examine and evaluate issues and trends and are influential to the destiny of a broad and dynamic health care system. Curriculum is tailored to the needs of the health care leader/manager by providing content in finance, policy, research, technology, quality improvement, economics and strategic planning. In addition to the University Learning Goals, graduates of the MHA program will:

- Create a strategic plan for a health care organization, analyze the impact of health care policy on delivery and services provided by the industry, evaluate informational technology and security management needs of health care, utilize data to support quality and performance measure decision-making processes for health care entities, demonstrate management of organizational finances within the economic environment of various health care industries, and analyze the impact of various management and leadership theories within health care organizations and delivery systems.

Students can gain additional knowledge through the selection and completion of a 9 credit specialization in their area of interest.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mha>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Health Services Administration graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you com-

plete this program.

- Students will be able to create a strategic plan for a health care organization.
- Students will be able to analyze the impact of health care policy on processes, products and services in the health care industry.
- Students will be able to evaluate informational technology and security management needs of health care.
- Students will be able to evaluate evidence-based data to support quality and performance measures within the health care industry.
- Students will be able to demonstrate management of organizational finances within the economic environment of various health care industries.
- Students will be able to analyze the impact of various management and leadership theories within health care organizations and delivery systems.

Leadership	
HCS 529 ~.....	3 credits
Contemporary Health Care Facility Design	
HCS 542 ~.....	3 credits
Health Care Research	

Capstone, 3 total credits

HCS 589 ~.....	3 credits
Health Care Strategic Management	

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MHA

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA

- Completion of a minimum of 43 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Health Administration

- Students who have earned a graduate degree in Health Administration (MHA) may not receive a certificate in the same area of focus. Example: a student may not earn an MHA/GER degree and a GER certificate; however, students who have completed a certificate may return to receive a Master of Health Administration (MHA) degree with a concentration in the same area as the completed certificate or another approved concentration.

Residency Requirements and Course Waivers for the MHA

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.

The following courses in the Required Course of Study may not be waived: HCS 504, HCS 589

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.

The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.

- Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
- Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Minimum Grade Requirements for the MHA

- Students in this program are required to achieve a minimum grade of "B" (3.0) in following course: HCS 589. A "B-" grade is not acceptable. Students who fail to receive a minimum grade of "B" will be scholastically disqualified from the University.

- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Re-entry for the MHA

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Master of Health Administration Concentration in Education

The following Master of Health Administration Concentration in Education (MHA/ED) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Health Administration (MHA) program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry. These individuals have a capacity to critically examine and evaluate issues and trends and are influential to the destiny of a broad and dynamic health care system. Curriculum is tailored to the needs of the health care leader/manager by providing content in finance, policy, research, technology, quality improvement, economics and strategic planning. In addition to the University Learning Goals, graduates of the MHA program will: create a strategic plan for a health care organization, analyze the impact of health care policy on delivery and services provided by the industry, evaluate informational technology and security management needs of health care, utilize data to support quality and performance measure decision-making processes for health care entities, demonstrate management of organizational finances within the economic environment of various health care industries, and analyze the impact of various management and leadership theories within health care organizations and delivery systems. Students can gain additional knowledge through the selection and completion of a 9 credit specialization in their area of interest. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mha>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Health Services Administration graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to create a strategic plan for a health care organization.
- Students will be able to analyze the impact of health care policy on processes, products and services in the health care industry.
- Students will be able to evaluate informational technology and security management needs of health care.
- Students will be able to evaluate evidence-based data to support quality and performance measures within the health care industry.
- Students will be able to demonstrate management of organizational finances within the economic environment of various health care industries.
- Students will be able to analyze the impact of various management and leadership theories within health care organizations and delivery systems.

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.

The following courses in the Required Course of Study may not be waived: HCS 504, HCS 589

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.

The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.

- Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
- Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Minimum Grade Requirements for the MHA/INF

- Students in this program are required to achieve a minimum grade of "B" (3.0) in following course: HCS 589. A "B-" grade is not acceptable. Students who fail to receive a minimum grade of "B" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Re-entry for the MHA/INF

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Master of Health Administration Concentration in Sustainability Management

The following Master of Health Administration Concentration in Sustainability Management (MHA/SUS) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Health Administration (MHA) program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry. These individuals have a capacity to critically examine and evaluate issues and trends and are influential to the destiny of a broad and dynamic health care system. Curriculum is tailored to the needs of the health care leader/manager by providing content in finance, policy, research, technology, quality improvement, economics and strategic planning. In addition to the University Learning Goals, graduates of the MHA program will: create a strategic plan for a health care organization, analyze the impact of health care policy on delivery and services provided by the industry, evaluate informational technology and security management needs of health care, utilize data to support quality and performance measure decision-making processes for health care entities, demonstrate management of organizational finances within the economic environment of various health care industries, and analyze the impact of various management and leadership theories within health care organizations and delivery systems. Students can gain additional knowledge through the selection and completion of a 9 credit specialization in their area of interest.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mha>.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Health Services Administration graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to create a strategic plan for a health care organization.
- Students will be able to analyze the impact of health care policy on processes, products and services in the health care industry.
- Students will be able to evaluate informational technology and security management needs of health care.
- Students will be able to evaluate evidence-based data to support quality and performance measures within the health care industry.
- Students will be able to demonstrate management of organizational finances within the economic environment of various health care industries.
- Students will be able to analyze the impact of various management and leadership theories within health care organizations and delivery systems.

Additional Admission Requirements for the MHA/SUS

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/SUS

- Completion of a minimum of 43 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Health Administration

- Students who have earned a graduate degree in Health Administration (MHA) may not receive a certificate in the same area of focus. Example: a student may not earn an MHA/GER degree and a GER certificate; however, students who have completed a certificate may return to receive a Master of Health Administration (MHA) degree with a concentration in the same area as the completed certificate or another approved concentration.

Residency Requirements and Course Waivers for the MHA/SUS

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.

The following courses in the Required Course of Study may not be waived: HCS 504, HCS 589

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.

The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.

- Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
- Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Minimum Grade Requirements for the MHA/SUS

- Students in this program are required to achieve a minimum grade of "B" (3.0) in following course: HCS 589. A "B-" grade is not acceptable. Students who fail to receive a minimum grade of "B" will be scholastically disqualified from the University.

- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Re-entry for the MHA/SUS

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Dual Degree in Master of Health Administration/ Master of Business Administration

The following Dual Degree in Master of Health Administration/Master of Business Administration (MHA/MBA) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Health Administration (MHA)/Master of Business Administration (MBA) dual degree program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry while providing in-depth knowledge to business management practices. The dual degree provides graduates with a distinct edge and greater flexibility in shaping a meaningful career by covering essential business knowledge and industry specific skills. Students have the capacity to critically examine and evaluate issues and trends that are influential to the destiny of a broad and evolving health care system. Curriculum is tailored to the needs of the health care business leader by providing content in areas such as finance, policy, research, technology, human resources, economics, marketing, and strategic planning. The program also emphasizes the identification, analysis, and solution of complex management problems for a growing industry. In addition, the dual degree offers students to customize the curriculum by selecting elective courses to maximize career goals and opportunities. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mha-mba>.

The University reserves the right to modify the required course of study.

General Information for the MHA/MBA/GR

- The Certificate Track graduate program is designed to be an option for students to earn a certificate en-route to earning the graduate degree.
- Students who completed a certificate in its entirety and who later choose to enroll in a graduate program with a concentration in the same area of focus as the completed certificate will not be required to enroll in the Certificate Track and will not earn a second certificate en-route to completing the graduate program.

Additional Admission Requirements for the MHA/MBA/GR

All applicants are expected to meet the following admissions

requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/MBA/GR

- The completion of a minimum of 70 credits.
- A minimum program grade point average (GPA) of 3.0.
- Students may earn a certificate in the same area of focus as the concentration en-route to completing the graduate degree. Students may apply for certificate conferral meeting the following program requirements:
 - Successful completion of all courses outlined in the enrollment agreement for the certificate.
 - Achievement of the minimum program GPA.
 - Fulfillment of the minimum University residency requirement.
- Concentrations are reflected on the transcript only and will not appear on the diplomas. Two diplomas will be awarded for this dual degree. The diplomas will read as:
Master of Health Administration
Master of Business Administration
- En-Route Certificate - Gerontology Health Care Certificate (GHC)

Residency Requirements and Course Waivers for the MHA/MBA/GR

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 46 credits in the Required Course of Study, must be completed at University of Phoenix.
- Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
 - The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
 - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.

- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Requests to waive a course within a concentration must be submitted to the Student Appeals Center (SAC).
- Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.
- The following courses in the Required Course of Study may not be waived: HCS 504, HCS 589, HRM 595, MGT 521, PM 598, QRB 501
- The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.
- The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.
- The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.
 - Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
 - Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Minimum Grade Requirements for the MHA/MBA/GR

- Students in this program are required to achieve a minimum grade of "B" (3.0) in the following course: HCS 589. A "B-" grade is not acceptable. Students who fail to receive a minimum grade of "B" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA/MBA/GR program.

Re-entry for the MHA/MBA/GR

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student. Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Dual Degree in Master of Health Administration/ Master of Business Administration/Concentration in Informatics

The following Dual Degree in Master of Health Administration/Master of Business Administration/Concentration in Informatics (MHA/MBA/IN) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Health Administration (MHA)/Master of Business Administration (MBA) dual degree program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry while providing in-depth knowledge to business management practices. The dual degree provides graduates with a distinct edge and greater flexibility in shaping a meaningful career by covering essential business knowledge and industry specific skills. Students have the capacity to critically examine and evaluate issues and trends that are influential to the destiny of a broad and evolving health care system. Curriculum is tailored to the needs of the health care business leader by providing content in areas such as finance, policy, research, technology, human resources, economics, marketing, and strategic planning. The program also emphasizes the identification, analysis, and solution of complex management problems for a growing industry. In addition, the dual degree offers students to customize the curriculum by selecting elective courses to maximize career goals and opportunities. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mha-mba>.

Additional Admission Requirements for the MHA/MBA/IN

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/MBA/IN

- The completion of a minimum of 67 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diplomas. Two diplomas will be awarded for this dual degree. The diplomas will read as:
Master of Health Administration
Master of Business Administration
- Students who have earned a graduate degree in Health Administration (MHA) or Business Administration (MBA) may not receive a certificate in the same area of focus. Example: a student may not earn an MHA/MBA/GR degree and a GER certificate; however, students who have completed a certificate may return to receive a Master of Health Administration/ Master of Business Administration (MHA/MBA) degree with a concentration in the same area as the completed certificate or another approved concentration.

Residency Requirements and Course Waivers for the MHA/MBA/IN

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 46 credits in the Required Course of Study, must be completed at University of Phoenix.
- Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

Additional Admission Requirements for the MHA/MBA/SM

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.

- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/MBA/SM

- The completion of a minimum of 67 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diplomas. Two diplomas will be awarded for this dual degree. The diplomas will read as:
Master of Health Administration
Master of Business Administration
- Students who have earned a graduate degree in Health Administration (MHA) or Business Administration (MBA) may not receive a certificate in the same area of focus. Example: a student may not earn an MHA/MBA/GR degree and a GER certificate; however, students who have completed a certificate may return to receive a Master of Health Administration/ Master of Business Administration (MHA/MBA) degree with a concentration in the same area as the completed certificate or another approved concentration.

Residency Requirements and Course Waivers for the MHA/MBA/SM

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 46 credits in the Required Course of Study, must be completed at University of Phoenix.
- Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
 - The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
 - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
 - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Requests to waive a course within a concentration must be submitted to the Student Appeals Center (SAC).
- Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.
- The following courses in the Required Course of Study may not be waived: HCS 504, HCS 589, HRM 595, MGT 521, PM 598, QRB 501

- The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.
- The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.
- The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.
 - Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
 - Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Minimum Grade Requirements for the MHA/MBA/SM

- Students in this program are required to achieve a minimum grade of "B" (3.0) in the following course: HCS 589. A "B-" grade is not acceptable. Students who fail to receive a minimum grade of "B" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA/MBA/SM program.

Re-entry for the MHA/MBA/SM

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student. Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Dual Degree in Master of Health Administration/ Master of Business Administration/Concentration in Sustainability Management (Certificate Track)

The following Dual Degree in Master of Health Administration/Master of Business Administration/Concentration in Sustainability Management (Certificate Track) (MHA/MBA/SM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Health Administration (MHA)/Master of Business

Administration (MBA) dual degree program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry while providing in-depth knowledge to business management practices. The dual degree provides graduates with a distinct edge and greater flexibility in shaping a meaningful career by covering essential business knowledge and industry specific skills. Students have the capacity to critically examine and evaluate issues and trends that are influential to the destiny of a broad and evolving health care system. Curriculum is tailored to the needs of the health care business leader by providing content in areas such as finance, policy, research, technology, human resources, economics, marketing, and strategic planning. The program also emphasizes the identification, analysis, and solution of complex management problems for a growing industry. In addition, the dual degree offers students to customize the curriculum by selecting elective courses to maximize career goals and opportunities. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mha-mba>.

Issues in Environmental Sustainability

HCS 589 ~ 3 credits

Health Care Strategic Management

The University reserves the right to modify the required course of study.

General Information for the MHA/MBA/SM

- The Certificate Track graduate program is designed to be an option for students to earn a certificate en-route to earning the graduate degree.

- Students who completed a certificate in its entirety and who later choose to enroll in a graduate program with a concentration in the same area of focus as the completed certificate will not be required to enroll in the Certificate Track and will not earn a second certificate en-route to completing the graduate program.

Additional Admission Requirements for the MHA/MBA/SM

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/MBA/SM

- The completion of a minimum of 67 credits.
- A minimum program grade point average (GPA) of 3.0.
- Students may earn a certificate in the same area of focus as the concentration en-route to completing the graduate degree. Students may apply for certificate conferral meeting the following program requirements:
 - Successful completion of all courses outlined in the enrollment agreement for the certificate.
 - Achievement of the minimum program GPA.
 - Fulfillment of the minimum University residency requirement.
- Concentrations are reflected on the transcript only and will not appear on the diplomas. Two diplomas will be awarded for this dual degree. The diplomas will read as:
Master of Health Administration
Master of Business Administration
- En-Route Certificate - Graduate Health Care Sustainability Management Certificate (CERT/G-HCS)

Residency Requirements and Course Waivers for the MHA/MBA/SM

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 46 credits in the Required Course of Study, must be completed at University of Phoenix.

General Information for the MHA/MBA/HR

- The Certificate Track graduate program is designed to be an option for students to earn a certificate en-route to earning the graduate degree.
- Students who completed a certificate in its entirety and who later choose to enroll in a graduate program with a concentration in the same area of focus as the completed certificate will not be required to enroll in the Certificate Track and will not earn a second certificate en-route to completing the graduate program.

Additional Admission Requirements for the MHA/MBA/HR

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/MBA/HR

- The completion of a minimum of 70 credits.
- A minimum program grade point average (GPA) of 3.0.
- Students may earn a certificate in the same area of focus as the concentration en-route to completing the graduate degree. Students may apply for certificate conferral meeting the following program requirements:

- Successful completion of all courses outlined in the enrollment agreement for the certificate.
- Achievement of the minimum program GPA.
- Fulfillment of the minimum University residency requirement.
- Concentrations are reflected on the transcript only and will not appear on the diplomas. Two diplomas will be awarded for this dual degree. The diplomas will read as:
Master of Health Administration
Master of Business Administration
- En-Route Certificate - Graduate Human Resource Management Certificate (CERT/G-HRM)

Residency Requirements and Course Waivers for the MHA/MBA/HR

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 46 credits in the Required Course of Study, must be completed at University of Phoenix.
- Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

- The following courses in the Required Course of Study may not be waived: HCS 504, HCS 589, HRM 595, MGT 521, PM 598, QRB 501
- The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.
- The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.
- The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.
 - Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
 - Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Minimum Grade Requirements for the MHA/MBA/HR

- Students in this program are required to achieve a minimum grade of "B" (3.0) in the following course: HCS 589. A "B-" grade is not acceptable. Students who fail to receive a minimum grade of "B" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA/MBA/HR program.

Re-entry for the MHA/MBA/HR

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/

restrictions. Re-entry students should consult their Academic Advisor for guidance.

Dual Degree in Master of Health Administration/ Master of Business Administration/Concentration in Project Management

The following Dual Degree in Master of Health Administration/Master of Business Administration/Concentration in Project Management (MHA/MBA/PM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Health Administration (MHA)/Master of Business Administration (MBA) dual degree program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry while providing in-depth knowledge to business management practices. The dual degree provides graduates with a distinct edge and greater flexibility in shaping a meaningful career by covering essential business knowledge and industry specific skills. Students have the capacity to critically examine and evaluate issues and trends that are influential to the destiny of a broad and evolving health care system. Curriculum is tailored to the needs of the health care business leader by providing content in areas such as finance, policy, research, technology, human resources, economics, marketing, and strategic planning. The program also emphasizes the identification, analysis, and solution of complex management problems for a growing industry. In addition, the dual degree offers students to customize the curriculum by selecting elective courses to maximize career goals and opportunities. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/mha-mba>.

Additional Admission Requirements for the MHA/MBA/PM

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/MBA/PM

- The completion of a minimum of 73 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diplomas. Two diplomas will be awarded for this dual degree. The diplomas will read as:
Master of Health Administration
Master of Business Administration
- Students who have earned a graduate degree in Health Administration (MHA) or Business Administration (MBA) may not receive a certificate in the same area of focus. Example: a student may not earn an MHA/MBA/GR degree and a GER certificate; however, students who have completed a certificate may return to receive a Master of Health Administration/ Master of Business Administration (MHA/MBA) degree with a concentration in the same area as the completed certificate or another approved concentration.

Residency Requirements and Course Waivers for the MHA/

MBA/PM

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 46 credits in the Required Course of Study, must be completed at University of Phoenix.
- Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
 - The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
 - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
 - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Requests to waive a course within a concentration must be submitted to the Student Appeals Center (SAC).
- Nationally recognized and/or industry accepted certifications may be used to waive certain courses in the Required Course of Study upon approval by the appropriate college or school that the courses reside under, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.
- The following courses in the Required Course of Study may not be waived: HCS 504, HCS 589, HRM 595, MGT 521, PM 598, QRB 501
- The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.
- The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.
- The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.
 - Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
 - Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Minimum Grade Requirements for the MHA/MBA/PM

- Students in this program are required to achieve a minimum grade of "B" (3.0) in the following course: HCS 589. A "B-" grade is not acceptable. Students who fail to receive a minimum grade of "B" will be scholastically disqualified from the University.

- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA/MBA/PM program.

Re-entry for the MHA/MBA/PM

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student. Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline. Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult their Academic Advisor for guidance.

Dual Degree in Master of Health Administration/ Master of Business Administration/Congcentration in Project Management (Certificate Track)

The following Dual Degree in Master of Health Administration/Master of Business Administration/Congcentration in Project Management (Certificate Track) (MHA/MBA/PM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. International Nursing Honor Society

The mission of Sigma Theta Tau International (STTI) is advancing world health and celebrating nursing excellence in scholarship, leadership, and service. The honor society provides products and services that advance the learning and professional development of members and all nurses who strive to improve the health of the world's people.

University of Phoenix, School of Nursing is a member of the Omicron Delta chapter of STTI, a virtual chapter that support members across the globe. Membership is by invitation to baccalaureate and graduate nursing students who demonstrate excellence in scholarship and to nurse leaders exhibiting exceptional achievements in nursing. Undergraduate students must have completed at least 1/2 of the nursing curriculum, rank in the upper 35 percent of his/her graduating class, achieved academic excellence (at least a 3.0 on a 4.0 grade point average scale) and met the expectation of academic integrity. Graduate students must have completed at least 1/4 of the nursing curriculum, achieved academic excellence (at least 3.5 on a 4.0 grade point average scale) and met the expectation of academic integrity.

STTI has more than 135,000 active members who reside in more than 85 countries. There are roughly 500 chapters at approximately 695 higher education institutions. To learn more about STTI visit their website at www.nursingsociety.org. To learn more about the Omicron Delta chapter visit their website at <http://www.omicrondelta.net>.

Academic Progression Requirements for all Current Nursing Programs (excluding BSN/I)

License Requirement

PN/VN to BSN students must possess an active unrestricted/unencumbered PN or VN license in the state where they are completing clinical hours. PN/VN to BSN students must hold a valid and unrestricted/unencumbered PN or VN license in all states and jurisdictions in which the applicant holds an active nursing license. RN to BSN, MSN and post-master's certificate students must hold a valid, unrestricted/unencumbered RN license in all states and jurisdictions in which the applicant holds an active nursing license. Students must also hold a valid and unrestricted/unencumbered RN license for the state in which they practice.

All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. With the exception of Hawaii, VA, and active duty military students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. In Hawaii, students must possess a valid Hawaii license.

Scholastic Disqualification

Students who receive a non-passing grade in a Nursing CORE course (CORE courses are listed in the program description of each

program handbook chapter) will be required to meet with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns prior to retaking the course that placed the student on scholastic disqualification. Students will also be required to complete and sign an Academic Progression Student Agreement Form.

For Students signing an enrollment agreement 10/1/2015 or later:

Students are permitted one retake of a nursing course due to non-passing grades. Students who fail to achieve the minimum grade on a second course will be scholastically suspended and permanently withdrawn from their nursing program.

Drug Testing

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion of substance abuse, or otherwise indicates that the student may be impaired by drugs or alcohol without reasonable justification, will be required to undergo a "for-cause" 10-panel drug screen plus an alcohol drug test.

1. For purposes of this policy, the following definitions apply:
 - Drug testing means the scientific analysis of urine, blood, breath, saliva, hair, tissue, and other specimens from the human body for the purpose of detecting the use of drugs or alcohol.
 - Reasonable suspicion means evidence which forms a reasonable basis for concluding that it is more likely than not that a person is impaired by alcohol or drugs or has engaged in substance abuse. Facts which could give rise to reasonable suspicion include, but are not limited to: the odor of alcohol or drugs, impaired behavior such as slurred speech, decreased motor coordination, difficulty in maintaining balance, marked changes in personality or job performance, and unexplained accidents, without reasonable justification. Such evidence may come from a professional or expert opinion, layperson opinion, scientific tests, or other sources or methods.
 - Illegal drug means any drug which is not legally obtainable; any drug which is legally obtainable but has not been legally obtained; any prescribed drug not legally obtained; any prescribed drug not being used for the prescribed purpose or by the person for whom it was prescribed; any over-the-counter drug being used at a dosage level other than that recommended by the manufacturer, or being used for a purpose other than the purpose intended by the manufacturer; and any drug being used for a purpose or by a person not in accordance with bona fide medical therapy. Examples of illegal drugs include, but are not limited to, stimulants; depressants; narcotic or hallucinogenic drugs; cannabis substances, such as marijuana and hashish; cocaine; heroin; methamphetamine; phencyclidine (PCP); and so-called designer drugs and look-alike drugs.
 - Impaired means that a person's mental or physical capabilities are reduced below his or her normal levels without reasonable justification. An impaired student manifests deterioration in the level of function as compared to that previously observed, or the student does not function at a level normally expected under the prevailing circumstances. Impairment may exist in one or more multiple domains, including psychomotor activity and skills, conceptual or factual recall, integrative or synthetic thought processes, judgment, attentiveness, demeanor and attitudes as manifested in speech or actions. Impairment will include addiction to and/or physical dependence upon alcohol or illegal drugs.
 - Substance abuse means:

- the consumption, possession, or distribution of alcohol or illegal drugs by any nursing student while on University or affiliated clinical site premises or while participating in any University (or affiliated clinical site) sponsored or related activity, including any nursing-related course or clinical training activity.
 - a nursing student's use of alcohol or any drug in such a way that the student's performance in any nursing course, including activities at any clinical site, is impaired.
2. Prior to being assigned to a clinical placement and as a prerequisite for placement at any agency or health care facility the nursing student shall sign an agreement:
- to abide by the drug policies and drug testing policies of the University and each agency or health care facility in which a student is assigned as applicable,
 - to submit to any "for cause" drug testing required by the University and testing required by each agency or health care facility the nursing student obtains clinical hours, and
 - to release a copy of any and all drug test results to the University of Phoenix, Dean / Associate Dean of Nursing, other appropriate University officials, and to any State Board(s) of Nursing in which the student holds a nursing license or certificate, where required by the relevant State Board(s) of Nursing.
- Failure to sign such agreement is grounds for refusal for student admission and progression in the program.
3. The College of Health Professions, School of Nursing requires students to obtain a 10 panel, plus alcohol drug test if the student's behavior in the clinical, classroom or laboratory setting creates facts that give rise to a reasonable suspicion of substance abuse, or indicates they are impaired by alcohol or drugs.
4. If the results of the 10 panel, plus alcohol drug test is negative for alcohol or illegal drugs:
- The student shall meet with their Campus College Chair, Director of Nursing, or NP Program Manager within 24 hours or by the first business day following the test results to discuss the circumstances surrounding suspected behavior.
 - The Campus College Chair, Director of Nursing, or NP Program Manager will counsel the student regarding return to the classroom and clinical agency. The preliminary investigation will cease and the student will be released from further action at that time.
 - The Campus College Chair, Director of Nursing, or NP Program Manager will arrange for the student to make up the missed clinical hours.
5. If the results of the 10 panel, plus alcohol drug test is positive for alcohol or illegal drugs:
- A full review by the Office of Dispute Management and Apollo Ethics and Compliance shall be conducted. Students who test positive for alcohol or illegal drugs will not be permitted to return to any clinical setting pending conclusion of the review. The findings may result in student dismissal from the nursing program and expulsion from the University.
 - The results of the positive test for alcohol or illegal drugs shall be reported to the applicable State Board(s) of Nursing, if required by the applicable State Board(s), by the Campus College Chair, Director of Nursing, or NP Program Manager.
6. If the results of the 10 panel, plus alcohol drug test(s) are positive for a prescribed drug(s) but not those that would be defined as illegal in the definitions above:
- The student shall, within three (3) business days, obtain a written statement from their treating, licensed health care provider (MD, DO, HMD, ND/NMD, NP or PA) stating that:
 - the drug level is within prescribed limits.
 - the level does not indicate abuse.
 - the student's use of the drug as prescribed will not interfere with safe practice in the clinical area.
- This statement must be provided to the Campus College Chair, Director of Nursing, or NP Program Manager. If the statement is approved, then the test result will be deemed acceptable and not failed for these purposes.
- The failure of a student to provide the above statement or a health care provider's inability to provide a statement meeting the requirements above shall be treated as a positive test for an illegal drug.
7. Students who refuse to submit to a "for-cause" drug test will not be allowed to return to any clinical setting pending conclusion of a full review by the Office of Dispute Management and Apollo Ethics and Compliance. The findings may result in dismissal from the nursing program and expulsion from the University. The results of a positive test for illegal drugs as defined herein or a refusal to undergo a required drug test will be reported to the applicable State Board of Nursing where required by the applicable State Board(s) of Nursing's statute(s) or regulation(s).
8. Students must also adhere to any other additional policies prescribed by the clinical agency. It is the sole responsibility of the student to read and acknowledge the requirements of the clinical health care facility in addition to University policy.
9. All costs associated with the drug test, including any transportation costs to or from the drug testing facility, will be the responsibility of the student.
10. University of Phoenix, College of Health Professions, School of Nursing, campus officials may be required to report all failed drug tests to each State Board of Nursing in which the student holds a nursing license or certificate. Campus officials shall report test results to all applicable State Boards of Nursing as described in the applicable Board's statutes and/or regulations.
- Master of Science in Nursing Concentration in Nurse Administration**
-
- The following Master of Science in Nursing Concentration in Nurse Administration (MSN/ADM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.*
-
- The Master of Science in Nursing (MSN) program, accredited by the Commission on Collegiate Nursing Education (CCNE)*, enhances the knowledge and skills of registered nurses with baccalaureate-degree preparation. The program prepares registered nurses to function in leadership roles in administration, practice, and education settings. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care. Students complete core courses in advanced nursing content, process, and leadership. Concentrations in nurs-

ing administration, nursing education, or family nurse practitioner allow students to concentrate on developing increased knowledge and skills in a specific area of content or advanced practice role.

**The Masters of Science degree programs are accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington DC 20036, (202)887-6791.*

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/msn-adm>.

Program Purpose

The Master of Science in Nursing/Nurse Administration is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a master's degree in nursing administration. The program prepares registered nurses to function in leadership roles in administration, practice and education settings. Upon completion of the program, graduates with the required practice experience will be prepared to sit for the American Nurses Credentialing Centers Nurse Executive Board Certification (NE-BC) exam.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to evaluate nursing and related sciences and humanities in all aspects of safe individually focused care for diverse populations in a variety of settings.
- Students will be able to apply organizational and systems leadership concepts to the management of human, fiscal and physical health care resources for diverse populations in a variety of settings.
- Students will be able to evaluate processes and systems for continuous quality improvement across the care continuum in a variety of settings.
- Students will be able to synthesize scholarship from a variety of sources and translate to promote implementation of evidence-based practice.
- Students will be able to evaluate informatics and health care technologies for integration into practice for enhanced care outcomes.
- Students will be able to evaluate health care policy, regulatory, legal economic and sociocultural environments to advocate for patients and effect change in the health care system based on their role.
- Students will be able to collaborate in inter- and intra-disciplinary teams to optimize patient and population health outcomes.
- Students will be able to design and deliver evidenced-based clinical prevention and population care and services for diverse populations in a variety of local, national and international settings.
- Students will be able to create a professional development plan to continuously facilitate the delivery of ethical, safe and quality care to diverse populations in a variety of settings.

MSN/ADM Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

HSN 505 ~.....	2 credits
Introduction to Graduate Studies in Nursing	
NSG 510 ~	3 credits
Theoretical Foundations of Nursing Roles and Practice	
NSG 515 ~	3 credits
Nursing Research and Evidence-Based Practice	
NSG 520 ~	3 credits
Nursing Leadership	
NSG 550 ~	3 credits
Role of the Nurse Administrator	
HSN 525 ~	4 credits
Research Methodologies for the Nurse Administrator	
HSN 555 ~	3 credits
Human Resources in Health Care	
HSN 560 ~	3 credits
Organizational Systems and Informatics	
HSN 565 ~	3 credits
Organizational Change and Negotiation	
HSN 570 ~	3 credits
Financial Resource Management	
HSN 575 ~	4 credits
Quality Management and Outcomes	
NSG 580 ~	4 credits
Practicum	

The University reserves the right to modify the required course of study.

State approval of a program to offer Alabama licensed nurses opportunities for advanced degrees does not indicate eligibility for approval to practice as an advanced practice nurse in Alabama. Applicants for approval in Alabama are required to meet the Alabama requirements for national certification, graduation from a specific-type program for the advanced practice approval, and completion of the appropriate application. Any program offering a pre-licensure track to Alabama students shall meet the requirements of the Alabama regulations for pre-licensure programs or the graduates may not be eligible to take the national licensure examination required by the Alabama Board of Nursing to enter practice. www.abn.alabama.gov

Additional Admission Requirements for the MSN/ADM

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelors degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- An undergraduate degree posted transcript with a cumulative grade point average (GPA) of 3.0 is required for all students residing in Oregon or attending the Oregon campus.
- Current employment is not a requirement for admission.

- For all students starting 7/1/2012 - Applicants must reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
 - Guam
 - American Samoa
 - Northern Mariana Islands
 - US Virgin Islands
- Effective 11/1/06, nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing. Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

Degree Requirements for the MSN/ADM

- Completion of a minimum of 38 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Science in Nursing

Academic Progression Requirements for the MSN/ADM

- Minimum grade of B- or better in all graduate level courses.
- For all students starting 7/1/2012- Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.
- Clinical experiences/hours cannot be completed during work time at the student's place of employment.
- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program. Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.

- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.
- A clinical course may not be taken concurrently with any other course. The clinical courses are in this program are NSG 550, HSN 525, HSN 555, HSN 560, HSN 565, HSN 570, HSN 575 and NSG 580.

Minimum Grade Requirements for the MSN/ADM

- All graduate level MSN courses must be completed with a grade of B- or better. Students who do not pass these classes with a grade of B- or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension.
- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program . Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.
- Effective for new Enrollment Agreements signed 10/1/2015 or later: Students cannot repeat more than one nursing or clinical course. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Master of Science in Nursing program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
 - Met with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
 - Completion of the academic progression student agreement form, signed by the student and returned to Campus College Chair, or designee.
 - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/ADM

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 8 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 550, HSN 525, HSN 555, HSN 560, HSN 565, HSN 570, HSN 575, NSG 580.

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.

The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.

- Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
- Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Re-entry for the MSN/ADM

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student to this program.

Re-entry students may re-enroll into their program version if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

An appeal will be required for re-entry students to re-enroll in their program if:

- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
- The student's program version is still the most current offered in their state or jurisdiction but they are unable to complete the remaining program requirements within the original program completion deadline.
- The student wishes to return to a prior program version and the student can complete their remaining requirements within the original program completion deadline.

Re-entry students will be required to submit an admissions application as well as all forms and documents required for readmission to the program at the time of re-entry.

Master of Science in Nursing Concentration in Nurse Administration Bridge

The following Master of Science in Nursing Concentration in Nurse Administration Bridge (MSN/ADM) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Science in Nursing (MSN) program, accredited by the Commission on Collegiate Nursing Education (CCNE)*, enhances the knowledge and skills of registered nurses with baccalaureate-degree preparation. The program prepares registered nurses to function in leadership roles in administration, practice, and education settings. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care. Students complete core courses in advanced nursing content, process, and leadership. Concentrations in nursing administration, nursing education, or family nurse practitioner allow students to concentrate on developing increased knowledge and skills in a specific area of content or advanced practice role.

Program Purpose

The Master of Science in Nursing/Nursing Administration is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a master's degree in nursing administration. The program prepares registered nurses to function in leadership roles in administration, practice and education settings. Upon completion of the program, graduates with the required practice experience will be prepared to sit for the American Nurses Credentialing Centers Nurse Executive Board Certification (NE-BC) exam.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to evaluate nursing and related sciences and humanities in all aspects of safe individually focused care for diverse populations in a variety of settings.
- Students will be able to apply organizational and systems leadership concepts to the management of human, fiscal and physical health care resources for diverse populations in a variety of settings.
- Students will be able to evaluate processes and systems for continuous quality improvement across the care continuum in a variety of settings.
- Students will be able to synthesize scholarship from a variety of sources and translate to promote implementation of evidence-based practice.

- Students will be able to evaluate informatics and health care technologies for integration into practice for enhanced care outcomes.
- Students will be able to evaluate health care policy, regulatory, legal, economic and sociocultural environments to advocate for patients and effect change in the health care system based on their role.
- Students will be able to collaborate in inter- and intra-disciplinary teams to optimize patient and population health outcomes.
- Students will be able to design and deliver evidenced-based clinical prevention and population care and services for diverse populations in a variety of local, national and international settings.
- Students will be able to create a professional development plan to continuously facilitate the delivery of ethical, safe and quality care to diverse populations in a variety of settings.

MSN/ADM Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

To ensure course scheduling availability, the College of Health Sciences and Nursing recommends the following course selections to satisfy the bridge requirements:

Nursing Bridge 1

NSG 415 is the preferred option to satisfy the Nursing Bridge 1 requirement.

NSG 415 ~ 3 credits

Theory-Based Nursing Practice

NUR 403 ~ 3 credits

Theories and Models of Nursing Practice

Nursing Bridge 2

NSG 397 is the preferred option to satisfy Nursing Bridge 2.

NSG 397 ~ 3 credits

Professional Nursing Role

NUR 391 ~ 3 credits

Professional Nursing Practice

NUR 440 ~ 3 credits

Health Assessment and Promotion for Vulnerable Population

Nursing Bridge 3

NSG 455 is the preferred course option to satisfy the Nursing Bridge 3 requirement.

NSG 455 ~ 3 credits

Evidence-Based Practice and Statistics

NUR 443 ~ 3 credits

Evidence-Based Nursing Research and Practice

Required Course Sequence

HSN 505 2 credits

Introduction to Graduate Studies in Nursing

NSG 510 ~ 3 credits

Theoretical Foundations of Nursing Roles and Practice

NSG 515 ~ 3 credits

Nursing Research and Evidence-Based Practice

NSG 520 ~ 3 credits

Nursing Leadership

NSG 550 ~ 3 credits

Role of the Nurse Administrator

HSN 525 ~	4 credits
Research Methodologies for the Nurse Administrator	
HSN 555 ~	3 credits
Human Resources in Health Care	
HSN 560 ~	3 credits
Organizational Systems and Informatics	
HSN 565 ~	3 credits
Organizational Change and Negotiation	
HSN 570 ~	3 credits
Financial Resource Management	
HSN 575 ~	4 credits
Quality Management and Outcomes	
NSG 580 ~	4 credits
Practicum

- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Science in Nursing

Academic Progression Requirements for the MSN/ADM

- Students enrolling in the MSN bridge program must complete the three MSN bridge courses in these content areas: Theory, Evidence-Based Practice, and Assessment, with a C or better in each course prior to enrolling in NSG 510 - Role-Based Nursing Practice.
- Minimum grade of B- or better in all graduate level courses.
- For all students starting 7/1/2012- Students must hold a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.
- Clinical experiences/hours cannot be completed during work time at the student's place of employment.
- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program. Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.
- A clinical course may not be taken concurrently with any other course. The clinical courses are in this program are NSG 550, HSN 525, HSN 555, HSN 560, HSN 565, HSN 570, HSN 575 and NSG 580.

Minimum Grade Requirements for the MSN/ADM

- All MSN bridge courses must be completed with a grade of C or better. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat each class once. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MSN program.
- All graduate level MSN courses must be completed with a grade of B- or better. Students who do not pass these classes with a grade of B- or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension.
- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program. Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.
- Effective for new Enrollment Agreements signed 10/1/2015 or later: Students cannot repeat more than one nursing or clinical course. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Master of Science in Nursing program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
 - Met with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
 - Completion of the academic progression student agreement form, signed by the student and returned to Campus College Chair, or designee.
 - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/ADM

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix. Students in this program may waive a maximum of 8 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.

- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: HSN 525, HSN 555, HSN 560, HSN 565, HSN 570, HSN 575, NSG 550, NSG 580.

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.

The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.

Additional Admission Requirements for the MSN/ADM-I

All applicants are expected to meet the following admissions requirements:

- Applicants must be residents outside of the United States or approved US Territories. Program will be offered only through the Online Campus. Applicants residing in the Commonwealth of Puerto Rico must enroll in the International version. Program will be offered only through the Online Campus.
- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelors degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.

- All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.
- All Canadian students must complete the Canadian RN License Acknowledgment Form and submit documentation of a valid, unrestricted, unencumbered RN license.
- Applicants residing in the Commonwealth of Puerto Rico must have an approved appeal on file documenting successful completion of the US NCLEX-RN exam and that all Puerto Rico RN licensing requirements are met to be eligible for admission.
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results
- Signed Foreign Nursing Memorandum of Understanding

Degree Requirements for the MSN/ADM-I

- Completion of a minimum of 38 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Science in Nursing

Academic Progression Requirements for the MSN/ADM-I

- Minimum grade of B- or better in all graduate level courses.
- Clinical experiences/hours cannot be completed during work time at the student's place of employment.
- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program. Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.

Minimum Grade Requirements for the MSN/ADM-I

- All graduate level MSN courses must be completed with a grade of B- or better. Students who do not pass these classes with a grade of B- or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension.

- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program. Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.
- Effective for new Enrollment Agreements signed 10/1/2015 or later: Students cannot repeat more than one nursing or clinical course. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Master of Science in Nursing program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
 - Met with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
 - Completion of the academic progression student agreement form, signed by the student and returned to Campus College Chair, or designee.
 - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/ADM-I

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 8 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 500, NSG 505, NSG 525, NSG 530, NSG 535, NSG 540, NSG 545, NSG 580.

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.

The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.

- Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
- Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Re-entry for the MSN/ADM-I

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student to this program.

Re-entry students may re-enroll into their program version if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

An appeal will be required for re-entry students to re-enroll in their program if:

- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
- The student's program version is still the most current offered in their state or jurisdiction but they are unable to complete the remaining program requirements within the original program completion deadline.
- The student wishes to return to a prior program version and the student can complete their remaining requirements within the original program completion deadline.

Re-entry students will be required to submit an admissions application as well as all forms and documents required for readmission to the program at the time of re-entry.

Master of Science in Nursing Concentration in Nurse Education

The following Master of Science in Nursing Concentration in Nurse Education (MSN/NED) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment representative for more information.

The Master of Science in Nursing (MSN) program, accredited by the Commission on Collegiate Nursing Education (CCNE)*, enhances the knowledge and skills of registered nurses with baccalaureate-degree preparation. The program prepares registered nurses to function in leadership roles in administration, practice, and education settings. Advanced nursing theory and research

provide the foundation for nurses to influence the future of nursing and health care. Students complete core courses in advanced nursing content, process, and leadership. Concentrations in nursing administration, nursing education, or family nurse practitioner allow students to concentrate on developing increased knowledge and skills in a specific area of content or advanced practice role.

**The Masters of Science degree programs are accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington DC 20036, (202)887-6791.*

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.phoenix.edu/programs/msn-ned>.

Program Purpose

The Master of Science in Nursing (MSN)/Nurse Educator (NED) track is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a master's degree in nursing education. The program prepares graduates to function in leadership and faculty roles in a variety of educational settings. Upon completion of the program, graduates will be prepared to sit for the National League for Nursing's Certified Nurse Educator (CNE) exam.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, School of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to evaluate nursing and related sciences and humanities in all aspects of safe individually focused care for diverse populations in a variety of settings.
- Students will be able to apply organizational and systems leadership concepts to the management of human, fiscal and physical health care resources for diverse populations in a variety of settings.
- Students will be able to evaluate processes and systems for continuous quality improvement across the care continuum in a variety of settings.
- Students will be able to synthesize scholarship from a variety of sources and translate to promote implementation of evidence-based practice.
- Students will be able to evaluate informatics and health care technologies for integration into practice for enhanced care outcomes.
- Students will be able to evaluate health care policy, regulatory, legal, economic and sociocultural environments to advocate for patients and effect change in the health care system based on their role.
- Students will be able to collaborate in inter- and intra-disciplinary teams to optimize patient and population health outcomes.
- Students will be able to design and deliver evidenced-based clinical prevention and population care and services for diverse populations in a variety of local, national and international settings.
- Students will be able to create a professional development plan to continuously facilitate the delivery of ethical, safe and quality care to diverse populations in a variety of settings.

The University reserves the right to modify the required course of study.

State approval of a program to offer Alabama licensed nurses opportunities for advanced degrees does not indicate eligibility for approval to practice as an advanced practice nurse in Alabama. Applicants for approval in Alabama are required to meet the Alabama requirements for national certification, graduation from a specific-type program for the advanced practice approval, and completion of the appropriate application. Any program offering a pre-licensure track to Alabama students shall meet the requirements of the Alabama regulations for pre-licensure programs or the graduates may not be eligible to take the national licensure examination required by the Alabama Board of Nursing to enter practice. www.abn.alabama.gov

Additional Admission Requirements for the MSN/NED

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelors degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 for all undergraduate coursework on the undergraduate degree posted transcript is required for admission.
- An undergraduate degree posted transcript with a cumulative grade point average (GPA) of 3.0 is required for all students residing in Oregon or attending the Oregon campus.
- Current employment is not a requirement for admission.

- For all students starting 7/1/2012 - Applicants must reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
 - Guam
 - American Samoa
 - Northern Mariana Islands
 - US Virgin Islands
- Effective 11/1/06, nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing. Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

Degree Requirements for the MSN/NED

- Completion of a minimum of 38 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Science in Nursing

Academic Progression Requirements for the MSN/NED

- Minimum grade of B- or better in all graduate level courses.
- For all students starting 7/1/2012- Students must hold a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.
- Clinical experiences/hours cannot be completed during work time at the student's place of employment.
- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program. Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.

- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.
- A clinical course may not be taken concurrently with any other course. The clinical courses in this program are NSG 525, NSG 530, NSG 535, NSG 540, NSG 545, NSG 500, NSG 505, and NSG 580

Minimum Grade Requirements for the MSN/NED

- All graduate level MSN courses must be completed with a grade of B- or better. Students who do not pass these classes with a grade of B- or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension.
- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program. Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.
- Effective for new Enrollment Agreements signed 10/1/2015 or later: Students cannot repeat more than one nursing or clinical course. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Master of Science in Nursing program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
 - Met with the Campus College Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
 - Completion of the academic progression student agreement form, signed by the student and returned to Campus College Chair, or designee.
 - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/NED

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 8 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 500, NSG 505, NSG 525, NSG 530, NSG 535, NSG 540, NSG 545, NSG 580.

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

The Doctoral Bridge gives students the option to complete doctoral level coursework during a master's program.

The Doctoral Bridge allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral program, students are eligible to satisfy required course(s) within the doctoral program.

- Students must earn a B- or better in the doctoral level courses in order to apply them towards the doctoral program.
- Student schedules may need to be adjusted, or student will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic/finance advisor for further information.

Re-Entry for the MSN/NED

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student to this program.

Re-entry students may re-enroll into their program version if the program version is still the most current in their state or jurisdiction and the student has the ability to satisfy all program requirements within their original program completion deadline.

Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.

An appeal will be required for re-entry students to re-enroll in their program if:

- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
- The student's program version is still the most current offered in their state or jurisdiction but they are unable to complete the remaining program requirements within the original program completion deadline.
- The student wishes to return to a prior program version and the student can complete their remaining requirements within the original program completion deadline.

Re-entry students will be required to submit an admissions application as well as all forms and documents required for readmission to the program at the time of re-entry.

Master of Science in Nursing Concentration in Nurse Education Bridge

The following Master of Science in Nursing Concentration in Nurse Education Bridge (MSN/NED) program may be offered at these University of Phoenix campus locations: Online, depending on state of residence. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. - Students will be able to evaluate health care policy, regulatory, legal, economic and sociocultural environments to advocate for patients and effect change in the health care system based on their role.
- Students will be able to collaborate in inter- and intra-disciplinary teams to optimize patient and population health outcomes.
- Students will be able to design and deliver evidenced-based clinical prevention and population care and services for diverse populations in a variety of local, national and international settings.
- Students will be able to create a professional development plan to continuously facilitate the delivery of ethical, safe and quality care to diverse populations in a variety of settings.

MSN/NED Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

To ensure course scheduling availability, the College of Health Sciences and Nursing recommends the following course selections to satisfy the bridge requirements:

Nursing Bridge 1

NSG 415 is the preferred option to satisfy the Nursing Bridge 1 requirement.

NSG 415 ~ 3 credits

Theory-Based Nursing Practice

NUR 403 ~ 3 credits

Theories and Models of Nursing Practice

Nursing Bridge 2

NSG 397 is the preferred option to satisfy Nursing Bridge 2.

NSG 397 ~ 3 credits

Professional Nursing Role

NUR 391 ~ 3 credits

Professional Nursing Practice

NUR 440 ~ 3 credits

Health Assessment and Promotion for Vulnerable Population

Nursing Bridge 3

NSG 455 is the preferred course option to satisfy the Nursing Bridge 3 requirement.

NSG 455 ~ 3 credits

Evidence-Based Practice and Statistics

NUR 443 ~ 3 credits

Evidence-Based Nursing Research and Practice

Required Course Sequence

HSN 505 2 credits

Introduction to Graduate Studies in Nursing

NSG 510 ~ 3 credits

Theoretical Foundations of Nursing Roles and Practice

NSG 515 ~ 3 credits

Nursing Research and Evidence-Based Practice

NSG 520 ~ 3 credits

Nursing Leadership

NSG 525 ~ 3 credits

Role of the Nurse Educator

NSG 530 ~	4 credits
Theory and Principles of Nursing Education	
NSG 535 ~	3 credits
Curriculum Development	
NSG 540 ~	3 credits
Instructional Design and Technology	
NSG 545 ~	3 credits
Assessment, Measurement, and Evaluation	
NSG 500 ~	4 credits
An Integrated Approach to Pathophysiology and Pharmacology	
NSG 505 ~	3 credits
Comprehensive Health Assessment	
NSG 580 ~	4 credits
Practicum

- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

Degree Requirements for the MSN/NED

- Completion of a minimum of 47 credits.
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as:

Master of Science in Nursing

Academic Progression Requirements for the MSN/NED

- Students enrolling in the MSN bridge program must complete the three MSN bridge courses in these content areas: Theory, Evidence-Based Practice, and Assessment, with a C or better in each course prior to enrolling in NSG 510 - Role-Based Nursing Practice.
- Minimum grade of B- or better in all graduate level courses.
- For all students starting 7/1/2012- Students must hold a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.
- Clinical experiences/hours cannot be completed during work time at the student's place of employment.
- Students must successfully complete NSG 580 with a B- or better. Students have a maximum of three attempts to meet the minimum grade requirement. Students who do not pass this class on the first attempt will be scholastically disqualified. Students who fail to meet the minimum grade requirement after the second attempt, will be placed on scholastic suspension and will be withdrawn from the program. Students must sit out for six months after the second unsuccessful attempt. Once the student has sat out six months, the student may submit to SAC to appeal for a third attempt. If students do not meet the minimum grade requirement after the third attempt, the student will be Scholastically Suspended.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.
- A clinical course may not be taken concurrently with any other course. The clinical courses in this program are NSG 525, NSG 530, NSG 535, NSG 540, NSG 545, NSG 500, NSG 505, and NSG 580

Minimum Grade Requirements for the MSN/NED

- All MSN bridge courses must be completed with a grade of C or better. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat each class once. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MSN program.
